--- Two years ago there was a foreigner in Bellefonte who made a profession of cleaning furs. He was very out-spoken in his endorsement of the ideas of Anarchism, so when the news came that a man named Vaillant had thrown a bomb into the French chamit was the man who was here. An investigation has disclosed the fact that the description of our Vaillant and the does not tally.

Doings AT Court,-When the WATCHMAN went to press last week the jury was out on the case of Lot. W. Kimport vs M. G. Brown to recover damages for lumber cut on his land by defendant. The ownership of the land was in dispute until the court decided it to be the property of plaintiff whereupon he immediately brought suit for from Chicago. Pretty fast time. damages. The jury awarded him \$97 .-

The next case taken up was that of Jno. C. Motz vs Harvey Bishop, to recover damages for the burning of a saw mill. It appears that the plaintiff owned a mill and a lumber yard near will bring many visitors and teachers to Coburn, which was on the route of a tram road which led to a lumber opera--Mr. Samuel H. Orris, of Miles- tion' which Bishop had further in the mountains. A dinkey engine hauled the logs out from Bishop's place to the wharf on the L. & T. rail-road. One day this engine stopped to take water near the Motz mill and sparks from it set fire to an old stable near by; from it they spread to the lumber, which with the mill, was entirely destroyed. Plaintiff claimed \$5,000 and was awarded

\$100. His attorneys moved for a new trial. Foster Fannon and Robert Brennan vs D. R. Thomas. This case grew out of a horse trade between John Rishel and Fannon. Rishel traded a stallion for an old mare which he found out afterwards would balk and of course wanted Fannon to take her back which he would not do. So one evening the wily John returned the mare, "swiped" his stud and hurried home. Later he sold the horse to D. R. Thomas and Fannon hearing this got out a writ of replevin to which Thomas responded by giving bonds for twice the value of the horse. Fannon would not take his old mare back, but carried the case to court and received a verdict of \$160 which

Rishel will have to pay as he guaranteed the sale of the stallion to Thomas, Danville asylum for insane vs the Bellefonte overseers of the poor. Ver-

> The case now trying is that of Lyman Korman vs A. G. Morris to recover damages for the loss of his sight while working for defendant at his stone quarries in Armor's gap. The prosecution is basing its claim on the fact that a faulty fuse caused a premature explosion by which Korman lost his sight.

THE BURGLAR, -First a page in Congress, then a railroad man, then an offiseveral bad boys in this, place caused cial in the Knights of Labor, then a quite a disturbance on Saturday night, student of law, actor, journalist, lecturer and playwright. This in brief covers the workaday history of Augustus Thomas, author of "The Burglar"-one of the most successful American plays, financially, of the time and an artistic triumph of the first magnitude.

When Fritz Emmet was playing to the children of North St. Louis "Gus," a light-haired tot, was his warmest admirer, and in playing second to Joe he got his first ideas of acting. At eleven he was a page in Congress and a pet of General Ben Butler. Half a dozen years later he worked at railroading in St. Louis, and at nineteen was master workman of Assembly No. 9, Missouri. His reputation as the youngest master workman in America gave him much fame. He joined the Dickson Sketch club in St. Louis, wrote the play "Editha's elected Captain of the team for next Burglar," played the burglar through the country, and then brought out 'Alone," "Combustion." "After Thoughts," "A Leaf from the Woods," and "A Man of the World." He studied law, went into newspaper work, became a successful reporter, "corresponded" the Blaine illness at Muskogee, I. T., from a cow pony's back, and delivered humorous and serious charcoal lectures through the South and West. Two years ago he settled in New York, and has since written plays for Manager A. M. Palmer. The Burglar will be presented at Gar-

man's opera house tomorrow evening. MARRIED A QUARTER OF A CENTURY. -This evening December 15th, Mr. and Mrs. R. A. HELP THE LOGAN FIREMEN .-- It is well known to the citizens of Bellefonte that the fire companies of this town are practically self supporting, for while they each get a nominal appropriation from council they are forced to make up the large proportion of their expenses in whatever way they can. It will be remembered also that they receive nothing whatever for their services and we need not tell our readers how cheerfully and faithfully they have been rendered.

That we have a progressive fire department everyone is fully conversant and that progression which has given us two fine steam engines, a team of handsome horses, and all the other perquisites necessary to good service, has been due solely to the untiring efforts of the firemen themselves, who are for the most part men who can not easily afford personal outlays for such a purpose.

Now it has been customary for the firemen to ask the aid of our people in various ways and the Logans intend asking assistance to help them carry Monday and Tuesday night performan- on a fair during the holiday week, ces was not near so large as it should They want to begin on Saturday December 22nd and continue for one week the best talent that could be procured in until Saturday, December 29th. NEW RAIL-ROAD CONNECTIONS. -Most important and significant piece of railroad construction in the United States at present is that which will next spring connect New Haven, on the Pittsburg and Lake Erie, with Clearfield, on the Beech Creek road.

The Beech Creek road is now operated to Mahaffy, twenty five miles beyond Clearfield. There now remains but twenty-five miles of track to connect the Pittsburg and Lake Erie and Beech Creek railroads. Both roads are owned by the Vanderbilts. When the track is completed it will give the Vanderbilts access to some of the richest coal regions in Pennsylvania. More than that, it will give them a new through freight and passenger route from Chicago via I for sixteen days are on sale at Railroad of Pa. offices. Local ets can also be had at all ticket

of less than 1,000 miles, almost exactly the present mileage of the Lake Shore and New York Central via Buffalo. By using the more direct and northern lines of the Reading and Lehigh Valley the mileage can be reduced to almost exactly the present mileage of the Pennsylvania between Chicago and New York. This plan will be carried out in its entirety as early as possible next spring .-- Philipsburg Ledger.

OF INTEREST TO THE NATIONAL GUARD. - Representatives of the Gettysburg land association were in Harrisburg recently to confer with Adjutant General Greenland on the selection of a site for the division encampment of the National Guard. It is understood that the level open space across which Pickett made his charge will be selected. The division encampment next year takes the place of the one that would have been held this year, but which was turned into regimental camps, owing to the breaking up of the regular camps in 1892 by the Homestead affair. General Greenland says the guard was never in bet ter condition, and there is no intention at present of disbanding any companies to make room for others, nor of forming a new artillery company .- Ex.
