

Colleges.

THE PENNSYLVANIA STATE COLLEGE.

Located in one of the most beautiful and Healthful Spots in the Allegheny Region; Undenominational; Open to Both Sexes; Tuition Free; Board and other Expenses very low. New Buildings and Equipment.

LEADING DEPARTMENTS OF STUDY.

- 1. AGRICULTURE (Two Courses), and AGRICULTURAL CHEMISTRY; with constant illustrations on the Farm and in the Laboratory.
2. BOTANY AND HORTICULTURE; the practical and theoretical.
3. CHEMISTRY; with an unusually full and thorough course in the laboratory.
4. CIVIL ENGINEERING; ELECTRICAL ENGINEERING; MECHANICAL ENGINEERING. These courses are accompanied with very extensive practical exercises in the Field, the Shop and the Laboratory.
5. HISTORY; Ancient and Modern, with original investigation.
6. INDUSTRIAL ART AND DESIGN.
7. LADIES' COURSE IN LITERATURE AND SCIENCE; Two years. Ample facilities for music, vocal and instrumental.
8. LANGUAGE AND LITERATURE; Latin (optional), French, German and English (required), one or more continued through the entire course.
9. MATHEMATICS AND ASTRONOMY; pure and applied.
10. MECHANICAL ARTS; combining shop work with study, three years' course; new building and equipment.
11. MENTAL, MORAL AND POLITICAL SCIENCE; Constitutional Law and History, Political Economy, &c.
12. MILITARY SCIENCE; instruction theoretical and practical, including each arm of the service.
13. PREPARATORY DEPARTMENT; Two years carefully graded and thorough. Commencement Week, June 11-14, 1893. Fall Term opens Sept. 13, 1893. Examination for admission, June 14th and Sept. 13th. For Catalogue or other information, address GEO. W. ATHERTON, LL.D., State College, Centre county, Pa.

Coal and Wood.

EDWARD K. RHOADS, Shipping and Commission Merchant, -DEALER IN- ANTHRACITE, BITUMINOUS & WOODLAND

GRAIN, CORN EARS, SHELLED CORN, OATS, STRAW and BALED HAY, BUILDERS' and PLASTER'S SAND, KINDLING WOOD,

By the bunch or cord as may suit purchasers. Respectfully solicits the patronage of his friends and the public, at -HIS COAL YARD- near the Passenger Station. Telephone 1312. 36 18

Miscellaneous Advs.

\$3,000.00 - - - A YEAR - - - FOR THE INDUSTRIOUS. If you want work that is pleasant and profitable, send us your address immediately. We teach men and women a how to earn from \$5.00 per day to \$5.00 per year without having had previous experience, and furnish the employment at which they can make that amount. Nothing difficult to learn or that requires much time. The work is easy, healthy, and honorable and can be done during daytime or evenings, right in your own locality, wherever you live. The result of a few hours work often equals a week's wages. We have taught thousands of both sexes and all ages, and many have laid foundations that will surely bring them riches. Some of the smartest men in this country owe their success in life to the start given them while in our employ here ago. You, reader, may do as well; try it. You cannot fail. No capital necessary. We fit you out with everything that is new, solid, and sure. A book brimful of advice is free to all. Help yourself by writing for it to-day - not tomorrow. E. C. ALLEN & CO., Box 429, Augusta, Maine. 38-46-1y

Webster's International Dictionary.

It also gives the often desired information concerning eminent persons; facts concerning the countries, cities, towns, and natural features of the globe; particulars concerning noted fictitious persons and places; translation of foreign quotations, words, and proverbs; etc., etc. THIS WORK IS INVARIABLE in the household, and to the teacher, scholar, professional man, and self-educator. Sold by All Booksellers. G. & C. MERRIAM CO. WEBSTER'S Publishers, Springfield, Mass. INTERNATIONAL DICTIONARY. Do not buy cheap photographic reprints of ancient editions. Send for free prospectus. 38-48-3m

Insurance.

J. C. WEAVER, GENERAL INSURANCE Agent, Bellefonte, Pa. Policies written in Standard Cash Companies at lowest rates. Indemnity against Fire, Lightning, Tornadoes, Cyclone, and wind storm. Office between Reynolds' Bank and Garman's Hotel. 34 12 1y

Geo. L. Potter & Co., General Insurance Agents.

Represent the best companies, and write policies in Mutual and Stock Companies at reasonable rates. Office in Furst's building, opp. the Court House 22 5

Democratic Watchman.

Bellefonte, Pa., Feb. 2, 1894. Canceled Postage Stamps. Many Are Sent to Germany and Are Used in Decorating and in Papering Rooms.

This country contributes some thousand dollars' worth of material yearly to the promotion of a fad long prevailing in Germany. The rage for collecting postage stamps, common enough here, is much more widespread in Germany, and for some time past collectors have been using cancelled stamps for decorative purposes. Millions upon millions of stamps are used annually in Germany to paper walls. A room of moderate size may be papered completely with 100,000 stamps of the ordinary size. Persons who indulge in this fancy exercise great ingenuity in the arrangement of the stamps, and remarkable color effects may be produced by tasteful combinations. When the stamps have been affixed to the walls of a room, a tedious piece of work, the whole is varnished, in order to protect the papering from damage.

Stamps and parts of stamps are used in decorating tables and cabinets. Those who do this sort of decoration laboriously cut out the head of Washington from the current two-cent stamp and paste the vignettes by the hundred upon the table or cabinet to be decorated. Then thousands of the tiny figures "42" are cut from the lower corner of the same stamp and disposed so as to form a border about the repeated head of Washington. Scores of other designs are treated in like fashion, and stamps of various colors are arranged in accordance with the taste of the decorator.

One man in New York, not himself a professional dealer in stamps, sends nearly 25,000,000 stamps per year to a dealer in Germany. The same dealer has an agent in Baltimore who sends him vasty larger quantities. They are sent to the agent from all parts of the east. Children in search of pocket money, women in need of pin money, Sunday schools, and charities of one sort or another collect and send the stamps to the agents in batches of 10,000, 20,000, 50,000 or 100,000. The usual price is 10 cents per thousand, but the red 2-cent stamps fetch less because they are easily obtainable, and also because their dye is not well fixed. The Columbia stamps of small denomination fetch 30 cents per thousand. Rare stamps fetch more, of course, but the German dealer makes no special effort to obtain such stamps here. Many other dealers in Germany have long been buying large quantities of stamps in the United States, but as some failed to pay for their purchases it is now a little difficult to obtain large quantities save through resident agents. The craze for stamp decorations has as yet made small headway in this country, though at least one collector in New York is making ready to paper his room with stamps.

Fishermen in Distress.

Perch and Lake Herring Are Scarce in Chicago. The local fishermen, who depend on getting their living from Lake Michigan, are experiencing a season of hard luck this winter. At this time in ordinary years they make good catches and anywhere from 20 to 50 tons of perch and lake herring are placed on the Chicago market every week by the fishermen resident within the city. Ordinarily these fish sell at wholesale at from 4 to 6 cents and retail at 9 to 12 cents a pound. This winter, however, with mild weather, little or no ice, and few storms to contend with the catches are so small as to fall short of even paying for bait.

All the fishermen tell the same story: Minnows are plenty and cheap, the weather is all right, and there is no ice to prevent getting out and in, but the fish schools cannot be found. Some of the men have repeatedly gone out light ten and twelve miles and taken less than ten pounds of fish for a trip. "Long Frank" and Phil Kagel, two of the most expert and generally successful fishermen in the city, recently put out several miles of lines with 12,000 hooks at points from six to ten miles off shore, and their entire catch was twenty-two pounds of fish. Where the fish, usually plentiful in this vicinity at this time of the year, have gone is a mystery to all the fishermen. Many of the men, who, with their families, are dependent on fishing for a living are destitute. Meanwhile Chicago's supply of lake fish is shipped in from northern points and the price is much higher than in previous years. -Chicago Paper.

Expenses of the Vatican.

Pope Leo Unjustly Accused of Being Miserly. The expenses of the Vatican amount annually to more than 7,000,000 francs. They are regulated as follows: For the personal wants of the Pope, 500,000 francs; for the cardinals, 700,000; for poor diseases, 400,000; administration of the Vatican, 1,800,000; Secretary of State, 1,000,000; employes and abbates, 1,500,000; schools and poor, 1,200,000. The cardinals at Rome live at the expense of the Pope. The income of each from this source is at least 22,000 francs. The Secretary of State is charged with upholding relations with foreign Governments by the mediation of nuncios. The four most important - Paris, Vienna, Madrid and Lisbon - each receive an allowance of 60,000 francs a year.

The last jubilee of Pope Leo XIII brought to the Vatican 3,000,000 francs. At the first, celebrated five years ago, 12,000,000 francs were received. In the course of five years the Pope has introduced a number of economies in the different branches of the Vatican service and for that reason he has been called miserly. This accusation is not merited; the economies became necessary in a State whose expenses are considerable, and whose revenues continue to diminish.

Constance Fenimore Woolson.

News was received in New York on last Wednesday of the death, in Venice, Italy, of Miss Constance Fenimore Woolson, the well-known novelist. She was born in Claremont, N. H., in 1848. Her father was Charles Jarvis Woolson, and her mother, Miss Pomeroy, before her marriage, a niece of James Fenimore Cooper, the novelist. Her parents removed while she was still very young to Cleveland, Ohio, where her father became one of the pioneers in the western iron foundry industry. He was a man of education, and in his youth had been engaged in newspaper work, at one time being the owner of the New England Palladium, of Boston. Miss Woolson was educated at a seminary in Cleveland, and afterward at a French school in New York city. Miss Woolson and her father, when the latter's health began to fail, were noted in Cleveland for the long excursions they made through Ohio and the neighboring states in their family carriage, wherever anything quaint or picturesque was to be found. Several of Miss Woolson's stories are located in such spots. On the death of her father, in 1869, Miss Woolson's literary work, some of which had been written previously, began to appear in the periodicals, and soon attracted the attention of the public. Some of her earliest writings were "Castle Nowhere," which appeared in 1875; "Rodman, the Keeper," in 1880; "Anne," in 1882; "For the Major," in 1883.

In 1873 Miss Woolson and her mother took up their residence in the south, spending the winters in Florida, and rarely coming further north than the Sulphur Springs of Virginia. In 1879 Mrs. Woolson died, and then Miss Woolson, her sister and her niece, went to Europe to live, at first in England, and later mainly in Italy. Her later publications have been "East Angels," in 1886, "Jupiter Lights," 1889, and "Horace Chase," 1893.

Melting Iron From The Ore.

Iron-making is a kind of cooking on a huge scale. The earthly impurities in the "ore" are melted out from iron ore; the necessary carbon must then be properly mixed in from the fuel, or the unnecessary carbon burned out. This is of manufacture. A wrought-iron bar or plate is always obtained from a puddle ball, an aggregation of grains of iron in a pasty, semi-fused condition, interspersed with a greater or less amount of cinder or slag. Under the powerful action of the rolls the grains are welded together, and a large part of the cinder is squeezed out, but enough remains interspersed between the iron granules to prevent them from welding thoroughly and forming a homogeneous mass. The welded lumps elongate under the process of rolling, and the resulting bar resembles a bunch of iron fibres or sinews with minute particles of slag interspersed here and there. Such iron varies in resistance according to whether the power is applied with or against the fibre. Steel is the result of a fusing process. It may be crucible, Bessemer, or open-hearth steel, but in all cases it has been cast from a thoroughly melted and fluid state into an ingot mould, where it solidifies and is ready for subsequent treatment, such as hammering or rolling. The slag being lighter than the steel, it rises on top of the melted bath, and does not mingle with the metal, which remains clean and unobstructed, and, after being cast in the mould, cools into a crystalline homogeneous mass in which no amount of rolling can develop a fibre. Thus steel possesses a structure more regular and compact than wrought iron. Its resistance to strains and stresses is more equal in all directions, and its adaptability to structural use is vastly increased. -From "A Bar of Iron," edited by R. R. Bowker, in Harper's Magazine for February.

Balm of Gilead.

The real balm of Gilead is the dried juice of a low shrub which grows in Syria. It is very valuable and scarce, for the amount of balm yielded by one shrub never exceeded 60 drops a day. According to Josephus, the balm or Balsam of Gilead was one of the presents given by the queen of Sheba to King Solomon. The ancient Jewish physicians prescribed it evidently for dyspepsia and melancholia.

The friends (who are legion) of Editor George W. Childs have reason to fear the worst result of his present ill-health. As usual in such cases, the bulletins are framed so as to put the best possible light on his critical condition, but reading between the lines discloses his most dangerous illness. Mr. Childs has long been one of the notable figures in American semi-public life, and his return to health and vigor will be joyous news to thousands of people.

There are only about twenty-five sailmakers on the active list of the United States, most of them appointed before 1855, and nearly all now stationed at navy yards and receiving ships. The sailmaker, with his needles and his tailor-like skill, is classed as an artificer, and his pay is from \$35 to \$40 per month.

There were 33,136 locomotives engaged in hauling passengers and freight over the railways of this country last year; 8848 in hauling passenger-trains alone. To transport the passenger traffic of the country 28,875 cars were in operation, while for the conveyance of freight nearly a million cars were required.

Two French scientists say that a current of electricity does not always kill when it appears to do so. It simply produces an appearance of death, from which the subject may be restored by artificial respiration.

A Cleveland, Ohio, reporter has been interviewing the hardware dealers and finds that there is a decided increase in the sale of fire arms. That at least 50 per cent. of those carrying anything of value go armed. -Mrs. Shopper-Why, all these toys are old. Shopkeeper-Yes, madam, but then you know most of the babies are new.

The Blue Lakes.

Three Bottles of Fresh Water That Are Never Frozen Over.

About 12 miles northwest from the town of Upper Lake's California, is a series of waters known as Blue Lakes three in all--surrounded by spurs of the coast range that tower 1000 feet over them. These lakes are steel blue in color and never freeze. The upper lake is nearly two miles in length and a half a mile in width in the widest place. The middle lake is about half a mile long, and half that distance in width; and the lower one is less than half the size of the nearest neighbor. The upper lake is nearly 5000 feet deep in places and all of them abound in trout. It is a hard drive over St. Helena Mountain to reach these lakes, nearly 60 miles from Calistoga, the nearest railway point. But when reached the tourist is charmed by the beauty and loveliness. The mountains stand up like sentinels over this trio of cold blue waters, and all is as quiet as if it were removed from the world.

"Look me in the face! My name is 'Might-have-been!' I am also called 'No-more,' 'Farewell!' The poet who wrote the above, must have been in the last stages of consumption. Perhaps he had only learned, for the first time, that if he had taken Dr. Pierce's Golden Medical Discovery in his earlier illness, he would never have reached his present hopeless condition! What can be more sad than a keen realization of what 'might have been?' Physicians now admit that consumption is simply serf-punishment in the blood attacking the lung-tissues. It is never safe to allow the blood to remain impure, and it is especially reckless, when such a pleasant, harmless remedy as Dr. Pierce's Golden Medical Discovery will drive every taint of serofula or impurity from the system, causing a current of healthy, rejuvenating blood to leap through the veins.

OLD VIRGINIA LOAF BREAD.-Boil one large Irish potato until done, peel and mash fine, add a little cold water to soften it, stir into it a teaspoonful of brown sugar, a tablespoonful of lard and three tablespoonfuls of hop yeast. Mix all the ingredients thoroughly, and put the sponge in a close jar, cover, and let stand several hours to rise. Sift into the tray three pintz of flour, to which add a spoonful of salt, then pour the sponge in, with enough cold water to work it stiff dough; knead until smooth, and let it stand overnight to rise. In the morning work in flour enough to keep from sticking to the hands. Allow it to rise one hour, and bake.

SPECIMEN CASES.-S. H. Clifford New Cassel, Wis., was troubled with Neuralgia and Rheumatism, his Stomach was disordered, his Liver was affected to an alarming degree, appetite fell away, and he was terribly reduced in flesh and strength. Three bottles of Electric Bitters cured him. Edward Shepherd, Harrisburg, Ill., had a running sore on his leg of eight years' standing. Used three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and his leg is sound and well. John Specker, Catawba, O., had five large Fever sores on his leg, doctors said he was incurable. One bottle Electric Bitters and one box Bucklen's Arnica Salve cured him entirely sold by Parrish's Drug store.

The reconciliation between Bismarck and his sovereign excited no joy in France. It was an event that Frenchmen would rather have seen indefinitely postponed.

Mr. Albert Favorite, of Arkansas City, Kan., wishes to give our readers the benefit of his experience with colds. He says: "I contracted a cold nearly last spring that settled on my lungs, and had hardly recovered from it when I caught another that hung on all summer and left me with a hacking cough which I thought I never would get rid of. I had used Chamberlain's Cough Remedy some fourteen years ago with much success, and concluded to try it again. When I had got through with one bottle my cough had left me, and I have not suffered with a cough or cold since. I have recommended it to others, and all speak well of it." 50 cent bottles for sale by F. Potts Green.

The peculiar old city of Iquique, Bolivia, should be the Mecca of Melbourne and government rain makers. No man ever saw a rain storm in that place.

Hood's Cures. In saying that Hood's Sarsaparilla cures, its proprietors make no idle or extravagant claim. Statements from thousands of reliable people of what Hood's Sarsaparilla has done for them, conclusively prove the fact--Hood's Sarsaparilla cures. Hood's Pills act especially upon the liver, routing it from torpidity to its natural duties, cure constipation and assist digestion.

Texas is a big and still a roomy State. Of its 250 counties 26 have less than 100 inhabitants; 37 others have less than 1,000; and only 81 have over 1,000.

What Dr. Bull's Cough Syrup has done for others for nearly two generations it will do for you. If you will try it at once you will be convinced that it is the best family medicine, and you will never be without it.

The firemen of Walla Walla, Wash., have elected as "honorary members" the firemen who perished in the cold storage fire in Chicago.

The attention of base-ball players who receive wounds of one kind or another every day, from bat or ball, is directed to the fact, that Salvation Oil is the best application in use for the cure of cuts, bruises and sprains. 25 cents.

London has 271 public parks, containing 17,876 acres of ground.

The Income Tax and Whisky.

WASHINGTON, January 24.-The report of Mr. McMillin, which accompanied the internal revenue bill, deals largely with the two subjects--income tax and whisky. Regarding the former, the report says that the government now collects annually from four to five hundred millions of dollars, less than two per cent of which is paid by the wealth of the country. The taxes are laid, not upon what the people possess, but upon what they consume. This being the case, the report continues, it has seemed good to the committee that the earnings of corporations, after deducting expenses and annual incomes in excess of \$4,000, should be subjected to a tax which will produce an estimated revenue of thirty millions of dollars. Such a tax, the committee believe can be most easily and economically collected of all that have been suggested. It will require fewer additional employes and according to statistics furnished by the Treasury department, will cost but 1.6 per cent, while other revenue taxes cost 2.6 per cent.

Discussed Milk.

HARRISBURG, January 24.-At the afternoon session of the state board of agriculture, the subject of "Milk Inspection and Milk Standards" was discussed in all phases by Dr. Henry Leffman, of Philadelphia; Dr. Benjamin Lee, secretary of the state board of health; George Abbott, of Philadelphia, and Captain M. A. Slack, of Bucks. This evening Professor J. T. Rothrock, the state forestry commissioner, delivered an illustrated address on "The Present Relation of Forestry to the States." A reception was given the members of the board and distinguished visitors at the executive mansion from 9 to 10 o'clock by Governor and Mrs. Pattison.

Constantinople has 1,000,000 people, who are kept in order by 1000 policemen. In 1890 only 3000 arrests were made; but fifty were for drunkenness.

Medical.

NOTHING TO BUILD ON, IN A HOPELESS CONDITION. Catarrhal Neuralgia, almost Paralytic, Cured by Hood's.

"Easton, N. H., January 17, 1893. "C. I. Hood & Co., Lowell, Mass. "I have taken five bottles of Hood's Sarsaparilla and am glad to tell the great good it has done me. Two years ago I was taken sick with catarrhal neuralgia and a complication of diseases, including

NERVOUS PROSTRATION.

I had four doctors here and then went to Boston, where I was treated by two physicians. They all said there was no help for me. I was run down so low there was nothing to build on. They said I had catarrh of the bladder. I had such light feelings in my head I could hardly walk around the house. My throat came near being paralyzed, and it was with the greatest difficulty I could swallow. I became discouraged, but decided to try again. I am thankful I did. When I commenced taking it I

HOOD'S SARSAPARILLA CURES weighed 98 pounds; now I weigh 130 pounds. I could not stand on my feet long enough to wash my dishes; now I can do all my work, washing included, for five in the family. Everyone exclaims when they see me, HOW WELL YOU ARE LOOKING. When I see anyone sick I always advise the use of Hood's Sarsaparilla. I cannot sound its praise enough." Mrs. E. E. Brown.

HOOD'S PILLS cure all liver ills, biliousness, jaundice, indigestion, sick headache, &c. 25c.

DR. SCHENCK'S

Mandrake Pills have a value as a household remedy far beyond the power of language to describe. The family can hardly be true to itself that does not keep them on hand for use in emergencies.

MANDRAKE

Is the only vegetable substitute for that dangerous mineral, Mercury, and while its action as a curative is fully equal, it possesses none of the perilous effects. In Constipation. Mandrake acts so directly on the liver, nothing so speedily cures Sick Headaches, Biliousness and Biliousness as these. -P-I-L-I-S-

For Sale by all Druggists. Price 25 cts. per box; 3 boxes for 65 cts.; or sent by mail, postage free, on receipt of price. DR. J. H. SCHENCK & SON, Philadelphia, Pa.

Watchmaking-Jewelry. F. C. RICHARD, JEWELER and OPTICIAN, -& dealer in CLOCKS, WATCHES, JEWELRY and SILVERWARE. Special attention given to the Making and Repairing of Watches.

IMPORTANT-If you cannot read this print distinctly by lamp or gaslight in the evening, at a distance of ten inches, your eyesight is failing, no matter what your age, and your eyes need help. Your sight can be improved and preserved if properly corrected. It is a wrong idea that spectacles should be dispensed with as long as possible. If they assist the vision use them. There is no danger of seeing too well, so long as the print is not magnified; it should look natural size, but plain and distinct. Don't fail to call and have your eyes tested by King's New System, and fitted with Combination spectacles. They will correct and preserve the sight. For sale by F. C. RICHARD, 27 49 42 High St., opp. Arcade, Bellefonte.
