Buried Gold in California. The Hidden Treasures of Priests, Pirates Rob

bers and Miners.

Treasure-seeking parties are out in California, trying to find the gold sup-posed to have been buried by Spanish padres, pirates, miners, robbers and others. During the conquest of California many of the Spaniards buried allas, or jars, of silver, gold and jewels, the hid-ing places of which were forgotten in their ingus and there were no banks original study with the microscope.

by the Mexican government the prioric treasure and rather than inform the government officials, thay perhaps let it remain hidden. This is the common belief of both Mexicans and Americans, lief of both Mexicans and Americans, and has led to a great deal of burrowing around the walls of the mission building by tressure hunters. The walls being uniformly six feet in thickness, they can stand a great deal, otherwise they would have fallen some time ago. great deal that has been written about leather sacks of gold buried under mission churches is fiction but the treasure seekers fondly believe that there is some fact to it. Of the 21 mission churches, they say each had from \$25,000 to \$100,-000 at the time of the secularization. It is affirmed that the padres did not carry

any of the money away. Some of the

treasure hunters get direct tips from spiritaulists. Another theory that there must be dots of buried gold in California is based on the belief that in the early mining days the miners frequently burid there money until such time as they could return to the States. Many of them were killed and the secret of the hiding places of their gold died with them. Their certainly was a great deal of buried gold in California, besides that in the mines in a crude state. At several points of the bay of San Francisco pirates are said to have buried money. Telegraph Hill, in the northern portion of the city, is a favorite place for burrowing for pirates' treasure, and frequently some of the soothsayers direct fortune hunters to a particular spot, where they delve and dig until stopped at the point of a shotgun by some property owner. Very little treasure has been found, but the faith of the diggers seem to be unshak-

Shrinkage in State Revenues.

en .- California Letter, N. Y. Sun.

The Falling off from Last Year Will Amount to a Quarter of a Million.

There has been a large skrinkage in the state revenues during the fiscal year ending with the close of October sponding period for the previous year. prefix "City of" was removed in order The receipts of the commonwealth to get rid of the "hoodoo." from all sources for the past eleven revenues this year from 1894 will be over a quarter of a million dollars, as all the large corporations have paid their taxes, and nearly all the personal property tax has been turned into the

state treasury. The corporations are only beginning to recover from the effects of the business depression, and their receipts have not increased sufficient to materially increase their taxes. The payments for October were \$1,345,711.63. The receipts for the month were \$584,-971.14, as against \$1,066,109.27 in October, 1894, a difference of \$481,138.13. The balance in the general fund at the close of business for October was \$3,-612,493.75. At the close of September

the balance was \$4,612,493.75. PINEOLA COUGH BALSAM is excellent for all throat inflammations and for asthma. Consumptives will invariably derive benefit from its bly derive benefit from its use, as it quieth abates the cough, renders expectoration easy, assisting nature in restoring wasted tissues. There is a large percentage of those who suppose their cases to be consumption who are only suffering from a chronic cold of the state of the appropriation, but Philadelphia has about \$150,000 coming to it. Pitts about \$150,000 coming to it. There will be very little money in burg, Allegheny city and other large districts will be paid this year. The state accounting officers are confident the revenues of the commonwealth during the next fiscal year will exceed those of the present year.

Hoodoos of Ships.

Sailors Look With Alarm on Certain Styles of

The next time you go abroad be careful about the name of the steamer on which you sail. Among sailors, the "Basis" asserts, there are many strange superstitions connected with the name of the craft. The prefix "City of" is viewed with dread by many seafaring men. They see a "Jonah" in the name for it has been borne by vessels which have been lost, with the sacrifice of lives. The City of Boston and City of Liverpool were two noted vessels lost in the Atlantic with all on board, while the Pacific Mail steamship company has been most unfortunate in selecting the names of City of Tokio City of San Francisco and City of New York, for all

three were wrecked The two "crack" liners, the City of New York and the City of Paris, which were christened in England by the English owners, were named the Paris and the New York when they were purchased by an American company. This in for they solemnly state that the crooked contains certain ingredients that are dicates that the falling off in the state letter is a "Jonah," and was the cause of the loss of the United States men-ofwar San Jacinto Suwanee, Sacramento

and Saranac. Queen Victoria's sailors don't object to any initial in a ship's name, but they detect the hoodoo if a man-of-war is christened with the sovereign's name during the monarch's life, for the Royal George, the Royal Charlotte and the Victoria were lost during the lives of the sovereigns they were named after, each with an appalling list of drowned men.

-Anybody can go to heaven on a tombstone. The feet of truth are slow, but they never slip.

Don't go where you would not be willing to die. Don't go to sleep until you can for give everybody. There are too many people who never

pray until they have to.

Don't give advice to others that you are not willing to follow. If we would speak kind words we must cultivate kind feelings.

Some men join a church with no better motive than others rob a bank. If men had to be judged by one another nobody could get to heaven. Happiness consists in a virtuous and honest life, in being content with a competency of outward things and in

using them temperately. CATARRH IN THE HEAD,-Is due to impure blood and cannot be cured with local applications. Hood's Sarsaparilla has cured hundreds of cases of catarrh because it purifies the blood and in this

way removes the cause of the disease. It also builds up the system and prevents attacks of pneumonia, diphtheria and typhoid fever. Hood's Pills become the favorite ca-

thartic with every one who tries them.

-The Treasury Department has ordered that no more silver dollars be coined after November 1. Bradstreet's gives these figures: "The coinage of silver dollars declined from \$27,000,000 in 1891 to \$8,329,000 in 1892, \$5,343, 000 in 1893, \$758 in 1894 and \$3,956, 011 in 1895; while since July 1 only 90 silver dollars have been coined.

Australia is now threatened with a plague of foxes. These animals, imported for the sport of fox-hunting, have increased so rapidly that a reward is now offered for their capture.

A GOOD INDICATION .- Medical practitioners of prominence are prescribing for the cure of diseases springing from derangements of the digestive organs, Dr. David Kennedy's favorite remedy. This professional endorsement is justified by the fact that no other preparation has been found so efficacious in that class of disorders even in the most advanced and severe cases. It has cured gravel in the kidneys, stone in the bladder and; inflammation of the kidneys, where all other medicines had failed. All druggists sell it.

-The spread of the bicyle fever has had a marked effect on the rubber trade. A wellknown rubber dealer states that in the past 18 months \$5,000,-000 worth of crude rubber has been purchased by tire makers.
