The Useful Sunflower. A Number of Valuable Products from the Big Bright Blossom.

Sunflower oil made from the seeds is quantities of this oil are exported from 1. AGRICULTURE (Two Courses), and AGRICULTURAL CHEMISTRY; with constant illustrations on the Farm and in the Labora-

that country. In the crude state it is used by paintory.

2. BOTANY AND HORTICULTURE; theoretical and practical. Students taught original study with the microscope.

3. CHEMISTRY; with an unusually full and therough course in the Laboratory.

4. CIVIL ENGINEERING; ELECTRICAL ENGINEERING; MECHANICAL ENGINEERING; MECHANICAL ENGINEERING, these courses are accompanied with very extensive practical exercises in the Field, the Shop and the Laboratory.

5. HISTORY; Ancient and Modern, with eriginal investigation. ers for inside work, but it does not quite equal linseed oil for varnish purposes. It is mixed with most of our cheap paints and also with many prepared stains. Of late years efforts have been made to refine the oil so as to sell in competition with olive oil. In fact, purified sunflower oil is used quite extensively to adulterate salad oils. Many consider it equal to the ordinary grade of olive and almond oil for table uses. It is of a pale yellow color, flavorless and palatable.

5. HISTORY; Ancient and Modern, with original investigation.
6. INDUSTRIAL ART AND DESIGN.
7. LANGUAGE AND LITERATURE; Latten (optional), French, German and English (required), one or more continued through the entire course.
6. MATHEMATICS AND ASTRONOMY; pure and applied.
9. MECHANIC ARTS; combining shop work with study, three years' course; new ouldding and equipment. In Maryland a good deal of this oil is made to supply the Baltimore trade. After the oil is extracted from the seeds the residue is made into cakes for catoulding and equipment,
20. MENTAL, MORAL AND POLITICAL
ECIENCE; Constitutional Law and History, tle food, and while not so nutritious as the food made from the fresh seeds it is Political Economy, &c.

11. MILITARY SCIENCE; instruction that express the oil sell the seed cakes the oil sell the seed cakes at a merely nominal sum. 12. PREPARATORY DEPARTMENT; Two

In the poorer districts of India and Europe a fair kind of bread is made from sunflower seeds, and the natives depend upon it for a steady article of diet. Their cattle are fed with the same diet, only the seeds and heads are chopped up together, and even the leaves are fed to the animals.

The staks, when stripped of their leaves and heads, are dried and used for fuel. One acre of sunflowers will yield a great many cords of good wood. The stalks are large, tough, brittle and good burners. A few acres of such fuel will last one all winter.

There are many other uses for sunflowers that the ingenuity of man has devised, but the instances cited are sufficient to show the sunflower has outlived its association with a decadent æsthetic philosophy and become of practical value if not of universal use .- N. Y. Post.

## France and Great Britain.

The population of France in 1891 was 38,354,192, and of Great Britain 37,-888,153, or a difference of only about half a million in favor of France. It is now announced that the census to be taken the coming year will show that the population of Great Britain is the greater. The reason for this reversal of relation is the small birth rate of France and the unusually large one in Great Britain. There has been no immigration of consequence into the latter country and France has lost but little by emigration, so that the above cause accounts for the relative British increase of over 1,000,000. —The French say "it is the impossible that happens." This has proved to be the case with the Mount Lebanon Shakers. The whole scientific world has been laboring to cure dyspepsia, but every effort seemed to meet with defeat. The suffering from stomach troubles has become almost universal. Multitudes have no desire for food and that which they do eat causes them pain and distress. Sleepless nights are the rule and not the exception, and thousands of suf-ferers have become discouraged.

The Shakers of Mount Lebanon recently came to the front with their new Digestive Cordial, which contains not only a food already digested, but is a digester of food.

TIRED, WEAK WOMEN

RECEIVE CRITICISM WHERE THEY SHOULD HAVE SYMPATHY

THEY CANNOT HELP BEING NERVOUS IF THEIR BLOOD IS IMPURE.

When the blood fails to feed the nerves upon proper nourishment who can you expect but nervous prostration, nervous debility and nervous headaches?

If the cause is found in impure blood, the cure must be in making the blood pure. This is just what Hood's Sarsaparilla does, and it has proved the true nerve tonic because it is the true blood purifier, and the solace, comfort and defender of thousands of house wives, teachers, clerks and other sufferers of the gentler sex. We invite you to read this letter:

"I think it is my duty to tell what Hood's Sarsaparilla has done for me and my family. Two years ago I was in a weak,

condition and began to have dreadful palpitations or jumping of my heart, followed by sinking spells, which would last for several minutes. Sometimes it would seem as though I would never come out of them. I was treated by the best physicians, but only for a little time did they help me. I'seemed to be growing worse instead of better. I would often seem hungry, but when I ate, no matter how little, it would cause me such misery that I was often wicked enough to wish myself dead. I had that

languid, all gone feeling and suffered awful distress in my stomach. I had given up all hopes of ever being well, when my mother wished to try Hood's Sarsaparilla. I consented, to please her, and before I had taken the whole of one bottle I could see I was improving and soon was indeed much better. It's effects have been truly wonderfal and I hope this letter may be the means of Helping other suffering men and women to try Hood's Sarsaparilla and be benefited by it. We have used Hood's Pills in our family and find them very excellent, especially for constipation. We give Hood's medicince great praise, and if anyone complains of feeling badly, I say 'You should take Hood's and only Hood's." Mrs. Kittle Smith, 326 Dane Street.
