The Atlanta Exposition. Mr. Inman Says the Receipts Will Approximate

When the Atlanta exposition gates closed on Dec. 31, the turnstiles indicated that since the opening day 1,286. 863 persons had been admitted in the grounds. Of this number there were 817,028 paid admissions, including adults and children. The total figures include the admissions at the pass gates, paid admission gates and the wagon gates, through which the sol-

dier's invited guests have passed. The following is a detailed state ment of the attendance: Adults, paid admissions, 738,115; children, paid admissions, 79.813; parses, 434,935 wagon gates, 35,000. According to the best reports obtained, the exposition company had realized from the paid admissions \$364,072.95. The percentage received through the concession department is figured at \$115,654.32, and this added to the gate receipts. makes the total receipt from these sources since the exposition opened \$479,727,27, but there are others to hear from. According to the statement of Mr. S. M. Inman, who handled the financial department of the exposition for some time, the total re ceipts of the exposition company will approximate \$1,250,000, while the expenditures were not above these figures.

Relics of Tiberius.

Ancient Treasure Trove from the Bottom of

It is to Prince Orsini, says a writer in

the Philadelphia "Press," that belongs

the lake Nemi on the Alban hills, near

Rome, on the waters of which lake the Roman Emperor Tiberius was wont to carry on his frightful and appalling orgies, in magnificent barges, or rather ships. Two of these have been lying ever since at the bottom of the lake, the waters from time to time reluctantly surrendering bronze and terra cotta ornaments, etc. Quite recently Princess Orsini, who is a Hungarian countess Hoyos by birth, and a woman of remarkable strength of mind, determined to turn these relics of a by gone age to account for the purpose of repairing the adly diminished fortune of that most ancient of the patrician houses of Rome Accordingly, divers have been sent down, and have recovered from the bottom of the lake an immense quantity of art treasures of priceless value, and steps are now being taken to raise in their entirety the two barges, which, according to the divers' accounts, have remained practically uninjured by their immerse for nearly 2,000 years in the waters of that lake. A controversy has now risen between the Prince and Princess Orsini and the Italian government, the latter putting forth a claim to the larger portion of the treasure trove.

The Art of Bedmaking.

The art of bedmaking is not any too well understood. In the morning each blanket and sheet should be taken separately from the bed and hung over a and announce that they will filibuster mattresses should be turned before the on contested seats previous to Wilson's bed is made. Put on the under sheet, tucking it ir well at the head. Pass the bands over it carefully to take out every wrinkle, and then tuck it in at the sides and foot. Next place the bolster in position. Put on the upper sheet, tucking it well under the mattress at the foot. Next put on the blankets, tucking them in at the foot and sides. Now turn the sheet back on the blankets, and then turn blankets and sheets both down in one smooth fold. Next put on the spread, letting it come over the bolster. Then over the bolster place the pillows that are used during the day. All through the work bear in mind that it is important to have the mattress level and to put on the sheets, blankets and spread without a wrinkle.

Why Kissing is Pleasant.

Explained Scientifically It is Plain to be Seen Where Its Charm Comes In.

The reason kissing is so pleasant, says an osculatory expert of scientific ten-dencies, is because the teeth, jawbones and lips are full of nerves, and when the lips of persons meet an electric cur-rent is generated, and, to put it facetiously, you don't have to have a dynamo machine, nor a battery in the house, nor a call box, nor a button to touch to ring up the central office, and there is no patent on it, and the poorest person in the world can enjoy the electric current better than the millionaire, and it never goes out of order.

If Edson had invented kissing it would cost \$100 a year, like the telephone, and then extra kissing would be charged up extra, and if you didn't pay it they would take out your kissaphone and disconnect you from the central office.

Increasing Traffic.

The Pennsylvania reports that the quantity of coal and coke originating on and carried over its lines east of Pittsburg and Erie, for the week ending December 28, was 407,096 tons, of which 281,893 tons were coal and 125,203 tons coke. The total tonnage for the year thus far has been 22,405,298 tons, compared with 16,616,907 tons in the corresponding period of 1894, in increase of 5.788,391 tons, of which 16,424,845 tons were coal, an increase of 3,459,524 tons, and 5,980,453 tons of coke, and in-

crease of 2,328,867 tons. More Cars Constructed.

The record of car and locomotive con struction for 1895 compares very favorably with that of the previous year. All of the thirteen locomotive building companies in the United States except one turned out more locomotives in the past than in the previous year, the total number having been 1,109, as against 695 in 1894. The freight cars built in 1895 were 31,806, as compared with 17, 029 in 1894.

Marriage in Sweden.

A Ceremony That Must Be Trying to the Pros

Although Cupid runs riot in climes his ways and means differ. And to those foreign to the country some of the marriage ceremonies would hardly eeem in keeping with so sacred and solemn a service, says Godcy's Maga-

In Sweden and Norway the bride is dressed in her wedding garments and placed in the middle of the room, surrounded by a circle of bright lights. Then the villagers enter, and walking around the bride audibly comment upon her appearance, character and prospects.

"Well she's to be married at last. About time, I think. It's the first offer she's had since I jilted her.

"Yes," another will interject, "I pity the man who will marry her. "But doesn't she look old, though?" a third will add, and this running fire is kept up for an hour or so. But all is patiently borne by the bride. Finally everyone is ordered out of the room, and then the wedding ceremony is performed. When it is finished a tin dish is placed before the bride, and what is known as the "cradle tax" is collected. Her tather places a bank note and two silver spoons in the dish, and the guests all contribute money or silver gitts. Then a procession forms. which escorts the bride and groom to her home, each person carrying a lighted candle. Then it's all over, and like the good old fairy tales they lived happily ever afterward, at least let us

Senator From Kentucky.

There Will Be a Lively Struggle Before He Is

FRANKFORT, Ky., Jan., 12.—Since the nomination of Senator Blackburn by the Democratic caucus, and of Congressman Godfrey Hunter by the Republican caucus, there is a bitter politi-cal fight for election as Senator. Blackburial of Representative Wilson. Hunter bas had an all day reception, and received hundreds of cangratulatory telegrams.

The law provides for balloting the second Tuesday after the assembling of the Legislature. Blackburn's friends there will ballot Tuesday, January 21, and filibustering will prevent it. The Wilson's special election for successor will be January 20. The Blackburn men will have the new Democratic member here Tuesday, Jan. 21. They insist no ballot will be taken till he qualifies. Meantime all interest centers in the committee considering the contests for the seats of Kaufman and Tompkins, both Democrats. The attitude of the two Populists is also still watched. Without the Populists, and with Wilson's place filled, there is a tie between the Republicans and the Demo crats. The committee on elections was selected by lot. Whatever may be the finding of the committee, the fight will be on the adoption of the committee's

Democrats are unseated, Hunter will have no further trouble, but the indications are that there will be a long struggle. Blackburn men have decided, chair to air for an hour or so. The on any attempt to consider the report successor being seated. There is no doubt about a free silver Democrat being elected in Wilson's place from Nelson county.

Florida.

Personally Conducted Tours via Pennsylvania Railroad.

It would be hard to find any condition of human ailment that a winter visit to Florida would fail to improve, while those who enjoy good health cannot realize, without experience, what true enjoyment there is in life passed under the golden skies of the "Land of Flowers.

In order to give the public an opportunity to visit Florida at a very reason able cost the Pennsylvania railroad company has arranged for a series of tours to Jacksonville. Since the system of personally-conducted tours inaugurated by that company has been in effect, none but words of commendation have been received. Its unexcelled train service, experienced tourist agents and chaperons, and above all. its moderate charges, leave nothing to be desired.

The tours to Jacksonville, allowing two weeks' stay in Florida will leave New York and Philadelphia on January 28, February 4, 11, 18 and 25, and March 3, 1896. The rate, including transportation, meals en route, and Pullman berth on special train, is \$50.00 from New York and \$48.00 from Philadelphia; proportionate rates from other points.

For further information apply to Ticket Agents, or address Tourist Agent, 1196 Broadway, New York, or room 411, Broad street station, Philadelphia, to whom application for space should also be made

Establishing His Identity.

A gentleman one day took his little ad out for a walk, but the boy, from some cause or other, got lost, and, meeting a policeman, tearfully asked:

"Please, sir, have you seen a man without a little boy? 'Caus, if you have, I'se that little boy.'

Safeguard.

"Why did I assume the shape of a serpent when I tempted Eve?" repeated the prince of evil "Oh! I wished to be very sure not to put my foot in

Saying which he lit a fresh cigar.
