Miscellaneous Advs.

\$3,000.00 --- A YEAR --- FOR THE INDUSTRIOUS. If you want work that is pleasant and profitable, send us your address immediately. We teach men and women to earn from \$5.00 per day to \$25.00 per week without having had previous experience. We furnish the employment at which they can make that amount. Nothing difficult to learn that requires much time. The work is easy, healthy, and honorable and can be done during day time or evenings, right in your own locality, wherever you live. The result of a few hours' work often equals a week's wages. We have taught thousands of both sexes and all ages, and many have laid foundations that will surely bring them riches. Some of the smartest men in this country owe their success in life to the start given them while in our employ years ago. You, reader, may do as well; try it. You cannot fail. No capital necessary. We fit you out with something that is new, solid, and sure. A book brimful of advice is free to all. Help yourself by writing for it today--not tomorrow. E. C. ALLEN & CO., Box 421, Augusta, Maine. 38-161y

Democrat Watchman.

Bellefonte, Pa., Dec. 8, 1893.

Doctor James Calder's Death.

The death of Rev. James Calder occurred at his home on State street, in Harrisburg, on last Thursday evening, after a prolonged illness. His demise removes a man who is well and honorably known in this section of the state because of his long connection with the Pennsylvania State College of which he was president for nine years.

The Harrisburg Call in speaking of his life says:

Dr. Calder was twice married, first in 1850 to Ellen Winebrenner, daughter of the Rev. John Winebrenner, who died in 1858, and secondly to Mrs. Eliza D. Murphy, daughter of the late Nicholas Reamshart, of Harrisburg, who survives him with six sons and two daughters, as follows: Frank R., of this city; James K., of Hazleton, a passenger conductor on the Shenandoah Valley railroad; Russell, an employe of the Pennsylvania Steel company; William Cary, a missionary in India; Howard L., a lawyer of that city; Mrs. Mary Weston, of Seattle, Washington; Wallace R., and Mrs. Charles Small, of this city. One son, Charles, is dead.

Rev. James Calder was born in Harrisburg in 1826, and graduated from Wesleyan University, Middletown, Conn., in 1849, joining the Philadelphia Conference of the Methodist church, and being stationed in Lancaster, in 1850 he was sent as a missionary to China; the first from this locality, and for five years was stationed at Foochow and Hongkong. Returning in 1855, he brought the first native Chinaman to this country, a youth named Ahkai, who is now one of the principal officers of the Chinese government. He attached himself to the Bethel church in 1852, with his congregation, went over to the Baptists. In 1869 he was president of the Hillsdale, Mich., college, and in 1871 was elected president of the Pennsylvania State College, near Bellefonte, remaining there until 1880, when he returned to Harrisburg. For a number of years he has been a lecturer of the State Grange, Patron of the Grange. During his life Dr. Calder was editor of the Church Advocate and assistant editor of the Farmer's Friend. He was the oldest past officer of Perseverance, No. 21, Lodge of Masons, of that city.

Will Carleton, the poet, who lectured before the Teachers' Institute one week ago, was a student during Dr. Calder's presidency of Hillsdale college, Michigan. Dr. Calder was unable to be present, but sent his regards to the poet, who appreciated, what has since proved to be the last message from his old teacher.

Good Place to Farm.

Easterner.—You say you have a farm in the West for sale, I think of going West. Is your farm in a good climate?

Westerner.—I should smile. Why, sir, whenever we have visitors, they just sit themselves right down, and don't do a thing the whole day long but write poetry about feathered songsters, and 'singing winds, and blushing posies, and celestial—"

"Yes, but is the climate adapted to farming?"

"Well, I'll tell you. We raised six hundred chickens this year, and when time came to get 'em to market, we was in a fix. The dealers wouldn't take 'em unless they was picked. Now you can see what a job that would be. Six hundred chickens to scald and pick, and only me and my wife to do it."

"Yes, but the climate—"

"That's it. Our beautiful agricultural climate was what saved us. That very day along came a cyclone, picked up them chickens, give their necks a twist, stripped every darn feather off, and landed the hull lot in the next town right in front of the market house."

Hoke Smith's Future.

The Secretary to Retire from the Practice of Law. ATLANTA, December 5.—Secretary Smith's evening paper yesterday contained the formal notice of the fact that he has decided to retire from the practice of law. This is made in connection with an announcement of a new firm, in which his brother is senior partner. This is taken here as meaning that Hoke Smith will either settle in New York after the expiration of his term in office, or will return here and enter the Senatorial race.

The story is that Smith and Gordon have split, and Smith will be a candidate to succeed Gordon. That comes from people very close to the Secretary. His brother is Senator Gordon's son-in-law, and the dissolution of partnership is believed to have some bearing on the fight.

Earthquake in Montreal.

MONTREAL, Dec. 5.—An earthquake yesterday caused great excitement, and the people were thoroughly frightened. People in large buildings all rushed into the street, expecting the buildings to come down. The ice in the canal was broken up. Sir William Dawson, of McGill college, said it was the most marked disturbance on the earth's surface in Canada since 1846. Every town in eastern Canada felt it.

Arms and Ammunition for Hawaii.

SAN FRANCISCO, December 5.—It has been learned that the steamer Australia, which sailed for Honolulu last Saturday, carried among her cargo five cases of arms and ammunition. The schooner Annie Johnson has just cleared for Honolulu with fifty cases of dynamite, billed as giant powder.

OYSTER COOKERY.—Sociologists tell us in vain that as a nutrient oysters do not take high rank; the fact remains that in spite of their 35 per cent. of water, they are universally liked.

Eaten raw they are the most nutritious. Therefore, the less they are cooked the better—indeed, they should never be made more than just hot; the longer they stay on the fire the less digestible they become.

Many prefer to cook the oyster in its own liquor as far as possible. As for spicing a blade of mace only is used by epicures. Mace seems to harmonize with the oyster aroma better than other spices. Lemon juice is frequently added, as a slight acid calls out flavor and promotes digestion.

A GOOD PLAIN STEW.

In a plain oyster stew the oysters are not best fried. Boil and skin the juice first. Rub together a little flour and butter for thickening, or you can use cracker dust alone, and add the butter afterwards. Some think that the stew is made more nourishing by adding milk to it, but others consider the oyster liquor alone far more nutritious and stimulating.

CREAM STEW.

For a more elaborate stew, cut the heads of two or three dozen oysters. Sprinkle some lemon juice over the oysters. Put the heads and the liquor on to boil in a bowl.

Add a blade of mace, two or three small pepper corns and some shreds of lemon peel shaved very thin. Boil slowly half an hour, from the time you put it on; strain; let it come to a boil again, then add a tablespoonful of butter and one of flour rubbed together. Have ready half pint of cream to add. Rub the sauce smooth, then put in the oysters. They must not boil, only heat through. Serve in a hot dish.

Of the ornaments known as cigarettes, with which every one is familiar, from seeing them displayed in milliners' show cases and on women's bonnets, Mr. Hudson, the well-known English naturalist, says: "It may be mentioned that they consist of the slender de-composed dorsal feathers of the white heron or egret; that they are the bird's nuptial ornaments and consequently are only to be obtained during the breeding season, when the death of the parent bird involves the death by starvation of the young in the nest. For the sake of the few ornamental feathers yielded by each bird killed, the white herons have been entirely exterminated in Florida, their great breeding district in North America, and the massacre has since gone on in South America, Africa, India and Australia—the birds being slaughtered by the wholesale in the heronries." According to Lord Lilford, in his "Birds of the British Islands" the thoughtless fashion for these feathers has caused the almost entire extermination of more than one species. About the cruelty of killing these birds when they are engaged in incubation and rearing their young, nothing need be said here. Doubtless it is very great, so that men so to speak in a rougher world, and are harder than women, are sicken at the very thought of it; but it is really a very small matter, scarcely worthy of mention, compared with the crime and monstrous outrage of deliberately exterminating species such as the snowy egret, the birds of paradise, and numberless others, that are being done to death. For these are not of the commoner types, universally distributed, and mostly of modest coloring, which would be greatly missed after their places, left vacant, had been occupied by others; the kinds now being destroyed cannot be replaced, not in 1000 years, nor ever; they are Nature's most brilliant living gems and give her greatest lustre.

As a matter of course the peppermint oil industry of Wayne and Pike county will be entirely ruined if the change of duty from eighty cents a pound to twenty five per cent, as proposed by the Wilson bill prevails. Evidently the peppermint oil makers fail to realize the calamity impending over their investment. They are not engaging in reinsurance, neither are they closing their abbreviated mills. All that sort of thing is left to the organs now rushing the calamity howl as revised since the silver issue was disposed of. In the meantime American peppermint oil manufacturers continue to export their product, having no fear of foreign competition. They sent away 54,987 pounds at a value of \$156,418 in 1892, and this year to date they have improved the record by running out 99,629 pounds at a value of \$267,422. What a condition of ruin this is. If they require protection in their own home market it should be merely nominal. A certain fact is the one that the sale of 99,629 pounds in foreign markets was made free of any eighty-cent duty in France, Germany and England, where the sales were carried on. What a gorgeous ruin the peppermint industry must become without competition and a demand far exceeding the supply.—Philadelphia Times.

Mrs. Tittle.—"Did you have a good time at the sewing circle this afternoon?"

Mrs. Tittle.—"No, a miserable time; it was awfully dull."

Mrs. Tittle.—"Wasn't anything said about how Mrs. Blazer has been carrying on?"

"Mrs. Tittle.—"No; she was mean enough to be there herself, and, of course, the pleasure we had looked forward to was spoiled. Strange how people can be so selfish."

Judge Duffy (to tramp No. 1)—"Where do you live?"

Tramp No. 1.—"I don't live nowhere."

Duffy (to tramp No. 2)—"And where do you live?"

Tramp No. 2.—"Two blocks above him."

If you want printing of any description the WATCHMAN office is the place to have it done.

Kitchen Mottoes.

"Pain is the prayer of a nerve for healthy blood."

"Our stomach will make what is homely, savory."

"No good digestion waits on appetite, and health on both."

"The stomach is a good servant; let his hours of repose be undisturbed; let his hours of labor be untroubled."

"Where the dinner is ill-got there is poverty, or there is indolence, or there is ignorance."

"If the palate, the janitor of the stomach, be offended, no matter what its real value, the food is useless."

"Myriads of our fellow-creatures have perished because those around them did not know how to feed them."

"There are three companions with whom you should keep on good terms; your wife, your stomach and your conscience."

Boiling Dead Chinamen.

A New Industry to Which Chicagoans Emphatically Object.

CHICAGO, Dec. 5.—The police today were looking for a law against boiling dead bodies, but could find none. Residents along Clark street, near Graceland cemetery, reported that Chinese workmen were boiling bodies in a shanty erected on a vacant lot. Officers Galle and Wate found that bodies had been boiled preparatory to shipment.

Some time ago Chinese representatives made arrangements to export bodies of their countrymen that had been buried in Graceland. In preparing them for shipment, the bodies were boiled, and this process was objected to by neighboring residents. Forty-six bodies remain to be prepared for shipment.

OUT IN A BLIZZARD.—Mr. J. P. Blazie, an extensive real estate dealer in Des Moines, Iowa, narrowly escaped one of the severest attacks of pneumonia while in the northern part of that state during a recent blizzard, says the Saturday Review. Mr. Blazie had occasion to drive several miles during the storm and was so thoroughly chilled that he was unable to get warm, and inside of an hour after his return he was threatened with a severe case of pneumonia or lung fever. Mr. Blazie sent to a t t e nearest drug store and got a bottle of Chamberlain's Cough Remedy, of which he had often heard, and took a number of large doses. He says the effect was wonderful and in a short time he was breathing quite easily. He kept on taking the medicine until the next day was able to come to Des Moines. Mr. Blazie regards his cure as simply wonderful. For sale by F. Potts Green.

House rent is rather higher in City of Mexico than in Brooklyn; kerosene is 50 cents a gallon, tea \$1.25 a pound, milk 9 to 12 cents a quart. These are the silver-standard prices, a dollar being worth about two thirds of our reckoning.

SPECIMEN CASES.—S. H. Clifford New Cassel, Wis., was troubled with Neuralgia and Rheumatism, his Stomach was disordered, his Liver was affected to an alarming degree, appetite fell away, and he was terribly reduced in flesh and strength. Three bottles of Electric Bitters cured him. Edward Shepherd, Harrisburg, Ill., had a running sore on his leg of eight years' standing. Used three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and his leg is sound and well. John Speaker, Catawba, O., had five large Fever sores on his leg, which he was unable to cure. One bottle Electric Bitters and one box Bucklen's Arnica Salve cured him entirely. Sold by Parry's Drug Store.

A plant known as wild orange, on the Island of Reunion, is said to produce a beverage equal to coffee and much cheaper. It can be used alone or mixed. It is now raised on 24,000 acres, and its name is "mussenda."

THE CAUSE OF RHEUMATISM.—An acid which exists in sour milk and cider, called lactic acid, is believed by physicians to be the cause of rheumatism. Accumulating in the blood, it attacks the fibrous tissues in the joints, and causes agonizing pains. What is needed is a remedy to neutralize the acid, and to so invigorate the kidneys and liver that all waste will be carried off. Hood's Sarsaparilla is heartily recommended by many whom it has cured of rheumatism. It possesses just the desired qualities, and so thoroughly purifies the blood as to prevent occurrence of rheumatic attacks. We suggest a trial of Hood's Sarsaparilla by all who suffer from rheumatism.

Over \$10,000,000 worth of goods were sold by the exhibitors from eight nations at the World's Fair—a factor in the business situation which has been overlooked in the complaints of dull times.

BEHOLD THE SCENES.—On the stage the tinsel, the glitter, the powder and the paint, show forth the most' but step behind the scenes, and you will behold the truth. The chorus girls are not all "fancy pants them," but rather what they paint themselves; just so with many of the flaming advertisements of so-called "catarrh cures." Get back of the scenes, and they are not cures. The real one, and the only remedy that is a cure, is Dr. Sage's Catarrh Remedy. Lift the curtain, and you will find the naked truth to be, that this Remedy is the one that cures the worst cases of Catarrh in the Head, and no mistake. It is also a remedy in all catarrhal conditions, such as Catarrhal Headache, Catarrh of the Throat, etc.

Nine of the Montana elk which were exhibited near the Cliff Dwellers at the World's Fair have been secured by Edward H. Litchfield, of Brooklyn, for his game preserve in the Adirondacks.

After using Ely's Cream Balm two months I was surprised to find that the right nostril, which was closed for over twenty years, was now open and free as the other, and can use it now as I could not do for many years. I feel very thankful.—R. H. Cressingham, 275 18th St., Brooklyn.

BLOOD WILL TELL.—Of course it will—that is if it is good, healthy blood. It will glow in the cheek, and tell the story of perfect physical health. If it does not, if the complexion is devoid of color, the muscles weak and flaccid, something is wrong, and something ought to be done about it at once, for in such cases delays are dangerous. For torpid liver, "biliousness," and the thousand and one ills to which these conditions of the system lead, there is no remedy in the world equal to Dr. Pierce's Golden Medical Discovery. Boils, pimples, eruptions, scrofulous sores, salt-rheum, and all kindred diseases are cured by it.

"How many lodges did you say your husband belonged to?" she suddenly asked. "Fifteen." "Mercy on me; but think of a man being out fifteen nights a week! I am really glad that I'm a widow."—Telegram.

BUCKLEN'S ARNICA SALVE.—The best salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chillsblain, Corns, and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by C. M. Parrish.

CATARRH IN THE HEAD. —CURED BY— HOOD'S SARSAPARILLA Indigestion and Sick Headaches Also Relieved. FEELS LIKE A NEW WOMAN.

Catarrh is a constitutional disease and requires a constitutional remedy like Hood's Sarsaparilla, which, working through the blood permanently cures Catarrh by eradicating the impurity which causes and promotes the disease. Thousands of people testify to the success of Hood's Sarsaparilla as a remedy for Catarrh when other preparations had failed. Hood's Sarsaparilla also builds up the whole system, and makes you feel renewed in health and strength.

"Philadelphia, Pa., May 23, 1893. "C. I. Hood & Co., Lowell, Mass.: "I have been taking Hood's Sarsaparilla since last December for indigestion, catarrh and sick headache, and it has made me feel like a new woman. When I commenced taking it I did not have any appetite, and for years I had to be very careful about my diet. Now I can eat any kind of food without any distress afterwards. I had a severe case of catarrh, and this with my indigestion brought on frequent attacks of sick headache. Since taking several bottles of Hood's Sarsaparilla ALL IS CHANGED. It has cured me of catarrh and my other troubles. I hope every one similarly afflicted will try Hood's Sarsaparilla and be convinced HOOD'S SARSAPARILLA CURES OF its merit. I have recommended Hood's Sarsaparilla to many friends with beneficial results." Mrs. ELA JONSSON, 1215 Alder St.

HOOD'S PILLS become the favorite cathartic with every one who tries them. 25c. per box. 38-36.

DR. SCHENCK'S Mandrake Pills have a value as a household remedy for indigestion, catarrh and sick headache, and it has made me feel like a new woman. When I commenced taking it I did not have any appetite, and for years I had to be very careful about my diet. Now I can eat any kind of food without any distress afterwards. I had a severe case of catarrh, and this with my indigestion brought on frequent attacks of sick headache. Since taking several bottles of Hood's Sarsaparilla ALL IS CHANGED. It has cured me of catarrh and my other troubles. I hope every one similarly afflicted will try Hood's Sarsaparilla and be convinced HOOD'S SARSAPARILLA CURES OF its merit. I have recommended Hood's Sarsaparilla to many friends with beneficial results." Mrs. ELA JONSSON, 1215 Alder St.

MANDRAKE. Is the only vegetable substitute for that dangerous mineral, Mercury, and while its action as a cathartic is fully equal, it possesses none of the peridious effects. In Constipation, Mandrake acts upon the bowels without disturbing them to subsequent Constipation. No remedy acts so directly on the liver, nothing so speedily cures Sick Headache, Sour Stomach and Biliousness as these.

P-I-I-I-S. For Sale by all Druggists. Price 25c. per box; 3 boxes for 65c.; or sent by mail, postage free, on receipt of price. DR. J. H. SCHENCK & SON, Philadelphia, Pa. 38-14-1f (n r)

Its table is supplied with the best of the market, and it contains the purest and choicest liquors; it stable has attentive hostlers, and every convenience and comfort is extended to its guests. Through travelers on the railroad will find in this an excellent place to lunch or procure a meal, as all trains stop there about 25 minutes. 24

Watchmaking--Jewelry.

F. C. RICHARD, JEWELER and OPTICIAN, And dealer in CLOCKS, WATCHES, and SILVERWARE. Special attention given to the Making and Repairing of Watches.

IMPORTANT.—If you cannot read this print distinctly by lamp or gaslight in the evening, at a distance of ten inches, your eyesight is failing, no matter what your age, and your eyes need help. Your sight can be improved and preserved if properly corrected. It is a wrong idea that spectacles should be dispensed with as long as possible. If they assist the weaker eye, there is no danger of seeing too well, so long as the print is not magnified; it will look natural size, but plain and distinct. Don't fail to call and have your eyes tested by King's New System, and fitted with Combination spectacles. They will correct and preserve the sight. For sale by F. C. RICHARD, 27 40 High St., opp. Arcade, Bellefonte.
