THE BOROUGH SOLONS IN SESSION sentation at the meeting of council, last Monday night, and with such a good attendance considerable minor business was attended to.

E. K., and Frank Rhoads appeared and complained that the Lamb street sewer, that empties into Spring creek at the Lamb street bridge, is in a filthy condition and very offensive to residents of West Linn street when the miasmatic fumes, that constantly arise from it, float that way. The street commissioner was instructed to keep it cleaned out.

Secretary Quigley of the board of health was present and reported that the dam on Spring creek, between Ray's Water street store and the falls, is filling up with sediment and becoming a menace to health and very unsightly. The borough authorities would do well to have the water moss and mud cleaned out of the dam on the south side of the island and make the whole place more sightly. A BROTHER OF THE LOST CHARLEY Ross.-Few Bellefonters know that among the arrivals in this place, on Tuesday, was Mr. Walter Ross who is none other than a brother of the Charley Ross whose tragic disappearance and probable death has been the talk of this country for twenty years. The recent death of Christian K. Ross, in Philadelphia, the father of the lost boy, has recalled the story of the abduction on July 1st, 1874, a full account of which will be found on page 6 of this issue. Mr. Walter Ross, who was here on Tuesday, is a director of the Valentine iron company, representing the Drexel interests in that

forced an entrance into the toll house on the pike between Mill Hall and Lock Haven and breaking down the door of the sleeping room of gate keeper George W. Smith, in which he and his wife and daughter were sleeping, they bound and gagged them, after which they departed with cash to the amount of forty-five or fifty dollars.

The burglars were blue dotted handkerchiefs over their faces and after securing Mr. Smith with strips of a sheet, they took from the bed and tore up, they tied Mrs. Smith and the daughter, then gagged them all. With a revolver and club they cowed them into silence until they had been carefully gagged then the men ransacked the

TROUT KILLED BY LIGHTNING. - A rather singular disaster from an electrical storm is reported from Centre Hall, where an electric current was conducted to an aquarium in Smith's drug store and a dozen fine speckled trout electrocuted.

Druggist Smith had just had the aquarium fitted up for a short time and had succeeded in collecting some fine specimens of trout that attracted the attention of all visitors to the place. He must necessarily have been greatly chagrined, last Monday morning, when he walked into his store and, on looking toward the aquarium, saw the white bellies of his prides all turned heavenward.

At a loss, at first, to know what had caused it, a careful investigation disclosed a singular accident. Lightning had struck the wires of the Central Pennsylvania telephone company, at some point along the line, and the electricity, running along the wires to Wolf & Crawford's telephone, next door to the drug store, was grounded to the water pipes which feed Bound, Gagged and Robbed. — Early the aquarium. It was about three o'clock in the afternoon when the bolt struck the barn and no one was about but Mrs. Garman, the wife of the farmer, and friends would wish. her little daughter.

Realizing that everything would be burned unless she and the little girl got it out she ran to the barn and succeeded in releasing all of the stock and dragged some After they had gone Mr. Smith was able of the implements out before the flames licked them up.
