Impecunious Royalty,

The popular idea that princes of the blood, and royalty in general, are made of a little better stuff than we ordinary mortals, is fast being dispelled by the better acquaintance and contact with these personages, who live parasitic on the subjects of kings and emperors. There once was an ambition in the hearts of the masses to do things as the Prince of Wales did them : to favor things which the Prince of Wales favorsed .And just the same with many other titled coxcombs.

There was a time when such aping was considered the fashion, but people have grown in intelligence since then and to-day none but a class of poor, simple, sapheads set up royalty as their mark. This old time idea that everything a prince or princess, duke or duchess did, was right was undoubtedly instinctive, having had its formulation in the principle of "the divine right of kings."

'Tis true that in days gone by educational, financial, and various other agencies combined to raise the class of royalty above the common people, but later day royalty has sadly degenerated. Dissipation, gambling and scandals have all had a tendency to lessen its prestige and disenchant the people.

Perhaps the most glaring illustration of the depth to which this society can go, that has been seen in later days, is the one now before us in the demand of Marquis DE BARBOLES, brother of the Duke of VERAGUA, that the fund now being raised for the latter be divided with the former. The Dake, who is a descendent of Colum-BUS, lost his fortune, during his recent visit to the United States, and it is proposed that a fund be raised for him. Now just as soon as his brother heard of this intention on our part he must make claim for a share of the fund because he is a relative of old CHRISTO-PHER too. Such impecunious fellows are a disgrace to the titles which they bear. In the earlier times a prince or any other titled foreigner would rather have died from starvation than sacrificed his honor in such a way.

Not a Good Case for Sympathy. The Republican press all over the country is working itself into an excitement bordering on hysterics, in consequence of the dropping of the name of the gold basis advocates, would be like Judge Long of Michigan from the fattening a calf by lessening its feed. pension list. It is true as they assert wounded and is entitled to a pension, but how Judge Long got on to the \$72 per month list is what the department is trying to ascertain. The pension that Justice Long has been drawing for years is that provided for old soldiers, totally disabled, and disqualified by reason of their condition from taking care of themselves or attending to any duties. Judge Long is able to act as one of the Supreme Court Judges of Michigan, and to earn and draw a salary of \$7,000 per year, so that neither his disability nor condition is of the "total" kind that would entitle him to the highest pension paid by the government. It is for the purpose of re-rating, and to nothing will be done until he sends place him where he properly belongs, back his report, which may be acted that the suspension was ordered, and upon during the extra session of conthe Republican press will have a hard gress. The opinion prevails in official time in making the public, or even the Blount's report, President Cleveland old soldiers, believe that a man who is will resubmit ex-President Harrison's able to earn \$7,000 a year is entitled to treaty of annexation, or some modifia pension of \$72 per month when other poor fellows, who are as badly disabled as he is, think they are doing well to be submitted to the United States if they earn a dollar a day, are allowed government, will be withheld awaitunder the law but from \$12 to \$20 per month.

BELLEFONTE AGAIN A WINNER .---The Renova ball club, of the River league, made its debut at the Park, on Wednesday. The visitors came up from Williamsport, after having tuned the Demorests up 14 to 2, and put their crack pitcher, Mr. Day, in the box. When the game started the Governors were so prompt at rapping out singles that the doughty little Renova twirler lost heart and we won with ease.

Hodson pitched a magnificent game, being very effective at critical points. For Bellefonte Wetzel, Woodcock, Reed and Soper carried off the honors by their brilliant fielding. while Good and McCarthy wielded the bat effectively for the visitors. Had it not been for a muddy field Renovo would have been shut out, as her only run was scored on a long drive to right centre which should have been caught.

The feature of the game was the rapid fielding of a line hit to deep center, which stopped a run for the visitors within three feet of the plate. The score by innings was as follows;

Renova -0 0 0 0 0 0 0 0 1 0--1 Bellefonte--4 1 0 1 0 0 2 0 0-8 Summary-Errors, Renovo 8, Bellefonte 1 Base Hits, Renovo 7, Bellefonte 9; Wild Pitch, Pay ; Strike Outby Hodson 1, hy Day 3; Left on Base, Renovo 3, Bellefonte 4; Base on Balls off Hodison 3, off Day 6.
