

THE FINE CATTLE TO BE SOLD AT STATE COLLEGE.—Owing to the recent destruction by fire of the State College barn, together with the entire season's crop of hay and grain, it is deemed best by the executive committee of the board of trustees to disperse the dairy and beef herd, which has been kept partly for illustration and partly for supplying the College professors with milk. This dispersal will take place September 22nd, at the College barn, beginning sharply at 12:30 o'clock.

Of the individual animals offered, too much cannot be said. Most of them are of high grades, and no pains has been spared in building up a herd of the greatest possible usefulness. Among the finest of the offering are some individuals which are worthy of special mention. Two of these are registered Short Horn cows. One is of Cruikshank breeding; the other of Bates strain. Both are believed to be safely in calf by a registered Short Horn bull of finest breeding. The Bates cow now has a very fine cow calf four months old at her side. Another is a very high grade Short Horn cow safely in calf and, although ineligible to registry, she is individually one of the finest in the herd. Attention is also called to a very fine high grade Guernsey cow. Although a record of this cow has not been kept, she is capable of making 400 lbs. of butter yearly, with good handling.

It has been decided, because of the great increase of the Experiment Station herd, to sell a draft of about fifteen cows and heifers at the same time and place. The Experiment Station herd has been developed to such an extent that it is with difficulty that the Station officers can select the fifteen head to sell. Their sale is rendered necessary by the limited stable room and by the fact that there are twenty heifers to drop calves this fall. The Experiment Station herd furnishes a most excellent example of what can be done by any thoughtful, careful dairyman in breeding up a herd at very little expense. The foundation of the herd was purchased seven years ago and consisted of grade Jersey, Guernsey and Ayrshire cows, costing from \$25 to \$95 per head. At the head of this herd was placed a registered Guernsey bull. By weighing the milk from each individual every day and testing her for butter fat once a month, a very good idea was had of her capacity as a butter producer. At first no cow was kept unless she produced 200 pounds of butter a year. After one or two years, when this standard had been attained and surpassed, it was raised to 250 pounds, and all individuals not producing this amount were culled from the herd. By this process the herd has finally reached the point where it is considered by many to be the finest working dairy herd in the Commonwealth. The average has been reached of 320 pounds of butter per cow for the entire herd.

MADE A MURDEROUS ASSAULT ON HIS STEP-FATHER.—Another text for a temperance sermon comes to our notice from Birmingham, just east of Tyrone, where Casper Dehlig made a murderous assault on his step-father and mother.

The affair occurred last Saturday evening and while intoxicated Casper started a dispute with his father about money matters. In his drunken frenzy young Dehlig opened a large pocket knife and rushed at his father. The mother attempted to step between the two men, when the son stabbed her twice in the neck, inflicting two ugly wounds. She sank to the floor when the infuriated boy plunged the knife into his father's abdomen, making such a gash that the intestines protruded. The son then fled to the woods, where he was captured, Sunday, after an exciting chase.

His wounded parents were taken to the Altoona hospital. Mrs. Dehlig had her gashes stitched together and afterwards returned home. His father is in a serious condition, though it is reported to be on a fair way to recovery.

THE OPENING OF THE FOOT-BALL SEASON AT STATE.—On Saturday, September 25th, the regular foot-ball season at The Pennsylvania State College will be opened. The Pennsylvania College eleven from Gettysburg will meet the blue and white on the gridiron. While the game is practically a foregone State victory it will afford a splendid opportunity to form an idea of what may be expected of the home eleven this fall.

There will be a number of new men on the line and at least two new ones behind it. Whether the new players will be able to do better than the old team did last fall, is the uppermost question in the students' minds, but certain it is that they won't have to do much to do as well.

The game will be called at 3 o'clock. Admission 50cts.

One day last week David Frantz was leaning over looking down into a deep well, which his son, Harry, was cleaning, when suddenly his hands slipped and he plunged forward into the well, where he hung for a few seconds with his feet caught on a board. Fortunately, just at this time Mr. Keichline put on his appearance and was able to grab the old man from an untimely death.

Dearest father, thou hast left us;
Here thy loss we deeply feel;
But 'tis God that hath bereft us;
He can all our sorrows heal.

Yet again we hope to meet thee,
When the day of life is fled,
Then in heaven with joy to greet thee,
Where no farewell tear is shed.
