Pennsylvania at Atlanta.

Some facts That May Prove of Interest to Read-

Pennsylvania will be well represented at the Atlanta exposition. space has compelled the curtailment of the great exhibit originally contemplated and partially arranged for by the various sub-committees of the Pennsylvania commission, but the 4,000 square feet of floor area allotted to the Keystone State by the exposition management will be utilized to the very best advantage, and from present appear ances the prediction that Pennsylvania will hold her own at Atlanta with any

northern state seems amply justified. The state building, which, by special arrangement, occupies a commanding site on the grounds of the Piedmont Driving club, overlooking the main portion of the exposition grounds, will be completed and ready for furnishment within a few days. The value of building and contents will be between \$9,000 and \$10,000. Owing to the comparative small cost of labor and materials. this will represent in results what an expenditure of three times the amount city beautiful and healthy. would have produced at the Chicago

World's Fair. The general style of the building will be Grecian Ionic, differing from any other building on the grounds. Sur rounded, as it is, by terraces on the front and sides, and backed by the large trees of the park, it will present a most

attractive appearance.

The building is intended to serve as a club house for Pennsylvanians visiting the exposition, and will be equipped post office for mail delivery, writing facilities, etc. There will be no exhibits in the building itself, but outside, in the open loggia, the greatest single attraction in the entire exposition will be displayed. Upon a raised dias in the centre of the loggia, the world-famed Liberty Bell will be installed on October the 15th, with appropriate ceremonies, after a trumphant journe through the south from Philadelphia.

The main state exhibit will be in the manufactures and liberal arts building, instead of in the minerals and forestry building, as originally intended. A space of 770 square feet on the main floor of this building will be occupied of the state. This will far surpass a similar display made at Chicago, and is said to be one of the finest exhibits of the kind ever prepared in America. Among the animals in the collection is the only Pennsylvania panther ever killed in the state and preserved by a taxidermist.

In the gallery of the manufacturers' an exhibit from the educational and One of the main features of this display will consist of the results of manual work in the educational, penal and resive. Amond the well known institutions that will be represented are Girard college, the Pennsylvania Museum and School of Industrial Art, the Central and Northeast Manual Training shools, of Philadelphia, the Public School of Industrial Art, the Philadelphia and Pittsburg schools of design for Women, the Master Builders' Trade school, the Deaf and Dumb Asylum, the Morganza Reform School, the State College, the Western Pennsylvania university, and the Eastern and Western penitentiaries. Models of a number of public institutions will be in this collection. There will be an immense map showing the location of every school house in the state. A large model of the tower of the great municipal building in Philadelphia, the tallest structure in the world, which was on the high cliff below the city. manufactured for the Vienna exposition will be publicly exhibited for the first time in this country. There will also be a model of Independence Hall, original plans of the state house at Harrisburg, and photographs of other historical structures in the state.

In the minerals and forestry building the state mineral display will be made. It will occupy a space of 426 square feet near the centre of the building, and will present everything in the line of useful curious and ornamental minerals to be found in Pennsylvania.

In the woman's building, which will have a peculiar interest for Pennsylvatect is a Pennsylvania woman, and that the statues which crown it were presentnd to the women of Atlanta by the be found the results of the work done by and lost. The indications are that several thousand citizens of the Keystone state will also be on hand to participate in the ceremonies. A programme for the observance of Pennsylvania Day is now being prepared. Pennsylvanians who contemplate a visit to Atlanta exposition should arrange, if possible, to be present on Pennsylvania Day. The probability that the dedication of the Pennsylvania monuments on the battlefield of Chickamaugua, within four hours' ride of Atlanta, will take place on November 12 or 13, should be an additional incentive for patriotic Pennsylvanians to make a southern journey

Louisville, the Gateway of the South. A Few Facts Gathered by Our Special Corre spondent While Attending the Encampment.

Louisville was established as a town by the Virginia Legislature, May 1780 and incorporated as a city Feb. 13, 1828. Although the last charter was obtained July 1st, 1893. The old pump is still used on every corner with two tin dippers as drinking mugs.

The city is governed by twelve aldermen and twenty-four councilmen all Democrats. Its regular police force numbers 285 men, but 250 extras were put on for the G. A. R. gathering.

> GOV. OATES' POINTED COMMENTS. Gov. Oates, addressing his remarks to the "soldiers of the lost cause, and successful defenders of the Union,' made some exceedingly pointed comments upon the causes of the war. Among other passages were the following:

> "Let the blasphemous mouths of the bloody shirt shriekers be closed, and the truth be told. Then our cause and the heroism which sustained it for four immortal years, will illuminate the brightest chapters of the true history of that great conflict.

When the chief of these malefactors was executed, church bells were tolled in some of the Northern cities to canonize him as a martyr. These were the irritating causes which aroused the feelings of indignation and prepared the minds of Southern people for

secession from the Union. "Then when a great political party confined to the Northern States, whose orators were full of intemperate denunciation of the Southern people, succeeded in electing their President, who had proclaimed irrepressible conflictthat this country must all be slave or free labor-the apprehensions of the Southern people were awakened to a common danger, not about slavery alone, but that their ancient and welldefined right to govern their own internal affairs in their own way, would be
