Why the Democrats Went Down and What

Never did a party go to the people under such handicaps as were carried by the Democrats into the campaign just ended. The hard times were bad enough, but they might have been parried; the factional fights among small claimants and rival placemen were bad enough, but parties have met and overcome such obstacles before now; but with the record of "perfidy and dishonor," as Mr. Cleveland aptly described it, to face and defend in a hand-to-hand fight with the united Republicans, led by Harrison, McKinley and Reed, it was disheartening for -The corn fodder should now be Democrats to have to face also the gotten out of the fields while the weath- dull self-sufficiency and stolid indifferer permits. At any rate, that seems to be the opinion of a majority of the voters, but no more can the Republicans govern it, except by money or by force. -CURED BY-AYER'S SARSAPARILLA

"Several years ago, my blood was in bad condition, my system all run down, and my general health very much impaired. My hands were covered with large sores, discharging all the time. I had no strength nor energy and my feelings were miserable in the extreme. At last, I commenced taking Ayer's Sarsaparilla and soon noticed a change for the better. My appetite retured and with it, renewed strength. Encouraged by these results, I kept on taking the Sarsaparilla, till I had used six bottles, and my health was restored."—A. A. Towns, prop. SCHOFIELD'S NEW

HARNESS HOSUE

We extend a most cordial invitation to our patrons and the public, in general, to witness one of the

GRANDEST DISPLAY OF

Light and Heavy Harness

ever put on the Bellefonte market, which will be made in the large room, formerly occupied by Harper Bros., on Spring street. It has been added to my factory and will be used exclusively for the sale of harness, being the first exclusive salesroom ever used in this town, as heretofore the custom has been to sell goods in the room in which they were made. This elegant room has been refitted and furnished with glass cases in which the harness can be nicely displayed and still kept away from heat and dust, the enemies of long wear in lesiner. Our factory now occupies a room 16x74 feet and the store 20x60 added makes it the largest establishment of its kind outside of Philadelphia and Pittsburg.

We are prepared to offer better bargains in

We are prepared to offer better bargains in the future than we have done in the past and we want everyone to see our goods and get prices for when you do this, out of self defense you will buy. Our profits are not large, but by selling lots of goods we can afford to live in Bellefonte. We are not indulging in idle philanthropy. It is purely business. We are not making much, but trade is growing and that is what we are interested in now. Profits will take care of themselves.

When other houses discharged their workmen during the winter they were all put to work in my factory, nevertheless the big (?) houses of this city and county would smile if we compared ourselves to them, but we do not mean to be so odlous, except to venture the assection that none of them can say, as we can say "NO ONE OWES US A CENT THAT WE CAN'T GET." This is the whole story.

The following are kept constantly on hand.
