

The boy who saves one cent every day will find himself the possessor of \$950 when he has reached his fiftieth year. Should he lay by ten cents every day he will have a fortune of \$9,504 and by saving a dollar every day the sum of \$95,041 will accumulate in fifty years, provided the savings have drawn six per cent. interest.

Bellefonte merchants should not be alarmed that the opening of the new electric railroad between Mill Hall and Lock Haven will attract the Nittany valley trade to the latter place. The residents of that valley will not ride to Mill Hall, change cars and bother fooling along an electric line with many parcels when they can get in a comfortable car anywhere and come right to Bellefonte without a change. Let our merchants make our produce markets what they ought to be and there will be no danger of this trade drifting away.

John M. Ward has retired from the base ball field, this time in earnest. He has laid down the captaincy and management of the New York club to take up his profession as a lawyer. Some years ago Ward went through the Columbia law school taking a prize for excellence in his work and now he intends to turn his attention from the national game, in which he has been a star through seventeen years of successive playing. He came before the public notice as a curve pitcher when he joined the Philadelphia Athletics in the American Association in 1877. His catcher then was Harold M. McClure, now president judge of the Union-Snyder-Mifflin district. Ward will practice in New York.

**A HAPPY WEDDING.**—At Pleasant Gap, on Thanksgiving day, Nov. 29th, united Mr. Harvey H. Tressler, of Houserville, and Miss Nettie Benner, of Rock, in matrimony, the Rev. J. C. Young officiating. The pretty bride and handsome groom have our sincere congratulations. We hope that their lives may be as bright and full of sunshine as the day was on which they set sail on the matrimonial sea.

**MAIL CARRIER BENNER REMOVED.** Thos. Benner, who has been a mail carrier in the Bellefonte post office ever since its being made a free delivery office, was removed last Friday and Ellsworth Ardery, the substitute, appointed his successor. Ardery will not begin until his present term of school ends and Rob Woodring the other sub. will take Benner's route. The removal was made on a complaint preferred by the *Keystone Gazette* that its paper mail did not reach it regularly, the *Gazette* being on Mr. Benner's route.

**NOT SELLING AT OR BELOW COST.**—There is no humbug in my business. I do not claim to be selling my goods at or below cost for that would be easily understood by the public which recognizes the fact that no legitimate business can be run on such principles, however, at my old reliable saddlery I have now awaiting you more robes, blankets, bells, whips and everything in that line than can be found in any other place in the county. A large assortment of everything and the lowest prices rule at Schofield's.

**DECEMBER WEATHER A LA FOSTER.**—My last bulletin gave forecasts of the storm waves to cross the continent from Nov. 28 to Dec. 2 and Dec. 4 to 8. The next on its journey around the earth will reach the Pacific coast, near Seattle, about the 9th, cross the western mountains by the close of the 10th, the great central valleys the 11th to 13th and the eastern states about the 14th.

This will probably be a dry storm, its path will be by way of the upper lakes, north of the lower lakes, through Nova Scotia and south of Newfoundland. Light snows will fall north of the path and light rains south of it, accompanied by warm weather throughout the United States, followed by a moderated cool wave.

The warm wave will cross the western mountains about the 9th, the great central valleys about the 11th and the eastern states about the 13th. The cool wave will cross the western mountains about the 12th, the great central valleys about the 14th, and the eastern states about the 16th. My weather calculations for 1895 are now complete, and, in these bulletins, will be given about the last of each month the average temperature and rainfall for the month following. Correspondents promptly answer if stamps are remitted.

December, 1894, temperature and rainfall in the eastern states will be about the general average of the month for many years past. This does not apply to any one locality, but as an average to the states lying east of the Allegheny mountains. The same rule applies to all the divisions for which I give forecasts of rainfall and temperature.

The central portions of the United States are promised a warm December; the balance of the country an average temperature. Rainfall will generally be about or a little below the normal.

#### Pine Grove Mention

The beautiful weather has enabled our farmers or at least many of them to do much plowing and getting ready for spring crops which are more valuable than wheat at present prices.

Dr. McKinley, of Clearfield, gave in the Presbyterian church on Tuesday evening a most instructive and entertaining lecture on "Columbus." The audience was delighted with the doctor and more than pleased with the financial outcome. Our friend G. W. McWilliams is still seriously ill and confined to a dark room with nervous prostration the effects of his hurt eye. It was hoped that he would be able to be taken to Philadelphia before this and if he is not able to go soon, an oculist will be sent for and the operation performed at home.

On account of some misunderstanding along the new R. R. route operations for the present have been suspended. It is hoped however that the committee in charge will succeed in adjusting the matter when work will be resumed and the cars running as was expected by New Year's. Let the good work go speedily on.

About a month ago Thos. Jefferson Gates one of Mill Crooks hustling business men ordered a horse from W. J. Meyers, of this place. Last week Mr. Gates came for his rig much pleased with the excellent vehicle and much surprised the way Contractor Meyers dispatched work that can not be excelled for durability and finish in Central Pennsylvania.

Win. H. Kanarr one of our industrious and energetic young men recently purchased the entire stock and farming implements of J. C. Gates on the Collins farm near town. We extend to William a cordial welcome to the ranks of agriculture, and expect to see some scientific farming done. For the present his sister Miss Bell will reside over his home but in the meantime the marriage docket will be closely watched.

On Thursday of last week W. E. McWilliams, returned to his happy family, who so anxiously awaited his return from the University at Philadelphia where he went one month ago to have an operation performed for appendicitis. His legion of friends will rejoice to know that no further danger in that direction need be feared.

J. C. Miller brought down on old Tussey a fine deer while J. M. Homan was more successful in killing a huge bear, which at first showed battle and it required several well directed shots to bring her to the dust. While the fight was going on three others circled close around so his position not an enviable one, by any means but while he was reloading his rifle they took flight and were soon hid in the thicket.

**DEATH OF A PROMISING PHYSICIAN.**—Last Friday morning the sad news was telephoned to relatives here announcing the death of Dr. Musser at Tyrone, which occurred just as the sun was throwing its curved rays on the eastern horizon. Thus we are reminded that in the midst of life is death just in the midst of a life of usefulness and promise, with every prospect of a bright and successful future, and although his friends here knew that he had pneumonia they had not any idea that it would prove fatal and were greatly shocked when the announcement came. William Franklin Musser was born in this township, 34 years ago and was the oldest son of Samuel and Nancy Musser, he studied medicine with Dr. L. M. Houser

and graduated from the Jefferson Medical College in 1891, with high honors. He first practiced at Edgewood and Williamsburg but moved to Tyrone eighteen months ago where he had succeeded in building up a good practice. On the 10th of last October the Doctor was married to Miss Edith Moore, of Williamsburg. His parents, sisters and brothers; Mrs. L. M. Houser, Mrs. William VanTrie, Penna Furnace; Mrs. John Reamy and Mrs. E. E. McClintick, Tyrone; Edward and Marshall, Cambria Co.; I. M. ticket agent at Scotia, Walter a medical student in Philadelphia; Howard and Bella at home, near Penna Furnace. All survive him.

He lived a blameless Christian life and was a consistent member of the First Presbyterian church of Tyrone, from which he was buried on Monday the 3rd. Dr. Furbay preached from the text, "Blessed are the dead who die in the Lord." Rev. Kelly offered a prayer and made an address and Rev. Ermintrout closed the touching services with prayer. After the friends had taken a last look at the loved one the members of the Tyrone Lodge 99, F. A. M. took charge of the body and laid it to rest in the Tyrone cemetery. Warden Jones and Vogt officiating at the grave.

Another mother in Israel gone. On Sunday morning the 2nd inst. Grandmother Hannah Grenoble, aged 79 years, died at the home of her son Samuel Grenoble, near Pine Hall, after quite a lingering illness of Typhoid fever. For the last two months she has been critically sick and her death was not unexpected. She was a most kind and obliging old lady, having put her trust in the Lord when quite a young girl she became a member of the Reformed church. She was buried on the 27th in the Pine Hall cemetery.
