

FARM NOTES.

The turkey and guinea make the best insect destroyers when they have a range. The turkey is very energetic in selecting insect food, giving the preference to tobacco worms and grasshoppers.

Why is it that "a good orchard" is one of the first and most important improvements mentioned by the man who offers his farm for sale? Why does such an inducement reach so far into the affections and pocketbook of the prospective purchaser?

Skim milk is an excellent human food. It makes muscle. If the milkman can sell it for 2 cents a quart that will be equal to \$1 per 100 pounds for it, and at such a price he will realize good profit. The progressive milkman might educate his customers gradually to a realization of the value of skim milk.

He who has much fruit can hardly hope to preserve it without some kind of cold storage, for thus kept the loss from shrinkage and rot will be comparatively small. A cellar with heavy stone or brick walls, built into the side of a hill, can be cheaply made and will be very satisfactory.

The real good milk is made the first year. By this is not meant that breeding is a matter of no importance, but use must be made to do good service the first season if she is to keep it up. Letting the calf suck the first season or permitting it to run with the dam is a very bad way to make a good milk.

Clean water, and not slop, is what the pig desires in summer. Grass, weeds and skim milk, with a small proportion of ground oats, will give better results than slop or heavy rations of grain. It is not necessary to do more than keep the pig in growing condition until fall. Extra fat is not conducive to his thrift in summer.

During the summer months, when animals require much less to sustain them than in winter, the farmer who feeds heavily to unproductive stock wastes food that should be stored away for winter. Grain is sometimes injurious during very warm weather, not only overfeeding the animal but rendering it more liable to disease than when it is withheld entirely.

Always take the wife's advice about making the garden, but don't let her do the hard work. It may seem pattering work, but if so plant in long, straight rows with room enough between to use the cultivator freely. In this way by horse power much more can be accomplished, and the labor being used economically, and on rich land, will make more profit than the like amount of labor on any part of the farm outside the garden.

Every one has noticed how, when a large branch of a tree is cut off, small branches will shoot out around the stump. These branches are from the reserve buds, of which all trees have a great number at every portion of their surface. Under ordinary circumstances these buds come to maturity, but when the tree is wounded or cut off or loses some of its branches the reserve buds at once come into play and renew the foliage.

As remedies are discovered for diseases of plants, and noxious insects are kept in check, the farmer is sometimes suddenly confronted with a new insect enemy or with some disease, which to him was previously unknown. There are causes for such happenings, as commerce between countries opens a pathway for the introduction of insects and diseases, though every precaution is taken to prevent such misfortunes. The potato beetle is an American native, however, but was unknown until advancing civilization penetrated his headquarters in Colorado, when he immediately returned the recognition of his presence by advancing East. The potato beetle is now here to stay, for, while millions of pounds of arsenic have been used in its destruction and the use of busy hands have assisted in picking the vines, it has not been within the power of farmers to annihilate the pest. The potato beetle is not alone, however, as the cabbage worm holds its ground and the gypsy moth. San Jose scale and various forms of fungi continue to entail loss and expense amounting to millions of dollars.

To combat the ravages of the insects and other plant enemies farmers should work together and use the proper remedies at the right time. At the New York experiment station it has been discovered that better results are obtained by using Paris green and Bordeaux mixture together than to use the Paris green alone, as the combination protects against both the potato beetle and the flea beetle. It is best to be careful and use the required remedy, and for a purpose, as Paris green is not a destroy plant lice, kerosene emulsion is not a preventive of mildew and Bordeaux mixture is not efficacious when used for the destruction of currant worms. Each remedy must be applied for a special purpose and one cannot be substituted for the other. Bordeaux mixture is a fungicide and is used not to destroy such diseases as potato blight, but to check the difficulty, hence it is valueless if applied after the disease has become established. If used in connection with Paris green (using the Bordeaux mixture with Paris green instead of water) the two-fold object of destroying beetles and blight may be accomplished.

The farmer has been well informed on these matters, and well knows that in order to produce good crops he must resort to the remedies, but he hesitates when the cost of the labor and materials are estimated. The cost will depend, however, on the amount of benefit derived. It may be anything but economical to allow the crop to be destroyed because the expense for remedies and their application must be met, but it has been demonstrated that there is a large gain over the cost if the crop is treated at the proper time, and this gain depends upon the varieties of potatoes planted, as much as \$11.50 per acre having been gained by the use of remedies compared with crops treated differently, and this profit was estimated after the cost for remedies had been deducted. There are occasions when remedies are used needlessly, but farmers must learn how to avoid so doing. What is necessary is to attack all fungi early in the season and keep it away from the crop. By so doing the expense of treating the crop later will be saved. When the potato beetle must be destroyed the combination of Paris green and Bordeaux mixture may continue as a preventive of blight and is sure to destroy beetles. A knowledge of the fact that these two remedies can be advantageously combined will effect a great saving in labor and time.

REV DR. JONATHAN

WHITELY'S WIDOW

Stricken with Paralysis But She Has Been Cured—Long May She Live and Long Live the Remedy to Which She Owes Her Life.

From the Gazette, Meadville, Pa.

The following interesting interviews concerning the efficacy of Dr. Williams' Pink Pills for Pale People, have lately been received at the office of this newspaper.

The first embodies a conversation with Mrs. M. A. Whitely, the widow of the late Rev. Jonathan Whitely, D. D., an eminent divine of the Methodist denomination. Mrs. Whitely spoke as follows:

"I consider it my duty to tell for publication the immense benefit I have derived from Dr. Williams' Pink Pills. Three years ago I was stricken by paralysis, and lay helpless for months. I was at last advised to try Dr. Williams' Pink Pills, which after many misgivings I concluded to do, as I had lost faith in all medicines. The first box helped me much, and the continued use of the pills has worked and is working wonders. To-day I have driven twelve miles without fatigue. I cannot say too much in praise of Dr. Williams' Pink Pills for they have done me a world of good.

Mr. John W. Beatty, who is a contractor and builder of Meadville, of the highest respectability, says:

"Although I have passed the meridian of life, I am glad to be able to say that I have but little or no use for medicine of any kind. But my wife is not so fortunate. During the last few years she has been a sufferer from dropsy and disease of the heart, and at times suffers greatly. A few months ago she began taking Dr. Williams' Pink Pills for Pale People and has been greatly benefited by their use. She experienced a numbness and coldness in her limbs, and at times could scarcely walk by reason of poor circulation of the blood. All these

unpleasant symptoms have disappeared and I confidently hope to see her a well woman ere long. I will also take the liberty to speak for a brother-in-law of mine, G. W. Meyer, who resides at Shenkleyville, Mercer county, Pa. So great was his affliction by reason of erysipelas in the face and a general breaking down of the system that last winter he was given up to die. Dr. Williams' Pink Pills for Pale People have rescued from the very jaws of death."

Mr. Prentice Fry, of Meadville, testifies as follows: "My wife and daughter have been failing in health for some time and the treatments of physicians in their cases have been fruitless. So much has been said of Dr. Williams' Pink Pills for Pale People that I resolved to try them, and myself and family will always be glad that Providence threw such a medicine in our way. The pale faces and wasted cheeks of my wife and daughter have disappeared, and the ruddy glow of health has reappeared. Pen cannot record my feelings in the matter, and all I can say is that I trust all who are bowed down by the heavy hand of physical infirmity will learn that there is a remedy that cures and places suffering humanity where they can enjoy this earthly existence. God bless the maker of Dr. Williams' Pink Pills for Pale People."

Dr. Williams' Pink Pills for Pale People are sold by all dealers, or will be sent post paid on receipt of price, 50 cents a box or six boxes for \$2.50 (they are never sold in bulk or by the 100), by addressing Dr. Williams' Medicine Co., Schenectady, N. Y.

Reduced Rates via Pennsylvania Railroad on Account of Fourth of July.

The Pennsylvania railroad company announces that for the benefit of persons desiring to take advantage of the national holiday on the fourth of July, it will sell excursion tickets between all stations on its line east of and including Pittsburg and Erie; except that tickets will not be sold to or from points north or east of Philadelphia nor to and from points north of the line Harrisburg to Erie. These tickets will be sold and will be good going on July 2nd and 3rd, 4th, 5th and will be good to return until July 6th, 1897, inclusive.

He Can't Awaken Her.

Prof. Langdon Hypnotized Mrs. Cunningham and She Remains Unconscious.

A man hailing from the States and calling himself Prof. Langdon, hypnotist, threw Mrs. George Cunningham of Vancouver, B. C., into a hypnotic trance in her own parlor and could not or would not awake her. With three doctors over her, she has been hovering between life and death for three days. Langdon is being held for murderous assault until the result of Mrs. Cunningham's prostration is known.

That \$500 berth occupied by General Miles in the elegant steamer in which President McKinley sent him to Europe to get a smell of powder, cuts no ice out of the General's salary, for Uncle Sam pays the freight, and the salary goes right on. There are apprehensions that if Gen. Miles is not recalled there will be a large puncture in Uncle Sam's pocket book; and the General got there too late to get that whiff of powder. Still, as Speaker Reed said, this is a billion dollar country.—Stuebenville, O., Gazette.

The champion woman bicyclist in the world is probably Mrs. A. E. Reinhart, of Denver, who, during the course of last year, covered a total of 17,000 miles. During this time she made 116 century runs, and three runs of over 200 miles each. These last were recorded on July 22nd, August 7th and September 27th. And among her remarkable feats was the riding for 20 consecutive days between October 31st and November 19th, inclusive, of at least 100 miles every day.

Who can fail to take advantage of this offer. Send 10 cents to us for a generous trial size or ask your druggist. Ask for Ely's Cream Balm, the most positive catarrh cure. Full size 50 cents. ELY BROS., 56 Warren St., N. Y. City.

I suffered from catarrh of the worst kind ever since a boy, and I never hoped for cure, but Ely's Cream Balm seems to do even that. Many acquaintances have used it with excellent results.—Oscar Ostrum, 45 Warren Ave., Chicago, Ill.

Choly (splashing about in the briny) "Oh, girls, I love the ocean! It does me good."

Miss Pert—"Yes, and the saltier the better."

"Do you suppose scorching is the cause of all these bicycle faces we see?" "Shucks, no! In nine cases out of ten it's the instalment plan."

"Is the boss in?" he asked of the book-keeper. "Which one do you wish to see?" replied the book-keeper, "the office boy or the type-writer?"

"My friend," solemnly remarked the man in black, "you don't know how hard it is to lose your wife."

"Hard!" he echoed. "My dear sir, it is simply impossible."

The hostess—"Society possesses a power that is almost magical."

"It does indeed. How easily, for instance it transforms an ass into a lion."

Business Notice.

Children Cry for Fletcher's Castoria.

Fac-simile signature of Chas. H. Fletcher is on the wrapper of every bottle of Castoria.

When baby was sick, we gave her Castoria. When she was a child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had children, she gave them Castoria.

EDWARD McGUINESS,

TAILOR.

McClain Block, opposite the Bush House, Second Floor.

A Full Line of Spring and Summer Suitings is Now Being Shown to Purchasers of Fine Clothing.

SATISFACTION GUARANTEED.

FOR WOMEN ONLY.

The bargain counter has attractions for women—it is different with the men. The women prefer the largest assortment to select from, hence they go to the stores to buy—they come to our store because we have everything they want in our line—chairs, creamers and other dairy fixtures, including the best house refrigerators in the market, sewing machines, washing machines, etc., in great variety. Some men prefer to buy goods delivered and patronize the traveling fakir, by whom they are often taken in.

Who ever heard of a woman being taken in by a fakir? The men who do not read advertisements monopolize this privilege. Women read the advertisements and are always on the lookout for the best bargains. The best thing for men to do, those who do not read advertisements, is to authorize wives and daughters to purchase all the needed articles and they will save money. When the mothers and daughters want anything in our line, they come to us to buy, for the reason that they always know where they can purchase the best bargains. We have a free exhibition at our store, on High street, of everything for the Farm and Garden, every working day in the week, to which everyone is cordially invited.

Lived off Bread and Milk for Years. 9 Home Doctors Failed to Cure me, Dr. Salm Succeeded in Curing.

For more than four years I have had a bad case of catarrh, stomach and general trouble. Took cold continually. For one and a half years I could eat only bread and milk. Tried nine different doctors, to get rid of my misery, but got worse and worse. So I went to Dr. Salm for treatment, and to-day I am as strong as ever, can eat anything, and don't take any more cold, and consider myself cured of this terrible disease. JOHN H. KAUFFMAN, Mattawana Mifflin Co., Pa.

Catarrah and Eye Trouble Cured by Dr. Salm. For more than five years I have had a very bad case of eye trouble and catarrh. The eyes continually got sore and grew weaker and weaker. I always took cold. Dr. Salm cured me. Witnessed by A. J. Kimberly, McVeytown, Mifflin Co., Pa.

People Think Dr. Salm Has Done Another Wonderful Piece of Work.

I have had a very bad case of catarrh and sore eyes for more than eight years, and consequently it gave me a world of trouble. I was obliged to see Dr. Salm, under his treatment the change is wonderfully rapid. My friends are astonished, as well, and think with me that Dr. Salm has done another wonderful piece of work. LOUIS C. SHANNON, Whitestown, Butler Co., Pa.

A Case of Catarrh and Throat Trouble Cured by Dr. Salm.

For more than three years our two children have been suffering from catarrh and throat trouble, also enlarged tonsils. They were continually taking cold. Could hardly breathe at night. Their constitutions became undermined. After a short course of treatment with Dr. Salm, they have almost entirely recovered from their miserable disease. J. F. HARRISON, Bellefonte, Centre Co., Pa.

Couldn't Walk 15 Yards at a Time, Was no Earthly Use to Any One, Thought I Was Going to Die, but Dr. Salm Cured Me.

For 2 years or more, I have had a fearful trouble, begun to get very weak, my limbs would not carry me any more, couldn't walk a stretch of 15 yards, and my heart would beat a fearful rate, at the least exertion. It seemed my blood was turned to water, I gradually became pale as one dead. I was no earthly use to any one, and all my neighbors and relatives thought I was going to die. Home doctors couldn't help me, so I went to Dr. Salm, and to-day, I am happy to state, that I am stronger than ever, can eat anything, do a full day's work, and enjoy life as much as any one, and my color, any one may be proud of. Mrs. SAMP'S DOWNS, Dunlo, Cambria Co., Pa.

Suffered for 15 Years With Nervous, Inward and Ear Trouble, Tried a Half Dozen Doctors, and a Pile of Patent Medicines, but Had to go to Dr. Salm to be Cured.

For 15 years I have suffered very much with nervous, inward and ear trouble, and my condition grew worse and worse. I tried a half dozen doctors, and piles of patent medicines, to no avail. I went to Dr. Salm, and, thanks to his knowledge as a physician, I consider myself entirely cured. Those pains, which came every month, and the fearful nervous prostration resulting therefrom, has entirely left me and I feel happy once more. Mrs. W. M. JOHNS, New Florence, Westmoreland Co., Pa.

A Case of Ear Trouble Being Cured by Dr. Salm, Complimented also With Ringing Noises and Deafness.

My treatment is for the ear and throat, I am rapidly improving, and I know I shall be cured, which I think will be soon. Mrs. MARY E. DABZEL, Lewisburg, Cameron Co., Pa.
