FARM NOTES.

Have you provided a dust-bath for the hens this winter? It will help you greatly in keeping your flock free from vermin.

Dr. P. T. McMahon, the veterinary surgeon who has charge of the horses of the Chicago fire department, in a recent article says:

It will pay you to try steamed cut clover for an occasional feed for the chickens when the days get cold and the ground is snow covered.

Renew the nests occasionally. Cut straw makes a good nest. Take out the old and burn it, before it becomes filth-covered or vermin-infested.

Don't neglect to provide plenty of grit—the sharper the better—for the hens. Broken china and earthenware answer the purpose very well, as does broken oyster shell.

One doesn't have to become a fancier in order to have good fowls. A flock of thoroughbred cost no more to hatch and keep than a lot of scrub hens, and the income is double if not more.

Look around the farm now and endeavor to find if any implements or tools have been left out. Overhaul all implements and oil them, anointing the iron or steel with kerosene, in order to prevent rust.

This is an excellent time to remove a tree if it is not large. Dig a hole larger than the tree, so as to give the roots plenty of room, and take up as much roots with the tree as possible, filling in with top soil and fastening the tree to a stake.

"Bran stands decidedly foremost as the food most generally in use for the invalid horse; it acts as a laxative, is frequently tempting to the appetite, and is easy of digestion. There is no part of the general treatment more universal than offering this substance as a change of food.

Plow the garden now, cover it with manure thickly and work it into the soil, first with a cultivator and then with a harrow. This will give the manure an opportunity to decompose before spring, and the soil will absorb the soluble portions. Plow again early in spring and keep the ground loose.

Fruit growing gives employment to thousands during the harvesting of the several crops, hence the profits therefrom are distributed among a large portion of the community. There is no occupation in farming that assists so much in circulating money in a neighborhood as that of growing fruit.

House plants should receive daily attention. The leaves should be kept clean by washing or spraying, as dust is injurious to window plants. If the plants do not thrive it may be due to the atmosphere of the room being too dry, or the pots may require fresh earth. It is not necessary to trench plants when water is provided, and good drainage in the pots is necessary for the thrifty and rapid growth of the plants.

"Oatmeal is extremely nutritious, and as a food for the convalescent horse is most valuable; the bruising process the grain has undergone breaks the husk, and renders it more easily acted upon by the digestive organs. It is usually given in the form of a gruel, and in that form it is one of the most essential articles of diet for the infirm. It is also a ready mode of supplying the tired, thirsty horse with nourishment after exertion, when he returns to the stable."

"Of all roots which horses are tempted, the carrot, as a rule, is the favorite and perhaps the most beneficial. It is said to be somewhat diuretic in its effects, and to exercise a salubrious influence on the skin. Certain it is that a sick horse may be coaxed into eating carrots when disinclined to partake of other nourishment, and the greatest benefit results for the ailing horse, then, carrots are most valuable as a mode of diet, and a ready means of giving with advantage even to a horse in healthy condition.

Many strawberry beds are overrun with weeds and grasses on the rows. Where crab grass has secured a foothold it will leave a large mass of dried grass on each row after frost comes. This persistent grass cannot be dug out of the rows without destroying the strawberry plants. To get the bed clear of weeds and grass it will do no harm to the strawberry plants to burn the patch over, adding any additional material for that purpose that may be serviceable. The best time to do this is when the ground is frozen. In the spring the rows can be narrowed and cultivation given between them.

The cutting out of old wood of raspberries and blackberries is one of the most important duties to be performed after the ground is frozen, because by so doing many insects and parasites can be destroyed by burning the cuttings. If the damaged canes of the blackberries are cut out during the growing season, and the old canes also burned, the borer can be destroyed in two or three years. This work should be done by all growers in a neighborhood, and every field should be inspected in order that the work be made complete. In some sections the borer has made the blackberry crop unprofitable and yet by co-operative effort the obstacle can be easily removed.

"Is he incapacitated by lameness? A lower diet than that with which he is indulged when in full work is judicious, and bran is selected. Is it necessary to administer purgative medicine? A bran mash or two renders the bowels more susceptible of its action, and a smaller portion of the drug is therefore required to produce the desired effect, and there is, at the same, less risk of painful spasms accompanying its operation. Bran mashes may be given hot or cold—cold are perhaps quite as grateful to the horse; but the nibbling of the hot mash in catarrhal affections is particularly beneficial, from the necessary inhalation of steam.

"Is the horse very weary, and his powers of digestion weakened in consequence? We induce him to take a warm bran mash, which comfortably distends the stomach and satisfies any craving for food, thereby enabling him to lie down and rest his enfeebled system until repose restores its wonted vigor. Does he show slight symptoms of cold or fever? A warm bran mash is a convenient plan of steaming and consequently of soothing the irritable mucous membrane of the air passages. It is a substitute for the more stimulating diet he is accustomed to, and gently promotes the activity of the digestive apparatus; it is also a convenient medium for the exhibition of certain simple remedies, to be mentioned hereafter.

It is estimated that the United States will ship abroad this year 2,000,000 barrels of the splendid apple crop, the largest on record. Up to October 24th, the shipments amounted to 1,081,647 barrels. The largest shipments of a season since 1880 were those of 1891-2, amounting to 1,450,338 barrels. They go chiefly to Great Britain and are thence sent to Germany and a few to Denmark and Sweden. The Spanish-Americans countries and the West Indies also take a good many. But apples are very low, and some shipments this year have netted the producer only 40 to 60 cents a barrel. A low estimate of the crop is 12,000,000 barrels, but other estimates make the crop as high as 45,000,000 barrels in the United States and Canada, the Canadian crop being put at 4,000,000 barrels. The great apple state of the Union is New York, and in the northern and western parts of that state. In Niagara county the crop is put at 2,000,000 barrels.

No patriot will stand in the way of returning prosperity, but the fact cannot be overlooked that in many cases where manufacturing establishments are being opened there are the ones which were closed down before election in order to give the employes the so-called object lessons. The same thing is true of many of the concerns which announce advance in wages. The wages were cut with the announcement that they would be restored in case of Republican success. These are old tricks of the Republican campaigners.

A DECEPTION EASILY PRACTISED is the offer of a reward for "any case of catarrh not cured" by certain "cures." Nothing is said regarding the number of bottles required, and therein lies the deception. Ely's Cream Balm is an elegant preparation, agreeable to use, and immediately in its beneficial results. It cures catarrh. You can rely upon the fact that it contains no mercury nor other injurious drug. 50 cents.

RHEUMATISM RUNS RIOT.—When there is lactic acid in the blood. Liniments and lotions will be of no permanent benefit. A cure can be accomplished only by neutralizing this acid and for this purpose Hood's Sarsaparilla is the best medicine because Hood's Sarsaparilla is the only true blood purifier prominently in the public eye. Hood's Pills act easily, yet promptly and effectively, on the liver and bowels. 25c.

When a young tree is bought it is important to examine the roots. It is not of great consequence if the top is injured, as it can be cut back, but the roots should be plentiful, free from injury, and the whole tree in a healthy condition.

Honey is scarce this year. Beekeepers say it is owing to the incessant rains of the summer, which washed all the nectar and honey-making qualities out of the flowers.

Children Cry for Pitcher's Castoria. When baby was sick, we gave her Castoria. When she became a Child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria.

Gored by an infuriated Cow. The Animal was a Pet and Suddenly Became Wild. Mrs. Mary Blockstein, of Pleasant, Prince George's county, Maryland, was gored to death by an infuriated cow Sunday. The animal had always been very gentle, and was a pet of the woman. She approached it yesterday, when it was nursing its calf, and turning upon her unexpectedly, the beast threw her to the ground, tore the clothing from her and ripped open her throat and the back of her head. The woman was found dead on the field with the cow still goring her.

Never Heard Of. I believe he had two sons; one of them was lost at sea and the other became Vice President of the United States. "And, of course, neither of them was heard of afterwards!"—Truth.

THE CENTURY. IN 1897. ALL NEW FEATURES. The Century will continue to be in every respect the leading American magazine. The work is not only historically accurate, but is a most interesting story of love and war. The first chapters in the November number. Howard Pyle will illustrate it.

A GREAT NOVEL OF THE AMERICAN REVOLUTION. Its leading serial feature for 1897 and the masterpiece of its author Dr. S. Wei Mitchell. The story, "Hugh Wynne, Free Quaker," purports to be the autobiography of its hero, an officer on Washington's staff. Social life in Philadelphia at the time of the Revolution is most interestingly depicted, and the characters include Washington, Franklin, Lafayette, and others well known in history. It is safe to say that the readers of this great magazine will obtain from it a clearer idea of the man who were foremost in Revolutionary days, and of the social life of the times, than can be had from any other single source. The work is not only historically accurate, but is a most interesting story of love and war. The first chapters in the November number. Howard Pyle will illustrate it.

CAMPAIGNING WITH GRANT. BY GENERAL HORACE PORTER. is the title of a series of articles which has been in preparation for many years. General Porter was an aide on General Grant's staff and a close friend of his chief, and the diary which he kept through the war is the basis of the present articles which are striking pen-pictures of campaign life in this issue. New features will be announced from time to time. Superb Art Features. The Best Short Stories. \$4.00 a year, 35 cents a number. All dealers take subscriptions, or remittances may be made direct to the publishers by money or express order, check, draft, or registered letter. THE CENTURY CO., Union Square, New York. 41-4.

ST. NICHOLAS FOR YOUNG FOLKS. CONDUCTED BY MARY MAPES DODGE. "The best of all children's magazines" is the universal verdict on St. Nicholas. It began existence in 1873, and has merged in itself all of the leading children's magazines in America. The greatest writers of the world are its regular contributors. The supreme quality of St. Nicholas is its bright, healthful and invigorating atmosphere. THE COMING YEAR will be a great one in its history. It will have a more varied table of contents and more spirited illustrations than ever before. The leading serial beginning in November, will be: A STORY OF SHAKESPEARE'S TIME. "MASTER SKYLARK," BY JOHN BENNETT. Illustrated by Birch. THIS is a lively story, full of action, color, merit, and human nature. The world's greatest poet figures as one of the principal characters, although the hero and heroine are a boy and a girl. It is poetic in treatment, but full of the romance of the Elizabethan age, and very dramatic in plot. Another serial, beginning in November, is A GREAT WAR STORY FOR NORTH AND SOUTH. "THE LAST THREE SOLDIERS." BY WILLIAM H. SHELTON. A strong story with a unique plot. Three Union soldiers, members of a signal corps, stationed on a mountain-top, cut a bridge that connects them with the rest of the world and become veritable castaways in the midst of the Confederacy. Will be read with delight by children North and South. A SERIAL FOR GIRLS. "JUNE'S GARDEN," by MARION HILL, is addressed specially to girls, and is a favorite writer. It is full of fun, the character-drawing is strong and the whole influence of the story is inspiring and uplifting. SHORT STORIES. THERE will be many tales of brave effort and adventure. GEORGE KENNAN has written three exciting stories of his experiences in Russia. WALTER CAMP will have a stirring account of a bicycle race, and J. T. TROWBRIDGE will contribute a story of the sea. Every month will have articles representing ALL THE BEST WRITERS. Patriotic Sketches, Helpful Articles, Tales of Travel, Fascinating Tales, Bright Poems, Spirited Pictures, Prize Puzzles, Etc., Etc. \$3.00 a year, 25 cents a number. All dealers take subscriptions, or remittances may be made direct to the publishers by money or express order, check, draft or registered letter. THE CENTURY CO., Union Square, New York. 41-4.

Hard of Hearing for 35 Years, Cured by Catarrh, and cured by Dr. Salm. Rev. J. D. Leister, Swales, Pa. Replying to your inquiry, as to testimonial with my signature, published by Dr. Salm, I will say that I was under his treatment for 10 months for my hearing. It was catarrh of the middle ear, and like yours could have better some days than others, could hear better in noise. My hearing was very much improved by the treatment, and have no doubt, that he can help you. Dr. Salm appears to be an honest man, and he will tell you the truth, whether he can help you or not. If I were you, I would certainly consult him. I was longer afflicted than you. My hearing was had in one ear for about 25 years, and in the other for about 24 or 25 years. Hoping that your hearing will be entirely restored. I remain, Isaac Pierson. Bedford Co., Bedford, Pa.

Case of Catarrh Cured by Dr. Salm. Rev. J. D. Leister, Swales, Pa. Yours came to hand to-day. Dr. Salm treated my 13 year old boy for catarrh in the head, and cured him in 4 months. I don't know whether he can cure you or not, but on examination he will tell you the truth. I know a man here, that he examines all give me up as incurable. Ben Lambert. Madisonburg, Centre Co., Pa.

After the Country Doctors Had Given Him Up as Incurable, Dr. Salm Cured Him. I must truly say that Dr. Salm has treated me well and I have improved wonderfully under his skillful treatment, even after our country doctors all gave me up as incurable. J. F. Weidenmeier. Paxtonville, Snyder Co., Pa., Aug. 24th, 1896.

Case of Catarrh Cured by Dr. Salm. For 7 years I have had a bad case of catarrh, took cold continually and almost always had headaches; a bad stomach, as well as too many accompanying troubles to mention. But now, after only a short treatment of Dr. Salm, I am almost a new man. Henry Treon. Sunbury, Northumberland Co., Pa., Sep. 9th, 1896.

Received Great Benefit. I have received great benefit from the 3 month treatment, I have taken from Dr. Salm, for which I feel very grateful. D. F. Porter. Butler, Butler Co., Pa., Aug. 1st, 1896.

Dr. Salm Satched Her From Her Grave. Mr. Secretary—You asked me why I did not come back last month. The medicine Dr. Salm gave me helped me so much, that I thought it was not necessary to return at present, but however, if I need any further treatment he is my physician. He cured me of scrofula, about one year ago, snatched me, you might say, from the grave. This is saying a good deal, but it is true. Mrs. A. E. Meyer. Linden Hall, Centre Co., Pa., July 14th, 1896.

Cured of Stomach, Liver and Nerve Trouble by Dr. Salm. For more than 7 years I have had a bad stomach, liver and nerve trouble. Became so weak that I couldn't work any more. For 6 and one half years I have tried the best doctors in the country but got worse and worse, but now, after a short treatment with Dr. Salm, I am able to attend to my daily labors again, putting in a good day's work. Eat splendidly and have gained greatly in weight. Philip R. Enders. Dalmatia, Northumberland Co., Pa., Sep. 9th, 1896.

Nobody Has Done More for My Health Than Dr. Salm. I have only taken a half month's treatment and in that time, I dare say, no one could have done more for my health than Dr. Salm, as I feel a great deal better. William H. Knapp. Troxleville, Snyder Co., Pa., Aug. 3rd, 1896.

Catarrh and Bronchitis Cured by Dr. Salm. For some years I have been in bad health. Suffered very much from catarrh and bronchitis, lost flesh continually, coughed a great deal and there didn't seem to be a spot about me that didn't ache. So I went to Dr. Salm, who comes here every four weeks, for treatment. I am so much pleased with the improvement that I want everyone to know it. I can eat finely, feel a good deal stronger, and I know I will soon be myself again. Mr. Henry Keithan. Sunbury, Northumberland Co., Pa., Sep. 9th, 1896.
