News for Pensioners.

Capt Skinner, the U. S. Pension Agent at Pittsburg, Pa., under date of March 6, 1895, was advised by the Commissioner of Pensions that it was not the intention of the Interior Department to issue Increase Certificates in any of the cases favorably and affected by the Act of March 2, 1895, which provides that all pensioners now on the rolls pensioned at less than Six Dollars per month, shall have their pensions increased to Six Dollars per month.

In order to facilitate the payment of the increase, Capt. Skinner is instructed by the Bureau to prepare and forward to each pensioner, the rate of whose pension had been increased by said Act, a new voucher to take the place of that already sent out with the check for January payment, to be executed by said pensioner on or after April 4, adding to the regular quarterly payment at the old rate the additional amount due such pensioners from March 2, 1895, under the provision of said Act, and requesting the pensioner to return the voucher already in his possession for cancellation.

This new voucher will be accompanied by a circular which should be attached firmly to the Pension Certificate in the possession of the pensioner, as the same must be exhibited to the officers before whom the vouchers shall be hereafter executed, in explanation of the difference in the rate expressed in future vouchers and that contained in the Pension Certificate.

All officers including Fourth Class Postmasters, who are authorized to administer oaths in the execution of pension vouchers, as well as the pensions affected by said Act, should note carefully.

State Department Worried With Three International Complications.

WASHINGTON, March 13.—The state department, usually the most leisurely branch of the government service, has not known in years such a rush of business as has accumulated on its hands in the last three days. On top of the threatened commercial war with most of the nations of continental Europe, growing out of their discriminations against American imports, came the firing on the American merchantman Alliance by a Spanish gunboat of Cuba; the lynching of the Italians in Colorado, and the killing of a purser of a British vessel during the labor riots in New Orleans Wednesday. It is true none of these international incidents are likely to lead to serious complications, with the possible exception of the Alliance affair, yet each of them requires delicate handling, and will call for voluminous diplomatic correspondence before it is adjusted and closed.

Boiled Sewing Machine.

This does not make a very palatable dish, but it gives very satisfactory results. A sewing machine that seems to "get out of order without cause, is probably dirty, and will fail to give satisfaction until thoroughly cleaned. If the works are set carefully into a boiler of boiling hot soapuds they may be quickly cleaned with little trouble. Add a teaspoonful of ammonia to a pail of the suds, and let the machine works stand in this until the dirt is removed. Then lift out and dry thoroughly with a woolen cloth, and set it in a warm place until every particle of dampness is removed. Now set it on the stand, oil every part, adjust the belt, and the machine will run like a new one. Old clocks that have seemed to outlive their usefulness may also be treated in this manner, and a thorough boiling will often cleanse the works and give them a new lease of usefulness.

Happy French Babes.

The Law Looks to it That They Are Properly Fed.

It is generally known that in France it is forbidden, under severe penalties, for anyone to give infants under 1 year any form of solid food, unless such be ordered by written prescription, signed by a legally-qualified medical man. Nurses are also forbidden to use, in the rearing of infants confided to their care, at any time or under any pretext whatever, any nursing bottle provided with a rubber tube. Several other similar and equally stringent laws have recently been enacted by the French government, which, despairing of obtaining any increase in the birth-rate in their land, is now turning its attention to the saving of the few children that are born.

Large Walnut Trees.

For sometime past men have been at work in Clinton country cutting walnut trees which are raised in convenient size for shipment to England where the wood is more valuable than in this country and is used for veneering purposes. Eight large walnut trees were cut on the farm of Crawford in Pine Creek township and taken to Wentz's saw mill on Pine Creek to be sawed. From one of the trees was cut a log 13 feet in length and 44 inches in circumference. This is said to be one of the largest trees that has been cut in Pennsylvania.

Good Thing for the Students.

Ithaca, the seat of Cornell university, has gone dry. At 7 o'clock last Monday night all liquor licenses expired and there is now in office a no-license board of excise. The liquor sellers all made application for a renewal of their licenses this afternoon, which were all refused by the board. The drug stores were given licenses, however.

The Central Pennsylvania Methodists in Conference at Tyrone.

The Attendance Large.—Both in Ministers and Laymen—Much Interest Manifested in the Sessions.—Bishop Newman Presided to the Delight of All.

The Central Pennsylvania conference of the M. E. church met in annual session in Tyrone Wednesday of last week. A large number of members and visitors were in attendance. Bishop John P. Newman, of Omaha, Nebraska, presided gave short talks each day on various subjects connected with the work of the church.

Dr. D. S. Monroe having resigned as secretary of the conference, Rev. Thomas Wilcox, of Williamsport, was elected recording secretary, and his assistants were Revs. J. F. Anderson, W. C. Carver and A. L. Miller. The statistical secretary elected was Rev. J. B. Stein, and his assistants are Revs. J. E. Week, J. H. Morgart, W. Wallace, W. E. Cleaver and J. M. Alher. Rev. J. B. Crosswhite was elected treasurer.

The reports of the Methodist book concern indicated this association was in a flourishing condition. There was paid into the treasury of his conference \$2,016 as its share of the dividend declared on last year's business.

Report of the management of Dickinson Seminary, Williamsport, and the prosperity it has enjoyed in the past year. Dr. Breckenridge gave a review of the hospital work in connection with the M. E. church in the eastern cities.

The afternoon session was devoted to the anniversary of the Woman's Home Missionary Society, Mrs. Dr. G. E. Reed presiding. Brief reports of the conference workmen read by the secretaries Mrs. George Leidy and Mrs. T. Tomkinson, showing the condition of the society and the excellent work they are accomplishing. Several addresses were made by ministers of the church giving a review of the great work that was going on for the benefit of humanity throughout the world through this agency. The evening session was devoted to the anniversary of the Board of Church Extension Rev. C. H. Barner and A. J. Kynett, D. D. having had the exercises in charge.

THURSDAY'S SESSIONS.

The address of John P. Newman before the opening of conference that morning was a masterly effort. His subject was "Methods of Thought and How to Think."

After the opening of the session reports were made of the contributions to the different boards throughout the districts.

A resolution of condolence was tendered Rev. J. H. McGarragh, a member of the conference from Bellefonte on the death of his son.

A. J. Kynett, D. D., representing the Board of Church Extension and the Temperance Alliance League, gave a brief description of the work in each. This was followed by the conference unanimously endorsing a resolution urging both branches of the Legislature to pass the bill putting it in power of the people to remonstrate against the granting of liquor license in towns, counties, cities, wards boroughs, &c. This was passed with no debate on the question.

Rev. Ross Taylor, representing a church publication devoted to missionary work of the M. E. church in Africa, gave a talk on the great work in the interest of the church in that heathen land.

In the reports of the contributions to the various benevolence causes several showed a marked increase over last year. This afternoon was devoted to the anniversary of the Sunday School Union together with the Pennsylvania Bible Society. Rev. J. P. Benford presiding. The speakers were Robert R. Doherty, Ph. D., and Rev. James Morrow, D. D., who reviewed the work of each and gave very exhaustive descriptions of what had been accomplished by both these agencies in different parts of the world, their wonderful growth and development and the important field uncultivated.

During the evening services the time was occupied in an anniversary of the Conference Epworth League, Rev. B. C. Conner presiding. Addresses were made by R. H. Doherty, Ph. D., and Rev. G. M. Glenn. This branch of church work was shown to be in a very flourishing condition in the conference. Its growth and development in the past year was very great and it is accomplishing much for the good of the world. This meeting was largely attended.

FRIDAY MORNING

The subject of Bishop Newman's talk this morning was "Ministerial Efficiency or How to Think." In his discourse on the subject he remarked that labor is devotion. There is no substitute for exercise in nature. God gives us the possibilities and man must do the rest. It matters not how many talents we possess, but the measure of our development that we perform makes us strong in every department of life. He also said that while chaplain of the United States senate he came in contact with the most illustrious statesmen during the days of the war, and in his investigation of their characteristics he found them to be all incessant laborers, and to this he attributed much of their success. Grant was a man of the purest intellect. A man of great industry was what was considered first section man at West Point. He was the logistician of war. He conquered by his intellect and labor, and not by luck. The same is true in the ministry. There is no success without work. He emphasized the fact that there was much work to do. The very heavens invite us to look into their secrets, and a minister to succeed in his profession must be a man of almost constant labor. The talk was interspersed with several humorous illustrations, in which Bishop Newman is very apt. He called

attention to the history of Bishop Foster; how he commenced the ministry at the age of 16; how he toiled early and late, and how his memory will stand as a blazen beacon along the pathway of time. He paid a beautiful tribute to the Hon. Charles Sumner and said his one great characteristic of his life after it was delivered, when it was said to him that that speech would go into history, when he replied that the speech was written after two o'clock this morning. He said he never made a motion to adjourn. Adjournment wasn't in him.

The business session opened at 9 o'clock. The following persons were continued on trial as licentiates: Curtin G. Roop, John L. D. Kauffman, Joseph Clements, Franklin E. Hartman, John C. Bickel, Frank C. Beyer, Milton E. Vandermartin, George F. Boggs, Henry K. Ash, Fred W. Curry, Charles H. Campbell, Morris E. Swartz, Charles M. Barnitz, Joseph H. Price, John N. Dogherty, Augustus S. Fasick, George M. Fronsefelter, Nelson E. C. Cleaver and Charles W. Carns.

The following local preachers were advanced to full standing: Edwin A. Pyle, Elliot S. Lashaw, James H. Morgan, after which a charge was delivered to them by Bishop Newman and they subscribed to all rules and doctrines governing the Methodist Episcopal church.

Rev. Rittenhouse, representing the Philadelphia Methodist hospital, was introduced and gave a very interesting description of the great work performed by that institution during the past three years. This was one of the most interesting features of the morning session. He said that during that period 6400 cases had been treated in the hospital; that 3,400 days of free board was given to persons of indigent circumstances; that 1,000 visits of both physicians and nurses were made in different parts of the city; that some wonderful cures had been performed through this benevolent agency. The poor were made on an equality with the rich and the most dependent creatures were treated. Those without any sustenance were given skilled medical attendance that was only within reach of those who counted their riches by thousands.

Rev. James C. Hartzell, D. D., representing the Freedman's Aid and Southern society, was next introduced and gave a talk on what has been accomplished by this branch of the church. That during its history over \$2,000,000 had been collected and one hundred thousand students had been instructed. That this represented one-third of all the students in Methodist schools.

THE FRIDAY AFTERNOON SESSION.

The afternoon sessions are all well attended and the anniversary of the Woman's Foreign Missionary society, which convened at 2 o'clock this afternoon, was no exception, as the church was crowded. Rev. Richard Hinkle, of York, presided.

Miss Mary McCord, of Lewistown, secretary of the Conference society, read her report. The Woman's Foreign Missionary society in the United States is divided into eleven branches, is a little more than twenty-five years old and its contribution for missions for the last year was \$311,925.96.

Rev. W. F. Oldham, D. D., who was born in India, where he was engaged in missionary work for six years, was introduced. He opened with a kind, gallant and eloquent tribute to womanhood. While Dr. Oldham has preached the gospel to the Chinese, the Malay, the Arab and the Jap, he knows best of the Hindoo and the customs of India, so to that he confided his talk.

No Tyrone church auditorium has ever been approached by a larger congregation than that which sought a hearing and seeing presence at to-night's hearing and conducted service, anniversary of the Freedom's Aid and Southern Education society. Long before the hour of 7:30, the most portion of the church was filled, rows of chairs occupying a portion of the aisles, and the ground floor class room held a large assemblage not in service, but conversing with their friends among the preachers.

Rev. J. B. Shaner, presided, who spoke intelligently on the evening's subject, as did also the reverend speaker who followed him.

SATURDAY'S SESSION OF CONFERENCE.

Devotional exercises were conducted on Saturday morning at 8:15 o'clock. At 8:30 Bishop Newman delivered his third lecture to young ministers on "How to Make a Sermon."

Where will the next conference be held? This was the next question. Rev. M. K. Foster announced that all of the Methodist churches of Williamsport, particularly the Mulberry Street church, and Dickinson seminary, unite in inviting the conference of 1896 to meet in Williamsport. Dr. E. J. Gray spoke of the erection of Bradley hall, which will be dedicated about the time of the meeting. The conference decided unanimously to meet next year in Williamsport.

"A woman's 'guess' is more accurate than a man's certainty. Your wife 'guesses' that your sick-headaches come from your stomach and are the results of a slight attack of biliousness. She is probably right, and you can completely cure them at a cost of only 25 cents by asking C. M. Parrish, your druggist, for Ramon's Tonic Liver Pills. One little pill and a few of the Tonic Pellets will make you feel like a new creature. Two medicines, two benefits, the values, but one price. Sample dose free.

"Fannie—"Why do people always apply the name of 'she' to a city?" George—"I don't know. Why is it?" Fannie—"Because every city has outskirts."

"The sooner you begin to fight the fire, the more easily it may be extinguished. The sooner you begin taking Ayer's Sarsaparilla for your blood-disease, the easier will be the cure. In both cases, delay is dangerous, if not fatal. Be sure you get Ayer's and no other.

"Perhaps you would not think so, but a very large proportion of diseases in New York comes from carelessness about catching cold," says Dr. Cyrus Edson. "It is such a simple thing and so common that very few people, unless it is a case of pneumonia, pay any attention to a cold. There are a great many cases of catarrh and consumption which have their origin in this neglect of the simplest precaution of every day life. The most sensible advice is, when you have one, get rid of it as soon as possible. By all means do not neglect it." Dr. Edson does not tell you how to cure a cold but we will. Take Chamberlain's Cough Remedy. It will relieve the lungs, aid expectoration, open the secretions and soon affect a permanent cure. 25 and 50 cent bottles for sale by F. P. Green.

"I hear the lightning rod agents have formed a union." "Yes, and it's sure to cause trouble." "Why so?" "Because they are always talking about a strike."

"YIELD NOT TO MISFORTUNE."—I was afflicted with catarrh last autumn. During the month of October I could neither taste or smell and could hear but little. Ely's Cream Balm cured it.—Marcus Geo. Shantz, Rahway, N. J. I suffered from catarrh of the worst kind ever since a boy, and I never hoped for cure, but Ely's Cream Balm seems to do even that. Many acquaintance have used it with excellent results.—Oscar Ostrum, 45 Warren Ave., Chicago, Ill. Cream Balm is agreeable.

Medical.

Is it necessary because the tonic of winter air is gone, and milder weather increased moisture, accumulated impurities in the blood and debilitated condition of the body, open the way for that tired feeling, nervous troubles, and other ills. The skin, mucous membrane and the various organs strive in vain to relieve the impure current of life. They all welcome

HOOD'S SANSAPARILLA

to assist Nature at this time when she most needs help, to purify the blood, tone and strengthen the laboring organs and build up the nerves.

PURIFIES THE BLOOD

"Last spring I was entirely worn out. I would get so weak and tired that I would be obliged to leave my work and lie down. My family physician did not relieve me and I decided to try Hood's Sarsaparilla. I have taken four bottles and am greatly improved in health." Mrs. J. R. NOLAN, Mohawk, New York.

HOOD'S PILLS the after-dinner pill and family cathartic. 25c. 40 8
