Arrested for Counterfeiting.

Peculiar Crimes Which Attack the Public Health and Pocketbook, Isaac Platt and Otto Doerlam are at pres-

ent held to bail at Chicago, Ill., in the unusually high sum of \$10,500, after staying for some time in jail in default of sureties, on a charge of counterfeiting Dr. Williams' Pink Pills for Pale People. The sum in which the District Attorney demanded bail shows the importance which the tribunals attach to the offence of counterfeiting the medicine of the people. The condemnation at Syracuse, N. Y., recently, of the counterfeiter Dr. Marquisee, to a term in States Prison, is another instance of the Mr. Furbay has threatened to bring an

same view.

ple to an extent which can tempt to dishonest imitation has attained an importance which renders the substitution for it | shall be required. of unreliable and unauthorized compounds an offence of a very serious nature, against an offence of a very serious nature, against which the people have a right to be protected. The proceedings in court suggested that the people would not have gotten into the way of relying upon a definite medicine for the cure of their ailments without good cause. Therefore, counterfeiting such a remedy is not an offence against the manufacturers of the genuine goods alone, but against the public. It is an offence against the manufacturers because it robs them of the fruit of their engages. cause it robs them of the fruit of their enpaid to the newspapers daily. But it is an offence also against the people—a public offence, for unless the confidence of the public in a genuine product has been justly earned, it would be folly advertising it. Hence the substitution of counterfeits is an offence against the Commonwealth, and (as the courts have held), righteously pun-

ishable by imprisonment and heavy fine.

It was shown that it is the importance involve themselves in such dubious meth- the city. ods, and the people are right in protecting themselves by obtaining their medicines from trustworthy dealers, and by taking pains to have the genuineness of their pur-chase placed beyond doubt by seeing the Washington Argust 12 The weekly correct, advertised name (as for instance, the full, unabbreviated title, like Dr. Williams' Pink Pills for Pale People) engraved on the package they buy. The public nowadays refuses to listen to the sort of talk occasionally offered to the unwary about "something else just as good," which always means "fake" medicine gotten up to deceive people whom an unscrupulous dealer thinks foolish, enough to believe such pretence. Fortunately, Dr. Marquisee was arrested before he had sold a single box of his counterfeit pills, and the Chicago gang were caught after they BUILDERS' and PLASTERERS' SAND, had been at work for four days, and all the spurious pills were seized and withdrawn from the market.

Two Billions in Pensions

More Pensioners Than Were Ever in Service at

Any One Time During the War. million the number of soldiers actually en-safe by October 1st. Appomattox. The army of pensioners after a third of a century is between thirty to this staple. and forty per cent larger than the fighting army at any one time during the war.

Britain, the pension expenditure culminated at \$4,185,000 in 1804, about twenty years after the end of the Revolutionary of 1812 and the Mexican war, the pension expenditure culminated in 1816 and thereafter decreased, with fluctuations, from \$7,800,000 in 1816 to \$1,800,000 in 1846, In the period between the Mexican war and the war for the Union the pension expenditure was highest in 1852, when it reached \$2,401,000. This is all according New York Democrats May Nominate a Bryanite for to the normal process of growth and de-

Dividing the years since 1865 into four year periods, each equal in length to the duration of the war itself, the increase of pension expenditure to its present stupendous proportions is thus exhibited:

..234,846.276 1893-1896. .581,364,073 ..\$2,004,172,841 Total ...

Since the end of the war more than two billion dollars, that is to say, more than two thousand million dollars, has been paid out in pensions. Now, the total cost of the gigantic mili-

tary and naval operations which occupied the government from 1861 to 1865, including the pay and sustenance of all the armies, the building and maintenance of all the ships, the transportation of troops, the recruiting and bounties, the arms and ammunition and war material in its myriad forms-in short, every item of government expenditure on account of the war, save that for interest on money borrowed wherewith to continue the fight—is included in the hay and grain crops we hear of barn the official figures of the War Department fires, the origin of which, being unknown, The American tobacco company, which and the Navy Department for the period in

Total War and Navy..... .\$3,027.793,391 Roundly speaking, therefore, we have already paid in pensions since the war twothirds as much as it cost the government hay not only prevents its fermentation and to carry on the war .- New York Sun.

Death in the 'Phone.

During the recent storm in Western Pennsylvania a number of telephones rang the same as if called by central. Three miles out at McClelland Coleman's, near Blairsville, where the family had gone to a SECHLER & CO. funeral, Miss Ella Alexander and the hired man were at the home, the latter in the of Eugene F. Duprey, counsel for Theodore cellar grinding an ax. When the 'phone rang the young lady, aged 19, answered it,

Pushing Rev. Furbay.

Some Queer Testimony Relative to the Pastor of the Oxford Church, Philadelphia.

Some curious testimony has been produced in the case of the Rev. Harvey G. Furbay, formerly of Tyrone, now pas of the Oxford Presbyterian church, Philadelphia, and at present sojourning in Maine. A telegram dated Old Orchard,

Me., Aug. 7th, says:

No further progress has been made in the civil action brought by Walter Geisinger against Rev. Harvey G. Furbay, pastor of the Oxford Presbyterian church, Philadelphia, growing out of the recent alleged assault of Old Orchard.

"Mr. Furbay will have no difficulty in getting a bond through a surety company," said one of his attorneys to-night. This

action against Geisinger for slander, and The courts in these cases held that a Mr. Geisinger has been preparing himself medicine having the confidence of the peo- for such a counter action by making inquiries at one of the Biddeford banks in reference to the getting of a bond, if one

REV. FURBAY'S CASE DISCUSSED. PHILADELPHIA, Aug. 14.—An informal meeting of such of the trustees of the Oxford Presbyterian church, at Broad and Oxford streets, as were within call was held at noon yesterday in the Bourse to discuss the reports from Old Orchard, Me., concerning their pastor, Rev. Harvey G. of a medicine that creates temptation to this crime; no one counterfeits a poor medicine. It is a gratifying fact that fraud, to the extent of straight counterfeiting, is very rare; the druggists of the country are too honorable a class of men to

Weekly Crop Report.

Washington, August, 13.—The weekly crop bulletin of the weather bureau issued

to-day is: In the states of central valleys and in the Atlantic coast and east gulf districts the week has been generally favorable for crops. Portions of Missouri, Western Tennessee, Mississippi and Kentucky have, however, suffered from drought and the exhaust the sufficient of the great height, its average rate of speed has been found to be more than a mile a minute in summer. In winter nessee, Mississippi and Kentucky have, however, suffered from drought and the excessive heat during the first of the week proved injurious over portions of the east week has been very unfavorable, being excessively warm and dry.

On the Pacific coast the conditions have been very favorable, although very warm

in Oregon and Washington. Corn has continued to make favorable progress in the principal corn States, and and while recent rains have proved benefi-

upon Sumter and the surrender of Lee at Oklahoma, where cotton has made fair progress, the past week has not been favorable

In the period between the war of the delayed by rains to some extent in South well again, remove to a cooler part of the Britain, the pension expenditure culminated at \$4,185,000 in 1804, about twenty orable reports continue from Oregon and the second war with Great Dakota, where a part of the crop, which is overripe, has sustained injury. Very favorable reports continue from Oregon and the been mixed with quarter of a cup of hot with the control of the Dayslutionary of the control of the Washington, although recent hot winds struggle. In the period between the war have caused some injury in the last named boil. No salt is needed with clams, but

Tobacco is generally doing well except in new England, where there has been too much rain.

Free Silver Man Wanted.

Mayor

NEW YORK, Aug. 14.—There will be a conference in Brooklyn, on Wednesday night, of representatives of all the Democratic organizations in New York which adhere to the national Democratic platform adopted by the convention at Chicago that nominated Bryan for the Presidency. The purpose of the conference, as announced, is to organize for the municipal campaign this fall, and the hope is expressed by the leaders in the movement that Tammany Hall will be forced to acquiesce in the selection of a candidate for mayor of Greater New York who shall be an avowed advocate of the free coinage of silver.

The People's league, which during the recent campaign was the independent Bryan league, is the prime mover in the affair, and working with it are the Progressive Democracy, the Democratic league of Kings county, the Bryan and Sewall clubs, the People's party, the bimetallic league, the 16 to 1 clubs of Greater New York, the Young Democracy, the bimetallic clubs of the various assembly districts and numerous other kindred organizations.

-Every summer after the storing of is ascribed to incendiarism, though doubt-less if the real cause could be ascertained, it would be found that they were the result of spontaneous combustion, owing to hay or other new crops while in process of fermentation involving heat sufficient to produce fire. If farmers wish to prevent their hay stacks or barns from firing, they only scatter a few handfuls of common salt between the layers. The theory is that the salt by absorbing the humidity of the consequent heating, but it also adds a salty taste to this forage, which all cattle like, and besides it stimulates the appetite and assists their digestion and so preserves them from many diseases.

The Speed of Clouds.

Look about the heavens on the next clear day until your eye falls upon a collection of detached clouds, delicate, fibrous and generally white, against a bright blue background. Sometimes they are ar-ranged in belts, crossing a portion of the the sky in great circles. Sometimes, by perspective, they appear to converge towards opposite points on the horizon. They are usually long and slender, extending in the direction of the upper air currents of their region. These are what are known as cirrus clouds. When you see them in the west you may be satisfied that the weather is to be clear. Cirrus clouds are the highest which float above our heads, either in summer or winter. Were you to ascend into the centre of one of average height you would be six miles above the earth, in hot weather like this. In winter you would be a mile lower. The whole system of clouds rises as the weather gets

gulf States. In the west gulf States the average speed of more than 100 miles an hour, while they sometimes attain a velocity of 230 miles in the same interval.

-Boston Evening Transcript.

Two Minutes With Clam Soup.

Clam soup is a favorite in summer, but should never be spoiled by having in it Thirty-years after the end of the civil war, the number of pensioners on account of that war exceeds by about a quarter of a tember 15th and the late vicinity of the corn crop ed for fifteen minutes in their own liquor all the good may then be pressed out of time. Hard times is the cause. of that war exceeds by about a quarter of a tember 15th and the late planted will be in a lemon squeezer. This is proved by the dryness of the clam after the process, remainder is to be added to a sauce made as follows: Into a pint and a half of boilo this staple.

Spring wheat harvest in the Dakotas and butter well blended together. Stir un-Minnesota is well advanced' but has been til it is smooth, add the clam juice, stir soup. The egg will curdle if allowed to a little white pepper and mace may

be added if liked. If a cupful of the above puree is saved it is excellent to use between the layers of scalloped clams.

Missionaries Going.

To Dig Out Spiritual Nuggets From the Mining Camps

The Presbyterian Board of Home Missions has decided to send two missionaries to the Klondyke gold fields. This notion is taken as the result of the large number of letters from Presbyterians, asking that missionaries be sent to the field. Rev. Dr. D. J. McMillen, one of the board's secretaries, has instructed Rev. S. Hall Young, pastor of the First Presbyterian church at Wooster, O., and Rev. George A. McEwen, of the Presbyterian church of St. Louis, to proceed at once to Alaska. They are expected to reach their destination before the winter sets in.

Rev. Dr. Sheldon Jackson, Moderator of the Presbyterian general assembly, is in Alaska and pushing on toward the Yukon, from which point he is expected to report to the Presbyterian Home Board on the general situation.

-A number of the retail tobacconists

have already raised the price of domestic eigarettes from five cents a box to six, giving as an excuse the new tariff. This has necessitated no end of talk, as everyone I had taken a few bottles I was completely cured. wants to know why, and the dealers have The American tobacco company, which controls the eigarette output of the United Tower City, P. States; has raised the price on the jobbers to meet the increse in the internal revenue tax. The jobbers have raised the price on the retailers 30 cents per thousand, and the latter propose getting this back from the consumers by charging them six cents instead of five. This raises their profit to 70 cents per thousand, so the retailers are really getting the best of it. Small as the advance in price is, it means a great deal when, according to the statement of a well-informed tobacco dealer, the American tobacco company put out 4,000,000,000 cigarettes during the year ending June 30

last. These cost the consumers in round numbers just \$20,000,000, and during the coming year they will cost \$24,000,000. A lot of money to spend for cigarettes, isn't it? And, despite the advance, there will be no less a demand for the little paper rolls, for the inveterate cigarette smoker becomes an abject slave to the habit.

—Charlie Flyup—Now that you're married don't you find it rather hard settling down? George Fastus-Not nearly so hard old old boy, as settling up.

BELLEFONTE, PA. —When a person is losing flesh and wasting away there is cause for alarm. Nothing so worries a physician. Consumptives would never die if they could regain their usual weight. In fact there

would be no consumption if there was no wasting of the system. The cause of this loss of flesh is a failure to properly digest
