VANIA STATE COLLEGE. - The opening of a new scholastic year at The Pennsylvania State College, on Wednesday morning, was fraught with an unusual significance, because of the marked advance in the number of students that applied for admission to the institution. Last year the members of the faculty

were to a degree surprised that notwithstanding the general business depression that affected all portions of the country the roll of students increased from 284 to 316 but the most sanguine expectations, founded on that increase, were eclipsed Wednesday when the students,

The corps of professors and instructors has changed somewhat since last year, the most noteworthy being these : Prof. G. G. Pond, who spent the year in Germany, is back to take up his work at the head of the Department of Chemistry. Dr. Runkle has arrived from Iowa. Prof. Pattee, the new head of the Eng.

lish work, comes from Dartmouth College. Among the other new men are Mr. Farnsworth, of Harvard, assistant in Modern Languages ; Mr. Larned, of

the University of Wisconsin, assistant in Electrical Engineering ; Mr. Tudor, of John Hopkin's University, assistant in Mathematics ; Mr. Sellew, of Cornell, assistant in the Preparatory Department. Miss Tredley, the new Librarian, is a

graduate of the famous Dewey Library system in New York city. In addition to the new men. Messrs. Rebhun, Mattern, Hunter, and Brenneman, graduates of the college, have been made assistants in various departments. These appointments bring the number

of the teaching force up to 43. Many changes about the main building meet the eye of the old student. The summer months have given time for the introduction of an extensive ventillating system, which will add materially to

the healthfulness and comfort of both ments of other kinds have been made so that the college grows in equipment and

beauty continually. That it is becoming better known throughout the country is attested best by the continued increase of the number of students. Thus

far there have been 287 students entered with enough applications for places to run the number to nearly 400. The Freshman class alone will number more than 125.

In athletics the college will maintain its enviable position on the foot ball field. Among the new men there is said to be some excellent material out of which, with the old men who have returned,

AND THE LIAR'S NAME IS REUBEN

Too.-The Galeton Gazette says that old Uncle Reuben Persing, of Elk run, three miles east of that place, has one of the queerest curiosities in the shape of a cat it has ever seen. It has the hind feet of a lamb and the perfect fore feet of a ground hog. It has fine feathers on the tip of its tail, and silky wool on its neck and head. It roosts with the chickens and lives principally on clover and buckwheat.

WORTH VISITING .- Among the exhibits that will attract attention at the Granger's picnic, at Centre Hall, next week, will be that of Mr. George Baldwin, the expert gardener of State College. He will have space in the Philadelphia building where he will exhibit a rare collection of palms, ferns, draecinas and other beautiful potted plants, all of which he will offer for sale at surprisingly low prices. Don't fail to

HECKMAN-KREAMER. -At noon on Wednesday, Jennie the oldest daughter of Mr. S. W. Kreamer, a well known Centre Hall merchant, was married to Samuel D. Heckman, of Lock Haven. The ceremony was performed at the bride's home in the presence of a number of invited guests. The groom is an employee of Vandyke & Co., Lock Haven hardware dealers, and after a trip to Niagara Falls and other points the young couple will make their home in the latter place.

AN UNIQUE BUILDING. - The new armory, at the corner of Spring and Lamb streets, that is to be the home of Co. B, 5th Reg. N. G. P. when completed will be a novelty so far as Bellefonte buildings are concerned. The original intention of building it of rough, blue lime stone, so as to give the work an appearance of having been thrown together without care of lines or smoothness of surface, having been abandoned because of failure to procure the stone, the work from the first floor level is being finished in what is known as "rock", brick-work.

Frank Wallace and his sons, of Milesburg, have the contract and are hurrying the building along as fast as skilled workmen can do it. Enough of the walls have been laid to give an idea of what a beautiful building it will be when finished. The brick are all either split in two or chiseled off before being used and with the jagged edges out produce a massive appearance that is very pleasing to the eye. The red mortar in which they are being layed making it look like one solid piece of material. Already plans are shaping for the de\_ until September 25 inclusive at reduced dication of the armory. Co. B will open it with an immense military reception.
