THINGS ABOUT TOWN & COUNTY

—Twenty conversions rewarded Rev. G. P. Sarvis in his revival work at Bald Eagle. He is now holding a meeting at Julian.

—Postmaster L. B. McEntire, of Fillmore, was 70 years old on Jan. 1st. A family reunion proved a delightful surprise to him that day.

—To-night a local teacher's institute will convene at Unionville. There will be three sessions. One Friday evening and two on Saturday.

—The county auditors, Messrs. W. W. Royer, H. W. Bickel Esq., and J. D. Wagner are here looking over the accounts for the past year.

—A farmer's institute will be held at Howard, this county, on Feb. 6th and 7th. Hon. John A. Woodward is authority for this announcement.

—Miss Mary Haley, of Snow Shoe, won the prize piano that Joseph Bros. & Co., of this place, gave away on purchases at their store. She held ticket No. 700.

—The County Commissioners have continued Robt. F. Hunter as their clerk, Dr. J. L. Seibert as jail physician and Orrie Atwood as janitor, for the ensuing year.

—The Undine band treated themselves to a sleighing party last night. Their destination was Uzzle's hotel at Snow Shoe. The big hearted proprietor didn't do a thing but make them have a fine time.

—William Farner, with his family of five persons, who live near Potter's Mills, are most unusually heavy. If they would all get on the scales at once it would take something more than a thousand pounds to bear them down.

—A big sled-load of young men, the Undine band, among the number, took a ride down to Banj. Gentzell's farm home below town last Thursday night and had a fine time. It was a "stag" thoroughly enjoyed by all.

—All the time tables in this paper are in conformity with the new schedules on all roads and you cannot go amiss by following them. We know their importance to our readers and try to keep them correct and reliable.

—George Thompson, a son of John I. Thompson, of Lemont, is a student in dentistry with Dr. J. E. Ward of this place. Mr. Thompson intends entering the dental department, U. of P., next fall. George Miller of this place, is also studying with Dr. Ward.

—Council met on Monday night and ordered the payment of bills aggregating \$1,607.83 for which it had no money to pay, the balance due the treasurer having been \$6,903.24 already. A number of nuisances were reported and the various committees made their reports as well.

—Rev. R. Leighton Gearhart, of Bedford, Pa., will preach in the Reformed church on next Sunday morning and evening. He will also preach at Zion in the afternoon. Rev. Gearhart is an able preacher, and any one wishing to hear fine sermons should go to hear him on Sunday.

—Porter Moyer, who left Millheim a short time ago to locate in the oil regions, was unfortunate enough as to nearly lose an eye. He was chopping timber when a chip flew and struck him causing an injury that at first was thought would result in the loss of the eye, but we are glad to say that it can be saved.

—Austin A. Martin, a son of Mr. John Martin, who lives in Bush's addition, died Tuesday morning about 2 o'clock, from the effects of a relapse suffered while convalescing a severe attack of typhoid fever. Deceased was 20 years old and a young man who enjoyed the respect of all who knew him. He was buried yesterday afternoon at 2 o'clock by the P. O. S. of A. of which he was an honored member.

—The many Bellefonte friends of Harry U. Tibbens will be pleased to hear that he is now editor in chief and manager of the Altoona *Graphic News* which paper made its debut under his control last week. We must say that its appearance was decidedly improved, though the young editor promises greater attractions still as a bid for favor. The WATCHMAN wishes him success.

SWORN IN AS JUDGE.—On Monday day morning, in the presence of most of the practitioners at the bar of Centre county, and a number of others. Hon John G. Love took his oath of office as president judge of the 49th District, including Centre and Huntingdon counties. The oath was administered by Recorder W. Galer Morrison and today finds Hon. A. O. Furst an ex-judge and back at the practice of his profession, while it is no longer "Jack," but Judge Love.

Associate judge Benj. Rich was there to be sworn in too and it did not take Recorder Morrison long either to bind his claim for a five years seat in ex-Judge Riley's chair.

Immediately upon the oath taking court was convened and a few petitions were presented after which adjournment was made and congratulations were tendered the new judge and his Republican associate. Ex-Judge Furst had not been there during the formality of swearing in his successor, but appeared later. Judge Love remained for a meeting of the bar association, over which he presided, being its ex-officio president, but left the same afternoon for Huntingdon where he is holding court.

The meeting of the Centre county bar association was called to appoint a committee that will represent this county at a convention to be held in Harrisburg, Wednesday, Jan. 16th, for the purpose of organizing a State bar association. The committee will be made up of Gen. Jas. A. Beaver, Hon. A. O. Furst, C. P. Hawes Esq., C. M. Bower Esq. and D. F. Fortney Esq. With such a distinguished party representing it Centre county ought to get in on the ground floor of the new organization.

Messrs. Hewes, Reeder, Chambers, Meyer and Orvis were appointed a committee to look into the home association's library and report on its condition, after which the meeting adjourned.

The speculation as to what the new judges would do regarding the force of attaches about the court house has been settled, so far as some of them, at least, are concerned. John Dunlop, the court crier, and Martin Morrison, tipstaff, were both ousted and the good Republicans, Steele Hunter and Tom McCafferty were given their respective jobs. The Democrats who were thinking that possibly these officers would not be removed know better now and should have known long ago that Republicans are not fools enough to let Democrats in office if Democrats are such gillies themselves.

FRIGHTFULLY BURNED.—Very early Monday morning an explosion on the plant of the Bellefonte Gas Co., on Lamb street, resulted in the frightful burning of Supt. E. E. Kitson and Albert Schad the junior partner in the plumbing firm of R. J. Schad & Bro. of north Allegheny street.

A new 200 horse power boiler, that had just been mounted to augment the battery of boilers that supply the town with steam heat, was being connected with the steam main at one end and the big smoke stack at the other. Boiler maker Wm. B. Maitland and a gang of his workmen were doing the latter work, while Schad's men were finishing up the steam connections. A new valve had been put on the steam pipe that tapped the new boiler and connected with the others as well. As the other boilers were all in use at the time the valve was closed, but evidently it leaked a trifle, for when the connections had all been made Supt. Kitson and Mr. Schad climbed up on the scaffolding to close the man hole in the boiler. They had scarcely started their work when the explosion occurred and a solid sheet of flame shot out on them. The former was painfully burned about the face and hands, but not so badly as his fellow workman, whose face, arms and half of his head was burned in blisters. The men were taken to their homes and medical aid summoned. Both are doing well now.

The explosion is supposed to have been caused by the generation of a highly explosive gas by the action of the steam that entered the boiler, through the leaking valve, upon the crude oil that had been put in the boiler to protect it from the lime in the water used.

THE KARTHAUSE GAS WELL IS A FAILURE.—The expectations of the stock holders in the Karthause oil and gas company are blasted, so far as the first prospect for getting rich quick is concerned. Last week the drillers reached the 2000 feet mark in the test well and it will not be drilled any deeper, having gone that deep and found no quantities of oil there is no use in going any deeper. While going through various kinds of red rock and sand during the first several hundred feet the indications were all that could have been desired, but of late as the drill has passed through the ground favorable for oil and gas, all hope of striking the desired materials has been abandoned.

Wells on other sections of the land, leased by the company, may be put down, but whether the prospecting will be extended further depends on the stockholders determination.

—All the outside work is done on the new brick works at Mill Hall.

—Crawford's flour mill, near the junction in Nittany Valley, Clinton county, burned to the ground Friday night.

—Fast line on the P. and E. railroad killed a bear that was walking on the track near Renovo, one night last week.

—A convention of the Clinton county young people's societies of Christian Endeavor was held at Mill Hall yesterday.

—Dr. J. T. Christy, the best known physician in Blair county, died in a Philadelphia hospital last Thursday night. He had practiced over forty years.

—Rev. Dr. B. B. Hamlin, formerly presiding elder of this district, was elected chaplain of the House of Representatives at Harrisburg where he is stationed at present.

—The Lock Haven opera house was bought at sheriff's sale, on Saturday by George W. Mason for \$11,985. He intends remodeling it so as to make it a first class playhouse.

—Mr. and Mrs. Thos. H. Murray, of Clearfield, gave a large reception at their home last Thursday night. It was to introduce their daughter, who has just finished school.

—There was quite a flood on the West Branch on Monday and Tuesday. It resulted in taking all the ice out of the river. Gorges are formed in Williamsport, Linden and Jersey Shore.

—It is said that Messrs W. H. and A. C. Mann intend erecting new buildings on their lots in Mill Hall and when completed the gap caused by the big fire there last summer will be completely closed up.

—U. S. Senator John Patton Jr. who was appointed by Gov. Rich, of Michigan, to fill the unexpired term of Senator Stockbridge when he died, was defeated for election last Thursday. He is a native of Clearfield county, this State, and a son of Hon. John Patton, of Curwensville.

—The forging department of the Mill Hall axe works began on half time last Monday and the other departments will follow as soon as the stock is worked into them. The plant will work only three days a week until more orders are received. It is reported that 6000 dozen of axes are already piled up in the stock room.

—We trust that the rumored strike of the coal miners in the Clearfield region will turn out to be ill grounded. Surely they are not in a position to give up the little means of sustenance they now receive for their work. The weather is too severe to undertake a strike at this season and while we know that the miners are imposed upon by the operators, the idea of a strike now is very ill timed and would involve all in woe and misery.

—Frederick Moneriff was arrested last Monday at Johnsonburg, charged with the murder of his room-mate Henry Peoples. The murdered man, who was a clerk in the bank at Johnsonburg, was found dead in his room one day last summer, and as there was no apparent cause for suicide his friends at once made up their minds that he had been murdered. Moneriff claims he can prove an alibi, as he was away when his friend's death occurred.

—Bell, Lewis & Yates, the coal operators are beginning to decrease their force of miners. It has been the practice for years to have about double the men who could actually be employed in the mines at one time, in order that there would always be some one there to take the place of any employe. This practice has resulted in dreadful poverty among the men, because of irregular employment. And to alleviate the sufferings the force is to be reduced and steady-employment furnished the men who are retained.

—Plans have been submitted to the Bellefonte council for a proposed new public building to be erected on the borough lot on east Howard street. Robert Cole & Co. architects fathered the designs which if carried out would make a very handsome building. The Howard street frontage is 70ft with a depth of 50 feet. The idea encouraging the erection of such a building is to provide a suitable town hall in which all kinds of borough business will be transacted. In the plans the first floor is taken up with rooms for the Logan engine, hose trucks and engine horses the hook and ladder truck, a feed room, and an office for the mayor. On the second floor are to be two small waiting rooms and a large assembly hall, where council could meet, the firemen also, while the borough lock-up would find better quarters in the basement of the building. These in favor of the plan say it can be built and paid for with the present rentals the borough is paying for other properties.

AN OFFER OF \$200 FOR THE CURTIN MONUMENT.—The letter which we publish below, and which is signed by a man who left his birth place in this county years ago, contains a direct offer of a subscription of \$200 to help along the Curtin monument fund. It directs its use, however, in such a way that there is a possibility of trebling the amount. The letter is as follows:

CHICAGO, Ill. Jan. 7, 1895.
EDITOR DEMOCRATIC WATCHMAN—Dear Sir:—

I am advised that action is now being taken by the citizens of Bellefonte, Pa., and vicinity toward raising a sufficient amount of money to erect, in Bellefonte, a suitable monument to the memory of the late Ex-Gov. Andrew G. Curtin.

As a native of Centre Co. Pa., and a staunch admirer of the unselfish and patriotic deeds of Gov. Curtin, whom I consider to have been one of the greatest men of the nineteenth century, second only to the great "emancipator," Lincoln,—the most practical way I can express my admiration will be to offer substantial aid in the raising of such a fund.

This I do by offering to donate the sum of two hundred dollars (\$200.00), the same to be expended in the purchase of *Three Grand Prizes* in the form of Band Instruments, the best make, which shall be awarded for meritorious playing at a band contest, the object of which shall be to *encourage upon amount donated*, net proceeds of said contest to be added to the Curtin Monument Fund; said band contest to be held at Hecla, on the Central R. R. of Pa. the day preceding the Centre Co. Pa. centennial celebration to be held in Bellefonte, in June next.

Feeling certain that said amount of two hundred dollars (\$200.00) can be very materially enlarged upon by the methods previously indicated, I suggest that this proposal be published in your valuable journal as well as fully referred to a proper committee for consideration. I am respectfully,
ALFRED BEIRLY.

Professor Beirly needs no introduction to the people of Centre county, most of whom are already conversant with his prominence as a composer and arranger of choral music of every variety. That his offer is inspired by the love he bears his old home and the memory of those who have brought honor to her, there is no doubt and the plan he suggests is an excellent one for various reasons.

If carried out it would tend to give a great stimulus to the newly organized band tournament association. That organization could accept the offer and save the expense of purchasing prizes for its next tournament the net receipts showing a corresponding increase, because of this going away with the principal item of expense attaching to the tournament. The first meeting of the association, held last summer, was a very profitable one. Notwithstanding the expenses of inception and \$100.00 devoted to the purchase of the prizes.

The Bellefonte band realized nearly \$500 out of the tournament, but in the future the net receipts are to belong to the association so that it can take hold of this proposition of Prof. Beirly's and have very little trouble in adding a nice sum to the monument fund.

PUBLIC INSTALLATION AT THE GRAND ARMY POST.—The rooms of Gregg Post, G. A. R. No. 95 of this place were crowded Saturday night when comrade S. H. Williams called the meeting to order, preparatory to beginning his work as installing officer to swear into office the veterans who had been chosen to look after the business of the post for the ensuing year. The following are the new officials:

Commander, W. T. Fitzgerald; S. V. C., George A. Bayard; J. V. C., Monroe Armour; O. of D., J. I. Curtin; Q. M., William Jones; chaplain, David Bartley; surgeon, James Whitaker; O. of G., J. H. Bryan; ordnance officer, Charles Eckenroth; trustee, Charles Eckenroth; delegate to grand encampment, Jas. A. Beaver, alternate, Thomas Donahy.

Following the installation ceremonies a camp fire was held during which brief talks were made by S. H. Williams, John C. Miller and others. Then Geo. B. Brandon formally presented to the post the beautiful design of the American coat of arms worked in satin, the gift of Harry Jackson, the third son of banker Geo. W. Jackson, who is now a sailor and procured the emblem in Japan. William Jones presented the Post with a book, "photographs of officers of the army and navy," which was the gift of editor Tuten of the *Republican*.

Her first husband, John Campbell, died ten years after her marriage to him and in 1872 she married O. Perry Hassinger, who died three years ago. —Thos. E. Watt Esq., Passenger Agent Western District Pennsylvania railroad company, was a Bellefonte visitor between trains Wednesday morning. His home is in Pittsburg, where he is kept busy most of the time directing the enormous business that devolves on him. WHERE THE BOYS DO THE FARMING.

—The Huntingdon reformatory, with its hundreds of convict boys, is a hive of industry as well as a place of confinement. Besides the great quantities of brushes, working shirts and other manufactured products that are turned out of the mechanical department of the institution, some of the boys who are inclined to Agriculture are put to work on the big farm that surrounds the place and supplies most of the food. Last year they raised 146 bushels of string beans, 122 bushels of beets, 80,956 heads of cabbage, 2,600 dozen of corn, 2,690 stocks of celery, 40 bushels of carrots, 8,000 dozen cucumbers, 5,237 cantaloupes, 1,677 watermelons, 728 heads of lettuce, 97 bushels of onions, 1,150 stocks of horse-radish, 1,820 dozen of radishes, 4,143 squashes, 855 bushels of turnips, 1,189 bushels of tomatoes and 678 bushels of potatoes.
