Bicycle. NOW FOR A FIRST-CLASS BICYCLE

James R. Hughes has the agency for the Victor, Ursula and Nonpareil bicycles for another year, and is now ready to sell any who wish to secure a good wheel and at the most reasonable terms.

The Victor and Ursula enjoy. They make the pace to day, and everybody knows it. The Victor wheels for '93 are beauties and no one should buy until he sees them. The Ursula is an excellent wheel, at the popular price of \$15. The Nonpareil is the boys' and girls' wheel at \$10.

These wheels are much lighter than last year's—the sprockets, cranks and pure rubber mud guards instantly detachable. Extra inner tubes furnished with each wheel, free of charge. Second-hand wheels—good as new—at bargain. Catalogues sent to any address on application. J. R. HUGHES, Agent, Bellefonte, Pa.

is easily earned by any one of either sex in any part of the country, who is willing to work industriously at the employment which we furnish. The labor is light and pleasant, and you run no risk whatever. We fit you out complete, so that you can give the business a trial without expense to yourself. For those willing to do a little work, this is the grandest offer made. You can work all day, or in the evening only. If you are employed, and have a few spare hours at your disposal, utilize them, and add to your income—our business will not interfere at all. You will be amazed on the start at the rapidity and ease with which you amass dollar upon dollar, day in and day out. Even beginners are successful from the first hour. Any one can run the business—none fail. You should try nothing else until you see for yourself what you can do at the business which we offer. No capital risked. Women are grand workers; nowadays they make as much as men. They should try this business, as it is so well adapted to them. Write at once and see for yourself. Address: H. RHEUMATISM MET AND CONQUERED

BY THE N. F. GERMAN RHEUMATIC CURE.

NO CURE, NO PAY!

MONEY CHEERFULLY REFUNDED

for any case of Rheumatism it fails to cure, if taken according to directions. Read following testimonial of an eminent Centre county physician.

GATSBURG, Centre County, Pa., Aug. 9, 1892 To the N. F. German Rheumatic Cure Co., Tyrone, Pa.

GENTLEMEN:—I had suffered with Rheumatism for many years, when, at the advanced age of seventy-seven years, your cure was recommended to me. I had tried upon myself everything known to me, (I am a doctor of fifty-one years experience) and had despaired of ever being cured. Your remedy was taken according to directions, and after using the second package the disease left me entirely and no rheumatic pain or ache has troubled me since.

I can recommend it without hesitancy to all afflicted with the disease, and being familiar with the ingredients contained in the compound, can recommend them as being non-injurious to the constitution, and as being the most efficient blood remedy known.

Found in the Contribution Box. Coins of Many Countries and Tender Histories Are Dropping Therein.

When people read the paragraphs in the funny papers about the buttons and the punched and the counterfeited coins which are dropped in the contribution boxes, they usually give the man who wrote the article credit for drawing largely upon his imagination. The fact of the matter is, however, that the truth is funnier than all the humorous men's fictions. The treasurers of nearly every church in this city send regularly to the United States sub-treasury a lot of punched coins on which they realize not much more than half their face value. The counterfeited coins are usually destroyed.

The treasurer of one of the best known Catholic churches in the city showed the writer a collection of punched coins the other day the face value of which amounted to about \$10, and all of which were put into the contribution boxes in one month. A queer looking collection it was, too. There were coins representing nearly every civilized nation in the world. Among the collection were German pennings, English sixpences, shillings and half crown pieces, and a sixpence struck in honor of Queen Victoria in the year of her jubilee; Canadian pieces, French 50 centime pieces; the time when Napoleon ruled that country and pieces of the same denomination struck since the country became a republic; Mexican coins, pieces from Venezuela and coins from numerous other countries.

The largest piece was a United States half dollar; there were several of these. There were a number of quarters, dimes, half dimes, five cent and three cent silver and nickel pieces and copper one cent pieces, all mutilated, either by having a hole punched in them or a hole cut out of the edge. Each hole was carefully plugged with lead so that the sharp eyed collector would not observe that the piece was mutilated unless he inspected it closely. There were more dimes than pieces of all the other denominations put together.

No doubt many of these pieces have an interesting history, for the reason that many of them contain monograms, and during the time that bangle bracelets were the rage they undoubtedly adorned some fair wrist. Some of them were undoubtedly tokens of love, and how they found their way into the contribution box will probably remain a mystery. Perhaps some of them were spent in dire necessity and finally reached the contribution box after passing through several hands. May some of them, were spent for caramels by a proud beauty to show her disdain for her former admirer. Possibly some of them were lost.—New York Tribune.

An Expensive Luxury.

In the Behring Sea arbitration Sir Charles Balfour made a statement on Monday that well deserves consideration. He said that the seals, which are exclusively fish eaters, consume not less than 6,000,000 tons of fish annually. Any one can take a slate and pencil and make the calculation for himself on the estimate that some two or three millions of seals inhabit the North Pacific Ocean, and that each seal will devour ten pounds of salmon or cod a day. Estimating the fish, the dainty salmon and cod which the seals most desiderate, at a value of \$20 a ton the total value of their consumption would be not less than \$120,000,000 a year. It costs something considerable, therefore, to rear the "domestic" pets of the Alaska Fur Seal Monopoly on the Pribilof Islands. The statement of this fact presents a very different aspect of the question from the humanitarian cant about the destruction of the seals. Something is to be said for the food fish of which they are the gluttonous destroyers.

It is true enough that the salmon, cod and other food fish for man are so abundant in the waters of Alaska that the voracity of the seals has as yet made no sensible diminution in their quantity. The supply exceeds the market capacity of the fisherman to catch and market them. But if the seals are to be reared as domestic animals for the benefit of the Alaska Monopoly the question whether it would be better to preserve the seals or the fish will soon present itself in a practical light. As the demand for the salmon and cod of Alaska shall increase these fish will have a commercial and economical value vastly beyond that of their natural enemies the seals. The fish of the Alaskan waters, unless exterminated by the seals, will supply excellent food for millions of human consumers. The seals, if preserved at such a cost, will supply a luxury for a very few people and enrich the corporation that has the privilege of clubbing them to death on the Pribilof Islands.

The seals are very interesting animals, and should be preserved in zoological gardens as long as it shall be possible to save the species from extinction. But to use the salmon and cod fish in the waters of Alaska, which the seals threaten with desecration, are far more interesting from almost every point of view.

May Stop a Railroad.

GETTYSBURG, Pa., May 23.—Judge advocate General George B. Davis, United States Army, to-day finished his inspection of the electric railroad that is now being built over the battle field and the injury that it does to the historical value of the field. It is understood that he will advise the war department to interfere and take the land and stop the further building of the railroad.

After using Ely's Cream Balm two months I was surprised to find that the right nostril, which was closed for over twenty years, was open and free as the other, and can use it now as I could not do for many years. I feel very thankful.—R. H. Cressingham, 275 18th St. Brooklyn.

Kings to Be.

A Full List of the Heirs to the World's Thrones.

Our readers may like to have before them a list of the heirs of the thrones of the world. We give below what we believe to be an accurate as well as a full list of all the important heirs-apparent and heirs presumptive to the crowns of important countries in Europe and Asia, except China. There is no longer any monarchy on the American continent, although foreign countries still have American dependencies. The date following the description of the heir is the year of his birth.

Austria-Hungary. Archduke Karl Ludwig, brother of the Emperor. 1853.

Bavaria. Prince Luitpold, uncle of the king. 1821.

Belgium. Prince Philippe, Count of Flanders, brother of the king. 1837.

Bulgaria. No heir.

Denmark. Prince Frederick, son of the king. 1845.

Germany and Prussia. Prince Friedrich Wilhelm, son of the emperor-king. 1852.

Great Britain. Albert Edward, Prince of Wales, son of the queen. 1841.

Greece. Prince Konstantinos, son of the king. 1868.

Italy. Vittorio Emanuel, Prince of Naples, son of the king. 1859.

Portugal. Prince Luis Felipe, Duke of Braganza, son of the king. 1857.

Romania. Prince Ferdinand of Hohenzollern-Sigmaringen, nephew of the king. 1855.

Russia. Grand Duke Nicholas, son of the emperor. 1858.

Saxony. Prince George, Duke of Saxe-Coburg, brother of the king. 1852.

Siam. No heir. King a minor.

Siam. Prince Somdech Chofa Maha Vitrannis, son of the king. 1878.

Spain. Infanta Maria-de-las-Mercedes, sister of the king. 1850.

Sweden and Norway. Prince Gustaf, Duke of Wermland, son of the king. 1858.

Turkey. Mohammed-Reshad Effendi, brother of the sultan. 1844.—Youth's Companion.

Have Confidence in Boys.

There is something wrong in the home training when a boy goes entirely outside his own family for counsel. A mother need not compel him to come to her with all his little affairs, because if she is always ready to listen to and sympathize with him he will do this of his own accord.

A very common cause of the withholding of a child's confidence is the desire on the part of the parent to dictate in matters that are of no importance except to the child himself.

All children and boys especially, like to plan their own affairs, and when there is no question of right or wrong involved, should be allowed and encouraged to do so.

When children who have good strong will power the constant directing of all their little plans and ideas is exasperating, and opposition with ill-humor is often the result.

With children of a sensitive nature, or with weak will power, the child's own individuality is perhaps crushed out of him, or else he retires within himself and shuts his lips tight against the confidence which every parent craves for a child.

Let a boy feel that you are always interested in his plans, no matter how absurd they may be; the time is coming when you can no longer command him, and this will be the strongest hold you can have upon him.

Take him into your counsels; ask his advice upon family matters. His self-respect and judgment will grow because he has been looked up to by older people.

If he prefers to spend all his leisure time with his companions at their homes rather than his own, look for the reason in yourself rather than in the boy, and never utter or "nag" him because of it.

Rather let him feel that the household is not complete without him, and let your love and trust in him shine through your welcome upon every return.

He may not be worthy of it, but he will grow to it, and will come back to you and to his home. He cannot help it if you are faithful to your trust in him.

Will Wed Again. Mrs. James Blaine, Jr. to become the Wife of Dr. Bull, who Attended Her While She Was Ill.

NEW YORK, May 22.—The sad romance of Marie Nevins Blaine, divorced wife of James G. Blaine, jr., is to end somewhat romantically in her marriage to Dr. William T. Bull, the physician who, by his care and skill, saved her from being a cripple for life. The coming match will be one of pure love, and in becoming Mrs. Bull Mrs. Blaine will be compelled to virtually renounce her faith.

The Infanta Eulalie (Marie-Eulalie-Francoise-Aoisie-Marguerite-Roberte-Isabelle-Francoise de Pault-Christine-Marie de la Pater) who is now in the United States, the guest of the nation, is the daughter of Isabella II, who was driven out of Spain in 1808. The Infanta belongs to the house of Bourbon. She was born in Madrid, February 12, 1864, and is the sister of the late King Alfonso XII. She is described as a lady of great beauty, sprightliness and wit, with affable manners and a generous disposition. Her husband, who accompanies her to America, is her cousin, Antoine Louis Philippe Marie, Prince of Bourbon-Orleans and son of the Duc de Montpensier. He is two years younger than his wife. They were married in 1886, at Madrid, where they now live. They have two sons, Alfonso, 6, and Louis Fernando, 4 years old.

John D. Rockefeller has given \$150,000 to the University of Chicago, says the "New York Recorder," in order that Martin A. Ryerson's gift of \$100,000 conditional on the raising of \$400,000 more might become available. There remains only \$150,000 to complete the \$500,000 needed as an equipment fund. The money must be secured by July 1, or the Ryerson and Rockefeller gifts will be lost.

Dr. M. J. Davis is a prominent physician of Lewis, Cass county, Iowa, and has been actively engaged in the practice of medicine at that place for the past thirty-five years. On the 26th of May, while in Des Moines, en route to Chicago, he was suddenly taken with an attack of diarrhoea. Having sold Chamberlain's Colic, Cholera and Diarrhoea Remedy for the past seventeen years, and knowing its reliability, he procured a 25 cent bottle, two doses of which completely cured him. The excitement and change of water and diet incident to the trip often produce a diarrhoea. Every one should procure a bottle of this Remedy before leaving home. For sale by F. Potts Green.

The nurse was giving the twins a bath. Later, hearing the children laughing in bed, she said: "What are you children laughing about?" "Oh, nothing," replied Edna, "only you have given Edith two baths and haven't given me any."

BUCKLEN'S ARNICA SALVE.—The best salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Itch, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by C. M. Parrish.

A REAL BALSAM IS KEMP'S BALSAM.—The dictionary says, "A balsam is a thick pure, aromatic substance flowing from trees." Kemp's Balsam for the Throat and Lungs is the only cough medicine that is a real balsam. Many thin, watery cough remedies are called balsams, but such are not. Look through a bottle of Kemp's Balsam and notice what a pure thick preparation it is. If you cough use Kemp's Balsam. At all druggists'. Large bottles 50c and \$1.

HOOD'S CURES.—MALARIAL AND MERCURIAL POISONING—RHEUMATISM, NEURALGIA, ETC. "Cheltenham, Pa., Nov. 24, 1892. "C. I. Hood & Co., Lowell, Mass. "Gentlemen: It is Thanksgiving day, and I have one thing to be thankful for to-day, and that is for Hood's Sarsaparilla; for by its use I have enjoyed better health the past year than at any time since I left the army at the close of the war. During the war I contracted typhoid fever, which was followed by fever and ague, leaving me with malarial and mercurial poisoning, from both of which I have suffered ever since, and which manifested itself by neuralgia, rheumatism, nervous prostration and general debility of the whole system. Much of the time I have been UNABLE TO DO ANY WORK and of what I did earn, I have paid a good part to doctors who did me no good. But thanks to Hood's Sarsaparilla which I began taking about a year ago, I have not lost a day's work of any kind since I have been cured.

HOOD'S SARSAPARILLA CURES for three months or more (on account of my health), and weigh to pounds more than I have before for thirty years. You are at perfect liberty to use this if you think it will do any good." J. H. STILLMAN, Cheltenham, Pa.
