Bicycle.

NOW FOR A FIRST CLASS

BICYCLE

James R. Hughes has the agency for the Victor, Greenleaf and Nonpariel bicycles for another year, and is now ready to sell to any who wish to secure a good wheel and at the most reasonable terms.

The Victor's speed, elegance. They make the pace to day, and everybody knows it. The Victor wheels for '93 are beauties and no one should buy until he has seen them. The Greenleaf is an excellent wheel, at the popular price of \$115. The Nonpariel is the boys' and girls' wheel at \$60.

These wheels are much lighter than last year—the sprockets, cranks and pure rubber mud guards instantly detachable. Extra net tires furnished with each wheel, free of charge. Second hand wheels—good as new—at bargain. Catalogue sent to any address on application.

ONE DOLLAR

EVERY HOUR

is easily earned by any one of either sex in any part of the country, who is willing to work industriously at the employment which we furnish. The labor is light and pleasant, and you run no risk whatever. We fit you out completely, so that you can give the business a trial without expense to yourself. For those willing to do a little work for the grandest offer made. You can work all day, or in the evening only. If you are employed, and have a few spare hours at your disposal, utilize them, and add to your income—our business will not interfere at all. You will be amazed on the start at the rapidity with which you amass dollar upon dollar, day in and day out. Even beginners are successful from the first hour. Any one can run the business—none fail. You should try nothing else until you see for yourself what you can do at the business which we offer. No capital required. Women are grand workers; nowadays they make as much as men. They should try this business, as it is so well adapted to them. Write at once and see for yourself. Address H. HALLETT & CO., 40-17-ly Box 880, Portland, Me.

RHEUMATISM MET AND CONQUERED

AND CONQUERED

BY THE

N. F. GERMAN RHEUMATIC CURE.

NO CURE, NO PAY!

MONEY CHEERFULLY REFUNDED

For any case of Rheumatism it fails to cure, if taken according to directions. Read following testimonial of an eminent Centre county physician.

GATSBURG, Centre County, Pa., Aug. 9, 1892 To the N. F. German Rheumatic Cure Co., Tyrone, Pa.

GENTLEMEN—I had suffered with Rheumatism for many years, when, at the advanced age of seventy-seven years, your cure was recommended to me. I had tried up to myself everything known to me, (I am a doctor of fifty-one years experience) and had despaired of ever being cured. Your remedy was taken according to directions, and after using the second package the disease left me entirely and no rheumatic pain or ache has troubled me since.

I can recommend it without hesitancy to all afflicted with the disease, and being familiar with the ingredients contained in the compound, can recommend them as being non-injurious to the constitution, and as being the most efficient blood remedy known.

The Preservation of the Forests.

While the protection of game has occupied the public mind for a considerable time, the preservation of our forests has had comparatively but recent attention. The past five years especially have seen more done in this direction than probably the previous ten. President Harrison and his Secretary of Interior, Noble, brought their influence to bear in the good work, with the most satisfactory results. By their efforts alone no less than fifteen timber reserves were established, which included 1,239,000 acres adjoining the Yellowstone Park; 4,000,000 in Colorado; 4,000,000 Central California; 1,397,000 in Southern California; 907,000 in Washington; 1,850,000 in Arizona, comprising the grand canon of the Colorado River, the site of the most rugged and magnificent scenery probably in the world; 311,000 in New Mexico; and 142,000 in Oregon—altogether upwards of 13,000,000 acres.

Such an example by the government has had its effect on the States, and the general agitation of the subject has done much for the cause, not only in preservation of timber land, but in the protection of game. Of all the States that have taken up the good fight none has accomplished so much as New York, and no single official has done so much as Governor Flower. Too much praise cannot be given Mr. Flower for lifting the matter of forest-preservation out of politics. It is to his efforts alone, it may be said, that the "Forest-Preserve Bill," recently passed by the New York Legislature, received the serious consideration it merited. He alone, of all in political power, appeared to grasp the necessities of the case, and in doing so he responded to the earnest desire of those who want to see the forests perpetuated in good order. What these great breathing-spots are to the people any one who studies the situation must realize. It is a subject of general rejoicing that they have been finally secured.—C. W. Whitney, in Harper's Weekly.

A Boy on Breathing.

From the Washington Star.

A boy, 14 years old, recently imported from Kentucky, handed the following in as a composition on "Breathing."

The instruction was, "tell all you can about breathing." He said: "Breath is made of air. We breathe with our lungs, our rights, our liver and kidneys. If it wasn't for our breath we would die when we slept. Our breath keeps the life going through the nose when we are asleep. Boys that stay in a room all day should not breathe.

"They should wait till they get out of doors. Boys in a room make bad, unwholesome air. They make carbonic oxide. Carbonic oxide is poison than mad dogs. A heap of soldiers was in a black hold in India, and a carbonic oxide got in that whole and killed nearly every one after morning. Girls kill the breath with corsets, that squeezes the diaphragm. Girls can't holler or run like boys, because their diaphragm is squeezed too much. If I was a girl, I'd rather be a boy, so I can holler and run and have a great big diaphragm."

No Snow in Switzerland.

There has been a phenomenal absence of snow in the Swiss Alps this Winter, and the matter is said to be becoming serious for both visitors and natives. Transports are hampered by sledges being useless, and the Julier pass is traversed on wheels, a mid-winter circumstance previously unknown. The mountain slopes around St. Moritz are bare of snow, and it has been impossible to construct the toboggan slides usually such a great attraction there. Skating has, however, been especially good.

It Takes Material.

"Let's see," said the lady, "how many yards are there here?"

"Fourteen yards, madame," answered the saleslady.

"Enough for a dress?"

"Quite enough."

"Then give me fourteen yards more."

"For another dress?"

"No, for the sleeves.—New York Press.

Beaten by the Paris.

New York, April 29th.—The great international race between the American liner Paris and the new British steamship, the Cunarder Campania, is over. The Paris won easily, beating the Campania by fourteen hours over a rough course.

A certain little boy was much impressed by the death of a neighbor and asked many questions concerning the matter. His mother, trying to explain it to him, remarked:

"It is only Mr. S's body that is put in the ground, George. His spirit's gone to Heaven."

"She was shocked to hear George tell his father that night that Mr. S's whiskey had gone to Heaven."

Apples stored in cellars or elsewhere are invariably covered exteriorly with mold or mildew—often invisible, but just as real. This mold consists mostly of microscopic plants, including numerous species of fungi, all of which are more or less poisonous. Physicians say they have traced cases of diphtheria in children to the eating of moldy apples.

A man and his wife entered a restaurant out in the country, and the former said to the waiter:

"What can you let us have?"

"Signore, there is only a single mushroom chop left."

"Per Bacco! Whatever is my wife to have for dinner?"

A lady (?) named Biddy McGuire, had trouble in lighting the fire:

Said she, with a smile:

"I use kerosene fire."

She has gone where the fuel is dryer.

"Brace up" is a tantalizing admonition to those who at this season feel all tired out, weak, without appetite and discouraged. But the way in which Hood's Sarsaparilla builds up the tired frame and gives a good appetite, is really wonderful. So we say, "Take Hood's and it will brace you up." For a general family cathartic we confidently recommend Hood's Pills.

Medical.

IN THE SPRING

Many people are troubled with dizziness, dullness, unpleasant taste in the morning, and that "tired feeling." Bilemors, boils and other manifestations of impure blood also appear, annoying and depressing.

To all such sufferers we earnestly urge a trial of Hood's Sarsaparilla. No preparation ever received such unanimous praise for its success as a Spring Medicine. It cures scrofula, salt rheum and every other evidence of impure blood. It overcomes that "tired feeling" and all other debility.

A MISERABLE MAN.

HEALTH BROKEN DOWN—NERVES SHATTERED

"I gladly write this statement of my experience with Hood's Sarsaparilla. I had been ailing about two years with a nervous attack and was generally broken down. I was so bad that at times I would fall over with a touch of vertigo; in fact I was not able to go any distance from the house. I certainly was a miserable man. Failing to get help from physicians in Harrisburg and York, I got very much disheartened. But one day I read in a paper about Hood's Sarsaparilla and I ought to try it. The day I commenced on bottle No. 2, I began to feel better, so I kept on, and I am glad to say I feel like a new man. I am working again, and

HOOD'S SARSAPARILLA CURES

can be on the go all day long, and do not have any of my bad spells. So I suffer no more, I have a perfect cure, and I find there is nothing like Hood's Sarsaparilla for me." Chas. M. Lauer, 650 West Market Street, York, Pa.
