

Democratic Watchman

Bellefonte, Pa., June 15, 1894.

Farm Notes.

—Poultry, fruit and bees are claimed as "three crops" that can be grown at the same time and on the same location.

—It is better to replant at once than to wait day after day for the seeds in the missing hills to germinate, and thereby save time.

—Put out peppers, egg plants and string beans. Egg plants are delicacies to the potato beetle and require careful watching or they will be destroyed almost before they can get a start after being transplanted.

—Corn feeds very close to the surface, and for that reason the soil should not be cultivated in a manner to break the roots to much. Shallow cultivation, just sufficient to keep the top soil loose, should be practiced.

—An exchange says that if a cow gets choked with an apple or potato, holding up its head and breaking an egg in its mouth is a sure cure. The same remedy is recommended for horses under similar circumstances.

—Hogs will eat the spoiled corn, wheat, oats or potatoes. Nothing else will. Herein is the hog the best of farm animals. When feeding inferior grain or vegetables be sure to feed plenty and some sound food at the same time.

—The late crops are among the most important. Two crops that should pay well are potatoes and cabbage. The prices are good, considering the yields, and they can be grown as crops which assist in cleaning the lands of grass and weeds, as they require good cultivation.

—The dwarf Lima beans, though they are smaller in size of seed than the pole kinds, are much earlier and are also much surer under adverse conditions of rain or drought, as well as requiring no poles. They are a valuable acquisition to the list of garden crops.

—The cool nights have greatly retarded all tender plants. A yellow, sickly appearance may be noticed with melons, lima beans and other semi-tropical crops. A light application of nitrate of soda will be found to be the best remedy. Sprinkle it around the base of the plants and stir it into the soil.

—Good butter can be spoiled with poor salt, as well as by poor handling. There are plenty of good grades of dairy salt, and it is a great mistake to use a poor salt because it is cheap. Many creamery men have found this out to their sorrow. A medium grain is more desirable than a salt in which the grain is very fine.

—Sweet corn should be preferred for ensilage. It contains more sugar than field corn and is more highly relished by stock. Even the hogs will eat it when it is prepared properly for the silo comes out succulent in the winter. Western farmers also use it for supplying poultry with green food during periods when no other bulky material can be had.

—Most farmers have learned the value of persistent labor; many more have yet to grasp the importance of systematic work. These latter often wonder why the city man, who takes to farming, frequently makes a financial success, backed by no practical experience. Usually it is because his school, college or business training has taught him discipline of mind.

—It will soon be time to put in turnips for a general crop, and the land should be made ready in advance. Plow it and use well decomposed manure. Kill out the weeds by allowing the seeds to sprout and then cultivate. Any work done on the land in the way of preparing it for the turnip crop will save much labor after the seed has been planted and the crop is under way.

—Holding fast to old implements and ignoring the newest is to enter into competition with others in a handicapped condition. Any labor-saving appliance lessens the cost of production and affords a larger profit. The enterprising farmer will keep himself well informed on the point and always be on the lookout for labor-saving implements in every department.

—There is no knowing the cost of a crop except by keeping account with it. Farming is a business, and the farmer must do as other business men—keep books. Unless he does so, he will be unable to estimate concerning his crops, or know whether he has made a profit. Every article consumed on the farm should also be charged as much sold at home.

—Now that tuberculosis is found in so many herds of cattle all over the country, it will not do to wait until the farm is visited by the officials. It is important that each dairyman have his stock examined and report the fact, if disease exists, as not only the health of the member of the family may be endangered, but also the consumers who buy milk, and they are entitled to consideration.

—A writer in an exchange thinks that high culture and pruning will cause apple-trees to bear full crops every year. But if he had ever noted attentively the apple-trees in well-manured and cultivated gardens, says T. H. Hoskins in Vermont Watchman, he would not have been so absolute in his statement. The truth is that it is very hard for a variety which is even naturally an annual bearer to give a good crop of fruit on the off year. The insect enemies of the fruit are concentrated on the few bearing trees and either cause their fruit to drop, or disfigure it so that little of it is perfect, or would be saleable, were it not for the scarcity of better.

Accidents in History.

Many Notable Events Have Occurred Through Trivial Happenings.

From the New Orleans Times-Democrat.

Dr. Lafferty, of New Orleans, recently delivered a lecture on "Lee's Lack of Luck." The doctor told how two English snobs at a restaurant in Paris by their sneers drove Murat out of service as a waiter, and through this accident Murat became a Marshal of France and King of Naples. Samples of lucky accidents were numerous in ancient and modern history, and there were also many examples that went to show how many of the ancients believed in good luck or good fortune. Napoleon had lost Waterloo through the mere accident of bringing on an attack of sick-headache through eating onion and lamb against the advice of his physician.

In 1866 a quarrel between Conkling and Blaine decided the Presidency of the United States many years afterward, when Blaine ran against Cleveland. Abraham Lincoln, after being a member of Congress, desired to secure a clerkship in Washington, but he was defeated by Justin Butterfield. He was disappointed, but had he not been defeated he would have spent his life in obscurity instead of becoming President of the United States.

Oliver Cromwell was once on board a ship bound for America, but he was taken back by a constable, and the result was that he became one of the greatest men England ever knew.

Ulysses Grant would not have been a military man had it not been his rival for a West Point cadetship had been found to have six toes on each foot instead of five.

The great silver mine, the "Silver King," had been discovered by the lucky accident of a prospector throwing a piece of rock at a lazy mule.

The Pennsylvania's Summer-Traveling Guide.

The Summer excursion book of the Pennsylvania railroad for 1894 is out, and presents an unusually meritorious appearance. Great care has been exercised in its compilation, the technical information being especially reliable.

The great variety of routes suggested, the exhaustive schedules of rates, the graphic descriptions of about four hundred places, the explanatory maps and the illustrations, make the volume exceedingly valuable and almost indispensable to those contemplating summer touring.

A nominal charge of ten cents is placed on each copy, which can be obtained on application to ticket agents or the General Passenger Agent of the Pennsylvania Railroad Company, Philadelphia. Ten cents extra will be charged for mailing.

The Bible Controversy.

The condemnation of Dr. Briggs and Dr. Smith, however, has only furnished fresh fuel to keep this question of the Bible burning in the Presbyterian church. It will be as hot in the next General Assembly as it is in the present and as it was in the last. The controversy cannot be settled until the whole body of the heretics, as represented by the minority at Saratoga, are driven out of the Presbyterian fold or are made the shepherd of the flock.

Transatlantic.

"Mother," said a little girl, looking up from her book, "what does transatlantic mean?"
"Oh! across the Atlantic, of course. Don't bother me; you made me forget my count."
"Does trans always mean across?"
"I suppose it does. If you don't stop bothering me with your questions you'll go to bed."
"Then, does transparent mean a cross parent?"
Ten minutes later she was resting in her little bed.

Early Timekeepers.

The clepsydra, or water clock, was used at Babylon at a very early date, and was introduced at Rome by Scipio Nasica about the year 158 B. C. Toothed wheels were added to it by Ctesibius about 140 B. C. Some writers aver that they were found to be in use in Britain by Caesar in the year 55 B. C. The only clock in the world is said to have been sent by Pope Paul I. to Pepin, King of France, in the year A. D. 760.

The Price.

There was a price upon her head. She was very alm. A smile played about her lips.
"This well!"
She paused a moment in thought.
"This well! I will take it."
Then she removed the price from her head. There was a trifle of lace and a flower or two, of course, but the hat was mostly price.

A Great Journal.

Ragged Robert—This ole barn is a comfortable enough place to spend Sunday if we only had something ter read.
Moldy Mike—I had er chance ter steal a Sunday paper half an hour ago.
"Why didn't you?"
"Carryin' it was too much like work."

The "wheat king" of the world belongs to Argentina. He is an Italian immigrant named Guazone, and his broad acres are situated in the south of the Province of Buenos Ayres. His last season's crop of wheat, which he recently finished harvesting occupied an area of 60,720 acres, which is a trifle in excess of 100 square miles. Guazone numbers his workmen by the thousand, and he loads 8500 railway trucks with wheat grain, all of which he grows on the share principle with his men.

The only failure a man ought to fear is failure in cleaving to the purpose he sees to be best.—George Elliott.

The longest bridge in the world, over the St. Lawrence river, is 9,144 feet.

The greatest organ in the world with no stops—women's voices.

Reading.

A writer for young people advises that they read always with an atlas and dictionary at hand, and carefully locate every place mentioned, as well as look up the meaning of all words new to them. This might make slow work of reading, but think how much knowledge one could thus acquire.

The same writer urges boys and girls to read aloud in the home as often as they can, and practice on the article they are to read until they can do it so well that it will be a pleasure to hear them.

A United States Senator once said to me that the habit of his life had been to choose a subject, and for months read everything he could get hold of on that subject, until he felt that he knew quite a good deal about it.

People say of this man: "What a fund of information he has!"—Pansy.

A Certain Remedy.

"What made you insist on lending Borem that umbrella?"
"I had to do it."
"Had to?"
"Yes, of course. I lose the umbrella, but I am rid of Borem forever."

"I had salt rheum and have been cured by Hood's Sarsaparilla." Mrs. S. B. Kime, 150 South Bromley Street, Scranton, Pa.

Business Notice.

Children Cry or Pitcher's Castoria.

When baby was sick, we gave her Castoria, When she was Child, she cried for Castoria, When she became Miss, she clung to Castoria, When she had Children, she gave them Castoria.

Medical.

AS IN YOUTH

AYER'S HAIR VIGOR

CORDIALLY INDORSED.

RESTORES NATURAL GROWTH OF THE HAIR WHEN ALL OTHER DRESSINGS FAIL.

"I can cordially indorse Ayer's Hair Vigor, as one of the best preparations for the hair. When I began using Ayer's Hair Vigor, all the front part of my head—about half of it—was bald. The use of only two bottles restored a natural growth, which still continues as in my youth. I tried several other dressings, but they all failed. Ayer's Hair Vigor is the best!"—Mrs. J. C. PRUDEN, Converse, Texas.

Miscellaneous Advs.

AN EYE SPECIALIST

H. E. HERMAN, & CO., Limited. Formerly with QUEEN & CO., OF PHILADELPHIA.

AT W. T. ACHENBACH, JEWELER, BELLEFONTE, SATURDAY, JUNE 23rd, From 8:30 a. m. to 5:30 p. m.

There is no safer, surer, or cheaper method of obtaining proper relief for overstrained and defective eyesight, headache, and so forth, than to consult this specialist. The happy results from correctly fitted glasses are a gratifying surprise to persons who have not before known the real profit to themselves in wearing good glasses. No charge to examine your eyes. All glasses are guaranteed by H. E. Herman. 38-49-1y

PROPOSALS FOR FURNISHING STATIONERY, Furniture, Fuel and other Supplies.

In compliance with the Constitution and laws of the Commonwealth of Pennsylvania, I hereby invite sealed proposals, at prices below maximum rates fixed in schedules, to furnish stationery, furniture, fuel and other supplies for the several departments of the State Government, and for making repairs in the several departments, and for the distribution of the public documents, for the year ending the first Monday of June A. D. 1895. Separate proposals will be received and separate contracts awarded as announced in said schedules. Each proposal must be accompanied by a bond with approved sureties, conditioned for the faithful performance of the contract, and addressed and delivered to me before twelve o'clock p. m. of Tuesday, the 26th day of June, A. D. 1894, at which time the proposals will be opened and contracts awarded in the Reception room of the Executive Department at Harrisburg. Blank bonds and schedules containing all the necessary information can be obtained at this Department. WILLIAM F. HARRITY, Secretary of the Commonwealth. 39-23-31

HERE'S THE IDEA

OF THE NON-PULL-OUT BOW

The great watch savor. Saves the watch from thieves and falls—cannot be pulled off the case—costs nothing extra.

The bow has a groove on each end. A collar runs down inside the pendant (stem) and fits into the grooves, firmly locking the bow to the pendant, so that it cannot be pulled or twisted off.

Can only be had with cases stamped with this trade mark.

JAS. BOSS FILLED WATCH CASES

are now fitted with this great bow (ring). They look and wear like solid gold cases. Cost only about half as much, and are guaranteed for twenty years. Sold only through watch dealers. Remember the name.

NON-PULL-OUT

KEYSTONE WATCH CASE COMPANY, 39-23-31 Philadelphia.

UNSOLICITED TESTIMONIALS

Inward Trouble Cured by Dr. Salm After The

Outward Physicians In The County Had Failed.

My daughter Agnes has been ailing with some inward trouble for over 3 years. It made her very miserable, and fit for nothing. She tried to be cured by the best Doctors obtainable here, but without success. That Dr. Salm made a correct diagnosis at his first visit and that his treatment was successful, I have proven; for she is once more able to lend a helping hand. We can recommend the Doctor highly. Bellefonte, Pa. I. N. FISHER, Cross Eye Operation Made Successfully by Dr. Salm.

My little boy Clyde had Scarlet Fever when he was 2 years of age. It left him cross-eyed in both eyes. Dr. Salm operated on them and they are now perfectly straight. The boy was not given any Chloroform, and the operation was painless. First Glenon Pa., Centre Co. BEAR BERTHOLO.

A Case of Catarrh of 15 Years Standing Cured by Dr. Salm.

I have had a bad case of Catarrh for 15 years. It gradually affected all of my organs. I became weaker daily, caught cold in the best of weather, and became miserably generally. I tried several Doctors to get rid of the disease, but they did not help me any. I took lots of medicine, but it did me no good. I was thrown my money away. Since Dr. Salm treated me I grew better steadily, and am once more a man. I am certain that the Doctor understands his business. Milesburg, Pa., Centre Co. GEORGE F. WALKER.

After 12 Years Suffering Dr. Salm Has Cured Me of a Bad Case of Catarrh.

For the last 12 years I have had a bad case of Catarrh, with all its attending symptoms. For the last 4 years I bothered me a good deal, hardly being without a cold, making me miserable generally. I tried 3 different physicians, but none of them could cure me. It takes Dr. Salm to cure Catarrh, for I do not take cold any more. No scabs form any more. For the last 4 years I have been well, and I consider myself satisfied with the Doctor's treatment. Tannersville, Pa., Centre Co. JONATHAN LUTZ.

Six Physicians Did Not Do Her Stomach Any Good, But Dr. Salm Cured Her.

For 5 years I have suffered terribly with Stomach trouble, and all the resulting ailments, such as headache, neuralgia, rheumatism, etc., to such a degree, that I did not care how soon I would die. In that time I was treated by 6 different doctors, but none of them did me any good. To the contrary, I grew worse and worse, to work was out of the question. I grew weaker and weaker on account of not being able to retain any kind of food on my stomach. I began treatment with Dr. Salm 3 months ago, and am now a different woman. I have never vomited once since the first treatment; and to make a long story short, I can once more with a good deal of pleasure, attend to my daily labors. Gettysburg, Pa. Mrs. MARY STEVENS.

On Account of 20 Years Continued Suffering and no Relief I Prayed to Die, But Was Cured By Dr. Salm.

For 20 years I suffered the most excruciating tortures all on account of Kidney trouble. The pain in my back was terrible, and many times when I stood I did not know how to straighten up again. Often I had to go to bed for a week at a time, and in the end could not attend to my regular work any more. Gradually all the other organs became affected, my bladder became in such a condition, that I could not urinate. I prayed for the latter often. The home doctors could not cure me, so I put myself under Dr. Salm's care and I blessed the day when I did so, for to day I am quite a different woman, willing and glad to enjoy life once more. I feel splendidly, and I am confident that the Doctor will cure me in the time he has set; and I have come to the conclusion, one should never give up hope as long as they can obtain the services of this wonderful physician. Mrs. J. W. SNOOK.

Spring Mills, Pa., Centre Co.

I Could Not Walk Straight Any More, Dr. Salm Cured Me After 8 Other Doctors Had Failed.

For the last 20 years I have suffered untold agonies with a pain in my back and over the region of the Kidneys. I had to get up regularly every hour at night to pass water, the pain on these occasions being almost unbearable, and almost bent me double, so that after awhile I could not walk straight even the movement of my limbs produced the most excruciating pains. Of course I became very much emaciated on account of having no appetite; to work was out of the question. I doctored me, but could not make out what was the matter; hence their medicines did not do me any good. Home medicines and highly recommended patent medicines had no effect whatever. Dr. Salm has cured me, and although I am 71 years of age, I get along very well now, and can once more attend to my daily work. Mrs. SOPHIA HENRY.

Two Lick, Pa., Indiana Co.
