THAT PRESBYTERIAN CONCERT.-The Presbyterian church of this place, under the supervision of Mrs. J. A. Aiken, intends having a musicale on Friday evening, March 9th, at which the best talent that can be procured in Philadelphia and New York will appear. Among the artists are Prof. S. Tudor Strang, organist; Mr. Geo. Ford basso; Miss Mamie Keim, soprano and Miss Gillan, soloist, all of Philadelphia, the former three being well known here as they appeared at the organ recital when the Presbyterian church was reopened. In addition Miss May Derr, a soprano, and Mr. W. A. White, xylophone solist, both of New York, will assist with the program. The musical will doubtless be very entertaining from the fact that those persons who will appear are known to be high class artists in the various lines they pursue: The admission has been fixed at fifty cents.

Pine Grove Mentions.

The festival given last week by the Washington Cornet band, was a perfect success. Mr. A. G. Ewing who has been seriously ill is not improving, we are sorry to say, and his condition is critical.

of La Grippe on account of which the protracted meeting at this place is discontinued. The vote polled on last Tuesday was the largest polled for years at a spring election and the Baker ballot system is still objectionable to the stay at home voter.

Just before starting for Spruce Creek where he expects more lucrative employment. Wm. Everts received a shower of congratulations

upon the arrival of a girl baby at his home. Gen'l McClelland Rossman says the little stranger that put in his appearance at his home last Tuesday evening, will be eligible to vote at the Spring election in 1915. A. D.

We are sorry to note the very serious illness

of ex-County Treasury Goss who is suffering from a severe attack of Pneumonia so that his medical attendent, Dr. Smith has but little hope of his recovery. This is indeed sad news to his numerous Centre County friends. Since writing the above we have heard of his death On Tuesday last, Supt. Thomas of the Bellefonte Central accompanied by the President of the road, Mr. Frazier visited our town to interview our business men as well as the land owners through whose farms the survey ors have run the route terminating at the Pub lic road on the Ard and Bailey line just west of town. All that is necessary to insure the building of the long looked for road is securing the right of way for the road. Let it be given and that at once

The sociable at the Lutheran parsonage las Tuesday evening was a grand treat, under the supervision and the kindly greeting of Rev. Aikens and wife. Every body was made to feel at home, and sit tailor fashion on the floor one of our young school teachers took his first lesson in Coon hunting. J. G. Heberling, Mrs, Cottle and Miss Naomi Hess were chosen a udges, and after Coon scouting awarded the prize for the best needle work to J. W Furey the prize was a handsome gilt edged morocco bound testament, presented in a pleasant little speech by Rev. Aikens, admon ishing to the daily study of its several pages. The hour of adjournment arrived when all took their leave feeling glad to have been a guest at the first sociable held by the Christian Endeavor society, it was a red letter day in the lives of many who attended.

The Forum will begin this seventeenth vol. ume with an innovation which it is hoped will prove very useful to serious students of current problems. At the end of articles of subjects as "The Income Tax," "The Program of the Nationalists," and other kindred discussions, there will be published a brief list of the most instructive books and articles bearing on both sides of these discussions, so that a reader may follow his studies further than any Review article can take him.

In Memoriam.

At a meeting of Howard Grange, No. 297, P. of H. held Feb. 10th, 1894, resolutions of sympathy were passed on the death of Susan, wite of brother Michael Pletcher, dying in her seventy-second year. She had been a faithful wife, devoted mother, and had shared the joys and sorrows of her aged husband who is an honored member of our order, an esteemed citizen and a kind neighbor.

GEO. D. JOHNSTON, Com.

LAFAYETTE COLLEGE.-President Warfeld has sent us the new catalogue of Lafayette College, which shows an attendance of 309 students, of whom 209 are from Pennsylvania. Nineteen competitive prizes are offered in mathematics, philosophy, oratory and languages. The libraries number over twentyfive thousand volumes. The astronomica observatory, the chemical and physical halls, and the new gymnasium are superior buildings well equipped for their objects. The present Senior class number 53. Copies of the catalogue can be had by addressing the Registrar of the college, at Easton, Pa.

Marriage.

WEAVER-WAGNER-At the M. E. parson-age, Howard, Pa. Feb. 8th. 1894 by Rev. N. B. Smith, Mr. John M. Weaver, of Curtin Tw'p. and Miss Sudie Wagner, of Liberty Twp., Centre Co., Pa.

ROCKEY-LOWERY-At the M. E. Parcon age, in Pleasant Gap, Sunday morning, at 8:30 o'clock. Feb. 18, Mr. J. C. Rockey, of Fill-more, and Miss Arment A. Lowery, of Belle-fonte, were united in marriage by Rev. J. C.

May success attend the bride and groom through this worll: and may they land safely in the harbor of paralise, when this life ends, is our wish.

-Read the WATCHMAN.

Notes on Stock Raising and Feeding from the Pennsylvania State College Agricultural Experiment Station.

The following replies to inquiries regarding the value of certain feeds may

prove of interest to stockmen :-GLUTEN MEAL.

The value of glucose meal, or gluten meal, or gluten feed, as it is variously called, for milk production, has been the subject of quite extensive experiments at the Vermont Experiment station. The following table taken from the Report of that Station for 1892, gives the composition of these different feeds compared with that of corn meal and bran :

	Water.	Fat.	Starch, etc.	Protein	Fiber.	Ash.	Nutritive ratio.
Cream Gluten Meal,	8.09	16.15	32.81	38.40	3,34	1.21	1:2
Corn Germ Feed,	7.80	15.28	49.32	12.19	14.43	0.98	1:8.4
Buffalo Gluten Meal,	7.83	9.95	52.78	21.81	6.65	0.98	1:3.9
Corn Meal.	15.58	3.85			1.89	1.43	1:8.7
Wheat Bran.	12 52	3.53		15.02	9.31	5.68	1:4.8
One-half Corn Meal, one-half Bran,	14.05	3.69	61.03	12.08	5.60	3.55	1:6.3

In all, 17 trials of single cows were made, in which these different feeds were compared with bran and corn meal. In the majority of cases they were found o produce more milk, or richer milk, or both, than either corn meal or a mix ture of corn meal and bran, so that in almost every trial more butter was produced by means of the gluten teed. This is due undoubtedly to the high percentage of protein contained in these feeds. They serve to supplement the deficiencies of corn meal, hay, corn fodder, etc, in this particular, and to make up what is known as a balanced ration.

The cream gluten meal mentioned above is very concentrated feed, and both it and the corn germ meal are especially rich in fats and should be used with caution, probably two pounds per day and head is as much as should be used and less would probably be safer for cows.

Rev. Illingworth is suffering from an attack There is no reason to think that these feeds are not just as healthful as the corn

> have understood that it is used by horsemen on this latter account, being considered rather in the light of a medicine than a feed, so far as I know. three pounds per day for an animal weighing 1000 pounds would be an average ration of oil meal in combination with ordinary grains.

MALT SPROUTS. COTTEN SEED MEAL

Malt sprouts are comparatively rich in protein and can therefore be used to supply the deficiency of this ingredient in a ration. In some cases, however, they are reported to have imparted a peculiar flavor to the milk and butter, and hence should be used with some caution. They should always be thoroughly wetted and allowed to stand at least twelve hours before feeding, as they swell up enormously. They are comparable to bran in properties, being what is commonly known as a "light" feed, but at twelve dollars a ton they are much the cheaper feed of the two. I have no experience in their use for either pigs or sheep, but see no obvious reason why they might not be used for either,

It is hardly possible to figure out a mixture of clover hay, bran and malt sprouts, which will form a balanced ration, since all three feeds are quite rich in The following, however, might be tried :

RERHOFF † HOUSE, BLEEFONTE, DAY, MARCHARD.	Dry Matter.	Digestible.			
		Protein	Carbhydrates.	Fat.	
15 lbs. Clover Hay, 8 " Bran, 4 " Malt Sprouts.	13.11 7.04 3.59	1.03 1.01 .75	5.66 3.53 1.92	.20 .23 .04	
bug benimferave to 1949s tog	23.74	2.78	11.11	.47	

I do not regard the above as a good ration, nor do I think it economy to purchase bran at present prices. By substituting corn meal for bran in the above to sew which caused much merriment. In fact mixture, we get a ration, which in my judgement, would be much better adapted for milk production, as follows:

TS. CAVEATS TRAINERS OF TRAINERS OF THE CORN BIOR RES - Special Control of the Corn Blook Res - Special Control of the Corn Bl	Total Dry	Digestible.			
GBTAIN A PATESTI it specer and an larget polaton	Matter.	Protein	Carbhydrates.	Fat.	
15 lbs. Clover Hay, 8 " Corn Meal, 4 " Malt Sprouts,	13.11 7.16 3.59	1.03 .67 .75	5.66 5.18 1.92	.20 .38 .04	
nes anose discussos bus lastras.	23.86	2.45	12.76	.62	

Nutritive ratio. 1:5.8

If corn meal and cotton seed meal are to be used, I can recommend a ration which we have used the past winter in a feeding experiment. The grain consists of three parts cotton seed meal to 7 parts of the corn meal, by weight, and the coarse fodder of 4 parts of mixed hay to 6 parts of corn fodder, by weight. During a period of thirty days ten of our cows ate of these feeds. per day and head, the following:

	Total Dry	Digestible.			
eru (1977. wakbanii 198	Matter.	Protein	Carbhydrates.	Fat.	
3.6 lbs. Cotton seed meal, 8.4 " Corn Meal, 7.8 " Hay, 11.3 " Corn fodder,	3.30 7.52 6.59 7.67	1.29 .71 .25 .28	.80 5.44 3.14 3.97	.42 .40 .07 .07	
	25.08	2.53	13.35	.96	

Nutritive ratio. 1:6.1

These cows were considerable under 1000lbs. in weight, and this ration was doubtless a liberal one. Estimating the cotton seed meal at \$26 per ton, the corn meal at \$20 per ton, hay at \$12 per ton, and corn fodder at \$4 per ton, this ration cost 20.03 cents per day. The butter produced, at 30 cents a pound, was worth 29.55 cents, and the skim milk and butter milk at 20 cents per hundred 2.72, making a whole return of 32.27 cents, or 161 per cent of the cost of the feed. If very much clover or straw is to enter into the ration I should suggest using the so called coarse gluten feed in place of a part of the corn meal. This feed is considerably richer in protein than corn, and hence would make up for the deficiency in this ingredient in the straw and stover. At the same time is contains the hulls of the corn from which it is made, and hence can be used, freely without danger of impaction. I know of some successful dairymen who

are feeding it quite largely, at the present time. CORN MEAL BRAN.

I take pleasure in sending you a copy of Bulletin 24, and of such previous Bulletins as we have in stock. I have also entered your name upon our mailing

list for future publications. The corn meal bran which you speak of using with your cows is a rather uncommon fodder, so far as I know, I have been able to find recorded only four analyses of it. The average of these gives it the following composition.

Water	9.19
Ash	
Protein	6.49
Fiber	
Nitrogen free extract	60.85
Fat	4.47
	a figure for
	100.00

Assuming it to be equally digestible with corn, which probably is an error in its favor, the following ration might be made up with the other feeding stuffs

which you mention.					
Tota		Digestible.			
Matte		Carbhydrates.	Fat.		
12 lbs. Corn Fodder, 8. 8 " Clover Hay, 7.	15 .31 .55	4.21	.07		
4 " Malt Sprouts,		1.92	.04		
8 " Corn Meal Bran, 7.	26 .30	4.24	.33		
21 Jack was not at 3497 4 (2) 26.0	00 1.90	13.39	.54		

Nutritive ratio. 1:7.7

This ration corresponds pretty closely in quantity of digestible matter, to the German standard, and would be ample for cows of the weight of yours. The proportion of digestible protein in the ration is considerably smaller than that representation in the German standard; but rations with as small a proportion of protein as this have given very satisfactory results, aithough more protein would doubtless make them more efficient. I should hesitate, however, to increase the malt sprouts much above the amount named. A larger proportion of clover hay would narrow the nutritive ration, but would increase the cost of the I think the above mixture would be improved by replacing about two ration.

pounds of the corn meal by cotton seed or linseed meal,
In practice I would mix the grain feeds named in proper proportion and gauge
the quantity of grain feed in part by the appetites of the animals, and in part by the returns in milk. As you will see from the results given in our Bulletin 24, there appears to be for each animal a certain amount of feed which gives the greatest net profit. This is something which no feeding standard can indicate, but which must be ascertained by trial with the individual animal. The amount of hay and fodder eaten will naturally depend largely upon the appeti tes of the animals, and to a degree, upon the amount of grain feed given.

Farmer Taggart Dead.

The Well kown Granger and Politician Passes

Austin L. Taggart, Representative in the Legislature from Montgomery, died at his home at King of Prussia, last Thursday evening.

Austin L Taggart was born in Tamaqua, Schuvlkill County, Pa., November 24, 1836. In 1886 he was elected to the lower House of the State Legislature and was re-elected in 1887, '90 and '92, though he did not gain his seat in the last Legislature until after a contest. He was a Republican, but of a very independent kind, and was a candidate for United States Senator in 1891 against Senator Cameron. 1892 he came within a few votes of being nominated for Congressman-at Large. He was a man of force and influence and was very popular with the farmers of the State, in whose interests he advocated much legislation.

EXECUTORS NOTICE,—Letters There is no reason to think that these feeds are not just as healthful as the corn from which they are made, I have not noticed that they have been used extensively for other classes of stock than milch cows.

Old process oil meal is used by dairymen chiefly as a means of balancing a ration, that is, increasing its percentage of protein. The oil which it contains is doubtless of value, but the protein is the especially valuable ingredient.

Oil meal is valuable also, for its dietetic effects, being a mild laxative feed. I have understood that it is used by horsemen on this latter account. being considerations.

Closure of the Tearduct Cured by Dr. Salm.

I have had a good deal of trouble with my eyes for the last 5 years. Tears running over my cheeks continually. Dr. Salm called it closure of the tearduct and operated on the same, and now I can keep my handkerchief in my pocket instead of wiping tears continually,

Indiana, Pa.

Catarrh and Ear Trouble Cured by Dr. Salm. For more than ten years I have had a bad case of eatarrh. My ears gradually became affected to such a degree that the hearing in one year was almost totally gone and bad in the other one. I became very much alarmed, so I went to Dr. Salm for treatment and improvement was rapid from the beginning. It's now very seldom that I take a cold and it must be a very faint sound that I cannot hear with either ear. I feel better all around and confess myself satisfied with the treatment. Ebensburg, Pa. Frank MULLEN,

For Eighteen Years Totally Blind-Dr. Salm Through His Wonderful Skill Gave me Sight.

For more than eighteen years I have been totally blind in my right eye, caused by a piece of wood striking the same. I was told I could never be made to see again out of the eye, but Dr. Salim told me that the injury had produced cataract and that he wou'd guarantee to make me see. I gave him my case, and bless my stars that I did so, for to-day, although it is wonderful to relate, I can see once more out of the heretofore blind eye after more than 18 years darkness. Friends and those who know me will bear witness to the above and think there is no discount on Dr Salm's wonderful skill.

Tyrone, Pa. John Morningeld, After Having Tried Five Different Dr's and a Through His Wonderful Skill Gave me Sight.

After Having Tried Five Different Dr's and a Wagon Load of Different Medicines. Grew Worse and Worse and was at Last Cured by

Dr. Salm. For more than eight years I was troubled with Dyspepsia and intestinal indigestion. I suffered untold agonies only ate enough to keep me alive, and toward the last I must have taken a wagon load of different Patent Medicines and tried five of our different Dr's in the County but grew worse and worse. None of them made the correct diagnosis, until I went to Dr. Saim at Tyrone. He told me at once what ailed me, and he was correct for today I feel like a new woman. day I feel like a new woman. Sandy Ridge, Mrs. Carrie Pecht.

Sandy Ridge, Centre Co., Pa. Grew Worse and Worse for Seven Years of a Bad Case of Catarrh, But Dr. Salm Cured Him After the Very Best Physicians in the

For more than seven years I have had a bad case of Catarrh which affected my head, Throat and Chest very much and on a short space of time lost over twenty pounds in weight, became weaker daily and felt stupid and good for nothing. Was treated by several of our best Dr's and took a good deal of patent medicines, but gradually grew worse and worse. Then I heard of Dr. Salm's wonderful cures. I gave him a trial and from the very first month I began to steadily improve and the result to-day is that I have gained what weight I had lost heretofore and feel like enjoying life once more.
