I have been under Dr. Salm's treatment for the past 5 months, and my hearing has been very great-ly improved, in fact the change has been re-markable. I am still under treatment, and hope for an entire cure. Gratefully, Bedford, Pa. ISAAC PIERSON. will be published during the year. About 30 years ago, Mr. Pierson, on account of Catarru, became so hard of hearing in his left ear, that the same might not have been there at all, for the actual services it did him. Now, af-ter 5 months treatment, he can again hear with the totally useless ear, so to say deaf for 30 years, common conversation and even whispers again, and his right ear is almost as good as any good ear might be. The Century is famous for its great historical serials, and never in its history has a greater one been projected than this new "Life of Napoleon," written by Prof. William M. Sloane, of Princeton, who has spent many years in preparation for his work. Thus far no biog-raphy of "the man of destiny" has appeared in either English of French that is free from rancor and attentive to the laws of historical criticism. The Century has secured it—the great, all-round complete and interesting his-tory of the life of one of the most marvelous of men. No matter how much you already know of Napoleon, you will want to read this; —here is the concentration of all the lives and memoirs. The illustrations will be magnifi-cent- the wealth of The Century's art depart-ment will be lavished upon them. Two mem-bers of the staff have just returned from Paris, where they have been securing all that is best of Napoleonic material. New portraits will be printed, great historical paintings reproduced, aud Castaigne and other modern artists have drawn anew some of the great scenes of Napo-leon's life for this history. The Once Powerful Organization Is Penniless.

Tammany hall is, according to an undisputed article published in a New York paper, utterly bankrupt. Every dollar in its treasury is reported to have disappeared. It is believed that the executive committee of Tammany knows where the money went, and that at the propertime a a complete exposure of

dollar in its treasury, but it is heavily in debt as well. Where the money to pay this indebtedness is to come from, now that the organization is to lose all the municipal offices it has

Shocking Shooting Accident.

Two Men Killed and a Third Blinded by a Pigeon Shooter.

Two men were tatally wounded and one blinded by the accidental discharge of a shot gun during the Thanksgiving day shoot of the East Side rod and gun club, of New Brunswick, N. J. While the shooting match was in progress Henry McCauley, a member of the club was standing with a party of friends, loading a gun, preparatory to taking his place at the traps. After placing the loaded shell in the gun be closed it with a snap. As the butt struck the breech both shells exploded. William Griggs, aged 28, a shoe manufacturer, who was standing nearest to McCauley, received almost the entire load of shot from one shell in his right temple and fell to the ground and died without uttering a sound. George Holzworth, 28 years of age, a ship captain, who stood nearby, was also wounded in the right temple. He cannot recover. William Hoover re-

ceived a part of the load of the second shell in the face, several of the shot entering his eyes. If he survives the injury he will be totally blind, as both of his eyes are gone.

DR. M. SALM. Felt tike Dying Rather than to Stand the Agony Much Longer, but was Cured by Dr. Salm. For 5 years I have had kidney, stomach. and liver trouble. The fearful pains in my back and bladder, I had during that time, made me often wish for death. I could hardly work, sleep, nor rest and had to go out regularly every night four or five times to void urin. Could hardly eat, and when I tried a little of something it made me ill, and after 4 of our best physicians had failed to cure me, I thought it was about time to die. Some of my friends however, advised me to go to Dr. Salm, who had performed so many wonderfui cures in this country. After I had taken his treatment 4 days, I found it did me some good. I have taken his treatment now for 6 months, and I enjoy life once more, and I would a trie all of my friends to go to his eminent doctor, to get cured, after other physicians fail. In order to have a little relief, I had to have the eye-lashes pulled out every few days. As the result of all this, my left eye went totally blind, and the right one was going the same way rapidly. I put myself under the care of Dr. Salm, and to day 1 am happy to state that I am not troubled any more with the lashes, as they grow in their normal direction, and the sight of the right eye has improved to a great ex-tent.
