#### Under Martial Law.

It was Proclaimed Sunday in the City of Valencia, Mob Element Rampant .- Fully 10,000 Persons Met Outside the Bull Ring and Wanted to Hold a Mass Meeting Therein .- Fired Upon by

MADRID, March 8 .- The actions of the mob element in Valencia became so threatening to-day that martial law was proclaimed in that city to-night. A crowd numbering fully 10,000 persons met outside the bull ring and attempted to enter that place for the purpose of holding a meeting to express anti-American sentiments. The authorities had issued an order forbidding the holding of such meetings, but no attention was paid to it. The gen-darmes at the bull ring refused to allow the mob to enter and were told that they were traitors to Spain. Then several persons in the crowd cried: "Long live the republic," whereupon the gendarmes charged the mob. The crowd answered with several revolver shots and one of the gendarmes was seriously wounded in the chest.

The situation had assumed such a menacing aspect that orders were given to the gendarmes to fire upon the mob. A volley was fired from the carbines carried by the gendarmes and the crowd scurried for shelter. It is not known positively whether anybody was shot or not, but it is believed that the volley was fired over the heads of the rioters.

Later the courage of the crowd returned and with augmented numbers the mob marched through the streets shouting, "Long live Spain," "Death to the Yankees." The police and gendarmes eeparately opposed the crowd, but their efforts to restore order were not of the slightest avail.

The governor of the province then proclaimed martial law, and any further rioting will be dealt with sternly by the military power.

The governor, acting under imperative orders from Madrid, had concentrated a strong force around the American consulate. The crowd attempted to pass the guards, but were unable to

To-night the city is quiet, the mob not having the courage to face the troops.

The ship owners of Seville bave offered to the government fifty steamers to be put to any use the authorities may deem expedient.

The chamber of commerce of Granada having issued a circular note inviting all Spanish merchants to break their commercial relations with the United States, and cancel their policies of insurance issued by American companies. Many of the merchants have already done so.

Several more Spanish subjects who were acting as American consular agents have resigned. Indignation meetings were held to day in many

places in the provinces. General Azcarraga, minister of war, has received from an English gentleman an offer to supply 10,000 ex-soldiers for the Spanish service on condition that he himself be given the command of them.

It was very evident from the conversations everywhere heard that a war with the United States would meet with popular approval, but the government is not paying much attention to the populace beyond preventing it, so far as possible, from acting in a disorderly manner.

It being Sunday the authorities feared that the demonstrations might become riotous and extra precautions were taken to quell disorders in their incipiency. As the day wore on the crowds in the streets rapidly increased in numbers. The gendarmes were active in their efforts to prevent any too large an assemblage. When a large crowd would gather in the main streets the mounted gendarmes would charge into it and drive the people into the side

Many persons gathered about the French consulate and enthusiastically cheered for France, which country, ac-cording to popular belief would surely be an ally of Spain in the event of a war with the United States.

The strong guard that was placed some days ago about the American consulate was strengthened to-day and it was well that this was done, as the crowd attempted several times to approach the building with the undoubted purpose of again attacking it. The guards were very vigilant in repelling the mob, and finally the latter, seeing that a more determined attempt to attack the consulate would result in bloodshed, sullenly withdrew to give vent to their patriotism in other direc-

The Pennsylvania Railroad Report.

The annual report of the Pennsylvania railroad is always of the highest interest as an index of the general business conditions of the country. Last year's report reflected the commercial depressions of 1894, but it also showed how a great corporation, substantially organized and skillfully conducted, could so adjust itself to actual conditions as to suffer no loss, even when its gains were curtailed. The report just published is significant of a gradual return to normal conditions. The earnings are larger and there has been a relaxation of enforced economies; the stock holders have had their dividends and a substantial profit has been carried to the

The lines east of Pittsburg show a gain of 21 per cent. in freight traffic over the previous year, and not only has the equipment been largely in creased, but the work of improvement, in straightening the line, elevating the tracks and making needed extensions, has been resumed, to the great advantage both of the road and of the pub-lic. The lines west of Pittsburg also show a substantial profit, a great improvement over last year, and attributable in part of the revival of the iron industries.

It is interesting to note that the competition of the electric railways is still evident upon the suburban lines though not to such an extent as last year. There is a decrease of not quite three per cent. in the number of passengers carried on the eastern lines, but the average distance traveled by each passenger in-creased by one mile, showing that the falling off is altogether in the short trips, which are not the most profitable. One great advantage in these reports

is their clearness. That is partly, of course, because the company has no complicated debt accounts to confuse all but the expert. But almost any corporation could take a lesson from Mr. Roberts in simplicity and directness of statement, and its easy intelligibility is another thing that makes the Pennsylvania report particularly valuable to the student of general business condi-

## Passing of the Gypsy.

The gradual disappearance and extinction of that picturesque vagabond, somewhat difficult to find. There are probably more roving, wondering vagabefore, but a real Romany is seldom found even in England, where he formerly flourished. In this country real gypsies were never numerous, and are to-day less so than ever before. They are occasionally met with, but the bands are either very small or are composed of horse-trading scamps and fortune-telling "fakirs," who have not a drop of the Romany blood in their veins.

In the old days the gypsy impressed himself and his personality on the literature and art of the countries in which he roamed. It was a poor novel that did not introduce a gypsy fortune-teller, child-stealing proclivities, although they occasionally make a "bluff" at telling fortunes. As for the children they usually have enough of their own not to bother their heads and risk their liberty by stealing those of other peo-

Avoid Cosmetics. - Ladies, shun cosmetics! Most of the common preparations contain poisonous chemicals which exert a deleterious action on the skin; and at the best no paint, powder or wash can supply the natural beauty of a fine complexion. They are palpable and a palpable fraud is an abomination. Pure rain water and good health are essentials to a beautiful skin. The former is plentiful; the latter can be regained and kept by the use of Dr. Pierce's Golden Medical Discovery which purifies the blood, removes pim ples, blackheads and roughness, strengthens impaired digestion and wards off pulmonary diseases. GRAVE COMPLICATIONS.

OFTEN ARISE FROM LITTLE THINGS MR. JAMES ROBERTS A SCRANTON. CITIZEN, HAS AN EXPER-

Little things are constantly occurring that we do not attach much importance to at the time. They don't seem to amount to much, and perhaps only annoy us a little while. We unfortunately cannot see what effect they are to have in the future. Mr. James Roberts, a citizen of Scranton, residing at 1605 Laf. yettestreet, told our representative something of his experiences that clearly demonstrates what a little thing may grow to if it is overlooked: It seems Mr. Roberts caught a severe cold about three years ago, and at the time chills followed, and he had severe sweating attacks, which were often so bad he found it necessary to change his clothes. The complaint grew worse and bladder difficulties set in. A soreness and pain existed in the lower portion of the abdomen. Urinary troubles followed, the urine was dark colored, depositing sediment. The kidneys were not performing their proper functions, and this was at root a kidney disorder. It was a difficult matter to even rise from a chair to a straight position without causing pain, and for a great portion of the time he was rendered incapable to work. Then he noticed the words of praise sounded for Doan's Kidney Pills, and getting a box at Matthews Bros., drug store he began taking them. With the second day of their use he felt a change for the better, and now he gets around and is working with comparative ease and comfort. Most of the bad symptoms have entirely left, and they are all rapidly disappearing. Mr. Roberts is still taking Doan's Kidney Pills. He says that they are curing him, and that the greatest remedy of its kind is Doan's Kidney Pills.

No remedy has ever been so successful with both old and young in righting the kidneys' action when deranged, and no medicine ever compounded has received such words of praise as Doan's Kidney Pills. Tis easy to prove our statements. Watch for them they may be neighbors of yours, whom you cannot doubt, no matter how sceptical you may be.

Deafness, Ringing Noises and Catarrh Cured by Dr. Salm.

For a long time I noticed that I became gradually harder and harder of hearing. Ringing noises came in the ear after a while, and I became very much alarmed. So I went to Dr. Saim and put myself under his care and to-day I am grateful to state, and for the benefit of those who may suffer in a like manner, that I can hear once again as good as ever, and those infernal noises have disappeared, although I am nearly 60 years old. Dr. Falm said all of it was caused by eatarrh:

Some years ago I contracted catarrh and it went to my ears. Gradually I became worse and my ears began to roubte me very much, my strength began to give out, and I became weaker and weaker so that I was not able to doctors in the county, but somehow they couldn't do me any good; so I went to see Dr. Salm. He promised to cure mee, and I dare say, he kept his word, for to-day I am again stout and healthy as could be expected of any one of my age, 69 years, and I find that I got value received for the money paid to the doctor.

Thought His Time Had Come but was Cured by Dr. Salm. Dr. Salm.

For some years I have been suffering very much with various ailments and broke down at last. I suffered most excrutiating pain from head to foot all the time. My stemach troubled me a good dead, liver and kidneys as well were out of order; in fact, I thought my time had come. The doctors couldn't do me any good: patent medicines had no effect; so I went at last to Dr. Salm, and after a course of treatment, I am now again as hale and hearty and strong as ever.
