Bellefonte, Pa., June 30, 1893.

## Farm Notes

The period of growth has much to do with the profits. If an animal gains one pound of weight on twice the amount of food required for another animal to gain only half a pound, but in the same period of time, the farmer will have received equal gain from each in proportion to the food consumed, but he will have saved one-half the time from the animal making the greater gain on the larger amount of food.

Lambs that grow fast are the ones that pay, because they reach the market while prices are high. A difference of only one week in getting the lamb to a marketable weight may entail a loss of \$1 on its value. That is the best reason for using rams of the mutton breeds for producing early lambs—the lambs grow rapidly. An early lamb is worth more than a full-grown sheep at this season.

It is a recommendation given some cows by their owners that they are easily kept; that is, they consume but little food. Breeders of the best producing cows do not desire such animals. They prefer cows with good appetites, and which consume large quantities of food, knowing that in order for a cow to yield largely she must first consume the food necessary to enable her to do so.

Peach trees are loaded down this season. It will pay to thin out the fruit. It is better to have a portion of the fruit of the best quality than to secure a great many peaches that may be unsalable. It costs just as much to haul inferior fruit to market as it does for the best, and the profit may be increased by reducing expenses from the beginning.

When the teams are stabled for the night it is important that rest be secured. Unless such is the case, the horses will not be in condition for work the next day. Flies and mosquitoes torment them both day and night, and as a safeguard the windows of the stables should be covered with mosquito netting.

A single crop which will produce a good yield of forage and hay upon light soils is one of the things that we need. The Michigan Station thinks we may have it in spurry, an animal which they have recently been testing with good results. This is called a weed in Great Britain, but is a hay and forage crop in Belgium, France and Russia.

It is in such seasons as this that the value of underdraining is seen. Land that is not drained does not have time to dry sufficiently between rains to permit working the crops. In an extremely wet season, and in an extremely dry one, the cost of draining is sometimes repaid by a single crop.

Mixed farming and specialty farming are not antagonistic, as some would believe. Among the most successful men of our acquaintance are some who follow mixed farming—making a specialty of every branch. That is the right way.

The earliest Lima beans are those that make a good start from the first. If the seed was planted too soon, the latter plants, which received the benefit of the warm soil from the beginning will overtake those planted earlier and come into bearing sooner.

After the strawberry crop is off, the first thing to do is to pull out the weeds in the row (which is most easily done just after a rain), and work between the rows well with the cultivator, so as to get the ground in good condition for the runners.

Water your horses more than three times a day while they are working hard during hot weather, even if it does put you to some inconvenience. The extra work that they will do, and the better condition in which they will keep, will keep, will fully repay you.

The waste of the kitchen while fresh is good for fowls, but garbage gathered up from the towns or cities is unfit for the fowls, because not fresh, and contains many things that unfit it for food.

The editor of the "Agriculturist" says: I wouldn't spread combs of brood and place empty ones before June 10. It will injure any colony to do such work before the date named.

Worms on cabbage may be destroyed by the use of Persian insect powder. Fine coal ashes may be sprinkled on them while the cabbages are damp. This will not kill the worms, but will prevent their eating.

One acre of ground properly prepared, wisely planted and well cultivated and cared for at the right time and all the time will yield a larger income than any 10 acres of the farm planted to farm crops.

It is claimed that by pinching off the ends of the melon vines, after the fruit has set, the growth of the fruit will be hastened and the melons attain larger size.

The most important point in favor of butter is the flavor. This is affected by the kind of food and the management of the milk from the beginning until the butter is sold.

Some dairymen recommend giving a mixture of phosphate of lime and salt for abortion in cows—one part of the sulphate to six of the salt; a teaspoonful to the cow each day.

Your name, or brand, on your butter, berries or other farm products, is worth money to you if you will make your name or brand a guarantee always of first-class goods.

## Mrs. Grant and Mrs. Davis to Meet.

New York, June 21.—Mrs. Jefferson Davis, who had made arrangements to leave her winter home at the Marlborough and go to Cranston, near West Point, to-day, has changed her mind, and has concluded to remain in this city until Saturday, when she will take her departure. Mrs. U. S. Grant has been at Cranston for some time, and it is said that she and Mrs. Davis will meet for the first time.

**BUCKLEN'S ARNICA SALVE.**—The best salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Itching, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by C. M. Parrish.

**Lobster Creams.**—One-half pint of milk, three eggs, one lobster, two teaspoonfuls anchovy sauce, a little cayenne, a teaspoonful of cream, one teaspoonful of bread crumbs. Boil the milk, pour it over the bread crumbs, beat the eggs, and add to the bread crumbs. When the latter are nearly cold, chop the lobster meat very small, mix it with the bread crumbs and anchovy sauce, and a little cayenne; stir in the cream, and mix well. Butter some small earthen moulds, fill with the mixture, and cover with bread-crumbs.

Pallor, languidness, and the appearance of ill-health being no longer fashionable among ladies, Ayer's Sarsaparilla is more largely resorted to as a tonic-alterative, nerve, stomachic, and builder-up of the system generally. This is as it should be. Ayer's is the best.

With the exception of ex-Governor Foraker every man who has been made Governor of Ohio since ex-President Hayes held the position left the office broken in fortune. Thomas L. Young, Richard M. Bishop, George Hoadley, James E. Campbell and Major McKinley failed one after the other and the recent assignment of ex-Governor Foster completes the list of financial fatalities. But this will not lead to a scarcity of candidates at the next Ohio gubernatorial convention.—Commercial Advertiser.

A new work by M. H. M. Wilson states that by irrigation 25,000,000 acres are made fruitful in India alone. In Egypt there are about 6,000,000 acres, and in Europe about 5,000,000. The United States has just begun the work of improving its waste area, and has already about 4,000,000 acres of irrigated lands.

In 1892 about 3800 tons of emery were exported from Naxos, Greece, the greater part of which went to Havre and Hamburg. It was expected that the exports would be considerably larger than this, as at the beginning of the year the Grecian Government gave the lessees very favorable terms.

Elizabeth Stuart Phelps was only 13 when her first story was published, and she was 20 when her "Gates Ajar" brought her celebrity, so that she is usually thought to be much older than she really is, her name having been so long before the public she does all her literary work before 9 A. M. and 1 P. M.

He—"I know that you love me, dear, don't you?"  
She—"Then I can never marry you."  
He—"Why not?"  
She—"Because I have sworn never to marry a man who knows more than I do!"—Truth.

Leland Stanford laid the foundation of his \$50,000,000 fortune by selling horseradish. There's a pungent moral here.

### MISSIONARY'S STORY

HOW HE SUFFERED FROM ECZEMA.  
DOCTORS FAILED. GREW WORSE.  
DEATH ONLY RELIEF EXPECTED.

I have been troubled with chronic Eczema on my limbs. The itching was very annoying and made me unfit for work. I had tried many remedies and consulted a good physician, but received no permanent relief. A friend told me of the Cuticura Remedies, I then sent for a copy of your book, more than a year ago, and now I wish I had the book and begun to use the Cuticura Remedies at once. But the doctor said the remedies, good in some cases, would be of no use to me, and continued to prescribe for me for nine months. I grew worse. Death would have been a relief and it was the only relief I expected. Just then my wife (I thank God for a good one) found the book you sent in some out-of-the-way place and read it through. She discharged the attending physician and said we would try the

### CUTICURA REMEDIES.

Procured one box of Cuticura, one cake of Cuticura Soap, and a bottle of Cuticura Resolvent. I began to use them about the middle of last August, procuring a new supply when the first was exhausted. I am now well and attend to my missionary work. I am Secretary of the Sullivan County Bible Society (partly enclosed). Have been engaged in missionary work in the county for eighteen years. To recommend the Cuticura Remedies to suffering humanity will be a part of my missionary work in the future.

P. O. Box 11, Mongaup, Sullivan Co., N. Y.

Sold everywhere. Price, Cuticura, 50c; Soap, 25c; Resolvent, \$1. Prepared by the POTTER DRUG AND CHEMICAL CORPORATION, Boston.

"How to Cure Skin Diseases," 64 pages, 50 illustrations, and testimonials, mailed free.

**PIMPLES, blackheads, red, rough, chapped, and oily skin cured by Cuticura Soap.**

**HOW MY BACK ACHES!**—Back Pain, Weakness, Soreness, Lameness, Strains, and Pain relieved in one minute by the Cuticura Anti-Pain Plaster. 38-20-44-n-38-12-ly

## Business Notices.

All that honesty, experience and skill can do to produce a perfect pill, has been employed in making DeWitt's Little Early Risers. The result is a specific for sick headache, biliousness and constipation.—For sale at C. M. Parrish's Drug Store.

The United States have nearly 200 active geysers.

All the talk in the world will not convince you so quickly as one trial of De Witt's Little Early Risers for scalds, burns, bruises, skin affections and piles.—For sale at C. M. Parrish's Drug Store.

Glass originally came from India.

Little vegetable health producers: De Witt's Little Early Risers cure malarious disorders and regulate the stomach and bowels, which prevents headache and dizziness.—For sale at C. M. Parrish's Drug Store.

Owl have a very acute sense of hearing.

If you can afford to be annoyed by sick headache and constipation, don't use De Witt's Little Early Risers for these little pills will cure them.—For sale at C. M. Parrish's Drug Store.

Some Chinese razors are made of horse shoes.

One word describes it—"perfection." We refer to DeWitt's Witch Hazel Salve, cures obstinate sores, burns skin diseases and is a well known cure for piles.—For sale at C. M. Parrish's Drug Store.

Gold mines about Nevada City are the deepest and richest in the world.

Ignorance of the merits of DeWitt's Little Early Risers is a misfortune. These little pills regulate the liver, cure headache, dyspepsia, bad breath, constipation and biliousness.—For sale at C. M. Parrish's Drug Store.

The tall hat worn by men first appeared in France nearly five hundred years ago.

De Witt's Witch Hazel Salve cures piles.  
De Witt's Witch Hazel Salve cures burns.  
De Witt's Witch Hazel Salve cures sores.  
De Witt's Witch Hazel Salve cures ulcers.

Partridge of Me., took 43 orders from 30 calls; profit \$75.25. E. A. Palmer of N. Dak., took 83 orders in 3 days; profit \$98.25. Exclusive Territory given. If you wish to make large money, write immediately for terms.

THE HENRY BILL PUB. CO., Norwich, Conn.

### ARE YOU GOOD AT PUZZLES?

The genius who invented the "Fifteen" Puzzle, "Eights in Clover" and many others has invented a brand new one, which is going to be the greatest on record. There is fun, instruction and entertainment in it. The old and the young will find as much mystery in it as the learned and unsophisticated. This great puzzle is the property of the New York Press Club, for whom it was invented by Samuel Loyd, the great puzzler. It is sold for the benefit of the movement to erect a great home for newspaper workers in New York. Generous friends have given \$25,000 in prizes for the successful puzzle solvers. TEN CENTS sent to "PRESS CLUB BUILDING AND CHARITY FUND," Temple Court, New York city will get you the new mystery by return mail. 38-20-2m.

## Saddlery.

### SCHOFIELD'S NEW

HARNESS HOUSE.

We extend a most cordial invitation to our patrons and the public, in general, to witness one of the

GRANDEST DISPLAY OF

Light and Heavy Harness

ever put on the Bellefonte market, which will be made in the large room, formerly occupied by Harper Bros., on Spring street. It has been added to my factory and will be used exclusively for the sale of harness, being the first exclusive salesroom ever used in this town, as heretofore the custom has been to sell goods in the room in which they were made. The elegant room has been refitted and furnished with glass cases in which the harness can be nicely displayed and still kept away from heat and dust, the enemies of long wear in leather. Our factory now occupies a room heretofore the store 2920 added makes it the largest establishment of its kind outside of Philadelphia and Pittsburgh.

We are prepared to offer better bargains in the future than we have done in the past and we want everyone to see our goods and get prices for when you do this, out of self-defense you will buy. Our profits are not large, but by selling lots of goods we can afford to live in Bellefonte. We are not indulging in idle philanthropy. It is purely business. We are not making much, but trade is growing and that is what we are interested in now. Profits will take care of themselves.

When other houses discharged their workmen during the winter they were all put to work in this factory, nevertheless the big (O) houses of this city and county would smile if we compared ourselves to them, but we do not mean to be so odious, except to venture the assertion that none of them can say, as we can say "NO ONE OWES US A CENT" THAT WE CAN'T GET." This is the whole story.

The following are kept constantly on hand. 50 SETS OF LIGHT HARNESS, prices from \$8.50 to \$15.00 and upwards. LARGE STOCK OF HEAVY HARNESS per set \$25.00 and upwards, 600 HORSE COLLARS from \$1.50 to \$3.00 each, over \$1000 worth of HARNESS OILS and AXLE GREASE.

\$400 worth of Fly Nets sold cheap from 15c to \$3.00 each, Horse Brushes, Curry Combs, Sponges, Chamois, RIDING SADDLES, LADY SIDESADDLES, Harness Soap, Knee Dusters, at low prices. Saddlery-hardware always on hand for sale. Harness Leather as low as 25c per pound. We keep everything to be found in a FIRST CLASS HARNESS STORE—no change in price, over 20 years in the same room. No two shops in this town which trade NO SELLING OUT for the want of trade or price.

Four harness-makers at steady work this winter. This is our idea of protection to labor, when other houses discharged their hands, they soon found work with us. JAS. SCHOFIELD, 33 37 Spring street, Bellefonte, Pa.
