

Farm Notes.

It is not too late to grow a crop of turnips, but the seed should go in without delay.

Sharp tools and good roads will save the farmer much labor and lessen the expense in many ways.

Grapes pay well. The grape crop of New York averages \$122 per acre, the number of acres devoted to grapes in that State being 40,000.

Never use bedding by drying it in the sun, after once using it. The odor is disagreeable and the dry particles of filth float in the air, reaching the milk.

One of the best ways to destroy weeds in the pasture is to keep sheep. If this is not done the mower will have to be used, so as to cut down the weeds and thus prevent them from going to seed.

Water in the pasture does not imply that the cows must drink a mixture of mud and water. If there is no stream of water in the pasture a trough must be provided, into which water should be conducted from a spring or by the use of a windmill.

The seeds of fruits drag heavily upon the soil, and when a tree is loaded down with fruit it may be so severely taxed as to injure its capacity for producing fruit for several seasons. The remedy is to keep the orchard clean and apply fertilizers liberally.

It is sometimes more important to cultivate fields that are idle than to permit growth to be made, as cultivation destroys weeds. The stray weeds in the fence corners are the ones that send out their seeds to stock the farm with objectionable growth next season.

The use of strong soapsuds will aid in preventing the destruction of pumpkin and melon vines by bugs. If a pound of coppers is dissolved in six gallons of hot water, and applied when the solution is cold, it will also prove beneficial. The best remedy, however, is the well-known kerosene emulsion.

Set out strawberry plants in August. Make the ground very fine, apply mixed fertilizers, harrow the soil well, so as to combine the fertilizers with the soil, and transplant the runners just after a rain. Fall plants will become well rooted and make considerable growth before winter, thus securing an early start in the spring.

It does not require much knowledge of chemistry to enable farmers to understand how to properly use fertilizers. Their experience on the farm will enable them to understand the best methods, as each farm differs from the next: A study of fertilizers will be of great advantage to the farmer who will give the matter his attention.

The proper temperature at which to churn is a question that is unsettled. The temperature depends upon conditions. The richness of the milk is a matter to be considered. Cream containing 30 per cent. of fat churns differently from that which contains only 15 per cent. As low as 50 degrees may be required for cream very rich in fat.

Straining the milk does not remove impurities. It simply separates the solid particles that may have gotten into the milk. Any substance that dissolves in the milk will go with the milk through the strainer. There is no possible mode of separating soluble filth from milk. The only remedy for pure milk is to prevent the least impurity from reaching it.

Succulent food such as silage, turnips, beets, carrots and pumpkins aid digestion by the natural juices of their cells. Dry food undergoes some changes during the process of drying, and a portion of the matter becomes indigestible, but the green and succulent food contains a large proportion of water, the whole being in a natural condition for digestion, easily soluble, and promoting the health of the animal by affording it a greater proportion of nutrition.

A cow may be on a pasture and yet secure but little green food. The size of the pasture, number of cows and growth of grass must be considered. If the cows begin to fall off in their milk it is a sure indication that something is wrong, and, unless the dairyman makes a change in the food in some manner, the flow will continue to lessen. More hay and fodder should be supplied as the pasture fails, and green food may be allowed in the shape of young fodder corn.

Experiments made for the purpose of ascertaining the cost of milk produced on the farm show that from the best cows the cost of milk is one-and-a-half cents per quart, and from the poorest the cost is four-and-a-half cents. One good cow, therefore, is equal to three poor ones, and takes up no more room than a poor cow, and requires no greater care. With these facts before farmers, it is surprising that they content themselves with the use of inferior animals when they can so easily grade up their herds by the use of pure-bred males.

It is claimed that Texas fever may be spread by cattle ticks. Adult egg-laying ticks have been scattered on pastures, and native cows on such pastures have contracted the fever in the absence of Southern cattle. Eggs of ticks have been incubated in the laboratory, and the young ticks, placed on native cattle, have produced the disease. Ticks can be prevented from attacking cattle by being removed from Southern cattle before the ticks fall to the ground and lay their eggs. The tick is the carrier of Texas fever.

A MILLION FRIENDS.—A friend in need is a friend indeed, and not less than one million people have found just such a friend in Dr. King's New Discovery for Consumption, Coughs, and Colds. If you have never used this Great Cough Medicine, one trial will convince you that it has wonderful curative powers in all diseases of Throat, Chest and Lungs. Each bottle is guaranteed to do all that is claimed or money will be refunded. Trial bottles free at Parrish's Drug stores. Large bottles 50c. and \$1.00.

ORANGE ICE.—One and one-half pints of sugar, three pints of water, the juice of eighteen medium-sized oranges and two large lemons. Boil the sugar and water thirty minutes. Strain the orange juice and add to the other mixture after it has become luke-warm. When cold freeze like ice cream.

WELL KNOWN IN TEXAS.—Mr. J. C. Boswell, one of the best known and most respected citizens of Brownwood, Texas, suffered with diarrhoea for a long time and tried many different remedies without benefit, until Chamberlain's Colic, Cholera and Diarrhoea Remedy was used; that relieved him at once. F. Potts Green.

The first day Jamie went to school he heard the teacher calling the roll and each little boy and girl promptly answering, "Present." When his name was at last called, Jamie answered politely, "I didn't bring you one today. I didn't know we had to bring a present."

For three weeks I was suffering from a severe cold in my head accompanied by a pain in the temples. Dr. King's Cream Balm was recommended to me. After only six applications of the Balm every trace of my cold was removed.—Henry C. Clark, New York Appraiser's Office.

Unnecessary.

Mrs. Henderson has a family of nine children, and the skeleton in her house is in the shape of a stocking-basket which is never empty.

With this spectre before her eyes she said playfully, in response to a question from her maid-of-all work, as to what she supposed would be the duties required in the next world: "Well, for one thing, I am quite sure we shan't have to darn stockings after 10 o'clock at night Bridget."

"Shure, an' that's thrue for you, ma'am," replied the sympathetic Bridget, "for all the pictures an' angels that I've seen was barefuted."—Youth's Companion.

School Appropriations.

Correcting False Impressions Relative Thereto.

The Harrisburg Patriot says: The five million dollars appropriation now being paid by State Treasurer Morrison to the several common school districts of the state upon warrants issued by Superintendent of Public Instruction Schaeffer are for the year ending the first Monday of June, 1893. At the last session of the legislature this amount was increased to \$5,500,000. The general impression seems to have been made by this act of the general assembly that a portion of the appropriation for the support of the common schools was specially set apart by the legislature for the purpose of purchasing text books, supplies, &c. On account of this misunderstanding frequent inquiries have been received at the department of public instruction from school directors and others interested, asking for information on the subject. These have all been answered to the effect that no part of the appropriation was specifically appropriated for such purpose. The increased appropriation will not be available until the close of the current school year, ending the first Monday of June, 1894, the whole amount of which is to be paid for the support of the public schools in the several districts and to be used as the funds raised in the several districts by local taxation for school purposes.

ITCHING AND BURNING.

SORES ALL OVER HER BODY. SUFFERING ENDLESS. DOCTOR USELESS. CURED IN 4 WEEKS BY CUTICURA.

Your most valuable Cuticura Remedies have done my little girl so much good that I feel like saying this for the benefit of those who are troubled with itching, burning sores. When I took her to the doctor the first time, he called it the Italian Itch, and said he would cure her in two weeks. When the two weeks were up, he called it eczema, and in that time she was worse than before. He doctored her for three months, and she was so bad that we did not know what to do. He did not do her any good. I saw the advertisement of Cuticura Remedies in the paper, and I said to my wife, "I am going to try them." Mind what I say, she was so thick with sores that we had to soak her clothes to take them off. Itch! there was no end to it. She had it all over her body, back, legs, arms, in between her fingers. She did not have it on her head. But after taking your Cuticura Remedies for two weeks the itch stopped, and in four weeks the sores were all gone. I enclose her portrait. I am more than pleased with your Cuticura Remedies, as they speedily cured my daughter, and if anybody asks me about your remedies, I will uphold them wherever I go. CHARLES M. GRONEL, Conshohocken, Montgomery County, Pa.

WHY SUFFER ONE MOMENT From torturing and disfiguring skin diseases, when a single application of the Cuticura Remedies will, in the great majority of cases, afford instant relief in the most agonizing of itching, burning, scaly, crusted, pimply, and blotchy skin, scalp and blood diseases, with loss of hair, and point to a speedy, permanent, and economical cure.

Sold everywhere. Price, CUTICURA, 50c; SOAP, 25c; RESOLVENT, \$1. Prepared by the PORTER DRUG AND CHEMICAL CORPORATION, Boston.

"How to Cure Skin Diseases," 64 pages, 50 illustrations, and testimonials, mailed free.

BABY'S. Skin and Scalp purified and beautified by Cuticura Soap. Absolutely pure.

PAINS AND WEAKNESS.—of females instantly relieved by that new elegant, and infallible Antidote to Pain Inflammation, and weakness, the Cuticura Anti-Pain Plaster.

Business Notices.

—All that honesty, experience and skill can do to produce a perfect pill, has been employed in making DeWitt's Little Early Risers. The result is a specific for sick headache, dizziness and constipation.—For sale at C. M. Parrish's Drug Store.

—The United States have nearly 200 active geysers.

—All the talk in the world will not convince you so quickly as one trial of DeWitt's Little Early Risers for scalds, burns, bruises, skin affections and piles.—For sale at C. M. Parrish's Drug Store.

—Glass originally came from India.

—Little vegetable health producers: DeWitt's Little Early Risers cure indigestion, disorders and regulate the stomach and bowels, which prevents headache and dizziness.—For sale at C. M. Parrish's Drug Store.

—Owl have a very acute sense of hearing.

—If you can afford to be annoyed by sick headache and constipation, don't use DeWitt's Little Early Risers for these little pills will cure them.—For sale at C. M. Parrish's Drug Store.

—Some Chinese razors are made of horse shoes.

—One word describes it—"perfection." We refer to DeWitt's White Hazel Salve, cures obstinate sores, burns skin diseases and skin affections and piles.—For sale at C. M. Parrish's Drug Store.

—Gold mines about Nevada City are the deepest and richest in the world.

—We could not improve the quality if paid double the price. DeWitt's White Hazel Salve is the best Salve that experience can produce, or that money can buy.

—The way out of it, for Australia is to set her pugilists to killing rabbits.

—Ignorance of the merits of DeWitt's Little Early Risers is a misfortune. These little pills regulate the liver, cure headache, dyspepsia, and break constipation and biliousness.—For sale at C. M. Parrish's Drug Store.

—The tall hat worn by men first appeared in France nearly five hundred years ago.

Sure Cure for Diphtheria.

G. S. Clements, of Centre Hall, Pa., puts up a medicine that is a sure cure for Diphtheria, and for sore throat it has no equal.

Pennsylvania Exhibits at the World's Fair.

Are ahead of them all, chief among them is the display of liquors manufactured in the state. It is conceded that no rye whiskeys made in the world can equal those made in Pennsylvania, more especially Silver Age, Duquesne or Bear Creek. These three brands head the list of pure ryes, and are so well known that every reputable dealer sells them. North, East, South and West they lead all others, because they are pure; because they are reliable, and because they are stimulants that strengthen and invigorate. They are sold at prices within the reach of all, and are sold upon their merits for purity and strength. Silver Age, \$1.20; Duquesne, \$1.25; Bear Creek, \$1.00, full standard quart. Ask your dealer for them; insist on having them, and if you cannot be supplied, send to Max Klein, Allegheny, Pa. Price list of all liquors sent on application. All goods packed neatly and securely. Max Klein, Allegheny, Pa. 38-23-1y.

For Ladies Only.

\$250 in gold will be given to the lady making the largest list of words from letters contained in the word "BEAUTIFUL," \$100 in gold for the second largest list, \$50 in gold for each the third and fourth largest lists, diamond ring for fifth largest list, fine lady's gold watch for sixth largest list, solid gold necklace for seventh largest list, handsome Swiss music box for eighth largest list, banquet lamp of elegant design for ninth largest list, lady's toilet case, complete, ornamented in silver, for tenth largest list. We shall give away more than one hundred other prizes in order of merit. If there shall be that number of successful contestants. If two or more lists tie the one bearing earliest postmark will receive reward. The competition is open to ladies only, and is given for the purpose of introducing in the United States Madame Le Fontaine's Parisian Beautifier, endorsed by leading singers, actresses and society belles. It is a standard preparation of exceptional purity and wonderful qualities. Every contestant must order the Parisian Beautifier, which will be sent prepaid to any address in the United States upon receipt of fifty cents (introduction price). Enclose postal notes or stamps with list of words, and address at once, THE BAZAR OF BEAUTY, NOTRE DAME ST., MONTREAL, QUEBEC, 38-23-3t.

Saddlery.

Schofield's New Harness House.

We extend a most cordial invitation to our patrons and the public, in general, to witness one of the

GRANDEST DISPLAY OF Light and Heavy Harness

ever put on the Bellefonte market, which will be made in the large room, formerly occupied by Harper Bros., on Spring street. It has been added to my factory and will be used exclusively for the sale of harness, being the first exclusive salesroom ever used in this town, as heretofore the custom has been to sell goods in the room in which they were made. This elegant room has been refitted and furnished with glass cases in which the harness can be nicely displayed and still kept away from heat and dust, the enemies of long wear in leather. Our factory now occupies a room 16x74 feet and the store 29x20 added makes it the largest establishment of its kind outside of Philadelphia and Pittsburg.

We are prepared to offer better bargains in the future than we have done in the past and we want everyone to see our goods and get prices for when you do this, out of self defense you will buy. Our profits are not large, but by selling lots of goods we can afford to live in Bellefonte. We are not indulging in idle philanthropy. It is purely business. We are not making much, but trade is growing and that is what we are interested in now. Profits will take care of themselves.

When other houses discharged their workmen during the winter they were all put to work in my factory, nevertheless the big (O) houses of this city and county would smile if we compared ourselves to them, but we do not mean to be so odious, except to vent the assertion that none of them can say, as we can say "NO ONE OWES US A CENT THAT WE CAN'T GET." This is the whole story.

The following are kept constantly on hand. 50 SETS OF LIGHT HARNESS, prices from \$8.00 to \$15.00 and upwards. LARGE STOCK OF HEAVY HARNESS per set \$25.00 and upwards. 500 HORSE COLLARS from \$1.50 to \$5.00 each, over \$100.00 worth of HARNESS OILS and AXLE GREASE.

\$400 worth of Fly Nets sold cheap. \$150 worth of whips from 15c to \$3.00 each. Horse Brushes, Curry Combs, Sponges, CHAMOIS RIDING SADDLES, LADY SIDESADDLES.

Harness Soap, Knee Dusters, at low prices. Saddlery hardware always on hand for sale. Harness Leather as low as 25c per pound. We keep everything to be found in a FIRST CLASS HARNESS STORE—no changing, over 20 years in the same room. No two shops in the same town to catch trade—NO SELLING OUT for the want of trade or prices. Four harness-makers at steady work this winter. This is our idea of protection to labor, when other houses discharged their hands, they soon found work with us.
