Adopt the Surest Means of Relief.

Rev. Dr. SWALLOW is vigorously pushing his campaign for state treasurer and pouring hot shot into the corrupt machine politicians who have for years been abusing the confidence of the people and using for private spoils the money which the taxpavers have contributed for the support of the state government.

The doctor, in speeches addressed to crowds of his fellow citizens, states facts ected with the burning of the stat capitol from which it is difficult to draw any other inference than that it was of incendiary origin. He makes no specific an offense, but assures his hearers that circumstances connected with the occurrence leave but little doubt that the offense was committed.

The motive of Dr. SWALLOW's candidacy is that a condition of the public service that is productive of such felonious conduct, and has also produced the many abuses that are chargeable to Republican misrule, should not be allowed to continue by permitting the same old gang to go on running the state machine and thereby concealing their misdeeds. The evils for which they are responsible cannot be corrected unless they are fully exposed by putting the books, records and accounts into other hands, and this can be done only by turning them out of the official places which they have so long misused and disgraced.

Doctor SWALLOW is moved by a correct ington Furnace. motive for the accomplishment of an object that is of such vital interest to the people, but in arousing them to a sense of the utter corruption and untrustworthiness of Republican rule, and the necessity for its overthrow, does he not lead the people to the conclusion that their duty calls upon them to adopt the course that will be most likely to effect this object? There is but little chance of accomplishing it by voting for an independent candidate, or for the nominee of a party that is numerically weak, while the strength of a party numbering nearly half a million in the State can be counted on as a more certain factor

in securing relief from machine misrule. What then is the wisest course to be pursued by the citizen who is in earnest in that have burned in this county recently. wanting to down the bosses and smash the | In all quarters there have been disastrous machine? Evidently his fidelity to that fires that have consumed grain, live stock object requires him to vote for the candi- and implements. Such losses have been dates through whom it is most likely to be effected, and they are the Democratic nominees for auditor general and state treasurer.

Many Towns Threatened.—Devastation Extends Over a Wide Area of Country.—Much Oil Property

BRADFORD, Pa., Oct. 18,-The forest fires at Nelson Run, Potter country, have burned 20,000,000 feet of hemlock and 25. 000 cords of bark, resulting in a loss to C. W. and F. H. Goodyear, of \$20,000.

The fire at Cobbin Hollow was prevented from going into Barts Brook by the work of 50 men, thus saving 5,000,000 feet of logs and many tons of bark. Over 1,000 men were engaged in fighting the fire. There was no insurance on the logs and bark.

Forest fires are raging on all sides of Bradford to-day. Everything in the woods is as dry as tinder, and it is almost impos-

sible to check the flames. In the Redhouse and Rice Brook oil districts a fire has raged for two days. Six thousand acres of land have been burned over, and considerable oil property destroyed. At Chipmunk five rigs owned by the Seneca Oil Company were burned. A large portion of the Seneca reservation in flames, and several towns are surround-

ed and threatened by fire. The fires are still burning and the brisk wind that prevails to-day will undoubted-Oak Hall Romola Romola being sent from Bradford to all parts of the oil field to protect all property. It is impossible to estimate the loss at this time.

TUNNELTOWN, W. Va., Oct. 18.—The situation is grave owing to the continued drought and scarcity of water, The West Virginia Northern railroad will be compelled to abandon its trips after Wednesday, unless it rains, as the water supply is exhausted. Reports from Cranesville tell of fearful forest fires which are sweeping over hundreds of acres of valuable pine timber land.

ALTOONA, Pa., Oct. 18.—Forest fires in the mountains east and west of this city are destroying miles of valuable timber. At Cresson the fire is in the woods close to the railroad tracks. A car load of matches caught fire while coming down the mountain at Kittanning Point, and the train hands barely cut the car off in time to save the train.

NEW CASTLE, Pa., Oct. 18.—The hill-Harvy Sheffer, Zion A. J. Johnston, Port Matilda near the water works, took fire Sunday, side along the N. Y., P. & O. railroad, and is still burning. Along the P. & L. E. tracks between Wampum and Beaver Falls. the hill-sides are on fire.

MASSILLON, O., Oct. 18.—A forest fire was started Saturday on the Bender farm, west of town, and the people of Tuscarawas township worked Saturday night and Sunday to put it out. Six acres were burned.

Sir Edwin's Marriage.

Name of His Japanese Bride Not Given, but She Was Brought to England to be Educated

LONDON, Oct. 18.—The particulars obtainable concerning the marriage Saturday of Sir Edwin Arnold, the poet and editor, to a Japanese lady show that the ceremony took place at St. Mathias Church, Earl's court, this city, in the presence of Sir Edwin's brother, Sir Arthur Arnold, chairman of the London county council, the Japanese minister and their wives. Sir Edwin and Lady Arnold will reside in Bolton Gardens, this city.

The bride was brought from Japan, and was educated in England. Her name is not mentioned.

FELL DOWN THE CELLAR STAIRS. - AT accident befell an aged lady, Mrs. Wm. Irvin, who resides near the toll gate, one mile east of Nittany, last Tuesday afternoon. While about her domestic duties she accidentally fell down the cellar steps and broke her arm at the wrist. None of the men being around the house she had to undergo the painful necessity of walking to the nearest neighbor's, who soon made know, her condition. THE CONSOLIDATED DANCE.-Next Tuesday evening the consolidated Coleville-Milesburg band will give its first dance in the armory of Co. B. in this place. Extensive preparations are being made in the way of music and comfortable arrangements and it is expected that a large crowd of people will be there.

Before the dance the consolidated band will give a parade over the principal streets of the town. The committee having the dance in charge is composed of Roy Johnson. P. F. Garbrick, Ira Proudfoot, George Rhoads and Harry Garbrick.

On Tuesday evening, between 6 and 7 o'clock, fire broke out in the large barn on the Joseph Long farm, near Jacksonville. It was occupied by George Ertly. All that was possible was done, but the fire had hope of a new capitol before the convening gained such headway as to make it impossible to save the building or much of its contents. The hay and implements were all burned and two fine horses perished in the flames. Fortunately Mr. Ertly had threshed his grain and disposed of it. He had no insurance and it is understood that Mr. Long had none on the building.

The fire is supposed to have been of accidental origin. About an hour before it was discovered Mr. Ertly was in the barn with a lantern, but he does not believe

A LITTLE GIRL WHIRLED AROUND A SHAFT.—It was only by miracle that little death on Wednesday. Wm. Miller is the little girl's father and he is employed in Confer's planing mill. She went to the mill to see him and while running about the place her dress was caught by one of the rapidly revolving shafts and quick as a an exciting game can be expected. flash she was drawn into it and held as if in a vice.

Once her little body was hurled about the shaft and then her clothing fortunately gave way and she was thrown to the floor. Aside from a bruised head and a few scratches she escaped unhurt.

-"Uncle Tom's Cabin" is as much a feature of history as any great battle, and it has outrivalled every other play and will continue to live, despite the fact that we have all seen it. It is almost a necessary part of the education of the young, and so long as it instructs and entertains it will ever be welcome. One of the best productions of the play is that to be given Thurs., Oct. 28th, at Garman's, under the management of Stowe & Co., and no monev has been saved to make it a first-class production in every respect. Uncle Tom. as portrayed by William Curry, is a finished piece of acting, and Harry Webber, as Marks, the lawyer, has no equal. Eva is skillfully handled by little Walley Webber, and although scarcely nine years old, she plays the character with the ease of a veteran. Topsy, by Florence Ockerman, is a genuine surprise and she fairly eclipses all previous efforts at the character. There is a good company of colored dancers, cake walkers and singers, and a grand cake walk is one of the features. Prices of admission 25, 35 and 50 ets.

CATTLE TRAMPLED TO DEATH. - Two signed to P. L. Beezer, the other to Wm. Lyon. In the car for Beezer there were twenty-five head and all were in good condition, but forty-two had been packed into the Lyon car and when they arrived here two were found to have been trampled to death and a third had been down and laid on its left fore leg so long as to make it quite useless. The steer had to be hauled to the pen and did not regain the use of the leg until night. The cattle brought in be fed on Col. Reynold's farms until in a condition for market.

HOWARD TOWNSHIP'S TAX COLLECTOR SUED FOR EMBEZZLEMENT .- Joseph Casselberry, a former tax collector of Howard township, was jailed here, on Monday, charged with embezzlement of funds during his term of office. On Tuesday friends came to his assistance and bailed him out. The case is a somewhat complicated one and dates back to '92 when Casselberry was appointed tax collector for the township in place of Frank Deitz, who had been elected and declined to serve. In 1893 he was reappointed and then elected in 1894. Mr. Casselberry was an old soldier, but made a hustling collector, until he got behind with his duplicates and the trouble J. W. Smith appointed. The suit was brought against his bondsmen to recover they threw it up and Casselberry was brought up here. The court gave him until Monday to find new bail, but he could young men. get none and was then put in jail until his bondsmen as a collector, John K., and S. B. Leathers, came up and bailed him out. THE ANNIVERSARY OF THE Y. M. C. A. -The anniversary services of the Bellefonte Y. M. C. A., in the Presbyterian church, last Sunday evening, proved decidedly interesting and added to the constantly growing conviction that the association work in this community is not without its fruit. President J. Wesley Gephart presided and Dr. Lawrence M. delivered the address.

> Our people were much interested in the proceedings before the court on Saturday relative to the water question. Several scores of tax-payers were in court to hear the argument for and against sustaining the injunction served on the borough authorities the Saturday evening previous, two days after active operations had been begun on the new water plant by the borough.

> Some few facts of general interest were cited before the court, which your corresnondent will give to the public. According to the testimony produced by the water company the Centre Hall water company was organized and chartered in March, 1858, the charter members being Henry Witmer, J. D. Murray, Wm. Wolf, Peter Durst, Major John Neff, and Dr. James P. Wilson.

The capital stock was \$500.00. Under this charter the company did business until September and of the present year, when the company was re-chartered under the constitution of '74, and the capital stock being the same amount \$500.00. On this point the company made a vain effort to make it appeer that the capital stock had been increased but since the books of the company, kept by secretary D. F. Luse, did not contain any evidence to this point, the statement prepar ed by said secretary was not admitted by the court. Therefore, as it stands on the books text, Matthew, 4; 17th, "What Shall I do of the company, the capital stock of the concern is \$500.00. President Kurtz testified

that the plant is worth \$15,000. Druggist J. D. Murray in his evidence said that the company had two reservoirs, one is twelve feet square, built of wood, and the other one is larger. The mains consist of six-inch pipe for a distance of six or eight rods from the reservoir and four-inch from that point to Reformed church, the other pipes being smaller.

The borough called but one witness—presi-

dent of council Deininger, who merely identified a few papers.

The borough was represented by Messrs. W. F. Reeder and Orvis, Bower & Orvis. Messrs. Furst and Hewes, the former being absent, handled the reins for the water company. The arguments on both sides were brief. Mr. Orvis presented the points for the borough, and did it in a very excellent and persuasive manner

Up to this writing judge Love has not handed down an opinion. The prime question of law to be decided is whether the old water company has the exclusive right to supply water to the borough of Centre Hall.

Mrs. A. M. Brown, who has been in Ty rone most of the summer, under the care of two physicians, is so much better that she will be brought home as soon as their house is completed. W. B. Ward has the contract and when finished it will be both comfortable and attractive. Mr. Brown has purchased part of the Pennsylvania Furnace farm and in time will build a barn where he now lives.

Harold, the six year old son of Prof. J. A. Weaver, died of kidney trouble after an illness of two weeks and was buried on the 14th in the new cemetery. He was the pet of the family and some months ago when he was sent away from home to escape the fever which had prostrated several of his sisters and brothers his absence was most keenly felt and now he has gone forever but of such are the kingdom of heaven.

Dr. Ward, of Bellefonte, with his two bright little boys were on hand at the old homestead as soon as he learned of the first day's hunt, which was ninety squirrels, three wild turkeys, three pheasants and two owls. Rev. Illingworth is the proud possessor of the largest owl ever captured in these woods. It measured fifty-two inches from tip to tip of wings and belongs to the horned family. Charles Smith captured it a short distance west of town and the Rev. Illingworth is having it mounted.

Owing to the recent sale of the Weaver farm, the disposal of farm implements and stock will take place on the 28th of Oct. Prof. Weaver is a practical farmer and has taken great interest in building up a herd for dairy purposes, Among his herd are a number of Jerseys that are of fine grade and are worthy of special mention. His machinery is mostly new and in fine condition, all of which will be offered at public sale and sold to the highest bidder. No under bidding will be permitted and everything offered must and will be sold.

Our veteran railroader J. H. Heberling. division boss on the Bald Eagle railroad with headquarters at Eagleville, was in Ferguson township last week visiting old friends. His vacation was caused by a broken arm and while we sympathize with him we are glad that he was able to get back to the old place. His brother Thomas is division boss on the section east of Eagleville, where he has located permanently, having sold his property on Tadpole to Mart Harpster. James Heberling succeeds Thomas as boss on the Fairbrook division of the Lewisburg branch.

Sam'l Eyer, of Charter Oak, Ia., is paying his Centre and Blair county friends a month's visit. Although somewhat crippled by the hardship of army and prison life yet time has dealt gently with him as he looks scarcely a day older than when he left here. From what we could learn he is heeled to the tune of a fine productive farm and six dollars per month as a compensation for his six months in Andersonville prison and a grapeshot wound in his side, which broke three ribs. He will start for home next week and his old comrades here wish him a safe arrival and many years of prosperity and if possible a return to his old camping ground here.
