A VERY SAD DEATH .- Death at any time has a degree of sadness in it, but the fullest measure of sorrow is felt when a young and attractive mother is taken from them that love her. Frank Kern and Agnes Rapp were both employed at the Bellefonte steam laundry for several years. Their constant companionship there resulted in their marriage on the 14th of last July. THE PENNSYLVANIA COMPANY TAK-THE STATION .- For a long time the passenger station of the Pennsylvania railroad company at this place has been made a rendezvous for a gang of loafers. Their presence has been objectionable and annoying to the employees of the company as well as a nuisance to the community. When the weather is unpleasant the gang assembles inside. On nice days they hang about the platform and baggage trucks and come that half of their nights are spent there and most every Sunday they gather about the favorite haunt to swear and make themselves generally obnoxious.

The high pitched voices of bad girls are often times heard mingling with the foul guffaws of besotted boys and men. The attention of the local authorities has been called to it without avail, but the Pennsylvania company intends taking the matter in hand and wholesale arrests may be look-

THE STORY OF A CONSTABLE AND A ING MEASURES TO STOP LOAFING ABOUT GOAT.—Here's a good one on constable. John Dunlop, of the North ward. On last Saturday, armed with a landlord's warrant, he went to the residence of a certain poor tenant and levied on all his goods and chattels for the payment of rent long overdue and, after posting a bill of sale on the premises, retired in good order; leaving the said goods and chattels in the possession of said victim.

The poor tenant, believing that it was "cheaper to move than pay rent," quietly slipped away, while John was wrapped in the arms of Morpheus, taking with him everything except a Billy-goat which he tied to a plum tree in the constable's yard. When John discovered the goat the next morning, and saw how he had eaten the bark off his valuable green gauge he was mad. He at once went to the residence of his victim and when he discovered that he, with all his goods and chattels, had evaporated during the night he was madder still. To cap the climax, on Tuesday night It is absolutely necessary that something of this week, some one, not having the total of the law in his mind, stole the goat. And is done and on Monday the company's special officer, James Watchman, was here exercises in his family for one week in order to give his mind a chance to regain
