"The Spider and the Fly," Leavitt's spectacular vaudeville production, that comes to Garman's Monday evening, October 8th, is one of the best bookings of the season. There are pretty girls-lots of them -and men, all artists in their lines, who will put a very pleasing entertainment on the boards that night. Two Fires in One Night .- At a few minutes after eight o'clock, Tuesday evening, the South ward fire alarm was sounded. There being a great many people on the street at the time there was a general rush for Cherry alley, the upper end of which seemed to be all ablaze. The fire was located in Haag's hotel stable, a large frame structure which burned with frightful fury. The fact that it was started on the second floor of the barn is all that saved the live stock underneath for the fire swept the structure with lightning rapidy. A small stable on the rear of Baum's lot was licked up and the flames swept across the alley to . Cap't Henry Montgomery's stable which was badly damaged before the water was gotten to good working.

The fire was undoubtedly of incendiary origin as there had been no one near the Haag place since early in the evening. It started near the double doors on the alley and looked very much as if some one had just thrown a match in among the hay, the looseness of the hook on the door making it possible to slide it open several inches. There was nothing in the Baum stable and no insurance was held on it. Haag's barn contained 14 tons of hay, 150 bundles of long straw, 140 bushels of oats, 40 bushels of corn and some harness that was not gotten out. The loss is covered by policies aggregating \$2,800. He had \$2,000 on the barn, \$500 on its contents and \$300 on a small adjoining stable. The buildings were new and in excellent condition. Mr. Haag intends rebuilding at once. He will erect a brick stable with a slate roof.

At 2:50 the same night a second alarm of fire was sent in, this time it was found to be in a number of frame stables on the rear of Spring street properties owned by the Powers', E. L. Powers had two stables on the rear of his lot which were joined by an open carriage shed. In the corner of this It will be the largest mixed company the more blessed immortality. shed was a pile of shavings he used for that will appear here this season and bedding and it was there that the fire started. It burned so fast that he had troupe. The show is of a specialty living. The sons are Prof. Edwin barely-barely is a good word under the | character with just enough links to give | Twitmeyer, Principal of the schools at circumstances—time to get his horse out. The fire spread to the frame stable on the rear of the Sands property on Allegheny street and all three were in ruins in a very short time. The Powers stables were filled with feed and as the owner had no insurance his loss will be considerable. The Sands stable was empty and uninsured also.

The first fire afforded an excellent opportunity to study the inefficiency of our water supply. With one plug broken, another from which no water would flow on account of a broken main, and the loss of time running from one place to the other the entire east end of Bishop street might have been burned before the firemen could get water on. Then had there been a wind to sweep the flames on out among those frame houses they would have all been burned as Board of Children's Aid Society of there is not enough water on that street to supply one line of hose. A 3 inch main is too small a pipe to run out that street and it should be replaced with one double the size. Something that will give residents protection in the case of fire and plenty of water for domestic purposes. It is a well known water as they can use.

THE ARMOR WILL CASE .- On Monday the supreme court, at Philadelphia, reversed the action of both president and associate judges of this county in the matter of Monroe Armor, representing the heirs, in an effort to set aside their mother's will on the ground of mental incapacity. It was his intention to go to Lock Haven the next morning and thence to his home in this county. James McKenzie saw Boyer get his pay and told him he would go along as far as Lock Haven. The two men reached that point together, Boyer had his check cashed and they began to have a good-time drinking. Between three and four o'clock in the afternoon Boyer started for the station to take the afternoon train to his home. McKenzie tried to persuade him to stay over night in Lock Haven, but he refused to do it.

Some-way orother they got into an alley on their way down to the station and while Boyer was taking a drink from a bottle his companion grabbed him by the throat and choked him, at the same time striking him a terrible blow on the head with his fist. Boyer fell to the ground, whereupon McKenzie jumped on his head with his spiked shoes, cutting the prostrate man in a horrible manner. Then the brutal ruffian rifled his pockets and fled, just as some men who had been attracted by Boyer's cries appeared on the scene. McKenzie threw Boyer's purse under a shed and took to the woods on the other side of the river. He was followed but could not be found. Meanwhile his victim had recovered and had sworn out a warrant for him besides offering \$25 reward for his arrest. After night fall McKenzie returned

to town, thinking he would recover the purse, but while he was hunting around for it a policeman arrested him and he is now in jail charged with "assault and battery, aggravated assault and battery, assault and battery with intent to rob and steal, robbery and larceny.
