MARK TWAIN.

The most dramatic story ever written by America's greatest humorist. Like several of Mark Twain's stories, it has for its scene a steamboat town on the Mississippi River forty years ago. "Pudd'nhead Wilson," a hardheaded country lawyer, the hero of the story, furnishes much of the fun that one naturally expects to find in a work by the author of "The Innocent abroad" but he appears in quite another light in the murder trial which forms the thrilling climax of the story. The plot introduces a novel and ingenious employment of science in the detection of crime, and the science in the detection of crime, and the characters are well drawn and their every ac-tion is interesting. Sailing along the coast for some distance, he found a large bay, into which he steered and dropped anchor. Upon landing, the country was seen to be clothed with vegetation and the streams swarming with fine salmon. Trees of large growth grew in great numbers just back from the shore, and the climate was balmy and delightful.

Rejoiced over his important discovery, Biorn returned to Iceland, and communicated the news to his friend Lief. son of Eric the Red, who had founded the colony on the coast of that island. The two ambitious young men immediately enterered into an agreement to share the expense of equipping a suitable vessel, sailing to this discovered land, and bringing back whatever cargo promised to reimburse them for fit-
