Ring horses have been secured to replace those that were killed.

—Midaugh's Musical Comedy Co., augmented by a Gold Band and Grand Operatic Orchestra will appear at Garman's opera house, Monday evening, June 12. This excellent company of merry-makers is spoken of in the highest terms by the press all over the country. The entertainment is a novel one, the features being the Minstrel Comedietta entitled the Rehearsal of the Band Boys Minstrels.

**THE WEATHER MR. HICKS WILL GIVE US FOR JUNE.—From Ira Hicks' paper, Word and Works, we copy the weather forecast for this month:**

By June 1 storms developing in the western regions the last of May will be advanced toward the central part of the country. It will be quite warm with easterly and southerly winds in all the eastern parts, the areas of precipitation and storms will be approaching the central parts, while the far west and north west have winds shifting to westerly, with rising barometer and cooler. Storms will reach the extreme west by the 3d, and the change to cooler, fair weather will have crossed the continent. Warmer weather will centre, in a progressive way, about the 6th and 7th, reaching a high temperature and resulting in reactionary storms on and touching those dates. Westerly winds, rising barometer, with a cool spurt will follow about the 7th to 9th, first to the west, later east.

About the 10th strong indications of the solstice storms will appear. Easterly to southerly winds will prevail—barometer will begin to fall, and it will grow warmer, resulting in many active storms from the 11th to 14th. The temperature and storms are apt to reach a crisis about new moon. Renewed activity of volcanoes and earthquake disturbances may naturally be expected, though not necessarily dangerous. They are the readjustments of a natural force and should be looked upon as beneficial, rather than calamitous. There will be great electrical activity during solstice storms, especially during the night, but no one should be alarmed as it will prove grander than disastrous. Our friends will remember the tendency of storms to whirl suddenly back from the east, from about 10th to 25th of June. Showery conditions are liable during all that period, and local swirls will repeatedly fly back after passing east, unexpectedly taking the starch from the collars of the unsheltered people. Heavier reactionary storms will pass eastward about 17th to 19th, and should the barometer not rise and the wind remain easterly to southerly, a series of daily storms will fill the intervening days up to the next period.

From the 21st to 25th, inclusive, we will pass the turning point in our trip around the sun, and start for shorter days and longer nights. It will be natural to expect some heavy storms, with rain and much lightning and thunder, say about 23d, 24th, 25th. Cooler weather will succeed these storms, and regions that are short of moisture at the end of this period will have to contend with serious drought. Reactionary disturbances are central on the 29th, with the full moon and the equinox of Mercury on the same day.

**LOST THE GAME IN THE NINTH.**—The Tyrone base ball team had the State College lads beaten until the ninth inning in their game here Saturday. In that inning an unfortunate wild throw by Dillon permitted two college boys to cross the plate, and bring the score to 3 to 2 in their favor. Metcalf had held his opponents down finely, only two hits being made from his speedy delivery in the first seven innings. Gill played a magnificent game both behind and with the bat, and with the exception of Dillon the home players gave their battery good support.

The college boys put up a first-class game, too, Saylor keeping the hits well scattered and his supporters playing an almost errorless game behind him. The Main circus band furnished some fine music at the grounds. There was a large attendance. The score follows:

STATE COL.	R	H	A	E	TYRONE.	R	H	A	E

**A BAD RUNAWAY.**—On Tuesday morning a gentleman by the name of Bush, with his wife and little baby, was driving along the road to Coalville, when opposite the Bellefonte Furnace Co.'s, plant a locomotive on the B. C. R. R. frightened his horse. The animal became unmanageable and in its mad dashes overturned the buggy and threw the occupants out. Things were badly smashed up and the baby was seriously hurt. Mr. and Mrs. Bush escaping without much injury. The unfortunate travelers were on their way to visit W. H. Garbriek, at Coalville, who is Mrs. Bush's father.

**THE CAUSE OF MAIN'S CIRCUS WRECK.**—The coroner's jury impelled to ascertain the cause of the loss of life of the five employees of Main's circus, who met their death in the awful wreck at McCann's crossing, on the morning of May 30th, concluded its work on Monday evening. The jury decided that the men came to their death by the fast running of the train down the mountain on the Tyrone division of the Clearfield branch of the Pennsylvania railroad.

—Clearfield will jubilate on the Fourth.

—Main's circus is exhibiting in Altoona to-day.

—The Presbyterians of Hastings are preparing to build a church.

—The new iron bridge across Beech Creek, at Beech Creek town, will be 121 feet in length.

—The Renova News has been purchased by P. A. Kinsley, who was formerly its editor.

—The creditors of the defunct Tyrone bank have thus far received forty cents on the dollar.

—The Wheelmen's Club of Bellefonte has rented the second floor of the Centre county bank building which it will use as club rooms.

—The Court yesterday appointed the following committee on examination of students: John B. Linn, Esq., Chairman; Messrs. C. M. Bower, W. F. Reeder, J. C. Meyer and John Blanchard.

—Goleib Wesner shot the silver tip panther, escaped from Main's circus, on last Saturday morning on his farm north of McCann's crossing. It was playing havoc with his chickens, about two o'clock in the morning, when the farmer dispatched it.

—Thomas Love, aged 66 years, died from dyspepsia, at his home in Hecla, on Sunday afternoon, at two o'clock. Deceased leaves a widow and seven children. Interment was made in the Union cemetery in this place on Tuesday.

—It is said that the Pennsylvania railroad company has refused to transport any more animals over its lines until a settlement is effected with Walter L. Main, the circus man. The order has caused a general cancelling of dates among circus agents.

—Edward Goldstine a well known young Jewish resident of Lock Haven died of spinal meningitis at his home, in that place, on Monday morning. Deceased was 29 years old and prominent in Democratic circles in Clinton county. He was a nephew of our townsman, Abe Baum.

—Dr. Evan Shortlidge, of Wilmington, Delaware, a brother of our distinguished townsmen, Col. Wm. Shortlidge, was elected mayor of his city on last Saturday. Dr. Shortlidge was elected by an increased majority which is evidence of his popularity.

—An exchange warns its readers against killing the robin red breast as follows: A person killing a robin in this state is liable to a fine of from \$2 to \$20 for each offense, or imprisonment for 20 days, or both. In fact the law prohibits the killing of any or nearly all birds on the list of those that are inhabitants here.

—While engineer Rine and a gang of workmen were cleaning out the reservoir, last Friday afternoon, a great wide crack suddenly appeared across the bottom. The men had nearly completed the work of cleaning out when the water from the small adjoining reservoir gushed in on them. A general scramble for the ladder was made and all got out safely. Repairs were made on Saturday morning.

—At an early hour last Thursday morning, T. M. Gates, a workman on the Tyrone construction train, was killed at the scene of the Main's circus wreck, a draw rope broke and killed him. A singular fact was the dream which young Gates' bench mate had at the very time of the accident. He dreamed that his fellow workman was being killed and he was not surprised when he heard of his death.

**THE FRAGRANT HONEYSUCKLE.**—That veteran engineer, William Temple, whose face is familiar to everyone who lives along the line of the road to Snow Shoe, dropped into this office on Monday morning with two artistic bouquets of pink honeysuckle. We were more than surprised when he departed leaving both bouquets behind. The delicious fragrance of this wild mountain flower has penetrated the office for several days. Mr. Temple gathered the flowers on the mountain and evidently knew where they would be thoroughly appreciated else he would not have brought them here.

**REGULAR SEMI-MONTHLY COUNCIL MEETING.**—All of the members but one found their way to the Council chamber, on Monday night, and when there carried through some business of decided importance to the tax payer's of this place. Perhaps the most important transaction was council's decision to postpone the purchase of the steam road roller, which it had bought several weeks ago, indefinitely. This action was the result of the overwhelming tide of popular sentiment against such an extravagant outlay and council got so worked up over the matter that it even refused to own the minutes of that special meeting in Mr. Miller's office, at which the roller was purchased.

A number of complaints and requests were heard, all of which were referred to the proper committees.

Under the head of new business Mr. Garman presented a resolution in substance that hereafter all goods and material purchased for the borough must be on an order signed by the chairman of the department for which said purchase is made. Council re-affirmed its determination not to exonerate taxes on real estate. Permission was granted the county commissioners to place two fountains in the Court House yard and use borough water without cost to the county.

Under the head of reports of committees and officers, Solicitor Dale reported that he had notified property owners on Wilson street to open same for traffic, and also the extensions of High, Curtin, Linn and Beaver streets.

An important diversion in the proceedings of the evening was the introduction of a resolution praying council to take steps toward a re-organization of the Board of Trade with a view to bringing more manufactures to locate here; council decided to act on the resolution and a citizen's meeting was held in the court house last evening. Many persons who have the welfare of the town at heart were there and took a lively interest in the proceedings. A permanent Board of Trade was formed and all manufacturers looking for a place to begin business will be invited here to see the superior advantages of our town.

**A NEW NORMAL.**—Prof. George Bible formerly of this county, but for years back an instructor in different Normal schools of the State, paid a visit to old friends hereabouts the early part of the week. Prof. Bible was on his way to Stroudsburg, where the new Normal has been located and of which he has been chosen principal, to attend a meeting at which the faculty of the institution will be elected. It opens the first of September. In securing the services of Prof. Bible, the Stroudsburg people have done well. As an instructor he has few, if any, superiors in the State, and we doubt if any gentleman connected with any of these institutions has as wide an acquaintance, or more personal friends throughout the commonwealth. With Prof. Bible at its head, there is every reason to expect the new Normal to be a success from the start.

When the bank closed its doors less than two years ago, a general gloom fell over that community, but through the cashier's straightforward manner of doing business every dollar has been paid the creditors and the institution is again open and enjoying a good patronage. Mr. Jones made many sacrifices to accomplish such an end, but surely is fully repaid in the many compliments that his honorable recovery has elicited.
