Puncture Annoyance.

Sometimes a difficult part of a puncture on the road is its location. After examining the tire and noting the likely places, apply saliva at these spots, and when the right one is found, bubbles will be noticed. The permanent repair of a double-tube tire is to patch the inner one. Let the air out, and if the tire is "cemented" pull it off, and if the "clincher" spring off, being careful in pushing the valve through the hole in the inner tube. If it is the "clincher" pattern the inner tube may be readily removed, but if a "cemented" tire, it is a trifle more difficult. In the latter there is a slit about eight inches long in the outer tube, where the valve comes through, which is held together with lacing. Cut this lacing, and the two ends of the inner tube will be seen to come together here. Fasten a string to one end, and catching hold of the other end, pull the tube out, being careful to leave the string in the casing. When removed inflate tightly, and grasping firmly a section between your hands about a foot long, immerse in water and stretch to the utmost; and if the puncture is in this section this will sufficiently enlarge it to permit the free escape of bubbles. Continue this way throughout the whole tube, and when the puncture is located, bite a little piece of the rubber out from around it so that it may be more readily found; let the air out, and cut a piece of rubber to fit over the hole, covering the edges of the puncture and this piece with a rubber cement made for this purpose; and when a trifle dry, place the patch on and put a weight on top. Inflate and test in water for leaks, and if all is right let the air out and fasten one end to the string, which was carried into the outer tube on the removal of the inner one, and by this haul it in place again, lacing up the slot with string. Inflate again, and after covering the rim of the wheel with cement, place it on and let it dry, revolving the wheel with the rim and tire in water so to make the cement set.—Harper's Round Table.

Boy Pleads Get Long Terms.

One of the Train Wreckers for Life. Others Forty Years Each. ROME, N. Y., May 8.—The jury in the case of John Watson Hildreth, one of the boys who wrecked a New York Central express train, returned a verdict to-day of murder in the second degree. His companions, Herbert Plato and Theodore Hibbard, pleaded guilty to manslaughter. Judge McLennan sentenced Hildreth to Auburn Prison for life, remarking that the jury had dealt very leniently, as they might have convicted him of the highest crime known to the law. He said Hildreth's crime was a terrible one under civilization almost as bad as poisoning the streams that came from the hillsides. Hildreth stood up and received his sentence without flinching, but after he sat down by the side of his father his eyes filled with tears and his lips trembled. Plato and Hibbard were each sentenced to forty years each—twenty years on each indictment.

Medical.

These boys and another, named Frederick Bristol, who has since died of consumption, were accused of planning to wreck a New York Central express train, for the purpose of robbing the passengers. The crime was committed last November, near Rome. The engineer of the train was killed, and the fireman so badly injured that he is only now able to leave the hospital. A clerk of the railway mail service was also severely hurt. The clue to the perpetrators was a hat belonging to Hildreth, which was found near the wreck. None of the lads was more than eighteen years of age, and except in the case of one of them their parents were in comfortable circumstances.

Troubles that Would Follow McKinley's Election to the Presidency. If the Republicans elect the President next fall and have a majority in both Houses, they will probably pass something like the McKinley tariff bill, and they will generally suppose that this will bring in an era of prosperity; but it will not do so any more than the old McKinley tariff which led to the terrible deficit of 1890. It will be full of excesses and abuses which will bring about another reaction, and there will then be in a few years another kind of tariff with a similar result. Prosperity will wait for a settlement of the currency question. Once a community adopts the plan of getting rich by legislation it bids fair to stendiness. No matter what acts are passed, the mass of the population remains poor or fails in business, and then lays the blame on the legislation or on the legislators, and tries new men or new measures. It has always been so, and will always be so. The government of the day is always responsible for both the weather and the crops, and this alone will make McKinley's election a national misfortune. It is not that he will make a protective tariff that we fear, but that he will make another tariff which people will not put up with very long.—May Forum.

The Cost of Religion. Both as a purchaser of materials and supplies, and as an employer the church has important relations to business. It is manifest, therefore, that the financial affairs of the church must be on a large scale, when all its interests are considered. Its expenditures foot up to an aggregate which is truly enormous. It takes \$10,355,000 annually to pay the bills of the Protestant Episcopal church; \$23,963,000 to pay those of the Methodist Episcopal church; nearly \$14,000,000 for the expenses and contributions of the Presbyterian church (northern); \$11,673,000 for those of the Regular Baptists, and \$10,355,000 for those of the Congregational denomination, making an aggregate of \$88,000,000 every year contributed by 10,768,000 members—an average of \$8.16 per member. The grand total for all denominations could hardly be less than \$150,000,000, and it might be many millions larger. Most of this is made up of voluntary contributions. The value of church buildings, lots, and furniture, in 1890, was about \$680,000,000. It is quite probable that it is now fully \$800,000,000.—May Forum.

Medical.

—Mr. Rufus Hill, master machinist of the Pennsylvania railroad company, believes that inside of five years the greater part of the entire Pennsylvania railroad system will be operated by electric locomotives. This judgment is based upon the unexpected success attained on the line between Burlington and Mt. Holly, N. J., and coming from an eminently practical authority, it may be accepted as one of the most significant utterances heard in the railway world for many a day.

Epworth League.

Fifth Annual Convention of the Altoona District Epworth League—One hundred and Seventy-two Delegates Present—Representing Seven Thousand Seven Hundred and Thirty-five Members—Sessions Well Attended—Papers and Talks Interesting.

The fifth annual convention of the Altoona District—comprising the counties of Blair, Clearfield and Centre—of the Epworth League, convened at 1.30 o'clock last Thursday afternoon in the Methodist church of this place. About one hundred and seventy-five delegates were present when the convention was called to order by President Bair, of the Phillipsburg Journal. Rev. R. W. Illingworth, of Warriorsmark, conducted the "Look Up Service" and cordial addresses of welcome were made by Miss Lizzie Akers of Bellwood; recording secretary, W. M. May, of Altoona; treasurer, J. H. Reiley, of Tyrone, and superintendent of junior work Mrs. J. W. Glover. Hollidaysburg was the place decided upon as the place for the next convention and as the minister of that place was made a member of the executive committee instead of Rev. J. W. Rue.

The junior program was well rendered and showed careful and conscientious preparation on the part of all the speakers. Mrs. Benschoter's paper on "Uniform Study for Junior Leagues" squarely faced the question of the present day crowding and cramming in the schools, churches and societies, the necessity of home influence and intercourse, and the result of too many church organizations. Ethel Lytle, of Altoona, a little girl nine or ten years old, sang "The Bells of Your Consensus are Ringing" in a beautiful full contralto voice for a child. Her every session recitation by Grace Jones, also of Altoona, were two of the most pleasing features of the afternoon. They are both bright and talented children with wonderful self-possession. The report from the junior delegates, "Junior League Methods" and the miscellaneous business were omitted as many of the delegates were obliged to leave on the afternoon train.

THE LAST SESSION. A large and appreciative audience assembled in the church Friday evening to hear the closing exercises of the convention. Dr. A. R. Miller, of Phillipsburg, preached the annual sermon. He was followed by Evangelist Weaver who held the people for an hour. Nearly every member of the convention took part in the experience meeting and when at last the benediction was pronounced it was from cheerful hearts and thankful lips. Her every session recitation by Grace Jones, also of Altoona, were two of the most pleasing features of the afternoon. They are both bright and talented children with wonderful self-possession. The report from the junior delegates, "Junior League Methods" and the miscellaneous business were omitted as many of the delegates were obliged to leave on the afternoon train.

Thursday Evening. Promptly at half past seven the convention was called to order with Rev. J. W. Forest as leader of the prayer and praise service. Then followed one of the most interesting addresses of the convention, Rev. H. L. Jacobs' "A Symmetrical Epworthian." His talk so pleased the audience that several times he was obliged to wait 'til the applause ceased before he could go on. C. V. Hartzell and several members of the convention discussed "The Abuse of the Department" and then President Bair delivered his annual address. A general reception was held after which a large number of delegates were present but not a great amount of sociability prevailed.

Friday Morning. Cold and threatening as the morning was, the "Leaguers" were out bright and early for the sunrise prayer meeting, which was conducted by W. M. May. J. E. Gearhart led the devotional exercises at the opening of the regular session at 8.30. Most of the morning was given to "The Six Ups." S. C. Watts, of Clearfield read a carefully prepared and helpful paper on "Look Up." His report was so encouraging that his most conservative hearer could be but convinced that the League was doing a splendid work. Miss Sam Glass told of the noble work the mercy and help department were doing in her talk on "Lift Up." The subject of "W. Weaver's talk, "Read Up" was most appropriate for Mr. Weaver is not only the third vice president of the League but is the superintendent of Clearfield county and a very well read man. Both the Bellefonte and State College chapters reported progress and a good reading course. "Talk Up" was the next report J. E. Gearhart, of Clearfield, in the absence of D. W. McCarty, the fourth vice president, was the speaker.

Miss Lizzie Akers, of Bellwood, the efficient corresponding secretary next reported. Her subject was "Write Up" and included a comprehensive report of the work done in the district by the League. There have been 299 conversions through the work of 509 "Read Ups." The organ of the Epworth League are taken. There are 5,505 members of the League in this district. The largest chapters are at Bellwood and Clearfield. There are 51 appointments where there are no League chapters. The Junior League has 2230 members and several chapters without leaders. When they have leaders it will increase the membership to over 3,500. "Pay Up" by H. Reiley, of Tyrone was simply the treasurer's report. Mr. Reiley's report was not so encouraging as some of the others; but after all the necessary expenses had been paid there was still a balance in the treasury of \$55.55. Rev. M. L. Gano, who came down from Altoona to give strength to the convention had more questions than he could answer in the morning and the reports of the different chapters were called for. Bellefonte reported 87 new members. Spruce Creek 30. The Clearfield, Bellwood, Coalport, Irvona, Stormstown, Gray's Church, Scotia, Hollidaysburg, Howard (by the way has raised over \$100 for the church), Hunter's Run, Lumber City, Grampian, Cherry Run, Unionville, Osceola, Phillipsburg and other Chapters presented interesting reports and are alive and flourishing.

Friday Afternoon. The afternoon was given over to the election of officers, the Juniors and their work. Mrs. Samuel Blair very earnestly and intelligently conducted the "Lift Up" service. Revs. Illingworth and Hartzell prayed, and the boys of the Bellefonte Junior sang "Onward Christian Soldiers." Rev. M. L. Gano finished up the questions from the morning and gave his opinion of the introduction of military tactics into the League. A most practical and sensible talk in which we agree thoroughly for we have developed far too many "jingles" as it is, with our patriotic association and military bluster. It is peace and not barbaric war we are after and Christians can not be developed by the being of drums or the firing of guns. If the boys can only be held in that way there will be very little spirituality in the League. The resolution to appoint a district captain for the "Guards" brought out both opposition and favor which was finally settled by Rev. A. R. Miller moving the resolution be laid on the table, which carried.

As usual the election of officers was accompanied by more or less talking and counter talking, but the slate seemed pretty well made up for there was not a spirited contest over one of the offices and many of the delegates took no part after the election of president. A motion, framed by the committee on resolutions and adopted by

the convention, limiting the nomination to three persons created some little dissension, but the following officers were finally elected after the chair, Rev. J. W. Rue, ruled that the plurality as well as the majority elected. President, W. T. Bair, of Phillipsburg, 1st vice president, S. C. Watts, Clearfield; 2nd vice president, Mrs. Samuel Blair; 3rd vice president G. W. Weaver, Curwensville; 4th vice president Miss Sallie Kittleberger; corresponding secretary, Miss Lizzie Akers of Bellwood; recording secretary, W. M. May, of Altoona; treasurer, J. H. Reiley, of Tyrone, and superintendent of junior work Mrs. J. W. Glover. Hollidaysburg was the place decided upon as the place for the next convention and as the minister of that place was made a member of the executive committee instead of Rev. J. W. Rue.

Medical.

HOOD'S SARSAPARILLA. Hood's Sarsaparilla has enjoyed public confidence and patronage from the beginning to a greater extent than was ever accorded any other proprietary medicine, because it possesses greater merit and produces greater cures than any other. These are facts easily proven, if you are interested, by asking any dealer in the United States. All advertisements of Hood's Sarsaparilla, like Hood's Sarsaparilla itself, are honest. We have never deceived the public, and this with its superior medicinal merit, is why the people have such an abiding confidence in it, and buy it almost to the exclusion of all other Sarsaparilla and blood purifiers.
