Bellefonte, Pa., Jan. 11, 1895.

## Farm Notes.

—Driving a horse in winter to give it exercise is beneficial if not overdone, but in such cases the horse should be well rubbed down on his return and covered with a light blanket until cooled. Horses may take cold in the stable when brought in very warm, especially if cracks permit cold draughts to enter. The blanket should always be used on very cold days as a protection.

—Fertilizers of certain kinds, if not applied in the fall, may be applied in January. Ground bone cannot be put on the ground too soon, as it dissolves very slowly. Strawberries may receive such a fertilizer now, with the potash salts during February or March, and the nitrates in April. If dissolved bone is used in place of ground it will be early enough to apply it in March.

—There is no advantage in retaining hogs at this season in order to increase their weight. Hogs are expensive at times, and should be converted into pork just as soon as they reach the proper stage. Growth is more rapid in favorable seasons, and it is then that the profit is made. The larger the hog, the slower the gain in proportion to its weight.

—The time to trim grapevines is in the winter. Such work should never be postponed until spring, as the trimming of the vines after the flow of sap begins is sure to do harm. It is not necessary to cut back severely, but in trimming a grape vine it should be done to give good appearance and at the same time secure the best yields of fruit.

—Many barns and stables which permit cold draughts to come in through cracks could be made more comfortable at a small expense. A heavy feeder is considered by some as an objectionable animal, but if the animal yields largely of milk or butter, it must be able to consume and digest a large quantity of feed proportionately.

—Potatoes cannot be grown profitably for stock, but such a crop is one of the best for market. Corn is worth five times as much as potatoes for feeding to stock, while its fodder is also a large item. As a rule, however, potatoes usually bring more in price than the actual nutritive value contained in them.

—Do not keep the cream too long or the butter will be bitter. Old cream and fresh cream should not be mixed. When churning the cream the temperature should be regulated by warm or cold water, as necessary. If the conditions are correct the butter should come quickly.

—A good place to throw the wood ashes is around the peach trees. Old bones, that are apparently useless, can be pounded and buried around the grapevines. Refuse material and scrapings from the woodpile are serviceable if used as a mulch around any kind of trees.

—A writer says he knows a man who made \$35,000 breeding and feeding swine, but he did not know enough to stick to the business. He is now a pauper. The hog is a better friend to the pocketbook, years together, than almost any other stock.

—As soon as the lambs come in they must have plenty of milk. Each ewe and her lamb must be observed. If nourishment is lacking the lamb will not thrive. Ground oats make the best food for young lambs that are eating at the trough.

—Some of the best known varieties of blackberries were introduced by transplanting from the woods. Many a large fruited sort is met with which would, if transplanted to the garden, be as good as any of the cultivated sorts now in use.

—Warm water given early in the morning is invigorating to the cows, and serves to ward off the cold during severe weather. When ice-cold water is used the cow is chilled, as the water drank must be warmed by the body.

—Observe regular hours in feeding, says a writer. The stock that is fed at stated times soon learn not to look for feed at any other time and is more contented than it would be if fed whenever it comes handiest.

—A stack of straw may be a convenient thing for the cattle to pick, but it is better to feed it in the rack, as they will trample and waste it when turned at liberty on the straw stack.

—The records show that the United States now export annually about 25,000 pounds less cheese than 15 or 16 years ago. Last year showed a further decrease.

—One of the most highly-relished foods for poultry is the sweepings from the hay loft. The hens will not only utilize the seeds but will consume the dry leaves of clover also.

—Don't get the idea that high color of butter can make an inferior grade bring a first-class price. It won't work on the same customer but once.

—It is said that one hundred sheep regularly folded will fertilize eight acres of land in one year so as to increase the yield 100 per cent.

—A clean stall makes a clean cow, and a clean cow makes clean milk, and clean milk makes good butter.

Hood's Sarsaparilla Calendar for 1895 is out and may be obtained at the drug stores. It is one of the most beautiful that the firm has ever issued and the edition was the largest ever printed by any one concern, being over ten millions of copies. There are two faces on the calendar, both of children representing "Summer and Winter." The design was by one of the most gifted artists in the country, and the coloring is most exquisite. The calendar is not only beautiful, but it is also useful, as it presents all the desired information concerning astronomical events during the year. If your druggist does not have Hood's Sarsaparilla Calendar it may be obtained by sending six cents in stamps to C. I. Hood & Co., Lowell, Mass.

—Something to amuse and interest every American, may always be found in *Home and Country*, Corporal James Tanner, Editor. The January number of this magazine, besides its numerous illustrated articles, contains a wealth of poetry and prose—the latter not prosy by any means—attractive alike to the soldier, the lover, the student, the artisan, the burglar, the penny-a-liner, the dog fancier, the hunter, trapper and guide, the lover of music, the entertainer, the dreamer, the toiler, the poor, the rich, the young, the old, the patriot, the historian, the new woman suffragist, and indeed everybody in the Wide, Wide World.

For diversity of contents, the latest issue of *Home and Country* is a revelation among the high class—but not high priced—monthlies. It is a magazine for all the people. Its subscription price is \$1.50 a year; 75 cents for six months. Published at 51 East 10th Street New York.

## In Memoriam.

Death was again invaded Lodge No. 410 I. O. O. F. at Milesburg, and claimed one of our oldest Pass Grand in the person of James Teller, aged 76 years. It has pleased God in his wise providence to remove from amongst us our aged brother, we bow sub-missively to his will. Therefore be it.

Resolved that we the members of Bald Eagle Lodge No. 410 sincerely mourn his loss, but hope to meet him again in the eternal home.

Resolved that this Lodge extends to the family of our brother our heartfelt sympathy in this their sad bereavement.

Resolved that our charter be draped for the period of thirty days, and a copy of these minutes be sent to the family and published in the county papers.

## Wholesale Poisoning Attempted.

SCRANTON, Pa., January 6.—Mrs. Michael Worman, of Forest City, a borough just over the Susquehanna county line, was arrested yesterday and committed to jail charged with attempting to poison her husband, his father and mother, and one boarder, by putting Paris green in their food. When taken before a magistrate she confessed her guilt and made startling revelations, which are withheld from the public. Mr. and Mrs. Worman had been married but three months. The woman says she was forced by her parents to marry the man against her will and hated him intensely.

—There is good reason for the popularity of Chamberlain's Cough Remedy. Davis & Buzard, of West Monterey, Clarion Co., Pa., say: "It has cured people that our physicians could do nothing for. We persuaded them to try a bottle of Chamberlain's Cough Remedy and they now recommend it with the rest of us." 25 and 50 cent bottles for sale by F. P. Green.

—Claus Spreckels recently drew a check on a San Francisco bank for \$1,500,000 and it was cashed as readily as if it had been a laundry bill.

—Hood's Sarsaparilla has cured many afflicted with rheumatism, and we urge all who suffer from this disease to give this medicine a trial.

—Old Crusty says it is perfectly proper for a woman to speak of her husband as lusted property.

—China is in truly hard luck—getting an awful licking and having to pay for it herself.

## Saddlery.

SCHOFIELD'S NEW

HARNESS HOUSE.

We extend a most cordial invitation to our patrons and the public, in general, to witness one of the

GRANDEST DISPLAY OF

Light and Heavy Harness

ever put on the Bellefonte market, which will be made in the large room, formerly occupied by Harper Bros., on Spring street. It has been added to my factory and will be used exclusively for the sale of harness, being the first exclusive salesroom ever used in this town, as heretofore the custom has been to sell goods in the room in which they were made. This elegant room has been refitted and furnished with glass cases in which the harness can be nicely displayed and still kept away from heat and dust, the enemies of long wear in leather. Our factory now occupies a room 10x14 feet and the store 20x20 added makes it the largest establishment of its kind outside of Philadelphia and Pittsburg.

We are prepared to offer better bargains in the future than we have done in the past and we want everyone to see our goods and get prices for when you do this, out of self defense you will buy. Our profits are not large, but by selling lots of goods we can afford to live in Bellefonte. We are not indulging in idle philanthropy. It is purely business. We are not making much, but trade is growing and that is what we are interested in now. Profits will take care of themselves.

When other houses discharged their workmen during the winter they were all put to work in my factory, nevertheless the big (7) houses of this city and county would have compared ourselves to them, but we do not mean to be so odious, except to venture the assertion that none of them can say, as we can say "NO ONE OWES US A CENT THAT WE CAN'T GET." This is the whole story.

The following are kept constantly on hand. 50 SETS OF LIGHT HARNESS, prices from \$8.00 to \$15.00, upwards. STOCK OF HEAVY HARNESS per set \$25.00 and upwards. 50 HORSE COLLARS from \$1.50 to \$3.00 each, over \$100.00 worth of HARNESS OILS and AXLE GREASE.

\$400 worth of Fly Nets sold cheap \$150 worth of whips from 15c to \$3.00 each, Horse Brushes, Sponges, Chamols, RIDING SADDLES, LADY SIDESADDLES

Harness Soap, Knee Dusters, at low prices, Saddlery hardware always on hand for sale, Harness Leather as low as 25c per pound. We keep everything to be found in a FIRST CLASS HARNESS STORE—no changing, over 20 years in the same room. No two shops in the same town to catch trade—NO SELLING OUT for the want of trade or price. Four harness-makers at steady work this winter. This is our idea of protection to labor, when other houses discharged their hands, they soon found work with us.
