THE AUGUST TERM OF QUARTER SESSIONS :- The opening of court, Monday morning attracted an average crowd of attendants to this place and to the disgrace of the county the docket revealed an unusual number of petty criminal cases that should never have been carried here to burden the county. If property owners do not do it the constables are authorized to cut the weeds and charge the work to the persons on whose land they are found. This is a commendable action ing good to the county if he persists in having his order enforced. Canadian thistles are entirely too common in some parts of the county and they should be exterminated.
