July Purchase of Silver.

The Treasury fails to buy the Full Quota of 4,500,000 Ounces. WASHINGTON, July 21.—For the first time since the passage of the Sherman silver law the Treasury this month failed to buy the full quota of 4,500,000 ounces of silver. The total purchase for the month was 2,334,000 ounces, leaving a shortage of 2,166,000 ounces. The amount purchased to-day was 216,000 ounces at the counter figures of \$0,700 per ounce. The two Populist members of Congress from Colorado—Messrs. Pence and Bell—were at the Treasury to-day and had an interview with Secretary Carlisle and Acting Mint Director Preston. They were in Mr. Preston's room at the time he rejected all the offers and made the counter offer of \$0.70 per ounce. Both of them were much concerned about what they claimed was an effort of the Treasury Department to "bear" the price of silver in the markets of the world. The silver men indicate a purpose to precipitate a silver discussion on the first working day of the extra session of Congress by a resolution of inquiry as to whether or not the Secretary of the Treasury has not exceeded his authority in refusing to purchase 4,500,000 ounces of silver in July, as provided by the Sherman law.

A Famous Guernsey Herd Perishes.

The destruction of ex-Vice President Low P. Morton's estates at Rhinecliff, N. Y., was an event of more than passing interest. In the fire there perished 95 Guernsey cows, several of them the finest of their kind in the world, and three bulls, one of them without his equal anywhere. The huge barn, with the cattle; the poultry houses, with 3,000 broilers; the incubators, with 3,000 eggs, 600 of which would have been hatched the day of the fire, were burned to the ground. The loss is from \$125,000 to \$150,000. Apart from the actual money loss, the destruction of the bulls, which have become famous wherever Guernseys are bred, is a bitter blow to Mr. Morton, and will be felt as a calamity to all cattle breeders, for the animals came from celebrated strains. Among the cattle lost are the great bull Midas, pronounced by many the finest in the world, the bull Saigant, almost as well known, the bull Acety, the cows Bella Lane, Midas Dam, Benfratic, the finest cow in the stable, one of the best and most typical Guernseys ever shown, and never beaten in any show for points or production, and Passager the heaviest yielder in the herd.

A Pinch of Dust.

London Hospital. The dangers that lurk unseen in the air form the subject of an essay by M. de Nansouty on "The Atmosphere of Large Towns and Micrography." He points out the increased pollution of the air in Paris from the factories worked by steam machinery, and remarks that vapors which contain sulphur are especially disastrous to the lungs, since the sulphur which they contain is transformed into sulphurous acid, and then into sulphuric acid, which falls back to the earth with the rain and fog. An analysis of dust particles reveals that a remarkable collection of diverse objects may be absorbed at every breath in the street of a large city—silic, chalk, plaster, pulverized rock, charcoal, hairs, fibers, vegetable refuse, starch, pollen cells, etc. A specimen of dust collected from furniture on the third floor of a street in Rennes containing all this and nearly 3,000 bacteria in addition. A gramme of dust (about 15 grains) in movement in the streets inclose about 130,000 bacteria. The dust of houses, then is far more dangerous. M. de Nansouty concludes that it is of incalculable importance to devote incessant attention to the number, quality and nature of those microscopic beings which surround us.

Unbusiness in Bankok.

Seen More French Gunboats Have Arrived at Koh Si-Chang. LONDON, July 31.—A dispatch to the Central News from Bangkok dated at 7 p. m., says: "The unbusiness among the people here, far from lessening, is increasing. Seven more French gunboats have arrived at Koh-si-Chang, making a total of thirteen now here. Negotiations are still going on but the progress made is not reported. The intentions of the French are awaited with fear and apprehension. "Rear Admiral Humann, commanding the French squadron, has issued a second blockade notice, to take effect three days from Saturday. He will order the British war ships Pallas and Swift, now lying off Bangkok, to go outside the blockade limits. Pavie, the French minister resident, has gone to Saigon, and Rear Admiral Humann is under directions from Paris. Unless the French government interpose quickly an attack on Bangkok seems certain. The trading community is surprised that Humann is still allowed a free hand."

Hard to Believe.

Dr. Walter C. Smith, the popular Scotch poet preacher, who has been presiding over the Free Church assembly, on one occasion tried to explain to an old lady the meaning of the scriptural expression, "Take up thy bed and walk;" by saying that the bed was simply a mat or rug easily taken up and carried away. "No, no," replied the lady. "I cannot believe that. The bed was a regular four poster. There would be no miracle in walking away with a bit of mat or rug on your back."—San Francisco Argonaut.

Nelle Grant-Sartoris' Visit.

The General's Daughter Has Not Abandoned Her London Home. NEW YORK, Aug. 5.—Mrs. Algernon Sartoris, daughter of General U. S. Grant, was one of the distinguished passengers who arrived on the American Line steamer New York to-day. Mrs. Sartoris was accompanied by her three pretty children, and is on a visit to her country residence, Cranston's Hotel, at West Point. She was met at the pier by her brother, U. S. Grant, Jr. Mrs. Sartoris declined to be interviewed, but her brother, Mr. Grant, said: "There is no truth in the report that my sister has given up her home in England and is to live permanently on this side of the Atlantic." The lady will simply visit her relatives for the first time in two years. Her children are almost "grown up," the eldest, Algernon, being 16 years of age.

Another Test of the Geary Act.

SAN FRANCISCO, July 30.—Thomas D. Riordan, attorney for the Chinese Six companies, states that in connection with Joseph Choate, of New York and other counsel he is preparing to make a second test of the constitutionality of the Geary Chinese registration law at the October session of the United States supreme court. He states that at a former hearing of the case Justice Harlan was in Paris and that it is the practice of the supreme court to consent to a reconsideration of the points involved in a decision given by other than a full bench where important constitutional questions are concerned. He also cites that Justice Blatchford, one of the five jurists who upheld the law, is dead.

Question of a Neutral Zone.

Between the French and English Possession in Asia.—Siamese Blockade to be Raised.—The Uneasiness Among the People of Bangkok is Increasing.—Seen More French Gunboats at Koh-Si-Chang.—The Intentions of French Rear Admiral With Fear and Apprehension.—Bangkok May be Attacked by the French Fleet.

LONDON, July 31.—The Standard

to-day received the following dispatch from its Paris correspondent: "Owing to the representation made to Mr. Develle, the foreign minister, by Lord Dufferin, the British ambassador to France, the question of a neutral zone between the French possession in the Siamese peninsula and British Burmah and the Shan states has been settled satisfactorily. It has been agreed that the French blockade of the Siamese coast shall be raised immediately. No confirmation of the foregoing has been received up to a late hour to-night."

What We Long For.

Cold Waves Made While You Wait.—A Big Scheme. Some of the rainmakers and citizens of Aberdeen, S. D., have formed what is to be known as the International Cold Wave Company, with a capital of \$1,000,000. The organization claims to have discovered the secret of producing cold waves. For instance, when heat running at 90 to 100 degrees drives in upon the Dakotas from the plains of Kansas or Montana, the company says it will set a counter-breeze blowing from the ice fields of the North which will dissipate the hot wave and bring a temperature of about 68 to 70 degrees Fahrenheit. The company refuses to make public any part of its secret, but offers to guarantee what it proposes to do.

Costly Railroads.

The costliest mile of railway is a mile measured on the steel portion of the Forth bridge. The length of this portion is a mile and 20 yards, and the cost of it was considerably over \$2,000,000. The most expensive railway system in the world is the "Inner Circle" line of London, which cost, including the purchase of land, from \$600,000 to nearly \$1,000,000 per mile. The last constructed mile, between the Mansion house and Aldgate, cost altogether, including "con. pensions," nearly \$2,000,000.—London Letter.

Not a Lecture After All.

"Scuse me," he said to the other passenger on the rear platform of a Michigan avenue car, "but do you use tobacco?" "Yes, sir," was the prompt reply of the man as he turned his head and kept his hands folded in front of him. Nothing more was said for 10 long minutes, and then the inquirer coolly drew a plug from his coat pocket and calmly said: "So do I. Have a chew!"—Detroit Free Press.

Sons of Siamese Twins.

Two Prominent Young Citizens of North Carolina. RALEIGH, N. C., Aug. 5.—Two perfectly formed and intelligent white men who reside in Surry County are sons of the once famous Siamese twins, Chang and Eng, who were joined at the sides by a large piece of flesh. The twins, after retiring from the show business, married and settled in Surry County. Their farms adjoined and they would spend one night at the house of Eng and the next with the family of Chang. One of their sons was a delegate to the Republican State Convention in this city last September.

Fate of a Slave Trader.

The Crew Killed and the Vessel Looted and Burned. SAN FRANCISCO, Aug. 5.—Advised by an Australian steamer state that a report has reached Sydney that a Queensland "labor" vessel, while engaged in recruiting off the coast of Malaya, Solomon Islands, was attacked and seized by the natives. The white crew was killed and the vessel first looted and then set fire to and burned to the waters edge.
