INJURED ON A LUMBER TRUCK—The

lumber operations of Meek & Nagle in the Bear Meadows, five miles from Boolsburg, were described in an issue of the WATCHMAN last Fall as was also the funny little narrow gauge railroad over which a funnier little engine hauls the lumber from the mills out to the wharves on the Lewisburg and Tyrone railroad at Linden Hall. The road is built much on the plan of western railroads, without regard to grade, and consequently at some places is quite steep and dangerous.

On Friday morning last W. C. Heinle Esq., of this place, departed on the early train for the Meadows with the intention of going over a timber tract, which he owns, with the purpose of selling to Meek & Nagle. He rode into the camp, from Linden Hall, without unusual occurrence and having transacted his business was ready to return for the afternoon train to this place. The engine was not there at the time and as customary Mr. Heinle, accompanied by Mr. Nagle, started down the road on a lumber truck. Now if you know what such a conveyance is you will be able to appreciate the comforts they enjoyed. The John Bull train, the first one that ever ran over a rail-road in the United States, now on its way across the continent for exhibition at the Fair, is a palace compared to their train. A lumber truck consists of four wheels two axles and four beams. To make it in anywise adapted to passenger traffic a few boards are thrown on it, and two stout ones taken to act as a brake.

The run down from the camp is a perilous one under such conditions, for should the improvised brakes refuse to work their is no telling to what speed the car would attain, while coasting down the sinuous slopes of the Seven mountains. Just such an occurrence awaited the two travelers of last Friday afternoon. Their car started off nicely enough, but had scarcely gotten well under way when to their perfect consternation they discovered that their board brakes would not work. On, on, sped the truck, freighted with its human load, every second it was gaining speed. Their velocity was frightful. To jump meant instant death or perhaps a broken, wounded body maimed for life.

They clung to their seats and awaited the inevitable. The wind whistled about their heads and every instant they expected to be dashed to pieces, over the great precipices along the road. With miraculous certainty the little truck clung to the rails past many points where its riders might have met instant death, and 'twas not till a comparatively smooth stretch was reached that its speed became too great, then it left the rails and plunged madly into the mountain. The two gentlemen were hurled a great distance and both brought up against some rocks. Wonderful as it may seem both escaped serious injury.

Mr. Heinle was badly cut about the face and head and otherwise much shaken up, while his companion, Mr. Nagle, was more or less cut and had a finger broken.

MORE OF HICKS' PREDICTIONS.—

Professor Hicks last week issued the following bulletin forecasting the weather. Between the 13th and the 18th the whole country will feel the effects of a very warm wave, and storms of great violence are to be apprehended on and about the 15th, 16th and 17th. The 13th is the central day of the Venus perturbation, which lasts with growing power for about twenty days before and with increasing energy for about twenty days after the central day, so that the Venus characteristics, hail, startling electrical phenomena, enormous down-pours of rain, and sudden changes from hot to cold, may be looked for during all the disturbances covered by the Venus period. The disturbances from the 13th to 18th will not be prolonged by existing causes into the reactionary storms due about the 21st and 22d.

BIERLY'S SACRED HERALD.—

One of the latest publications of music is the Sacred Herald, by Alfred Bierly, of 113 Adams street, Chicago. It contains sixty-eight choice selections, all of which are well adapted for church choirs and easy of rendition. They are beautiful in melody and rich in harmony, together with ample selections for special day services. Mr. Bierly's reputation as a composer and arranger of sacred music is an enviable one and indeed his latest work has added more emphasis to the popularity of his music. Price, postage prepaid, 60 cts.

COULDN'T STAND BAPTISING.—

Daniel Nearhoof, of Warriors Mark, died on Sunday afternoon immediately after he had been immersed. The old gentleman belonged to the Dunkards and though suffering with dropsy was taken into the water. The vigorous treatment was too much for him and he died. Rev. J. N. Wilt, of Altoona, performed the ceremony. It is said that no physician had been consulted as to the probable outcome of such treatment of a man in his condition.

—If the cows are to go, why not

include dogs in the ordinance? —The tour of the Liberty bell to Chicago will include Lock Haven. Citizens of that place will have an opportunity of seeing it next Tuesday night.

—Joseph W. Furey, of Lock Haven, returned from Clifton Springs, whither he had gone to seek his health, on last Friday. He is said to be greatly improved.

—Mrs. John Dawson and family who have been visiting in Dunkirk, Indiana, since Mr. Dawson's death, are in town visiting relatives preparatory to coming back to stay.

—Prof. E. E. Sparks, of the Pennsylvania State College, lectured on "Columbus and the Spirit of Discovery" to the students of the Mountain Seminary, at Birmingham, on Wednesday evening.

—Dr. Potter, owner of the Potter house in Philipsburg, has purchased the adjoining McCausland home which he will connect with the hotel by a bridge, thus adding a dozen good bed rooms to the crowded hostelry.

—A good opportunity to buy a horse, cow, buggy, sleigh, harness and all kinds of household goods will be given those who attend Mr. Jacob Ripka's sale in Centre Hall, on Saturday afternoon, April 29th.

—Miss Jennie Woodring, of Tyrone, daughter of conductor John Woodring, of the Tyrone construction train, spent Sunday with friends in this place. She has grown to be quite a young lady since moving to Tyrone.

—Lock Haven anglers were elated on Saturday because one of their number returned from a fishing trip with an eleven inch trout. Several between fourteen and eighteen inches were seen on our streets during the first days of sport.

—Michael McDonald, who was sentenced from Clinton county to imprisonment in the penitentiary, after having pleaded guilty to the murder of Israel Mejer, in January, 1892, died of typhoid pneumonia in that institution last week.

—The squib that is going the rounds of the country press to the effect that Governor Pattison has signed the bill to prevent the killing of deer for a period of three years within the State, is an untruth. There is such a bill in the House, but is not even passed yet.

—Yesterday's big rain had no terrors for Mr. George Noll, of Milesburg, and Dr. W. P. Ard, of Coburn, both of whom were in town. The former finds that a dairy-man has to be about rain or shine, and the latter having just moved from Woodward to Coburn came up on business relative to his new location.

—John H. Yocum, who is connected with the large tanneries at Johnson City, Tenn., and who represents the American Leather trust that is about being consummated, spent Sunday in town visiting friends. His father, Hon. Seth Yocum, is so much pleased with California that he will make Pasadena, where he has been for three years, his home.

—Thirty men are in training at the Pennsylvania State College for the State Inter-Collegiate Meet which will be held on the athletic grounds at Swarthmore college, on May 30th. This will be the second appearance of the State College athletes at the annual Meet of the association and it is altogether probable that they will jump into first or second place.

—For the third time since its original building the Osceola machine shops burned on Thursday afternoon. The fire started in the engine room, a fierce wind fanning it beyond the control of the fire men. The pattern building and bone mill adjoining the shops were saved. The loss is estimated at \$20,000 with \$9,000 insurance. The plant was owned by J. J. Pie & Co.

—Jas. H. Rankin, Esq., of this place, has been appointed assistant Inspector for the 610th district of the G. & A. R. It includes Centre county. As assistant to himself he has appointed George M. Boal, 282; Theo. T. Christ, 196; J. Miles Greene, 261; Chas. T. Fryberger, 90; J. I. Curtin, 95; W. A. Tobias, 288; H. A. Snyder, 302; H. H. Campbell, 272; John Ward, 419; H. H. Holter, 282.

—On Friday evening April 28th, the "Adelphi" club, of State College, will give an Assembly in Bush's Arcade in this place. Stopper & Fiske's Williamsport orchestra will furnish the music. The patronesses are Mrs. William Simpson, of Lock Haven; Mrs. D. H. Hastings, Miss Alice Wilson and Mrs. John H. Orvis, of this place, and Mrs. Louis E. Reber and Mrs. T. W. Kincaid, of State College. Messrs. Edwin T. Haley, F. J. Pond, R. W. Williamson, C. J. Girvin, H. W. Ruoff, W. H. Walker and J. E. Quigley constitute the committee.

COUNCIL POSTPONED ACTION ON THE

COW QUESTION.—Many of our citizens attended council meeting last Monday evening expecting to see some fun, but they were disappointed. Two weeks previous to the Monday evening meeting council had given instructions to have an ordinance presented at this meeting which would prohibit cows from running at large on the streets.

The matter excited unusual interest throughout the town, nearly everybody taking sides for or against the cow. Petitions have been circulated in every ward in the town since the measure was proposed and they found so many signers that those who proposed legislation against the cow were fearful lest they be defeated in case of a vote. Every one knew that there would be some fun in council and the consequence was that everyone wanted to see it. They were disappointed, however, for those members who had the ordinance in tow were wise enough to see the drift of public sentiment and when it was called up Mr. Darrt promptly moved that it be laid on the table until the next meeting.

His motion found a second and was passed with one dissenting vote, that of Mr. Garman.

The first regular business taken up was the report of the Street committee. A number of recommendations were made. The committee could not see the advisability of laying a sewer down the alley from Baum's livery stable to Spring street.

Mr. Williams reported that the Water committee had found many leaks throughout the town and that in one place, on Quaker hill, 120 feet of new pipe had been laid.

Borough Treasurer Charles F. Cook then presented his bond for \$10,000 which was accepted by council. He also stated that he had called in the old bonds, aggregating \$97,250, having redeemed them with the \$100,000 borrowed from W. Fred Reynolds, for which one hundred new bonds were given him.

Council accepted the new Undine steamer as an agent in Bellefonte's efficient fire department, and authorized the Undine company to sell its old hand engine to the best purchaser.

The Water committee asked for its annual appropriation of \$4,000 for the current expenses and a number of minor bills being approved the meeting adjourned.

THE COLOR OF TROUT.—

The coloring of trout is subject so much to the nature of their environment and the abundance and variety of food at their command, that one may easily detect the conditions under which they live and thrive by the dullness or brilliancy of their tints. A poorly fed fish will have few or no spots, a drab belly and dull yellow sides. A very old trout will have the same hue; in addition he will be lean and large headed. Young, healthy fast growing trout may be detected by their silvery sides, white belly and numerous and highly colored spots. It is asserted that color of a trout's back depends upon the color of the bottom of the river or stream in which he lives. Of them all, however, trout which have access to salt water possess the most dazzling silver tints, owing to the variety and abundance of food at their command.—Ex.

FIRST CAR RIDE AT 87 YEARS.—

Mrs. Mary Oval, of Caledonia, is aged 87 years, and Tuesday, according to the DuBois Courier, she enjoyed her first ride in a railroad car. Her son-in-law with whom she makes her home was changing his residence and a part of the journey was made in the cars. Mrs. Oval has lived for over sixty years on Bennett's branch of the Sinnemahoning Creek.

A CHEESEY STORY.—

A Jersey Shore dog which has been trained to carry baskets was given a satchel containing two pounds of Limburger cheese. After leaving the market house he ran into the middle of the street and dropped the satchel into a mudpuddle. Being punished for this and again given the satchel he made a bee line for the river wherein he incontinently dumped the satchel and its unsavory load.—Ex.

—If our chair is not an "easy" one it is no fault of our friend and would-be postmaster Mr. S. A. McQuiston, whose generosity is only exceeded by his loyalty to the Democratic party, for on noticing, several days ago, the poverty stricken appearance of our cushion he presented us with a new one, substantially covered with green leather that fills the chair completely and makes office life fairly comfortable.

—About noon of the 8th inst. Mrs. Maize Winkleman, of Nittany, went to the barn to hunt the eggs. By a misstep she fell from the hay mow inflicting serious injury. Though badly hurt she managed to drag herself back to the house and laid down on the lounge. Her husband's absence and the presence of no one but little children in the house left her to suffer with no one to care for her. Presently her sisters heard of the accident and hurried to her home to find her vomiting blood. Everything possible was done to save her life but on Monday morning she died. Deceased was thirty years old and was the wife of Horace Winkleman who, with three small children, mourns her sad demise. She was buried on Wednesday.

The marriage of Mr. Wm. Walker, of Salsburg, Huntingdon county and Miss Amanda Meyers, of Bellefonte, was solemnized at the home of the bride's brother Prof. P. H. Meyers in the twilight of the evening of the 19th inst. in the presence of a few specially invited guests, the ceremony being performed by Rev. A. A. Black. The contracting parties are by no means young lovers nor the courtship a short one, and no doubt both have done well in choosing a life companion, which is the closest tie on earth in joining hands for a life walk together. Their honeymoon was spent visiting Centre county relations after which they will take up their abode on the Martin Walker homestead, near Salsburg, where the groom is known as one of the sturdy tillers of the soil; one of the Democratic friends of the town whom the WATCHMAN has kind remembrance.
