THE BALLOT BOXES WILL BE OPENED. -On Thursday morning judge Love gave his final sanction to the shrievalty contest by ordering that all the ballot boxes already impounded should be opened and the vote for sheriff recounted.

The order was granted on a petition by the contestants that claimed that inasmuch as both sides had already stated, in their THINGS ABOUT TOWN AND COUNTY bills of particulars, that there had been illegality it was mete that the boxes should be opened. It will be observed that there has not been a single proof presented, nor the slightest tangible evidence that any irregularity was committed, yet the court has ruled that the ballot boxes shall be pried into even though confronted with the Last year the sales that were advertised affidavits of nearly all of the election boards in which they solemnly swear that there was nothing illegal in their precincts.

Monday, February 8th, has been set as the day on which the proceedings are to be begun. C. P. Hewes Esq., has been appointed examiner and Robert F. Hunter and H. C. Brew clerks. The examiner is required to produce the ballot boxes impounded and open the same "in the presence of the court or a judge thereof" and count the votes for sheriff and make a re port as to the result of said count.

There will be about nine thousand ballots to count. This done the contest will be fairly on, for then the taking of testimony and argument will be begun.

THE SAD CASE OF BERNARD JENNINGS. -Some weeks ago we published an account of the dangerous trouble that was gradually causing the decline of Bernard Jennings and, at the time, intimated that unless relief was soon found his death would be a matter of how long it would tion. The worst fears have been realized. He is dead.

After having spent the most of last summer at his home, in Coleville, this place, under treatment of local physicians for stricture of the throat, he entered Mercy hospital, in Pittsburg, on September 3rd. By that time there had been such a growth developed in the opening into his stomach that it was almost impossible for him to swallow. Upon consultation of the physicians it was decided to make an opening below the obstacle so that he could take nourishment through a tube. This was done shortly after his admission to the hospital and for weeks he was kept alive by opening had to be made, lower down. After this operation he hung between life and death for a long time, but finally rallied enough to give hopes of his recovery. Unfortunately the growth in the opening of the stomach continued and again the passage was shoked up. Then it became necessary to make another, a third one, and this time the physicians tried it from the frightful results mentioned. back of the patient, but without success.

He was operated on, on Friday morning, and died that evening. His brother Tom was a faithful attendant during most of The Philipsburg papers speak very highly his suffering and was with him when he died.
