THE RESOLUTIONS AS ADOPTED.

The Republicans of Centre county in convention assembled, again declaring their unfailing devotion to the principles and traditions of the party of Lincoln, of Grant, of Garfield, and McKinley, do hereby commend the intelligent action of the American people who at the poll, in November last so thoroughly repudiated 'the free silver heresy. The signs of the times to-day demonstrate that there was never so dangerous a theory submitted to the people; and the relative

values of the farmer's wheat and the silver-

was so dishonest a scheme offered to the in-

telligent voters of our country.

SECOND. They affirm that there awaits for the people an era of prosperity, only recently inaugurated by the passage of the Dingley bill. After only five months of Republican administration, there to-day are to Jesse as readily as a duck waddles into presented and assured to the American workingman his wife and children more evidences of substantial returning prospersty than were Rote and Proudfoot, richly merited the ever shown free trade. McKinley and his party have given to this country "an honest dollar and a chance to earn it.'

THIRD. They most heartily commend the broad manly administration of our fellow citizen, Governor D. H. Hastings, the Governor of Pennsylvania. He has been the pioneer in the passage of laws that will be of lasting benefit to the material interests of the State. He has met the ringsters, rounders, jobbers, heelers, and lobbyists, and by his open courageous official treatment of them has once for all time shown that there is no reason why the fair fame of this state should be clouded, or why her treasury should be robbed. His vigilence has saved to the state many thousands of dollars, and at the same time he has seen to it that the deserving charities of the state have received some of

THE BAND CONCERT ON MONDAY NIGHT.-The open air concert given by the Consolidated bands of Milesburg and Coleville, on Monday night, was not generally advertised, but a large crowd had assembled in the Diamond long before director Beerly and his forty musicians arrived. For awhile it looked as if the weather was going to prove unpropitious, but the crowd eagerly awaited the band, apparently unconscious of the large drops of rain that bekings' silver to-day show, that there never gan falling, apparent precursors of a heavy shower.

> The concert opened with the march "Darlington." The manner in which it was rendered heralded the fine program that was to follow. Then followed cornet, clarinet, euphonium and trombone solos such as are not often heard about here. The soloists, Messrs. Wetzler, Boggs, vigorous applause their performances received and director Beerly is to be congratulated on the general excellence of the music that was produced. Possibly the most artistic number on the program was the "Chevalier," by Herrman. It afforded an excellent opportunity to show off the technique and comprehension of the band and was superbly rendered. Indeed the whole program was quite fine enough to call forth what must have proved highly

One of them weighed between five and six tons and had just been hoisted onto the truck to which three horses were hitched. The load hauled satisfactorily to the bridge, where the truck was rough-locked preparatory to descending the steep hill at its northern approach. Meanwhile Wallace Flaig, a son of the contractor, unhitched the lead horse and led it down the hill. The remaining two were started down with the wagon, but unfortunately the locking chains broke and the horses, being unable to hold back the heavy load, were pushed rapidly down the hill Wallace was at the foot with his horse and when he saw what had happened tried to get out of the way, but before he could day at Penns cave. get to a place of safety the heavy wagon was down upon him and knocked him over, the front wheels passing over his head just behind the ears.
