After the Sparrow.

State Zoologist Warren Seeking Information Concerning the Bird.

During the past two years the Department of Agriculture has been in receipt of numerous inquiries concerning the economic relations of the English sparrow, many of the communications coming from fruit growers and farmers who testify to the destructive habits of the bird.

State Zoologist Warren, with the object of collecting all the reliable information possible concerning the economic status of the English sparrow and other birds, has begun a series of systematic investigations through correspondence with those who should have any knowledge of the subject in all parts of the State.

His questions, in part are as follows: Are English sparrows abundant, tolerably common or rare in your vicinity? Are they increasing or decreasing? How many broods does a single pair rear in a season? What are their usual nesting sites? When do they begin nesting? Do the native birds, outside of hawks and owls, molest them? Do you know of sparrows devouring the eggs or young of native birds? Do they destroy or tear up the nests of native birds? Have native birds diminished in your vicinity during recent years or since sparrows have become fully naturalized? Do you attribute such decrease to sparrows? What kind of native birds have been forced to abandon their native haunts? Have you known the sparrows to injure buds or blossoms of shade, fruit or ornamental trees or vines? Name the kinds of trees and vines injured. Can you estimate the probable loss, annually, occasioned in your township to wheat, oats and corn by the sparrows? Do English sparrows do serious damage to the cherry crop in your locality or to the grapes in feeding on the mature and ripening fruit? Have you ever known the English sparrow to attack ripe and ripening apples, pears and peaches and plums? If apples and pears are attacked do they feed on the meat or seeds, or are both eaten?

It is not expected that the answers to the above questions will fully demonstrate that the English sparrow is a vicious, mischievous and destructive little pest, whose obliteration would result in much good to the cereal and fruit growers of the State.

To the same correspondents Dr. Warren puts a series of questions in order to find out something of the destructiveness of the common crow. He asks: Do crows commit serious damage to poultry in your locality by stealing eggs and catching the young of domestic fowls? What species of native birds suffer the most from crows? Do you consider the damage done by crows is greater than the good they do by feeding on noxious insect life and mice? The object of this is to learn not only what the farmers suffers in his hen coop from crows but also what damage it does to the game of the State. When this information is secured it will be sent out in a series of bulletins from the Department of Agriculture.

The Windows of Our Homes.

Thin and Dainty Fabrics to be Hung Against Them.

The windows of a country house, or even of the city summer home, are very well worth consideration, and just now the woman who is doing up her portieres and lace curtains in camphor is also deeply interested in thin and pretty materials for hot weather hangings.

Bead draperies for summer houses usurp every doorway, shut out the ugly view of the fire place and hang very close against the sashes of windows to take the place of Holland shades. Decorators have come to employ them lavishly, first, because a bead curtain is the coolest and cleanest of all hangings, they are not costly, they outlast all woven goods, and as they are now manufactured they are pretty beyond words. One of the most delightful possible effects to arrive at in draping a hall or a long French window is to suspend there a portiere of blue beads. Pale blue up near the pole, but a rich dark blue near the bottom, while across this azure background a flight of swallows or swallows wing their way. Such a portiere is made of beads solidly, with no joints of bamboo introduced, and while it shuts out a view of the interior completely from a person outside the door or window, to one within it merely reveals the road, street or garden through a blue mist.

The Sleeping Room Question.

An intelligent woman in airing her views on the sleeping room question says: "It is a pernicious habit, yet one's conveniences counterbalance it to a great extent—that of sleeping two in a bed. If a child sleeps with an older person it is sure to lose its vitality to some degree, while, vampire-like, it is the older person who profits by this arrangement. Another reason why people should eschew this plan of saving trouble, space and expense is that very few persons who chance to be placed in a room, the same apartments are of the same disposition, or require the same coverings. One may need heavy bed clothing—the other require the lightest weight, and even a compromise would result in anything but satisfaction. Then one may be restless and given to much tossing and turning, and for this the quiet one must suffer. To be sure it is more trouble to keep up two single beds than one double one, but it pays in the long run, which isn't so long a run after all, that one need suffer discomfort during its flight."

Both Will Die.

Crazed with drink Clinton Rouck, Newton Fritz and Harry Hufford entered the house of Henry Van Buskirk, of Stroudsburg, and attempted to assault his wife. The husband was in bed with pneumonia. Hearing his wife's cries for help he secured a revolver and fired. The ball entered Rouck's stomach. The latter fired four shots in return, one striking Van Buskirk in the right breast, penetrating the lung. Neither man can recover. Rouck and Fritz are now under arrest but Hufford has so far eluded capture.

Lightning at Coke's Funeral.

WACO, Tex., May 16.—At the funeral of ex-Senator Coke to-day, just as the casket was being lowered into the grave a bolt of lightning struck a tree nearby, knocking ex-Gov. B. Hubbard, one of the pall-bearers, to his knees, and shaking ex-Gov. Ross and a number of others severely. A number of teams ran away and there came near being a tragedy.

—Limping Lanky—"How de trees moan and sigh." Pedestrian Peter—"Huh! If you was as full o' green apples as they be, you'd moan and sigh too.

Knights of the Golden Eagle in Session at Harrisburg.

HARRISBURG, May 13.—The state capitol building is crowded to-night with Knights of the Golden Eagle from every section of Pennsylvania. Their mission is to attend the annual state convention of the order, which will be in session the next three days. Public exercises were held this morning and evening at the opera house in the presence of large gatherings.

The feature of the day was a street parade this afternoon, in which 2,500 knights and auxiliary ladies, members of the women's auxiliary of the order took part. The procession was reviewed by members of the Legislature from Grace church and by Governor Hastings and other state officials and ladies from the executive mansion. The day's exercises closed to-night with a banquet and ball at the City Grays' armory, to which members only were admitted.

FIRST PRIZE TO ST. MARY'S COMMANDERY. At the competitive drill St. Mary's commandery, of Allentown, was the only commandery to give an exhibition from every class for which it was awarded first prize, a Hickok bicycle, valued at \$100. The award was made at this evening's exercises by Captain J. B. Hutchinson, of the City Grays', Harrisburg. There were no competitors for the second and third prizes, silver tea set and two silver cups. These awards were also made.

Fourth prize, silver swinging pitcher, to commandery having the largest number of men in line, Blue Cross commandery, Lancaster; fifth prize, silk flag, to the commandery coming the greatest distance with not less than sixteen men in line of parade, Mizpah commandery, Altoona; sixth prize, two ornamental pitchers, to the commandery with the finest banner in line of parade, Crescent commandery, Lock Haven; seventh prize, fine sword, to the colonel who has the largest regiment in line of parade and in personal command, Colonel Smeyek, Lancaster; eighth prize, meerschaum pipe, to the lieutenant colonel belonging to the regiment having the largest number of men in line and present, Frank C. Hoffman, Harrisburg; ninth prize, handsome officer's baldric, to the major who has the largest battalion in line of parade and in personal command, Major Reeser, Mechanicsburg; tenth prize, H. P. costume, to the castle with the largest number of men in parade, Newport castle, fifty-one men; eleventh prize, black enameled cathedral gong clock, to the castle with second largest number of men in line of parade, Doman castle, Philadelphia, thirty-four men; twelfth prize, cane, to the veteran line of parade, Steelton Veteran castle; thirteenth prize, fine silk umbrella, to the castle coming the greatest distance with not less than sixteen men, Chambersburg castle; fourteenth prize, Thirteen Century clock, to the castle having the finest banner in line of parade, Moro temple, Steelton; fifteenth prize, silver castor, valued at \$8, to the temple having the largest number of members in line of parade, Moro temple, Steelton; sixteenth prize, cut glass perfume bottle, to the temple having the second largest number of members in line of parade, Lancaster temple; seventeenth prize, silver shaving mug, to the best drilled juvenile company, Captain H. A. Swartz, Harrisburg; eighteenth prize, silver goblet, to the juvenile company having the largest number in line of parade, Captain O. C. Barker, Epworth grounds, Harrisburg.

A fine portrait was presented to Lieutenant General H. P. Reinecke, of Philadelphia, commander of the military branch of the order.

ORDER OF EXERCISES. The morning exercises consisted of music by the Commonwealth band, of Harrisburg; grand march, Governor Hastings' regatta, Grand Chief L. H. Tobin, grand chief of Pennsylvania; welcome, Mayor J. D. Patterson, of Harrisburg; response, Past Supreme Chief C. B. Wood, of Williamsport.

The order of the evening exercises follows: Music, Commonwealth orchestra; address, "Our Order," Grand High Priest John C. McKinney, of Philadelphia; duet, Knauss sisters, of Philadelphia; address, "Our Temples," Mrs. Josie Y. Walter, grand guardian of records; music, orchestra; humorous remarks, brother F. H. Hoy, of Harrisburg; past, Chief H. Koons, of Harrisburg; music, Weber's orchestra, of Harrisburg; awarding of prizes, Captain J. B. Hutchinson, of Harrisburg.

A short session of the grand castle was held this afternoon at which degrees were bestowed on all past officers. The annual session of the Ladies' temple, the auxiliary to the grand castle, was opened in the Odd Fellows hall by Grand Templar Mrs. Turner, with ninety-five representatives present.

The past temple's degree was conferred on the grand past templars by G. G. E. elect Mrs. Anna Kerr; P. G. P., Mrs. A. C. Lytle G. P., Mrs. Chinnick.

After this business the grand temple declared a recess until Wednesday morning.

HARRISBURG, May 14.—The Knights of the Golden Eagle settled down to business to-day and held two secret sessions. Grand Chief Tobin read his report, in which he recommended that the honors of the past chief be conferred upon the first fifteen officers of each castle instituted during the year provided the membership is fifty at the end of the first year, and that each castle in this jurisdiction shall, at the first session, in January, appoint a committee on official circulars or papers of an official nature after the same have been read in open castle by the master of records.

The report was adopted and a committee selected to procure a past chiefs regalia, jewels and a gavel for Mr. Tobin. The report of J. D. Barnes, of Philadelphia, grand-master of records, shows that the number of castles in the State on December 31st, 1896, was 494, with a membership of 38,291. Thus far in 1897 several new castles have been instituted and the membership is over 42,000 at present. The amount of money paid out during 1896 for relief was \$129,600.92. Since the institution of the grand castles in 1876 there was paid for the relief of members, widowed families, burial of the dead and for donation the sum of \$1,374,450.81.

The ladies temple convened this morning with 300 members enrolled. The committee on finance reported as follows: Receipts from per capita tax, \$1,194.72; charter fees, \$110; dispensations, \$13.25; withdrawal cards, \$6; supplies, \$4.98; fees from district grand temples \$2.25; total, \$1,321.20. Balance last report, \$101.54. Expenditures, \$1,380.58.

The report of the grand keeper of records, which was not read because of its mass of detail, but referred to committee, showed that there are now ninety-eight temples in the State, with a membership of 5,157 an increase of 957 since December, 1896. The receipts of subordinate temples \$23,150.07, and expenditures \$21,574.36; paid to sick companions, \$6,046.53; burial of the dead, \$787.15; donated, \$40.50; total amount for relief, \$6,874.18 on hand and invested, \$43,623.20; increase in funds, \$12,465.1.

Up to Date. Mr. Peepod—"Whar be ye goin', Silas?" Silas—"Goin' intertown to 'git some o' thet air 'Self-raisin' Buckwheat, an' plant it."

No Wonder. Albert—"Ethel is at least beginning to smile on my suit." "John—"Well, I don't blame her. Everybody else laughs at it."—New York Tribune.

This afternoon the annual memorial exercises for deceased members were held.

Steamship Leona Almost Completely Destroyed by Fire.

NEW YORK, May 11th. The Mallory line steamship Leona, bound from this port for Galveston, put back arriving at her dock about 9 o'clock almost completely destroyed by fire. The fire made such rapid headway that before the passengers could be awakened thirteen of them were suffocated.

The Mallory line steamer Leona left her pier on Saturday at 3 p. m. bound for Galveston with eleven saloon passengers. She carried a general cargo of merchandise. Captain Wilder was in command, with first mate Wallace and second mate Sweeney assisting. The chief engineer was Taylor, with three assistants and a crew of seventy-five men, including firemen and deck hands.

NEW YORK, May 10th.—The Mallory line steamship Leona, which sailed from this port Saturday afternoon, returned at a late hour last night with thirteen corpses of men, women and children aboard. They had been burned and suffocated on last Saturday night. Ten of them were steerage passengers, one was the ship's butcher and two were stewards.

Whether they died from smoke or flames is a matter of conjecture. It is certain that their bodies were charred beyond recognition before they were pulled out from the wrecked steerage quarters. This was after the flames had been fought under and the Leona had headed again for New York.

Sick stomach means sick man (or woman).

Why not be well? Sick stomach comes from poor food, poor nourishment; means poor health, poor comfort. Shaker Digestive Cordial means health and a well stomach.

If we could examine our stomach we would understand why it is that so little will put it out of order. But, unless we are doctors, we never see our stomach. We only feel it. We would feel it less if we took Shaker Digestive Cordial.

Shaker Digestive Cordial makes your stomach digest all the nourishing food you eat, relieves all the symptoms of indigestion, acts as a tonic and makes you well and strong again. The more you take, the less you will feel of your stomach. At druggists. Trial bottle 10 cents.

Old Story in New Dress.

Philadelphia Man—"Well, you can make all the fun you want to of our slowness, but I know one country chap who came here and made \$500,000 in three months." New Yorker—"Is that so? How did he make it?" Philadelphia—"Got a job in the mint."—Cincinnati Commercial Tribune.

TRUTH IN A NUTSHELL.—Impure blood is the natural result of close confinement in house, school room or shop. Blood is purified by Hood's Sarsaparilla, and all the disagreeable results of impure blood disappear with the use of this medicine. If you wish to feel well, keep your blood pure with Hood's Sarsaparilla. Hood's Pills are the best family cathartic and liver medicine. Gentle, reliable, sure.

The vanilla beans used to flavor ice cream costs seventeen dollars per pound. One bean which is valued at twenty cents, will flavor about twelve quarts of ice cream.

Cheese Fingers. One cupful of flour, one tablespoonful of butter, one-quarter of a teaspoonful of salt, a dash of cayenne, one-half of a teaspoonful of baking powder; mix with water as for biscuit. Roll out thin, cut in finger lengths and bake pale brown in a moderate oven.

Lizette—Is it a nice place ye have, Marie? Marie (a new arrival)—Nice enough, but it's beyant me understandin' phy they do make me do such queer things. "Quare, Marie? "Ye's sure. Every mornin' the missus kills me to swape the doost from the flure an' phin I'm done she gives me a rag and makes me shoo the doost back to the flure agin."

PHYSICIANS ENDORSE IT.

Physicians have been for years interested in cycling and they pronounce it beneficial. There has only been one drawback and that has been the saddle. There has been but one perfect saddle on the market which they could recommend, that is the

CHRISTY ANATOMICAL SADDLE.

The base is made of metal that cannot warp or change its shape. It has cushions where cushions are required to receive the pelvis bones and a space so that there can be no possibility of pressure on the sensitive parts and positively prevents saddle injury.

COLUMBIAS, CLEVELANDS, STERLINGS, STEARNS, SPALDINGS,

and all other high grade bicycles will come fitted with the CHRISTY SADDLE if you ask for it. High grade makers have adopted and will furnish the CHRISTY without extra charge.

WHY? Simply because upon careful examination they have come to the conclusion that it was necessary to offer to their buyers a saddle that would not prove injurious—and hurt cycling—and their decision was without hesitation in favor of the

CHRISTY Anatomical Saddle built right.

ONCE A CHRISTY RIDER ALWAYS A CHRISTY ADVOCATE.

Booklet, "Bicycle Saddles from a Physician's Standpoint," free.

A. G. SPALDING AND BRO., NEW YORK, CHICAGO, PHILADELPHIA, WASHINGTON, 42-18-20m.

Brooklyn, N. Y., Dec. 19, 1896. MESSRS. ELY BROS.—I have used Ely's Cream Balm a number of years and find it works like a charm. It has cured me of the most obstinate case of cold in the head I ever had. I would not be without it. Respectfully yours, FRED'K FRIES, 283 Hart St.

Cream Balm is kept by all druggists. Full size 50c. Trial size 10 cents. We mail it.

ELY BROS., 56 Warren St., N. Y. City.

—Adam's apple, if it was once that fruit that brought into the world all our woes, is now a useful organ. It serves as a sort of storage cistern of the blood for the supply of the brain. When the heart sends up too much blood Adam's apple intercepts or part of it; and when the direct supply from the heart temporarily runs short, Adam's apple gives up its store.

Medical. BABY'S SMOOTH, FAIR SKIN IS DUE TO HOOD'S SARSAPARILLA—IT CURED HIM OF DREADFUL SCROFULOUS SORES—NOW IN GOOD HEALTH.

"At the age of two months, my baby began to have sores break out on his right cheek. We used all the local external applications that we could think of, but to no avail. The sores spread all over one side of his face. We consulted a physician and tried his medicine, and in a week the sores were gone. But to my surprise in two weeks more another scrofulous looking sore made its appearance on his arm. It grew worse and worse, and when he was three months old, I began giving him Hood's Sarsaparilla. I also took Hood's Sarsaparilla, and before the first bottle was finished, the sores were well and never returned. He is now four years old, but he has never had any sign of those scrofulous sores since he was cured by Hood's Sarsaparilla, for which I feel very grateful. My boy owes his good health and smooth, fair skin to this great medicine." Mrs. S. S. Wortex, Farmington, Delaware.

HOOD'S SARSAPARILLA

The best—in fact the One True Blood Purifier. Sold by all druggists. \$1.50 per bottle.

HOOD'S PILLS act harmoniously with Hood's Sarsaparilla. 42-14
