

FARM NOTES.

To Tell the Age of Horses.

To tell the age of any horse, inspect the lower jaw, of course; The six front teeth, the tale will tell, And every doubt and fear dispel.

Two middle "nippers" you behold, Before the colt is two weeks old; Before eight weeks two more will come, Eight months the "corner's" out the gum.

The outside grooves will disappear From middle two in just one year, In two years from the second pair; In three, the corners, too, are bare.

At two, the middle "nippers" drop; At three, the second pair only stop; When four years old the third pair goes; At five a full new set he shows.

The deep black spots will pass from view, At six years from the middle two, The second pair at seven years; At eight the spot each "corner" clear.

From middle "nippers" upper jaw, At nine the black spots will withdraw, The second pair at ten are white; Eleven finds the "corners" light.

As time goes on, the horsemen know, The oval teeth, projected grow; They longer get, proceed before, Till twenty, when we know no more.

—From Colman's Rural World.

The shredder is almost a new machine to farmers. It not only shreds the fodder but husks the corn at the same time.

There are other accessories to shredders and cutters that are being necessarily found on the farm.

The scene at the enforced parting was most affecting. The abbe went like a child, and the girl declares she would rather die than be parted from the abbe.

There are other accessories to shredders and cutters that are being necessarily found on the farm.

The soil for young trees should be deep and the land for the orchard should be plowed not only six or eight inches deep, but a subsoil plow should also be used.

There is no particular time to plow or harrow. Something depends on the kind of crop grown on the land this year and the crop to be grown next season.

—A flock of turkeys will clean out the large green tomato or tobacco worms in short order.

Loved by a Priest.

Abbe Richer was Willing to Renounce His Vows to Marry His Pretty Ward.

The French-Canadian community of the parish of Masson, in the county of Labelle, Ontario, is worked up over the love affair of Abbe Richer, the parish priest, and his pretty ward, Josephine Cole.

When Baptist Cole, died eleven years ago, he left Josephine, an orphan of six. No one in the parish seemed willing to adopt his already large family by adopting the girl.

Josephine grew to be a winsome girl and the abbe took such a pride in his pretty charge that he gave her an education far above the attainments of the other parish maidens.

What passed between them is not known, but four hours later Father Mangin announced that the abbe had repented of his digression from the path of duty and would seek the forgiveness of the church.

The treasury receipts from customs under the first month of the Dingley tariff were less than any month during the Cleveland administration.

The treasury deficiency, between receipts and expenditures, during the first month of the Dingley tariff reached the enormous sum of \$14,564,433 or at the rate of \$176,931,196 a year.

The National debt was increased the first month of the Dingley tariff in the enormous sum of \$1,888,475, which was a larger increase than during any month of the Wilson tariff or the Cleveland administration.

—Straw may be added to the barnyard manure because it is plentiful, but it is better to utilize the straw in some manner before it reaches the heap.

—Wild horses have been so much of a nuisance in Northern Arizona that Attorney General Frazier has been asked if they may not legally be slaughtered.

Smart Flies These.

A Tale of How They Got Food Down in "Nigger-auger."

"Flies is purty bad," said the man from Potato Creek. "They ain't nothin' to what I seen 'em down in Nigger-auger," said the man with the ginger beard.

"No, they didn't git so thick they plum broke the wires," said the man from Potato Creek. "They come back with a swarm of these here giant pinchin' bugs that do about in that country, an' set them bugs to work an' had them wires cut out'n the frames in less time than it would take ole Skimflint there to git his hand on the scale if ole blind Uncle Billy Boggs come in to git two pounds of coffee."

The last two ten days excursions of the present season to Niagara Falls via the Pennsylvania railroad will leave Philadelphia, Baltimore, Washington, and all points on the Delaware division, \$9.70 from Lancaster; \$8.60 from Altoona and Harrisburg; \$8.25 from Wilkesbarre; \$5.80 from Williamsport; and at proportionate rates from other points.

Are now the two principal gold mining fields in the world. We can give you information about both, but as the Klondyke country will be impenetrable until next summer, why not go to Colorado this fall and look over the golden opportunities of that State.

This delightfully refreshing summer drink may be made for three or four cents a quart bottle. Pick over the grapes, rejecting all unsound ones, almost cover with cold water in a porcelain lined kettle, heat slowly (mashing), and cook until all the juice is freed.

The earlier editions of "Webster's Dictionary" contained a verb "to jew," and defined it "to cheat," "to play with," &c. At the request of a number of influential Israelites the word was eliminated from the book.

An Expeit Accountant and Bookkeeper of Detroit Troubled With Hereditary Scrofula in its Worst Form—Spends a Small Fortune Seeking to Find a Cure.

James H. Wallace, the well known expert accountant and bookkeeper, of Detroit, Mich., lately had a remarkable experience, and a reporter called at his pretty home 240 Six Street, to interview him regarding it.

The first physicians that treated me said it was a constitutional blood disorder and by constant treatment and diet it might be cured. The blood purifiers and spring remedies I used only made the eruptions more aggressive and painful.
