--- A YEAR ---FOR THE INDUSTRIOUS.

If you want work that is pleasant and profitable, send us your address immediately. We teach men and women how to earn from \$5.00 per day to \$3,000 per year without having had previous experience, and furnish the employment at which they can make that amount. Nothing difficult to learn or that requires much time. The work is easy, healthy, and honor able, and can be done during daytime or evenings, right in your own locality, wherever you live. The result of a few hours' work often equals a week's wages. We have taught thousands of both sexes and all ages, and many have laid foundations that will surely bring them riches. Some of the smartest men in this country owe their success in life to the start given them while in our employ years ago. You, reader, may do as well; try it. You cannot fail. No capital necessary. We fit you out with something that is new, solid, and sure. A book brimful of advice is free to all. Help yourself by writing for it to-day—not to-morrow.

E. C. ALLEN & CO., Box 420. Augusta, Maine.

Democratic Watchman.

Bellefonte, Pa., Nov. 2, 1894.

The Republican Party a Leech on the Country.

From the Walla Walla, Wash. Statesman The workingman should remember he can live cheaper to-day than he could before the Wilson law was enactstipation is the most frequent cause of ed. St gar is half a cent lower per pound now than it was this time last year. Democrats seek to help the laborer, while Republicans do all to swell the pockets books of the capitalists, monopolists and corruptionists. Wilson is condemned because he has know where to begin, let me tell you a sought to enable the people to live betsought to enable the people to live better on less money than they could un-

> attribute it to the fact that the Demo- and though work maybe hard to meet crats are in power; but do this so as to when it charges in a squad, it is easily hide from view their own sin which is their mismanagement of the government for thirty years. They say we had prosperous times until Cleveland's second election. True, and so we would continue to have, had Benjamin Harrison been defeated in 1889. The be larger, more elaborate more grotesque fact that times were flourishing during than ever, says the Baltimore News. Cleveland's first administration is refutation of the assertion that Democratic control of the government has brought about the present condition of

The truth is that the country has been crushed by protection. Harrison, McKinley and Reed was the straw that broke the camels' back. Our nation is experiencing greater trade to-day than it did before the "odious" Wilson bill went into effect. Let us examine the exports and imports for 1893 and 1894. In September 1893 we exported \$22, 026,798 worth of merchandise. September 1894 we exported goods to the value of \$59,038,863, being an increase in our commerce of \$37,012,065. This eriginal investigation.
6. INDUSTRIAL ART AND DESIGN.
7. LADIES' COURSE IN LITERATURE AND SCIENCE; Two years. Ample facilities tics for a month. we did since the passage of that "atro-

Let us go a little further and see how our commerce has "fallen off" under Cleveland's administration during the past nine months. We export ed merchandise to the amount of \$577, difference in favor of the first nine months of 1893 over the same period last year of \$173,805,149. During the first nine months of 1893 our importations amounted to \$625,325,373, while for the same period this year they reached the sum of \$503,529,738, leav-634. Under a Democratic administration we have increased our sales and this style of dress is much used. reduced our purchases. Facts are facts and there is no gain-saying them. The calamity howler can howl, but he will be as effective in blinding the people as to what are facts as a small boy furnishing wind to propel a vessel up over Niagara falls.

-Republicans have been, during the past week, sneaking through the county trying to hire Democrats to stay stay at home to give them the county. Show how little there is in this dirty libel, Democrats by polling every Democrat vote in your respective districts.

What is a Knot?

The Difference Between It and a Mile Stated in Plain Form.

One of the things which it seems difficult for the public to grasp is that there is a decided difference between the knot and the mile. It is certainly about time to have it thoroughly understood that the two are not the same thing. It seems easy enough to re-member that a mile is only about 87 per cent of a knot, the latter being, approximately, 6,082 feet in length, while the statue mile measures 5,280

Three and one-half miles are equal, with a small fraction, to three knots. The result of this difference, of course, is that the speed of a vessel in miles per hour is always considerably larger than when stated in knots, and the possible way: crescents, ovals and circonfusion of the terms sometimes cles of fine jet are mixed up with spangive rise to rather remarkable claims of speed performances.

When a 20-knot ship, for instance, is lightly mentioned, it should be remembered that this really means over 23 miles; similarly, with higher figures, which are often glibly enough stated the difference between the terms is worth bearing in mind. It will bilities.

Lonely in a Large City.

"Talking about the unsociablility of large cities, an instance came within my own knowledge that is, I think, without a parallel," said H. E. Banks. "I have a friend living in New York who roomed for five years in the same house with a young man and in that time never made his acquaintance or even learned his name. He went on a hunt one summer in the Adirondacks and there met the young man who roomed in the same house with him. A conversation sprang up between them and they then learned that they were of the same name. 'Have you a brother?'' asked my friend. 'I don't know. There were two of us, and my parents died when I was quite young. I was died when I was quite young. I was raised by an uncle in the west and lost track of my brother.' 'Well, I was raised by an uncle in New York, and I believe you and I are brothers.' tle further investigation proved it to be a fact."-Cincinnati Enquirer.

-Democrats, you have a plain duty to perform and that is to get out every vote in your respective districts

For and About Women.

Wellesley has eight hundred students this year. Names waiting a vacancy number several hundred.

Don't live a single hour of your life without doing exactly what is to be done in it., and going straight through it, from beginning to end. Work, play, study: whatever it is, take hold at once and finish it up squarely; then to the next thing, without letting any mo-ments drop in between. It is wonderful to see how many hours these prompt people contrive to made of a day. It is as if they picked up the moments the drawlers lost. And if you ever find yourself where you have so many things pressing upon you that you hardly comes to hand, and you will find the rest will fall into line and follow after They howl about the hard times and like a company of well-drilled soldiers, vanquished if you can bring it into

> Possible the most important announcement in the matter of woman's dress this fall is that the sleeves are to well known "couturiere" says that it takes four yards of silk to make a stylish pair of sleeve alone. As for the work, it requires as much time and labor to make a pair of fashionable sleeves as it does to make an entire bodice Even the man-delighting tailor-made suit is not exempt from the prevailing fashion, but has sleeves ruffled and puffed until they retain little of their original graceful outlines. A vote of thanks is certainly due to the originator of the present fashions from all the women. As for the woman with a figure, who is not chicken-breasted or consumptivebacked, she must either resemble an animated balloon or be out of fashion. And some foolish person, undoubtly a woman, has said, "Better be dead than

Sleeves are decidedly longer as well as fuller. Many of the sleeves in the handsomest imported costumes reach to the first joint of the thumb. Whether they are trimmed at the hand is not altogether a matter of individual taste. ually to the elbow or cut in one, are equally fashionable. For street wear, wever, sleeves all in one are generally preferred. The balloon proportions are maintained either by bunching or lining with crinoline. For evening dresses ing a balance in our favor of \$121,795, sleeves reaching to the elbow are in favor. Even with "decollete" dresses

> Miss Anna F. Grant' who is at the head of a printing and publishing house in Boston, is preparing a Professional and Business Woman's Diction-

A cold winter is predicted, and furs promise to be most desirable for wraps. They will also be much used as trimmings, as they give a warm effect to both cloaks and gowns, and are associated as well with diaphanous laces and away from the election. They have chiffon. Coats, capes and collars are boasted that they could buy enough to made of furs so flexible that they are used very much as cloths and velvets are. And there is such variety in these garments that something appropriate is found for women of all sizes and ages. Coats and capes will be equally fashionable. The coats commend themselves for warmth, and because they display a fine figure. Capes are liked when breadth must be added, and because they slip off and on easily.

> Shaped pieces for waist fronts and men all had spent much time in the braces for the shoulders are the latest woods region, and one of them had in the jet line. Slender and broad, long and short Vandykes are sold by the yard or separately for skirts, waists | found a portion of an antler that bore | what it has done for me. Mrs. Charles Hick and wraps. Some of the shaped pieces evidence of having been gnawed and are of jet, colored beads and gold work. evidence of having been gnawed and partly eaten. The verdict rendered by Evening dresses will be trimmed with in the same style, and also with a "rain" fringe.

The new buckle design, says the Dry Good's Economist, is taking very well in Paris, being an applique of white beads and gold, with a buckle introduced at intervals, also made of white beads and gold cord. Jet is treated in every gles, facets, nailheads and beads. Some of the designs are evidently suggested by Etruscan and mediæval motifs.

For school wear blouse waists and straight skirts are liked for dresses better than any other style. They are easily made, and very inexpensive, and until they become hopelessly shabby always help to guard against the forming of look graceful and jaunty. Nowadays ridiculous estimates of a vessel's capa small girls are turning their hair into mobs of ringlets, then combing it out

> sour lemonade, eat ripe fruit and green externally, and keap up the treatment until the mouth is clean, healthy and red. Various things are suggested to counteract an unpleasant breath resulting from a bad tooth, wine or garlicscented dishes. Cinnamon, mint, cream orris root, cloves, mastic-resin and spruce gum will disguise some odors. Ten drops of tincture of myrrh in a glass of water will sweeten and refresh the mouth; a teaspoonful of spirits of "An' has Patrick got wurruk yit?' camphor or peppermint in the same gargle is among the very best antiseptics, and a few drops of myrrh and camphor till him an' make his job last all sumin the water are recommended in case of mer." cold, throat or any slight indisposition which may affect the breath.

neck is without ends.

-The microbe craze has caused ome persons to think more seriously about the prevention of disease, if it has done nothing else. Here is what one

writer has thought out: "There are many little things that one might do, if one chose, that would be conducive to health and long life," said a physician, in a recent conversation. 'We are beginning to learn that the air continually inhaling them. For this try the children's medicine and to his reason it is advised that people keep delight it soon affected a permanent their mouths closed as much possible cure. 25 and 50 cent bottles for sale by when going through districts where any F. P. Green. contagion prevail or where there is de-

composed animal or vegetable matter. "Once in a while a person should take the trouble to clear the head out aroused by Mr. Singerly's canvass, and thoroughly after breathing air laden with nauseating smells, especially if they come from offensive matter of any | The time will soon be here when an sort. Garbage and decaying vegetation opportunity will be given to vote for a are prolific sources of disease. It would be a good plan if children were taught | ready? from their earliest childhood to use their handkerchiefs, giving the nose a vigorous blowing after encountering any vile come from them; but, all the same it is possible that some of those bad smells which are caused by decomposing matter may enter the system and lay the foundation for a long train of ills.

"An ounce of prevention in worth a great many pound of cure, and in nothing is this more true than in the one item of keeping all evil influences out of the system.

Life Was Despaired of.

"I was afflicted with heart disease and the grip and was so low that my despaired of. A friend recomlife was mended Hood's Sarsaparilla and it was given me when a change for the better was immediately noticed. After taking four bottles I was completely restored to health and was able once more to resume my duties." Marguerite A. Sharer, Port Matilda, Pa.
