From the Klondike.

Letter from J. H. Myers Giving Interesting Data As to Out-Put and Taxes of the Gold Region. Its Health, Chances, Etc.

Mr. J. H. Myers formerly of Bellefonte and well known to many of the readers of and should be added—\$30,000. the WATCHMAN, whose interesting letters from the Klondike we have given from time to time, is back at his home in in search of gold, he and his son, Dr. where people can enjoy some comforts, as facts which are not generally known, and which knock the romance of gold seeking

In reply to your queries I will say that I was one of about 3,000 persons who, via the laborious and perilous summit trails, lakes and the upper Yukon river, arrived at Dawson City last fall. I spent the year in Dawson and the adjacent mining districts, putting down two holes on a bonanza gulch, in weather 60 below, with unfavorable results.

Favorable to the Klondike region it may be said that it is comparatively a good gold country. We were agreeably disappointed in finding the climate, although intensely cold, to be evenly tempered, entirely free from the sudden changes and storms we experience at home. There are no pre-ceptible winds until March. During the entire winter there were only three falls of snowflakes, neither reaching two inches in depth. There is, however, generally a continual, almost imperceptible, frozen mist in the air, which accumulates to a riboo and bear are sometimes found by the Indians who furnish a slight supply of wild meats, in season, to the miners at one dollar and upwards per pound. Fish are found in the rivers but are not abundant. Timber is fairly dense in a few sections and consists mainly of a twisted grain spruce, generally tall trees, from six to ten inches in diameter. Some small birch, poplar and cotton wood is found. The water is healthful, cold and refreshing-

The people are law-abiding and well disposed, although stealing is more prevalent than usual in the new mining camps. The military police are regarded as a useless and harmless appendage. The administra-tive officials, so far as my personal knowl-edge extends, are gentlemen and of pleasant demeanor, but the laws they administer are almost universally condemned as being tyranically obnoxious. It is truly claimed that in the Klondike or any other gold seeking region, that not more than one of each hundred are fortunate. The ninety-nine unfortunate men expend equally as much money and endure greater hardships and drudgery, yet all are overburdened with exorbitant legal fees and extortion. The miners correctly allege that over \$5 is expended by all for every dollar for your economy and we will be content with the benefit you give the country by the enterprise and labor you create in the sale of provision, the increase in railroad and steamship travel, etc.

8,000 men which was then increased to 11,-000. This spring this was augmented by over 12,000 new comers over the upper routes. Fully 1,000 are now going via St. Michaels steamers. The above 24,000 will be reduced fully 3,000 by deaths, those leaving for home and the great number who, disgusted with the governmental ex-tortions, have gone down the Yukon river to the American mines. Many allege with emphasis that these extortions are due to the fact that 95 per cent. of the miners are Americans and that the object is to fleece the United States to feather the Canadian treasury. Undoubtedly such is the result. First, every person is compelled to pay a tariff tax on their personal supplies of food and even on their clothing in actual use, of

on arrival, before he can legally cut wood to cook his supper, before he can engage to turn a windlass, fish or hunt or get information from the officials to pay a so-called free miner's license" of \$11.15, aggregat-

ng \$266.600. Next, practice shows that at least 18,-000 will have staked during this year an erage of three claims each on good and wildcat" checks combined, on which a cording fee of \$16 each is paid. Thus acting an aggregate of \$864,000.

Before the expiration of each year a re-ewal of \$15 is paid on each of these claims. Intil recently this fee was \$100 each and least 8,000 claims were renewed on that sis, making \$800,000. Add to this the present renewal fee of \$15 each on 25,000 (of the remaining 46,000 claims) making 375,000 additional, thus aggregating \$1,-175,000.

Another grasping feature is that alternate claims are reserved to the crown in order that they may be made valuable for government sale through the labor and ex-pense forced upon the adjoining miners in rospecting or representing their claims at an average cost of \$900 each. As the average cash benefit on the future sale of these crown claims is greater than this, it is just to say the cash received by the government from this source will aggregate more than

A royalty of 10 per cent. of the gross output of each mine is charged on all claims yielding over \$2,500, whether worked singly or by ten or twelve lessees. It is estimated that about \$7,000,000 will be produced this year in the Canadian Yukon stricts. About \$4,000,000 of this will be subject to the royalty, thus yielding to the reach the liberal estimate of several milernment \$400,000.

The above items alone show an aggregate

extortion of one year of \$4,495,600. Besides the above more has been collected for recording fees (of papers) for wood Rochester, N. Y. After spending a year rights, saloon licenses, arbitrary fines and extractions for petty privileges, that is Oscar Myers, have returned, fully contive expenses, including that of the forty vinced that the chances of making a for- unmounted police, as well as for the infretune are just as good in this country, quent mail service, in all of which the most sparing economy is practiced. For in the Yukon region with its hardships, example during the past year a small rough board shanty, 15x18 feet, was the recorded, all contests tried, etc. Never were more than from three to ten persons in the far North, all to smithereens. He admitted at one time, while we have noadmitted at one time, while we have noticed frequently from forty to eighty min-Green's drug store. Regular size 50c and ers awaiting their turn for entrance outside the door, shivering and suffering, with the mercury sixty below, huddling their faces in each others overcoats like so many animals in a barn yard; and that too at a subject to the whims of the arbitrary door an' sich truck."

attendant. Much sickness, principally scurvy, prevails. This is not so much due to the climate, as to the overwhelming distance from civilization, making it impossible to have vegetable food, containing the potash salts, so needful to keep the blood health-

Besides, the life of the Yukon miner is terribly hard. Exposure and constant undepth of from three to five feet. There is very little animal life in the region. Practically no game is found except in sections forty or more miles remote from the inhabited districts, where moose, carriboo and hear are sometimes found by the section of the inhabited districts, where moose, carriboo and hear are sometimes found by the section of the sect mining, all must be "packed" on his back and often for long distances. Those who are able to own dogs, costing there from \$150 to \$250 each, find slight relief in winter, alone, when sleds can be used on the ice and snow covered trails. Otherwise swamps and bogs on mountains and in valleys must be struggled through with heavy packs. Many are broken down in health and not a few succumb entirely and find ice bound, unmarked graves. I could not advise any persons to venture into any Alaska mining country, and none should venture, but young and hardy men, having ample capital to provide for a year's supply of food, and besides for expenses in transit both in and out of the country, for it is undeniable that not one out of a hundred make sufficient to carry them home. Thousands of men who have spent a year or more, diligently in the Klondike region, have eaten their substance, are now unable to find work to earn homeward expenses and while all are homesick many lie sick in their cabins and in the hospitals at Dawson. It is a most deplorable situation when several thousand miles from home, deprived of communication to seek relief

There is but one story and true belief taken out by the few who succeed, in any gold region. Therefore they contend that if the Canadian government were to emission to the canadian government were to emission. ploy men by the day to unlock and secure | inal for us to lend our voices to aid the this earth and ice bound gold at a cost of five to one, the taxpayers would hurl them from power. The United States and other which are bolstered up by the press of two countries recognize the gross injustice of or three of our cities which profit by supplyextorting money for what they could never | ing outfits to the unfortunate dupes, like practically own and they substantially say to their people, if you are wiling to risk your money and health, and undergo the drudgery, we will give you liberal, free grants, impose no taxes whatever; make unfortunates. Only the large gold sacks of the few rich paying mines together with a wisit to the Trans-Mississippi and International exposition, Omaha) will be sold June 19th and 20th, account of National Eclectic Medical Association meeting; and will be sold June 21st and unfortunates. Only the large gold sacks your own local laws as you know best how of the few rich paying mines together with athy, all with favorable return limits. For rates the aggregate product of the very many producing, but non-paying small mines, are extolled. All of the latter and much of the former is not newly acquired wealth, but is simply the transformation of the On our arrival last fall we found an estimated population in the Klondike region of example, I might have in self laudation added my little gold sack to the general list on the arrival of our ocean steamer and failed to say that I had expended in the Alaskan region, in currency, nearly double the amount its procurement, but it would have been acting a lie and help to injure and deceive my fellowmen.

from friends.

commercial trading monopolies were selecting passengers for their down river steamers and delaying them, with the design of showing the largest possible output of gold. The first steamer to leave and reach Dawson was the small independent steamer May West, and was the first to arrive at St. Michaels on June 26th, with 82 of us on board.

We remained at St. Michaels sixan average of \$20 each, aggregating on this year's arrivals of 16,000 persons, \$320,000.

Next, every one of the 24,000 is required

Next, every one of the 24,000 is required

The second of the seco to Capt. J. B. Crocker of Franklin, Mass., and others who were in charge of the keep-ing and handling of the entire treasure boxes on the company's boats for authentic information, which they received from the shippers. A few of the highest reliable estimates are included in the following, viz: Gold dust was brought down on the North American Trading Co's steamer Weare five 800 pound boxes, being 4,000 pounds, or \$964,680, being part of the government taxes shipped by the Canadian government Bank of Commerce, just opened in Dawson. Also one box of 1,200 pounds, being \$289,404 consigned by the N. A. T. Co. Also in phase of the N. A. T. Co. in charge of her passengers eighty pounds, or \$19,293. Next on the same company's steamer Hamilton was 650 pounds or \$156,760. The above total of \$1,-430,137 was transferred to their ocean steamship Roanoke. Next the Northern Alaska Commercial Co's steamer Bella brought down that company's consignment of \$593,878 and \$400,000 by her passengers. This total of \$994,878 was shipped

out on their ocean steamship St. Paul. The two independent river steamers May West and the Seattle No. 1 brought down respectively \$80,000 and \$85,000. This total of \$165,000 was brought out on the ocean steamship Lakme, the Garonne and

the Nelson. The foregoing shows a total aggregate of \$1,589,015 brought down on the first trip of the river steamers, and \$964,680 of it, being over three-fifths of the entire spring shipment, is part of the government extractions from the struggling miners. A portion of this year's production is to come out yet, but it does not seem possible to lions. I have conversed with many of

Recently the government leased the nar- those coming out on each of the five boats, the government leased the narrow water front opposite the front street in Dawson to two speculators for one year at \$30,000. They inturn imposed an average yearly ground rental of \$1,200 on each of the small shopkeepers and barbers who had hitherto peacefully occupied it. The next day prices were increased and the barbers and the barbers who had hitherto peacefully occupied it. The next day prices were increased and the barbers and barbers who had hitherto peacefully occupied it. The next day prices were increased and the barbers and barbers who had hitherto peacefully occupied it. The next day prices were increased and the barbers and barbers who had hitherto peacefully occupied it. The next day prices were increased and the barbers and barbers who had hitherto peacefully occupied it. The next day prices were increased and the barbers with hald the facts rather then to contain the sace of the five boats, at St. Michaels, and all agree that over 90 per cent. come out in poverty of health and pocket, barely able to reach their homes. We give you this detail, not so much as a matter of interest as a public duty, and certainly every true lover of humanity, and of the United States should not withhald the facts rather them. increased the cost of one shave from 50 | not withhold the facts, rather than to concents to \$1, thus each drudging miner has fess his own mistake, and thus mislead to pay an indirect government extortion of others into the folly which has wrecked so cents on each shave. Of course this many men, and is draining the United Yours respectfully

J. H. MYERS

DISCOVERED BY A WOMAN.-Another great discovery has been made, and that too, by a lady in this country "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were underminded and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for Consump-tion, and was so much relieved on taking suffering and danger. In a letter to the Rochester Union, Mr. Myers gives many commissioners office. Here all mining first dose, that she slept all night; and claims were issued and recorded, all papers with two bottles, has been absolutely cured. Her name is Mrs. Luther Lutz. Thus writes W. C. Hamnick & Co., of Shel-

> —A good story is related at the expense of "Bob" Ingersoll. The colone was recently talking with an old colored time when the officials in this shanty were woman in Washington concerning religious collecting from these victims over two thousand dollars daily in claim recording fees alone. No practical system of entrance dust?" "To you really believe, aunty," said he, "that people are made out of dust?" "Yes, sah! The Bible says dey is, was provided and the human beings had to and so I b'lieves it." "But what is done simply remain outside the door often for two or three days, and take their chances mud?" "Den I s'pects dey make infidels

> > THE WISER WAY .- "How fresh and rosy you look, Nora," exclaimed Isabel, who had just returned from the beach, and was greeting her friend.
> > "Yes, dear," replied Nora, "I am feel-

> > ing spendidly, and mamma says I have an alarming appetite." "Where in the world have you been since I saw you?"

"I have remained at home," replied Nora," and have worked hard every day But I have been taking that wonderful medicine, Hood's Sarsaparilla, and it has done me, oh, so much good. You see I always like to feel well when I go away, and

## Buggies, Wagons, Etc.

PARMERS BREAK THE BUGGY MONOPOLY.

It is claimed that for years buggy manufacturers have secured exorbitant prices for their goods but recently, through the combined assistance of the farmers of Iowa, Illinois and other states Sears, Roebuck & Co., of Chicago, have got the price of open buggies down to \$16.50; Top Buggies, \$22.79; Top Surries, \$43.75 and upwards, and they are shipping them in immense numbers direct to farmers in every state. They send an immense Buggy Catalogue free, postpaid, to any one who asks for it. This certainly is a big victory for the farmer, but a severe blow to the carriage manufacturers and dealers.
