N SUFFERING FROM LONG STANDING CHRONIC DISEASES, DISEASES OF THE BLOOD, SKIN AND NERVOUS SYSTEM, AS WELL AS THOSE SUFFERING FROM EYE, EAR, NOSE AND THROAT TROUBLE.

MORITZ SALM, M. D., Specialist,  
Von Graf Infirmary,  
COLUMBUS, OHIO.

—WILL BE IN—  
BELLEFONTE, PA.,  
—AT—  
THE BROCKERHOFF HOUSE,  
—SATURDAYS—  
Oct. 30, Nov. 27, Dec. 25, Jan. 22, Feb. 19, March 19, April 16, May 14, June 11, July 9, Aug. 6, Sept. 3, Oct. 1-29, Nov. 26, Dec. 24, 1898.

ONE DAY ONLY.  
EXAMINATION AND CONSULTATION FREE TO EVERYBODY.  
UNSOLICITED TESTIMONIALS

**Get an Education**  
EDUCATION and fortune go hand in hand. Get an education at the Central State Normal School, Lock Haven, Pa. First-class accommodations and low rates. State aid to students. For circulars and illustrated catalogue, address: JAMES ELDON, Ph. D., Principal, 41-47-ly State Normal School, Lock Haven, Pa.

**Farm Supplies.**  
**WE BUY AND SELL.**  
We have sold five large Clover Hullers within the last ten days; one to Millheim, one to Centre Hall, one to Oak Hill and two to Bellefonte, and by the last of the week, the remaining four Clover Seed will be booming in Centre county. We also can furnish a first class wind mill, with thirty-six riddles and sieves for cleaning farm seeds. Orders taken for riddles and sieves for other wind mills.

**Catarra and Eye Trouble Cured by Dr. Salm.**  
For more than five years I have had a very bad case of eye trouble and catarra. The eyes continually got sore and grew weaker and weaker. I always took cod. Dr. Salm cured me. I was cured. My friends are astonished, as well, and think with me that Dr. Salm has done another wonderful piece of work.

Bellefonte, Pa., Nov. 26, 1897.

**Appendicitis.**  
*What an Authority Says as to its Cause and Cure.*  
Judging from the reports as frequently made in the daily press, says an authority, it would appear that appendicitis is not only on the increase, but that it has a special predilection for prominent persons. Contrary to popular belief, however, it is no more frequent or elective in its occurrence than formerly. It is simply a new name for the very old and common trouble known as peritonitis, or inflammation of the bowels, which in the past was generally operative treatment was instituted, always ended in death.

The trouble having been traced to the ulceration or rupture of an inflamed appendix, causing the fatal peritonitis, the early removal of the diseased organ very naturally suggested the proper line of treatment. It is, perhaps, not generally known by the public that the various foreign bodies such as grape seeds, cherry pits and the concretions usually found in the appendix, are merely accidental consequences of the inflammation rather than causes of it. To such as never eat a grape without a certain misgiving it may be interesting to learn that it is a very rare circumstance to find a seed of the fruit lodged in the appendix, in fact, it is now proven that, aside from the intestinal concretions, which really form in the organ after the latter has become inflamed, among an average proportion of 3 per cent, in which foreign bodies, distinctly so called, are discovered. That these accidental or deposited substances are not absolutely necessary for the production of the disease is shown by their entire absence in a goodly number of the most severe cases. Among the latter may be mentioned a recent instance which has claimed much public attention.

The real cause of the disease is associated with the destructive tendencies of a peculiar microbe, called the colon bacillus, which always exists in the intestine, and is absolutely harmless until an inflammation or injury to the appendix gives it an opportunity for the development of malignant qualities. The microbes then multiply with great rapidity, penetrate the walls of the weakened organ, intensify the inflammation, and finally escape into the abdominal cavity by ulceration or rupture of the tube, thus producing the fatal or septic peritonitis.

**Up in the World.**  
The Greater New York, in area, population and importance is undeniably the second city in the world in size. Within the last 20 years, however, New York has developed another phase, which, through the energy and enterprise of its engineers, scientists, architects and builders, bids fair to render it in a very short time the greatest city in the world. It is growing skyward. Notwithstanding its great area it wants more room, and what space it cannot get from the earth it has to take from the air. The Empire City now has over 100 immense piles of iron and stone which soar far away into the heavens, and which are increasing in number every day. Some distinguished architect stated the other day that if the law does not interfere there is every possibility that in a short time a 50-story building will be erected. The top floor of the syndicate building in Park row will be the 29th floor. The structure will be 288 feet high. Old Trinity church, which has been looked up to by old citizens for hundreds of years as a landmark, rises to the skies 288 feet to the top of its beautiful spire. The Tribune building up to the vane is 290 feet high. The structure will be 288 feet high. The Tribune building is 294 feet, and the great St. Paul building 307 feet. Some enterprising legislators have tried the solution of limiting the heights of buildings in accordance with the width of the streets. They have not as yet succeeded, and it is quite safe to conclude that buildings here will continue to climb higher and higher if the elevator builders can keep pace with the architects. A well-known builder says that unless there is space enough on the ground floor for elevator accommodations a 30-story building cannot be erected.

**Ended His Earthly Career**  
*By Shooting Himself With a Shotgun.—The Deplorable Act of a Highly Respected Citizen of Lock Haven Who Was at One Time a Resident of This Place*  
Last Thursday afternoon E. W. Bigony, a former owner and proprietor of the Fallow house, steward of the Central State Normal school from 1877 to 1883 and a dealer in coal, flour and fuel, shot himself through the head at his home on North Fairview street in Lock Haven. He had been downstairs talking to his wife and Miss Annie Herr and seemed very much depressed. They encouraged him as best they could and advised him not to give way to his morbid fancies. Shortly afterwards he went upstairs and soon they heard a noise as though something had fallen and upon running up they found Mr. Bigony lying across his bed dead. The top of his head and brains were scattered about the room. The act was committed with a shot gun.  
In 1870 or 71 Mr. Bigony came to Bellefonte and opened the Bush house but was soon succeeded by Messrs. Wilkinson and Griest both of whom are now dead. When he went into the coal business with W. W. Rankin and until 1877 was interested in coal mines about Snow Shoe. For six years he was steward of the Lock Haven Normal and after a short stay in West Virginia embarked in the coal, fuel and flour business, in which he was engaged at the time of his death. He had been in ill health for some time and was often greatly depressed which is supposed to have been the cause of the act as he was highly esteemed and respected.

**The Way to Keep Apples.**  
After picking the apples with utmost care I put them in boxes of equal size, about six inches deep, without covers, and large enough to handle easily. I place these boxes in an open shed, and the boxes not quite full and set them in piles so as to make the second box cover the first, the third the second, and so on until the pile is as high as is convenient, and cover the last box with a board. I set these boxes a little one side or directly over each other, so as to give them a chance to breathe fresh fruit frequently, and if there is any moisture on the apples I slip the boxes so as to give a little more air; if the fruit is shriveled in the least I shut off all the air. I keep these boxes out of the cellar until there is danger of freezing, and then set them in the cellar and ventilate as before. In this way I can keep my fruit until it comes again.—E. K.

**Pine Grove Mention.**  
Four thousand bushels of apples have been shipped from this station.  
Mrs. Clara Smith and her mother, Mrs. Julia Musser, are visiting relatives in Philadelphia and Harrisburg.  
Mrs. Harpster, wife of Sam'l Harpster, is in a critical condition from a paralytic stroke which she had last Saturday.  
Milton Bricketts, a member of post-master Miller's family, is sick with pneumonia. His friend, Robt. Wilson, came over from Stone valley to lend a helping hand in the nursing.  
Newton Neidigh bought the Jonathan Musser farm, one and a half miles north of town. The deal has been on hand for some time but was only concluded recently. He will move out in April.  
Dan'l Otis Corl is nursing a broken bone in one of his arms. The accident occurred while helping to move the stone crusher. Dr. Glenn adjusted the break and the young man is thanking his stars that his injuries are no worse.  
Two weeks ago Mrs. Maggie Meek was hastily summoned to Altoona by the illness of her little grand daughter, Gladys Gulliford, who has since died of convulsions. She was two and a half years old and fairly idolized by her family.  
By the advice of her attending physician, Dr. Houser, Mrs. G. W. Keichline will be taken to a Philadelphia hospital to undergo an operation for a tumorous growth, which has caused her family great uneasiness in the last month. Her nephew George McWilliams, youngest son of G. W. McWilliams, is a sufferer with catarrh to such an extent that in all probability he will also go to a hospital at the same time.

The hunting party who went over on old Tussey after deer with fourteen dogs came out a few days ago with no deer and short several dogs. Our boys had a water haul. The Modes got one shot by Em'l Peters. The Potter's Mill's crew got one, while their neighbors the Green Briar crew got three deer. The Riley and Miller gang have two fine deer and are still out below Shutt gap. Ed Riley and Harry Miller were the fortunate hunters.  
James Keller, of Centre Hall, a boss granger and president of the Patrons Insurance company, was in town last week on his way to adjust the insurance of Andy Oliver's barn. How it took fire is not known but it is supposed a tramp who was seen prowling around was the cause. The blaze was first noticed at 2 o'clock in the morning and then the entire barn was on fire. In it at the time were 30 tons of hay a lot of oats and cloverseed, 600 bushels wheat, 4 horses, cow and calf, 16 hogs, all the poultry, together with the wagons and farming implements. A few of the feeders were saved but they were so badly scorched that it was deemed best to butcher them at once. The fire destroyed about \$3000 worth of property which was only covered with a small insurance. \$700 of it is in the Patrons Company.

The barn of David Gunsalus, three miles north of Beech Creek, was destroyed by an incendiary fire early last Thursday morning. All the contents in the way of hay and straw were consumed, together with 200 bushels of grain seventy of which were wheat "thrashed" out. The shrieking of a locomotive whistle on a freight train on the Beech Creek railroad awakened the family but it was only with great difficulty that the live stock, wagons and machines were removed to a place of safety. It was only last week that a barn on H. H. Berry's farm, in Beech Creek township, was burned under similar circumstances. The mysterious cause of both fires has created a great sensation in the vicinity. The barn was only insured in part in the Sugar Valley Insurance company.

**FIRE AT CLEARFIELD.**—The extensive planing mill of the Clearfield Lumber company situated on Fourth street, Clearfield, about two squares from the Pennsylvania depot, took fire about 8:30 last Friday evening and burned to the ground. The fire was well under headway and it was impossible to conquer it. The mill was a fine new one, expensively equipped and did a great deal of first-class work. It was built within the past six years, on the site of its predecessor which burned down then.

—Lawrence B. Fonda, of Milton, only son of the late Col. H. A. Fonda and heir to his immense fortune, died in that place on last Friday of Bright's disease. He was only 32 years old but through his connection with the First National bank the milling and commercial interests and the National Guard was widely known. A wife and one child survive. His wife was Miss McCreary, who has visited at Judge A. O. Furst's in this place several times.

—A stomach of undigested food is about as unhealthy a mass as one can well imagine.  
What can be done with it?  
It stays. It won't digest. It churns up, ferments and decays; becomes poisonous (as all putrid matter does) and causes great pain and deep-seated disorders.  
In order to change all this, take Shaker Digestive Cordial.  
It stops fermentation and decay at once, so that no more poisons are created.  
It clears the stomach of poisons already there. It helps it to turn the food that remains into healthful nourishment. It strengthens the stomach for the next meal.  
Here is the whole philosophy and cure of indigestion in a few words. And what's more, it's all true. Try it.  
Shaker Digestive Cordial is for sale by druggists, price 10 cents to \$1.00 a bottle.

—Rev. Dr. Swallow, who polled such a surprisingly big vote in Pennsylvania, had a campaign button which was a mystery to all save those who knew the family history of the preacher and his wife. Mrs. Swallow was a Robin before marriage and the button contained a picture of two birds flying side by side.  
—W. D. Cornish, the Commissioner in Chancery who superintended the sale of the Union Pacific a few days ago, was engaged in the work about ten minutes and received therefore the sum of \$100,000

**Subscribe to the WATCHMAN.**

**HOUSEHOLD GODS.**—The ancient Greeks believed that the Penates were the gods who attended to the welfare and prosperity of the family. They were worshipped as household gods in every home. The household god of to-day is Dr. King's New Discovery. For consumption, coughs, colds and for all affections of Throat, Chest and Lungs it is invaluable. It has been tried for a quarter of a century and guaranteed to cure, or money returned. No household should be without this good angel. It is pleasant to take and a safe and a sure remedy for old and young. Free trial bottles at F. Potts Green's drug store. Regular size 50c and \$1.00.

—Mrs. Allison, who lives near Hope-dale, Ohio, furnishes an example of profit in sheep raising. In the fall of 1895 she bought 53 lambs at \$1 each. She has sold two clips of wool from them for \$276.90. She has raised thirty lambs worth \$3 a head, and as the sheep are \$6 a head, if she would sell, she would realize on sheep, wool and lambs \$631, on an original investment of \$53.

—More curative power is contained in a bottle of Hood's Sarsaparilla than in any other similar preparation. It costs the proprietor and manufacturer more. It costs the jobber more and it is worth more to the consumer. It has a record of cures unknown to any other preparation. It is the One True Blood Purifier.  
Hood's Pills are family cathartic and liver medicine. Gentle, reliable, sure.

**Medical.**  
**RINGING NOISES**  
ROARING, BUZZING, SNAPPING LIKE THE REPORT OF A PISTOL—THESE ARE THE SYMPTOMS OF CATARRH.  
Catarrh in the head is an exceedingly disagreeable and very common disease. It is also serious in its effects, as it causes loss of smell and hearing, headaches, loss of appetite and often leads to consumption. The victim of catarrh is troubled with constant dripping in the throat, discharges from the nose, constant hawking and spitting, pain over and between the eyes. The tendency of catarrh is to reduce the whole system to a condition of weakness and debility. The WONDROUS SUCCESS OF HOOD'S Sarsaparilla in curing catarrh is due to its power to purify the blood. By eradicating all scrofulous taints it removes the cause of catarrh and all the disagreeable symptoms of the disease soon disappear. The cures by Hood's Sarsaparilla are prompt, positive, and permanent. Hood's Sarsaparilla cures when all other remedies fail.  
"I was a great sufferer from catarrh. I began taking Hood's Sarsaparilla and after taking three bottles I was relieved and since then I have not been troubled with catarrh any to speak of. I also had neuralgia. Hood's Sarsaparilla has relieved this. My headache is all gone." Mrs. JOSEPHINE HONAN, Phillips, Pa.

**HOOD'S SARSAPARILLA**  
Is the best—in fact the One True Blood Purifier. All druggists. \$1, 50c and 25c. Get only Hood's.  
Hood's Pills are the only pills to take with Hood's Sarsaparilla. Gentle, reliable, sure.

**FOR INFANTS AND CHILDREN.**
