

Colleges.

THE PENNSYLVANIA STATE COLLEGE. Located in one of the most beautiful and healthful spots in the Allegheny Region; Un denominational; Open to both sexes; Tuition Free; Board and other Expenses very low. New Buildings and Equipment.

LEARNING DEPARTMENTS OF STUDY.

- 1. AGRICULTURE (Two Courses), and AGRICULTURAL CHEMISTRY; with constant illustrations on the Farm and in the Laboratory. 2. BOTANY and HORTICULTURE; theoretical and practical. Students taught original study with the microscope. 3. CHEMISTRY; with an unusually full and thorough course in the Laboratory. 4. CIVIL ENGINEERING; ELECTRICAL ENGINEERING; MECHANICAL ENGINEERING. These courses are accompanied with very extensive practical exercises in the Field, the Shop and the Laboratory. 5. HISTORY; Ancient and Modern, with original investigation. 6. INDUSTRIAL ART and DESIGN. 7. LADIES' COURSE IN LITERATURE AND SCIENCE; Two years. Ample facilities for music, vocal and instrumental. 8. LANGUAGE AND LITERATURE; Latin (optional), French, German and English (required), one or more continued through the entire course. 9. MATHEMATICS AND ASTRONOMY; pure and applied. 10. MECHANIC ARTS; combining shop work with study, three years' course; new building and equipment. 11. MENTAL, MORAL and POLITICAL SCIENCE; Constitutional Law and History, Political Economy, &c. 12. MILITARY SCIENCE; instruction theoretical and practical, including each arm of the service. 13. PREPARATORY DEPARTMENT; Two years carefully graded and thorough. Commencement Week, June 11-14, 1893. Fall Term opens Sept. 15, 1893. Examination for admission, June 10th and Sept. 13th. For Catalogue or other information, address GEO. W. ATHERTON, LL.D., President, 27 25 State College, Centre county, Pa.

Coal and Wood.

EDWARD K. RHODES, Shipping and Commission Merchant, 1-DEALER IN- ANTHRACITE, BITUMINOUS & WOODLAND. C O A L. GRAIN, CORN EARS, SHEELED CORN, OATS, STRAW and BALED HAY, BUILDERS and PLASTERS SAND, KINDLING WOOD, by the bunch or cord as may suit purchasers. Respectfully solicited the patronage of his friends and the public, at -HIS COAL YARD- near the Passenger Station. Telephone 1312. 96 18

Miscellaneous Advs.

ONE DOLLAR EVERY HOUR. Is easily earned by any one of either sex in any part of the country, who is willing to work industriously at the employment which we furnish. The labor is light and pleasant, and you run no risk whatever. We fit you out complete, so that you can give the business a trial without expense to yourself. For those willing to do a little work, this is the grandest offer made. You can work all day, or in the evening only. If you are employed, and have a few spare hours at your disposal, utilize them, and add to your income. Our business will not interfere at all. You will be amazed on the start at the rapidity and ease by which you amass dollar upon dollar, day in and day out. Even beginners are successful from the first hour. Any one can run the business—none fail. You should try nothing else until you see for yourself what you can do at the business which we offer. No capital risked. Women are grand workers; nowadays they make as much as men. They should try this business, as it is so well adapted to them. Write at once and see for yourself. Address: H. HALLETT & CO., 46-17-19 Box 880, Portland, Me.

Democratic Watchman.

Bellefonte, Pa., Oct. 20, 1893.

Why Wheat is Down.

A correspondent of the New York Sun has prepared a careful and elaborate paper on the state of the wheat acreage and market. It throws light on the question why the price of that staple is lower than it has been since 1745. In addition it tends to cheer the despondent hearts of agriculturists by the assurance that in a year or two at most the price of wheat will resume its normal rate and never again in our time drop so low.

In brief, the price of wheat is down because there is so much of it for sale; there is so much of it for sale because the production has been in advance of the world's needs. The production has been in advance of the need mainly because after our civil war an area unheard of before in history was thrown open in the United States in a few years to cultivation, and it includes some of the greatest wheat lands on the globe.

During the 15 years following 1869, 99 per cent was added to the area of our land under cultivation, and most of it was used for cereal production. Our population increased in the same period only 45 per cent. The Sun writer shows from statistics gathered abroad that increasing the world's wheat area 5 per cent beyond the proportional increase of population reduced the price of the grain 22 per cent in the British market. The growth of the world's bread eating population in the seventies required an addition to the wheat area all over the globe of 17,000,000 acres yet in that time the United States alone added 19,000,000 to the wheat acreage. Is it any wonder prices fell?

Since 1884, however, the wheat acreage relatively to population has been decreasing. It has been decreasing absolutely in the vicinity of the large cities everywhere, the farm lands there being required for market, gardening and dairy purposes. But the supply of wheat on hand in 1882 was enormous, and a year or two was required to consume the surplus. Then came colossal wheat crops in 1887-8. These carried the bread eaters on till the harvests of 1891-2. The unheard of cereal production in this country in those years, added to the great crop of Europe in 1892, swamped the world again, and it has not yet recovered. We entered on harvest the present year with an apparent reserve of 110,000,000 bushels of old wheat still on hand. But the demand will presently catch up to the supply. The Sun writer says:

Such acreage yields from American fields being hitherto unknown, it may be assumed that they will but rarely be repeated, and the world's wheat area, with average yields, being now deficient by more than 12,000,000 acres an average harvest will produce but 2,280,000,000 bushels, while the requirements are now 2,440,000,000 bushels, or at the rate of more than 29,400,000 bushels per annum—the equivalent of 2,300,000 new acres. Therefore we may expect prices to advance to a remunerative level just as soon as existing reserves shall have been consumed.

Prices having once reached such a level, a continuance of their remunerative character is practically assured by the probability that such additions as are made to the wheat bearing area in the Balkan States and South America will be more than neutralized by acreage losses in western Europe and America.

Even Blind Eyes See Its Beauty.

The Glory of the White City Has Penetrated to Least One Man's Darkness.

One man pushed another in a roller chair down the pier on which the moving sidewalk was at work. They appeared to be comrades. The man who did the pushing was noticeably and tenderly attentive. When a man is that way his attention is more noticeable than a woman's. After a while the pushed man lifted the other man from the chair and carried him up to the moving sidewalk and placed him on one of the seats. Then he put him back in the chair and pushed him under the arch of the peristyle and out into the court, where they stopped and looked, as so many thousands have stopped and looked. The pushed man stepped aside to make a little purchase for the man in the chair. One who had been watching said to the pusher:

"Your friend is an invalid. I hope what he has seen will benefit him." "He hasn't seen anything," was the sad answer. "He has been blind since he was a child, and a few years ago he became paralyzed in his limbs. But he longed to see the Fair, as he put it, and we brought him on to please him."

"From where?" "From Providence, R. I."

"Does he enjoy his visit?" "As much as I do, and I think more. It makes the Fair doubly enjoyable to me to tell him what I see, and to notice his delight. I had him in the Art Gallery yesterday and you ought to have heard him telling the people at the boarding house last night about the paintings he saw. Many of them which I had explained to him he described far more graphically than I could have done."

What strange beauty hath this Dream City which causes it to break through the curtains eyes of the blind?

Who "Hoped" For Their Happiness.

The Newly Wed—Edith did the battle-fullest thing on our reception, and I'll never forgive her.

Cousin Jane—Why, what could it be? The Newly Wed—She addressed Charles in the most pitying manner and said, "I hope you'll be happy." The way she uttered that word "hope" was positively unbearable.—Boston Transcript.

A Famous Carpet.

The Finest One of the Kind in the World Now in South Kensington Museum.

The famous carpet from the mosque at Ardebil, which attracted so much attention in 1892, has now been secured for the South Kensington Museum, and is exhibited in the Indian section. The price was more than the authorities of the museum were in a position to give for it, but through the generous assistance of Mr. A. W. Franks, Mr. E. Steinkopff, Mr. William Morris, Mr. J. E. Taylor and other gentlemen, who have supplemented the sum which the museum was prepared to give, this carpet, perhaps the finest of its kind in Europe, has been acquired for the nation. It measures 34 feet 6 inches in length and 17 feet 6 inches in breadth. The fineness of its texture may be gathered from the fact that there are 380 (hand-tied) knots to the square inch, which gives 39,000 knots in the whole carpet. The design consists of a large central medallion in pale yellow, surrounded by cartouches of various colors, symmetrically disposed on a dark blue ground, covered with floral tracery. Each of the corners is filled with a section of a large medallion similar to the one in this center, surrounded by cartouches. The large border is composed of long and circular panels alternating, with lobed outline on a brown ground covered with floral work. At the top of the carpet is a panel which bears an inscription, of which the following is a translation: "I have no refuge in the world other than thy threshold. My head has no protection other than this porchway. The work of the slave of the Holy Place, Maksudound of Kashan, in the year 942" (A. D. 1555).

The wonderful carpet and remarkable work of art, owing to its enormous size, fineness of texture, beauty of color, and splendor of design, must prove of the greatest value to carpet manufacturers and art amateurs. It is especially interesting in connection with the history of Persian carpets, as the inscription affords a clue for fixing the date and the locality of the manufacture of examples of a similar kind.

Use of Waterfalls. They Will Be Utilized in Obtaining Electricity Cheaply. Engineer Ferris, in the Review of Reviews, speaking of the future uses of electricity, says: "Within a few years every waterfall or available bit of water power will be chained and converted into electrical force. So far from all this being a distant matter I look to see it come very soon. There is absolutely no reason at this moment why cities like Buffalo, Minneapolis and St. Paul or any city that has a great water power at hand should consume a single pound of coal within their entire limits. Even with present appliances, electricity in these cities can do, and in many places that I know is doing, the work of coal not only far cheaper, but without dust, without smoke or soot." The question of local advantages in the near future will hinge on the proximity of water power. Thus he says:

"The whole problem of electricity is one of cheap generation. Now, any city or town of this country which has got a waterfall within available distance and that distance is a large one, has, so to speak, a gold mine. Water power means the minimum of cheapness in the generation of electric power. You can easily see, therefore, that any city which possesses this advantage must take the lead over any city that does not. Buffalo, for example, will absolutely double its population within five or ten years, because there the capacity of the water power is to all intents and purposes limitless."

It is probable that more Italians are employed in out-of-door manual labor in Pennsylvania than in any other State, partly because there is more of that sort of work to do here, but also because of the fact that it is here that the system of importing bands of Italian laborers under the contract system first took root. In street cleaning and pipe laying and digging as well as paving and road-making, but especially in railroad building and track repair, Italian laborers for several years have done most of the work. With retrenchment in so many directions, labor agitation and an increasing prejudice against the cheap contract system with which Italian labor has been identified, the degenerate descendants of the once almost universal culture and prowess of ancient Rome have been among the first to feel the brunt of the changed condition of affairs.

The prejudice against opals appears to be disappearing. Anyhow they are popular. There are several varieties of opal, and therefore several degrees of merit. The precious, or noble, or oriental opal is the supreme. This has all the colors; and when these colors are broken into sparkles it is then called the harlequin opal. Then comes the fire opal or girasol, with its rich red and yellow reflections—the former comes from Hungary, the latter from Mexico. The common, or semi-opal, are non-opalescent. The hydrophe, or opalus mundi, is non-transparent, but becomes so by immersion in water or any transparent fluid. The cacholong is nearly opaque, and of a bluish white color. The hyaline is colorless, pellucid, and white. The opal Jasper or wood opal, is the petrification of wood, opalescent, but without the coloring which makes the "noble" gem so precious.

Forest care is making progress in this State. The State Commission is at work, and besides, Forest Leaves describes a timber reserve of 11,900 acres in Centre county, the owners of which proposes to show by example that there is money profit in holding, protecting and restoring timber land. The Lancaster Examiner thinks that the present price of walnut timber in the rough \$80 per thousand feet, the growing of walnut trees would be the most profitable crop raising that a farmer could engage in. Just as soon as it appears that there is money in forest culture there will undoubtedly be plenty of people to engage in it.

The Greatest Menace to Forests.

The Making of Paper From Wood Causes Wholesale Destruction of Trees.

The extensive use of wood in making the cheaper grades of paper offers one of the most serious obstacles to forest preservation. In the last two or three years the growth of the wood pulp industry has been enormous, a dozen great mills each manufacturing from fifty to 300 tons of pulpa a day, having been built on the Hudson River, to feed principally on the Adirondack forests. The wood chiefly used is spruce, and the especially disastrous effects of the industry on the forests results not only from the extreme demands for the lumber, but from the fact that while the demand is especially for trees of thirty to thirty-five years' growth, the young trees are also cut. In 1881 the capacity of the pulp mills in the United States was about 72,000 tons per annum. The present capacity is 700,000 tons.

And in this remarkable growth the industry has been accompanied by these three desirable things: Increase in quantity, decrease in price, and no diminution in the compensation of labor. The sound of the axe, the bark, and the grinder is heard in twenty-two States. The neighborhood of Niagara and the Adirondacks in New York, the territories of the Kennebec, Androscoggin, and Penobscot Rivers in Maine, the Fox River Valley of Wisconsin, the hills of New Hampshire and Vermont and the natural gas belt of Indiana are the greatest pulp-producing regions of the United States. About 3,500 cords of wood are required daily to supply the demand of the mills.

How A BEAUTIFUL FLOWER was NAMED.—An old legend tells of two lovers, walking by the river Rhine. The lady begged her suitor to pluck a little pale-blue flower, growing on the bank. In doing so, he fell into the water, and was drowned; but, while sinking, he threw the flower to her, and cried: "Forget me not!" Thousands of women will never forget what Dr. Pierce's Favorite Prescription has done for them. It is prepared specially to cure those diseases from which they alone suffer, and often in silence rather than consult a physician—as prurient pains, weak back, prolapsus, and all uterine troubles. Purely vegetable, and guaranteed to give satisfaction in every case, or money refunded.

The society dude offers to his adored a set of hammered gold studs, centered with moonstones, or a choice collection of four-in-hands. These will have a showing on her tailor costume and low-cut vest front. Gloves as philopena presents are nowadays considered "tame."

ELECTRIC BITTERS.—This remedy is becoming so popular as to need no special mention. All who have used Electric Bitters sing the same song of praise.—A purer medicine does not exist and it is guaranteed to do all that is claimed. Electric Bitters will cure all diseases of the Liver and Kidneys, will remove Pimples, Boils, Salt Rheum and other affections caused by impure blood.—Will drive Malaria from the system and prevent as well as cure all Malaria fevers. For cure of Headache, Constipation and Indigestion try Electric Bitters. Entire satisfaction guaranteed, or money refunded. Price 50 cts. and \$1.00 per bottle at Parrish's Drugstore.

Several cans of earth, taken from historic spots in Philadelphia, have been sent to the Colonial Dames of San Francisco, who will plant a tree in its soil of the Revolution.

A SPECIFIC FOR CROUP.—"I consider Chamberlain's Cough Remedy a specific for croup. It is very pleasant to take, which is one of the most important requisites where a cough remedy is intended for use among children. I have known cases of croup where the system and the life of a little one was saved by the use of Chamberlain's Cough Remedy." J. J. LaGrange, druggist, Avoca, Neb 50 cent bottles for sale by F. Potts Green.

BISHOP VINCENT, of the Methodist Episcopal church, has been appointed a member of the board of university preachers at Harvard university.

BUCKLEN'S ARNICA SALVE.—The best salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblain, Corns, and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by C. M. Parrish.

The most destructive epidemic that has ever been the "black death," which appeared in the fourteenth century, and is said to have destroyed 70,000,000 of people.

The testimonials published on behalf of Hood's Sarsaparilla are as reliable and as worthy your confidence as if they came from your best and most trusted neighbor. They state only the simple facts in regard to what Hood's Sarsaparilla has done, always within truth and reason. Constipation, and all troubles with the digestive organs and the liver, are cured by Hood's Pills. Unequaled as a dinner pill.

The old fashioned dictionaries derive "luncheon" from "nuncheon," or "noon-chun"—the refreshment taken at noon when laborers desist from work to shun the sun.

I have been troubled with catarrh for ten years and have tried a number of remedies, but found no relief until I purchased a bottle of Ely's Cream Balm. I consider it the most reliable preparation for catarrh and cold in the head.—Geo. E. Crandall, P. M. Quonochontaug, R. I.

Persia is about the only country where the telegraph is not yet at home.

—If you want to be very, very well nowadays you mustn't cease your trousers with a plebeian, ordinary tailor-shop stand up crease. By no means. If you want to do the thing right, to be bang up and to do as they do "in Lunenburg, you know," the trousers should be turned inside out and then creased. By this arrangement the crease imparted is reversed, and instead of standing up is inverted and not so prominent. This idea is said to have originated in the fertile brain of the Prince of Wales.

—Mrs. Cleveland is at last enjoying the full pleasure of private domestic life at Woodley, the President's new suburban home. Though so many are anxious to get there, the White House is not a pleasant place to live in.

Medical.

PROFOUNDLY GRATEFUL FOR HELP DERIVED FROM HOOD'S SARSAPARILLA.

Symptoms of Cancer Removed—Rheumatism Cured.

"I am profoundly impressed with the medical virtues of Hood's Sarsaparilla. I was threatened with cancer, and disagreeable eruptions on my back and other places. Providentially I obtained a bottle of Hood's Sarsaparilla and by the time it was gone, the bad symptoms had nearly all disappeared. I have used four bottles, and believe it has SAVED ME FROM PREMATURE DEATH.

I am now almost 73 years of age and I work like a tiger. And I know that Hood's Sarsaparilla has had much to do with my vigor and strength. I recommended it to my wife, who had suffered so much with rheumatic troubles, as also with female weakness. In two years

HOOD'S SARSAPARILLA CURES

she has used about three bottles of Hood's Sarsaparilla, and to-day, and for the last six months, she seems like a new being." Rev. O. H. Powers, 2924 Hanover Street, Chicago, Ill.

HOOD'S PILLS are the best after-dinner, Pills assist digestion, cure headache. 25c. 38-41

DR. SCHEENCK'S

Mandrake Pills have a value as a household remedy far beyond the power of language to describe. The family can hardly be true to itself that does not keep them on hand for use in emergencies.

Is the only vegetable substitute for that dangerous "Menthol," a drug while its action as a cathartic is fully equal, it possesses none of the perilous effects. In Constipation, Mandrake acts upon the bowels without disposing them to subsequent Costiveness. No remedy acts so directly on the liver, nothing so speedily cures Sick Headache, Sour Stomach and Biliousness as these

P-I-L-L-S.

For Sale by all Druggists. Price 25 cts. per box; 3 boxes for 65 cts.; or sent by mail, postage free, on receipt of price. DR. J. H. SCHEENCK & SON, 38-14 (n) Philadelphia, Pa.

DR. SANFORD'S LIVER INVIGORATOR

TO HAVE HEALTH THE LIVER MUST BE IN ORDER. Cures thousands annually of Liver Complaints, Biliousness, Jaundice, Dyspepsia, Constipation, Malaria. More ill result from an Unhealthy Liver than any other cause. Why suffer when you can be cured? Dr. Sanford's Liver Invigorator is a celebrated family medicine.

ELY'S CREAM BALM

FOR CATARRH OF THE EYE FOR HEADACHE, HADACHE, RHEUMATISM, BRUISES, SWELLINGS, BURNS, SCALDS, AND ALL AFFECTIONS OF THE SKIN. Price 50 cts. ELY BROTHERS, 56 Warren St., New York.

THE POSITIVE CURE.

TO CONSUMPTIVES. The undersigned having been restored to health by simple means, after suffering for several years with a severe lung affection, and that disease Consumption, is anxious to make known to his fellow sufferers the means of cure. To those who desire it, he will cheerfully send (free of charge) a copy of the prescription used, which they will find a sure cure for Consumption, Asthma, Catarrh, Bronchitis and all throat and lung Maladies. He hopes all sufferers will try his remedy, as it is invaluable. Those desiring the prescription, which will cost them nothing, and may prove a blessing, will please address, Rev. EDWARD A. WILSON, Brooklyn, New York.

CANN'S KIDNEY CURE.

Cures Bright's Disease, Dropsy, Gravel, Nervousness, Heart, Urinary or Liver Diseases. Known by a tired languid feeling. Inaction of the bowels, weakness and pains in the blood, and unless cause is removed you cannot have health. Cured me over five years ago of Bright's Disease and Dropsy.—Mr. I. L. Miller, Bethlehem, Pa., 1000 other similar testimonials. Try it. Cure guaranteed. Cann's Kidney Cure Co., 12 Venango St., Philadelphia, Pa. Sold by all reliable druggists. 38-23-1y.

TO THE PUBLIC. In consequence of the similarity to the names of the Parker and Potter Hotel the proprietor of the Parker Hotel has changed the name of his hotel to COAL EXCHANGE HOTEL.

He has also repaired, repainted and otherwise improved it, and has fitted up a large and tasty parlor and reception room on the first floor. WM. PARKER, Philadelphia, Pa. 33 17

CENTRAL HOTEL, MILESBURG, PA. A. A. KOHLBECKER, Proprietor. This new and commodious Hotel, located opposite the depot, Milesburg, Centre county, has been entirely refitted, refurnished and replastered throughout, and is now second in none in the county in the character of accommodations offered the public. Its table is supplied with the best of the market affords, it contains the purest and choicest liquors, its stable has attentive hostlers, and every convenience and comfort is extended its guests. Through travelers on the railroad will find this an excellent place to lunch or procure a meal, as all trains stop there about 25 min. 34 24

WATCHMAKING—JEWELRY. F. C. RICHARD, JEWELER and OPTICIAN.—80 And dealer in CLOCKS, WATCHES, JEWELRY and SILVERWARE. Special attention given to the Making and Repairing of Watches.

IMPORTANT—If you cannot read this print distinctly by lamp or gaslight in the evening, at a distance of ten inches, your eyesight is failing, no matter what your age, and your eyes need help. Your sight can be improved and preserved if properly corrected. It is a wrong idea that spectacles should be dispensed with as long as possible. If they assist the vision, use them. There is no danger of seeing too well, so long as the print is not magnified; it should look natural size, but plain and distinct. Don't fail to call and have your eyes tested by RICE'S New System, and fitted with Combination Spectacles. They will correct and preserve the sight. For sale by F. C. RICHARD, 27-49 42 High St., opp. Arcade, Bellefonte.
