THE BURGLAR SHOT AT HIM. -Banker Chas. F. Cook, of North Spring street, had a thrilling experience with a burglar who entered his house last Tuesday night and left the ball from a 28 cal. revolver as a grim reminder of his visit.

Mr. Cook was sleeping by himself in a second floor room, about the middle of the house, and was awakened by the man entering his room from the first landing of the stairs. The baby of the family was asleep in its crib between the bed and the door and a dim light was burning. Mr. Cook's dresser stood within a few feet of the door and the man had his hands on it when the sleeper awoke and jumped for him. The crib was in the way, so by the time Mr. Cook had reached the door the burglar had jumped down the two steps onto the landing, where he stumbled and, fearing he would be overtaken, turned and deliberately fired on his pursuer. The bullet struck to the right and about a foot above Mr. Cook's head. It flattened out against the hard wood paneling in the stair case and is now in possession of the man who was intended to have it.

After the shot Mr. Cook retired to leave the fellow have as free egress as he had had ingress. Entry had been made through a window in the north side of the house. The entire downstairs had been ransacked, but nothing is missing.

The man wore a black derby hat, a brown coat, dark gray trousers and was in his bare feet. Mr. Cook is not sure as to whether he wore a mask. He was over the average height and slight. The impress of his bare feet could be seen on the porch and up along Spring to West Curtin street. Mr. Cook thinks he could identify the man and is of the opinion that it was the same fellow who entered Hon. S. R. Peale's house, in Lock Haven, on Monday night, and fired at that gentleman because he had dared to get awake and inquire who was in his room.

F. W. Crider's house and the house of John T. Johnston, on East Linn street, were also entered, Tuesday night, but the burglar did not reach the second floor in

SOME FACTS ABOUT THE SYNOD NEXT Austin O. Furst, Mrs. John P. Harris, Mrs. of the Presbyterian church for Pennsylvania and West Virginia is making more busy housewives in Bellefonte, just now, than any other cause. A great number of ministers will be here on the 15th and the large majority of them will be entertained in private families. The coming of such a ministerial body cannot but bring good to any community and there will be plenty of righteous seeds sown by the visitors, next week, in soil that might now be considered

There is no under rating the influence a christian teacher can exert when he is taken into the inner circles of a family for a short time. It is a pleasure to have such men with you. Bellefonte's past experience with the gatherings of ministers of various denominations has been such that she looks forward to the advent of the Presbyterians with actual gladness.

The Pennsylvania Synod is one of the largest delegated ecclesiastical bodies in the world, embracing all of the Keystone State, West Virginia and the missions of West Africa Zacatecas, Mexico. It has a representation of 1,071 ministers, 1,184 churches and 197,491 members, with an average Sunday school attendance of 207, 228. The committee is composed of Rev Harvey Graeme Furbay, chairman : Rev. David R. Breed, Rev. V. Stockton, Rev. R. H. Fulton and elders, Judge J. P. Sterrett, S. S. Marvin and S. P. Harbison. will consist in the hearing of the various reports of committees, of which there is a large number. The report of the special committee on the transfer of the Reading churches from the Lehigh to the North Philadelphia Presbytery may occasion some little diversion. Throughout the Synod there was contributed for home missions the enormous sum of \$210,910, for foreign missions \$178.584, education \$28,-998, Sunday school work \$30,853, church erection \$51,863, relief fund \$36,085, freed men \$36,986, synodical aid \$21,630, aid for colleges \$18,835, general assembly \$18,688, congregational \$2,195,351 miscellaneous \$217,303; a total of \$3,042,303. In addition to the above the Sunday schools contributed to the various branches of work \$109,100, making a total of \$3,211,210.
