### How Trusts Rob Us All.

Big Concerns That Plunder Our Own People.—London Paper on Legalized Rape in America.

is investing in banking, in natural and manufacturing gas companies, in beds of iron ore and coal and in crude oil production, in lead and zinc, in turpentine and cotton seed oil, in steel, in jute manufacturing, in ocean steamships, in palatial hotels and in street railroads."

MR. ROCKEFELLER'S WEALTH.

The London Telegraph has had a special correspondent looking into the social and political conditions of the United States for some time, and he has been sending to his paper his impressions of the observations he has made. Like most keen-eyed foreigners, he has been amazed at the number of colossal fortunes that have been made here in the last decade, and he has been at some pains to investigate the condition of a country where it is possible for a man or set of men to roll up wealth so rapidly. He has discovered—what most true Democrats long have known—that it is the Republican high tariff which is responsible for the trusts which have sprung up in almost all lines of trade and enabled their managers to bleed the people to the point of robbery. He calls attention to the fact that there are at least 139—the number is probably too small—combines which control nearly everything the people eat and drink, and which change whatever they like for their products, and contrasts this condition of affairs with that in Great Britain, where the laws are framed to prevent extortion of the people by commercial pirates. Regarding trusts he says :

Nothing, of course, in the affairs of men is better known than the art of getting rich. It is so extremely simple. All that one needs is brains and opportunity. Some cynics would add, as a further requisite, capital; but really, in this wonderful country, one meets with so many men rolling in wealth beyond the dreams of avarice who began with no capital at all that in speaking of America at any rate, we may let that item out of the account. The wealth of combinations is to control the west as Carnegie is said to do the east. I am inclined to believe the report because it protest too much.

Meanwhile there are other worlds to conquer. Mr. Rockefeller is the owner of a large steel plant near Cleveland and is said to be forming an enormous pool in steel. The little scheme credited to this Napoleon of combinations is to control the west as Carnegie is said to do the east. I protest too much.

Lying on the Baltimore & Ohio line the other day, while the train was winding through the sinuous, rugged and picturesque valley of the Pocono, the thought occurred how would the British housekeeper stand the tyranny of these trusts? Think of him retiring to rest Sept. 1 and walking the next morning to find that coal had risen 6¢ a ton! Ridiculous, absurd, impossible. Yet oh, interrupted Cedric; "I know why they called the Dark Ages. Because there were more knights than."

MAKING YOURSELF STRONG.—If you would resist pneumonia, bronchitis, typhoid fever, and persistent coughs and colds. Theseills attack the weak and run down system. They can find no foothold where the blood is kept pure, rich and full of vitality, the appetite good and digestion vigorous, with Hood's Sarsaparilla, the one true blood purifier.

Hood's Pills cure liver ills, constipation, biliousness, jaundice, sick headache.

Why She Took It.

"My dear," said Mr. Darley, "did you take my money out of my waist-coat pocket?"

"I did," replied she defiantly.

"Why did you?"

"Because that is one of married women's vested rights."—Exchange.

GREAT MERIT.
