

Democratic Watchman

Bellefonte, Pa., July 21, 1893.

Farm Notes.

Thin out the fruit if the trees are overloaded, as that is the surest mode of securing fruit of large size and of attractive appearance.

An old fruit tree may sometimes be renewed so as to bear for years by cutting it back severely, giving good cultivation and applying fertilizers every season.

After planting shrubs, vines, etc., watch them that they do not dry out. An occasional watering in dry weather will be necessary until they become well established.

Have good cows and then keep them milking as long as possible each year. Especially arrange to have them giving milk through the winter months when butter is highest.

Daily exercise is necessary for all horses unless they are sick; it assists and promotes a free circulation of the blood, creates an appetite, improves the whole system.

In a comparison of silage with mixed hay for lambs at the Cornell Station, New York, four pounds of silage took the place of about one pound of hay and proved cheaper at current prices than hay.

It does not pay to hold a fat animal until prices are higher unless the prospects are plain for a rapid rise, as there may be no further increase except at an expense that will not be encouraging.

Many trees exhaust themselves in an attempt to produce fruit, and only bear a worthless kind, when a little trouble and expenditure to supply them with fertilizer would strengthen the trees and make the fruit salable.

As many as a thousand bushels of potatoes have been grown on an acre of land, yet it has only been accomplished when fertilizers were used liberally and in quantity to insure more than a sufficiency of plant food for the crop.

Experiments with cabbage show that depth of planting has no effect on the size of the heads, and that disturbance of the plants, loosening the roots, though sometimes beneficial in preventing "cracking" of the heads, also lessens the growth in other respects.

Beef cattle should pay as well in the East as in the West. Food can be purchased and converted into manure while the cattle are growing, and although but a small profit may be noticed from the cattle the farm will have been increased in fertility and productiveness.

There is not much farm land in this country so situated or so poor that it will not pay reasonably for the cultivation—that is, if it is cultivated properly. It may need some manuring first, or draining, or more thorough working than it has ever had—but given these and it will pay.

Lined oil, colored with any preferred coloring matter, makes a cheap paint for outbuildings, and may be applied every year or two with but little expense. Keeping the farm buildings brightened up, either with paint or whitewash, adds additional value to the whole farm.

This is the time of year to consider what you will do this fall about fruit planting. Keep watch of the markets and see what is most in demand in your own locality and prepare to supply it. Don't plant anything just because all the neighbors have it. That is the way to make an over-production.

When every acre of the farm cannot be made to produce something it is a sure indication that the farmer has too much land. It is better to cultivate only as much as can be well manured and kept clean than to leave vacant fields that keep the farm stocked with weeds to be spread over the cultivated land.

To the Cities by Sea via the Pennsylvania Railroad for \$10 the Round Trip.

On July 27th next the second of the popular 12-Day Excursions to the seashore will leave Pittsburg by special train at 8.50 A. M., arriving in Philadelphia at 7.16 that evening, where the night may be spent, and any regular train taken the next day for the shore. The tickets will be valid for return passage for twelve days, and a choice of destinations allowed—whether Atlantic City, Cape May, Sea Isle City, or Ocean City. The rate of \$10 from Pittsburg and proportionately low rates from other places is remarkably cheap, and affords an excellent opportunity for an economical trip to the ocean.

These rates apply on regular trains leaving Pittsburg at 4:30 7.00 and 8.10 P. M., or on special train leaving at 8.50 A. M. on the above mentioned date.

The special train will be run on the following schedule, and the tickets will be sold at the rates quoted:

	RATE.	TRAIN LEAVES.
Alloua.....	\$3 00	12.55 P. M.
Hollidaysburg.....	8 00	11.05 A. M.
Bellwood.....	8 00	1.06 P. M.
Cleatfield.....	8 00	9.35 A. M.
Philipsburg.....	8 35	10.27 " "
Bellefonte.....	8 25	10.40 " "
Osceola.....	7 65	1.18 P. M.
Tyrone.....	7 16	7.16 " "

For detailed information address or apply to Thos. E. Watt, Passenger Agent, 110 Fifth Avenue, Pittsburg.

New York's Greatest Property Owners.

The Astor estate will pay in taxes this year \$420,000. This is more than the entire sum of city taxes collected in 1890. There is only one family richer than the Astors, and that is the Vanderbilts, which pays \$608,000; but as this includes a good deal of city railroad property the Astor real estate, exclusively owned by the family, is undoubtedly the more valuable. The Lorillard family pays \$131,000 in taxes, which means that its city property is actually worth more than \$10,000,000, while the Jay Gould estate is assessed \$134,000. These are the four richest estates in the city. From the tax books just made up it appears that the most valuable buildings in New York are the Equitable, at 120 Broadway, assessed at \$3,800,000; the Fifth Avenue Hotel, \$1,800,000; the Mills building, \$1,700,000; Mutual Life building in Nassau street, \$1,625,000; the Western Union building, \$1,625,000; the Astor House, \$1,400,000, and the Stewart building, \$1,600,000. The real values are nearly if not quite double the rate at which they are assessed.

BUCKLEN'S ARNICA SALVE.—The best salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by C. M. Parrish.

HOT WEATHER DISINFECTANTS.—Copperas, one and a half pounds to a gallon of water.

Sulphuric boracic acid, two ounces to a gallon of water.

Sulphate of zinc, two ounces, and the same quantity of common salt to a gallon of water.

The copperas solution should be put into vessels before they are used by the sick person, the discharges covered with it before they are emptied, and a painful thrown down the water closet two or three times a day. If an earth closet is used, it should be plentifully sprinkled with dry copperas.—National Educator.

—“Be sure you get Ayer's” is an important caution to all in search of a thoroughly-reliable blood-purifier, Ayer's Sarsaparilla being the one on which there can be no manner of doubt. It has stood the test of nearly half a century, and has long been considered the standard.

MISSIONARY'S STORY

HOW HE SUFFERED FROM ECZEMA.

DOCTORS FAILED. GREW WORSE.

DEATH ONLY RELIEF EXPECTED.

I have been troubled with chronic Eczema on my limbs. The itching was very annoying and made me unfit for work. I had tried many remedies and consulted a good physician, but received no permanent relief. A friend told me of the *Cuticura Remedies*. I then sent for a copy of your book, more than a year ago, and now I wish I had the book and begun to use the *Cuticura Remedies* at once. But the doctor said the remedies, good in some cases, would be of no use to me, and continued to prescribe for me for nine months. I grew worse. Death would have been a relief and it was the only relief I expected. Just then my wife (I thank God for a good one) found the book you sent in some out-of-the-way place and read it through. She discharged the attending physician and said we would try the

CUTICURA REMEDIES.

Procure one box of *Cuticura*, one cake of *Cuticura Soap*, and a bottle of *Cuticura Resolvent*. I began to use them about the middle of last August, procuring a new supply when the first was exhausted. I am now well and attend to my missionary work. I am Secretary of the Sullivan County Bible Society (portrait enclosed). Have been engaged in missionary work in the county for eighteen years. I recommend the *Cuticura Remedies* to suffering humanity will be a part of my missionary work in the future.

Rev. MASON GILLESPIE,

ARE YOU GOOD AT PUZZLES?

The genius who invented the “Fifteen” Puzzle, “Pigs in Clover” and many others has invented a brand new one, which is going to be the greatest on record. There is fun, instruction and entertainment in it. The old and learned will find as much mystery in it as the young and unsophisticated. This great puzzle is the property of the New York Press Club, for whom it was invented by Samuel Loyd, the great puzzlist to be sold for the benefit of the movement to erect a great home for newspaper workers in New York. Generous friends have given \$25,000 in prizes for the successful puzzle solvers. TEN CENTS sent to “PRESS CLUB BUILDING AND CHARITY FUND,” Temple Court, New York city will get you the new mystery by return mail. 38 20 2m.

SCHOFIELD'S NEW

HARNESS HOUSE.

We extend a most cordial invitation to our patrons and the public, in general, to witness one of the

GRANDEST DISPLAY OF

Light and Heavy Harness

ever put on the Bellefonte market, which will be made in the large room, formerly occupied by Harper Bros., on Spring street. It has been added to my factory and will be used exclusively for the sale of harness, being the first exclusive salesroom ever used in this town, as heretofore the custom has been to sell goods in the room in which they were made. This elegant room has been refitted and furnished with glass cases in which the harness can be nicely displayed and still kept away from heat and dust, the enemies of long wear in leather. Our factory now occupies a room 10x74 feet and the store 20x60 added makes it the largest establishment of its kind outside of Philadelphia and Pittsburg.

We are prepared to offer better bargains in the future than we have done in the past and we want everyone to see our goods and get prices for when you do this, out of self defense you will buy. Our profits are not large, but by selling lots of goods we can afford to live in Bellefonte. We are not indulging in idle philanthropy. It is purely business. We are not making much, but that is growing and that is what we are interested in now. Profits will take care of themselves.

When other houses discharged their workmen during the winter they were all put to work in my factory, nevertheless the big (O) houses of this city and county would smile if we compared ourselves to them, but we do not mean to be so odious, except to venture the assertion that none of them can say, as we can say “NO ONE OWES US A CENT THAT WE CAN'T GET.” This is the whole story.

The following are kept constantly on hand.

50 SETS OF LIGHT HARNESS, prices from \$8.00 to \$15.00 and upwards, LARGE STOCK OF HEAVY HARNESS per set \$25.00 and upwards, 400 HORSE COLLARS from \$1.50 to \$5.00 each, over \$1000.00 worth of HARNESS OILS and AXLE GREASE,

\$400 worth of Fly Nets sold cheap \$10.00 worth of

Horse Brushes, Curly Combs

Sponges, Chamoles, RIDING SADDLES, LADY SADDLES

Harness Soap, Knee Dusters, at low prices, Saddlery hardware always on hand for sale, Harness Leather as low as 25c per pound. We keep everything to be found in a FIRST CLASS HARNESS STORE—no changing, over 20 years in the same room. No two shops in the same town to catch trade—NO SELLING OUT for the want of trade or prices. Four harness-makers at steady work this winter. This is our idea of protection to labor, when other houses discharged their hands, they soon found work with us.
