

Bellefonte, Pa., Aug. 4, 1893.

Farm Notes

Black bees are better architects than Italians, and can gather as much honey; but the docility of the Italians allows us to handle four colonies where we can one of the blacks.

Too much care and judgment cannot be exercised in choosing salt for dairy purposes, as upon this depends to a large extent, the salable appearance and keeping quality of the products.

Peach trees that appear yellow may not be diseased. The loss of color occurs from several causes. At this season the damage may be traced to the borer rather than to diseases of any

In no way will late chickens do so well as by scattering the coops around in the orchard or if you have no or chard scatter them around over the place among the weeds if you can do no better.

An exchange says that if a cow gets choked with an apple or potato, holding up its head and breaking an egg in its mouth is a sure cure. The same remedy is recommended for horses un. der similar circumstances.

The yolks of eggs in butter as coloring matter will make sweet butter rancid in a short time, as will also the juice of carrots. If the butter is to be used within a short time either will do nicely; but the butter color is best and not expensive.

What is commonly called cholera among chickens is a disease which is almost always the result of the poor condition which surround them. With good food, fresh, pure water daily and clean quarters with a good range the disease rarely gets a foothold.

A farmer who tried the experiment | 32 Jones 33 Rudy... of rubbing the hide of an animal with a raw onion reports that the result was to rid the animal of lice, and it is believed that onions will serve to rid yeld. This is our first season's experanimals of all such pests as lice, tick, fleas, etc., the difficulty being the labor of application of the remedy.

Roup is a disease which is very apt to make trouble in the poultry yard in autumn. The changeable and rainy weather seems to favor its development. Dampness, filth and impure food will help it along. Let the sunlight into the coops and keep the floor clean and dry, and it will help toward keeping it

The "London Dairy Journal" tells of a remarkable Dexter cow, 7 years old, which, during 12 months ending April 1, 1893, gave over four tons and 900 pounds of milk. She is a small cow, as Dexter cows are, and weighs only a little over 600 pounds, so that her milk product was 13 times her own live weight.

of the animals, when they finally reach the manure heap. Nothing is dy you need, Large bottles only 50c elegant design for ninth largest list, lady's lost by purchase of materials which at Parrish's Drug Store. serve to enrich the farm.

Middlings and skim milk is the best food for growing pigs. Cornmeal is unnecessary. The growing pig requires the elements of bone and muscle, and should not be made fat. Every pound of fat on a pig in summer is an incun.brance. It will be time enough to fatten it when it has made the frame upon which to place the fat.

One of the most instructive lessons at a recent session of a farmers' institute was the sample pounds of butter, one of which sold at ten cents and the other at thirty cents. It was explained that they were made out of the same quality of milk and cost about the same to make. The difference in selling price was due mainly to the difference in skill in making.

It is claimed by squash raisers who have tried it that the laying of a shingle or two by the side of the hill will trap large numbers of squash bugs, which can then be easily destroyed at

and it will pay to go out daily and des troy as many as possible, which is not as difficult as it may appear. The destruction of one butterfly means the prevention of many worms in the cab. bage. Dusting the cabbage with insect powder is one of the best remedies. The use of the kerosene emulsion is resorted to by some, but there is a liability of the cabbage being impregnated with the odor of kerosene.

WHEAT TESTS .- The following report by Prof. H. J. Waters of the Experiment Station, State College, Pa., upon the tests of verities of wheat, will be of interest to every farmer who reads the WATCHMAN.

The fourth season's test of the leading varieties of wheat at this Station has just closed and a brief summary of the just closed and a just closed and a brief summary of the

results will be found below. They were grown in 1893 on an upland limestone clay soil of moderate fertility as a part of a four years' rotation, consisting of corn, oats, wheat and clover; sown Sept. 1-2 at the rate of eight pecks per acre, with an application of 300 lbs. of dissolved S. C. rock. None of the varieties named in the table suffered appreciably from winter killing.

The subjoined table shows the yield of grain and straw per acre, weight of grain per bushel, and the average yield per acre for the past four years of such varieties as have been tested through this period.

Tables showing yield of different varieties of wheat for 1863 and an average of the past four years:

d	Name of Varieties.	acre ht per ck bushel t yield per e Bu. ge yield of in for four rs Bu.
0		100
3	1 Reliable	32 3 27 0 63 3 4480 31 2 27 3 61 5 4673 30 8 29 62 6 5790 30 7 28 9 63 7 4846 30 3 27 1 62 6 5719 29 7 27 8 62 4 4199 28 9 29 5 62 5 5715 28 4 31 8 61 5 5866 28 2 27 5 61 5 5866 28 2 27 5 61 5 5866 27 8 27 8 62 4 4499 27 5 25 3 61 2 4889 27 3 26 5 61 27 2 22 2 63 5 3322 26 9 24 7 63 2 3911 26 8 26 6 65 9 6 4845
	17 Deitz 18 Nigger 19 Extra Early Oakley 20 Democrat 21 McGhee's White 22 Tuscan Island 23 Velvet Chaff 24 Improved Rice 25 Miller's Prolific 26 Diehl Meditterranean 27 Canada Wonder 28 American Bronze 29 Royal Australian	$\begin{array}{cccccccccccccccccccccccccccccccccccc$

A study of this table shows that in 1893 Canada Wonder gave the highest ience with this wheat and while it gives good promise we do not advise farmers to discard thoroughly tried and standard sorts for this variety until further tests are made. A good example of the loss that may result from such a practice is found in the case of the valley wheat which in 1893 gave the second highest yield, but in the four years' average falls far below a number of other varieties. Those that have given the best results on the Station grounds for the past four years are, in the order named : Reliable. Currell's Prolific, Dietz Longberry Red, Wyandotte Red and Fulcaster.

which can then be easily destroyed at an early morning visit. One writer says he has known 25 or 30 to be found under a single shingle. But the gardner needs to get there before the bug turns out for his days work.

There should really be no weeds on any farm. It may not be an easy undertaking to destroy them in a single season, but it can be done by persistent work in two or three years, and each year there will be fewer weeds. Weeds, like the regular crops, come from seeds, and when the seeds have griminated their mission is ended, and they will no longer exist. If the young weeds are then destroyed there can be no reseeding of the land. It means hard work in succeeding years.

BY CUTICURA.

Your most valuable Cuticura Remedies have done my little girls o much good that I feel like saying this for the benefit of those who are troubled with skin diseases. She was troubled with stehing, burning sores. When I took her to the doctor the first time, he called it the Italian itch, and said he would cure her into weeks. When the two weeks were up, he called it teezema, and in that time she was worse than before. He doctored her for three months, and she was so bad that we did not know what to do. He did not do her any good. I saw the advertisement of Cuticura Remedies in the paper, and I said to my wife, "I am going to try them." Mind what I say, she was so thick with sores that we had to soak her clothes to take them off. Itch! there was no end to it. She had it all over her body, back, legs, arms, in between her fingers. She did not have it on her head. But after taking your Cuticura Remedies for two weeks the stores were all gone. I enclose her portrait. I am more than pleased with your cuticura Remedies, have any time, he called it the Italian itch, and said he would cure her into weeks. When the two weeks were up, he called it the Italian itch, and said he would cure her into work the fore. He doctored her for three whose whose was so bad that we do took the with with with any own the fore. He doctored her for

WHY SUFFER ONE MOMENT

From torturing and disfiguring skin diseases, when a single application of the Cuticura Remedies will, in the great majority of cases, afferd instani relief in the most agonizing of itching, burning, scaly, crusted, pimply, and blotchy skin, scalp and blood diseases, with loss of hair, and point to a speedy, permanent, and economical curs.

Sold everywhere. Price, Cuticura, 50c; Soap, 25c.; Resolvent, \$1. Prepared by the Potter Drug and Chemical Corporation, Boston. "How to Cure Skin Diseases," 64 pages, 50 illustrations, and testimonials, mailed free.

Are ahead of them all, chief among them is the display of pure liquors manufactured in the state. It is conceded that no rye whiskies made in the world can equal those made in Pennsylvania, more especially Silver Age, Duquesne or Bear Creek. These three brands head the list of pure Ryes, and are so well known that every reputable dealer sells them. North, East, South and West they lead all others, because they are pure; because they are reliable, and because they are stimulants that strengthen and invigorate. They are sold at prices within the reach of all, and are sold upon their merits for purity and strength. Silver Age, \$1.50; Duquesne, \$1.25; Bear Creek, \$1.00, full standard quarts. Ask your dealer for them; Insist on having them, and if you cannot be supplied, send to Max Klein, Allegheny. Pa. Price list of all liquors sent on application. All goods packed neatly and securely.

AT THE WATCHMAN OFFICE

Saddlery.

SCHOFIELD'S NEW HARNESS HOUSE.

We extend a most cordial invitation to uro patrons and the public, in general, to witness one of the

GRANDEST DISPLAY OF

Light and Heavy Harness

ever put on the Bellefonte market, which will be made in the large room, formerly occupied by Harper Bross, on Spring street. It has been added to my factory and will be used exclusively for the sale of harness, being the first exclusive salesroom ever used in this town, as heretofore the custom has been to sell goods in the room in which they were made. This elegant room has been refitted and furnished with glass cases in which the harness can be nicely displayed and still kept away from heat and dust, the enemies of long wear in learner. Our factory now occupies a room 10x74 feet and the store 20x60 added makes it the largest establishment of its kind outside of Philadelphia and Pittsburg.

We are prepared to offer better bargains in

the largest establishment of its kind outside of Philadelphia and Pittsburg.

We are prepared to offer better bargains in the future than we have done in the past and we want everyone to see our goods and get prices for when you do this, out of self defense you will buy. Our profits are not large, but by selling lots of goods we can afford to live in Bellefonte. We are not indulging in idle philanthropy. It is purely business. We are not making much, but trade is growing and that is what we are interested in now. Profits will take care of themselves.

When other houses discharged their workmen during the winter they were all put to work in my factory, nevertheless the big (?) houses of this city and county would smile if we compared ourselves to them, but we do not mean to be so odious, except to venture the assection that none of them can say, as we can say "NO ONE OWES US A CENT THAT WE CAN'T GET." This is the whole story.

CAN'T GET." This is the whole story.

The following are kept constantly on hand.
50 SETS OF LIGHT HARNESS, prices from \$8.00 to \$15.00 and upwards, LARGE STOCK OF HEAVY HARNESS per set\$25.00 and upwards, 500 HORSE COLLARS from \$1.50 to \$5.00 each, over \$100.00 worth of HARNESS OILS and AXLE GREASE,
\$400 worth of Fly Nets sold cheap \$150 worth of whips from 15c to \$3.00 each, Horse Brushes, Cury Combs Sponges, Chamois, RIDING SADDLES, LADY SIDESADDLES Harness Soap, Knee Dusters, at low prices, Saddlery-hardware always on hand for sale, Harness Leather as low as 25c per pound. We keep everything to be found in a FIRST CLASS HARNESS STORE—no changing, over 20 years in the same room. No two shops in the same town to catch trade—NO SELLING OUT for the want of trade or prices Four harness—makers at steady work this winter, This is our idea of protection to labor, when other houses discharged their hands, they soon found work with us.
