Last Sunday afternoon Rev. Hepler preached an excellent sermon on the duty of christian citizenship. He plainly pointed out the many evils the better class of citizens allowed by their indifference and neglect to township, municipal and national affairs and called attention to the fact that they alone could bring about true reform if they were so disposed.

Mrs. Monery, wife of Jared Monery, goes to Philadelphia the latter part of this week for medical treatment.

Hogs are very plenty through this section. Several cars of choice hogs could be gathered up on short notice.

J. W. Wolf and daughter Emma, Gross Mingle and John VanPelt and Mrs. F. O. Bairfoot attended the peace jubilee at Philadelphia.

The Democratic rally will be attended largely by the Democrats from this place. All are anxious to see the future Governor of Pennsylvania.

The apple evaporator is running to its fullest capacity. Many thousand bushels have gone through the process, and a small mountain of apples are lying at the door ready.

Thos. Bartges, the photographer, is doing excellent work. His outside views are superior to any exhibited in town for many years. He also exercises good judgment in position.

Michael Decker is the champion corn raiser in this section. He has a field of sixteen acres that will yield an average of 140 or 145 bushels per acre. The corn is of excellent quality. This, is not much above Mr. Decker's usual yield.

Thomas Sankey, of Freeport, Illinois, is here on a visit. He is a Porto Rica hero, and has many interesting incidents to relate that occurred on the island. Mr. Sankey a few years ago was employed by Messrs. Wolf & Crawford. He will return to Illinois in a short time and expects to be mustered out of service.

It is due the citizens of Centre Hall to correct the impression given out that the borough is hopelessly in debt for a water plant that does not supply its citizens with water. That impression is false; the false impression is studiously circulated; that studiously circulated false impression is malicious; that maliciously false studiously circulated impression is not shared in by any citizen except those who have a controlling interest in the old water plant and have been shorn of their excessive profits.

Listen to an impartial statement of the facts as they exist:

Bonded indebtedness for all purposes	$7,500.00
Annual interest at 5 per cent.....	375.00
Amount of tax collected by old water company annually.....	1,000.00
Amount represented by the tax collected by the old water company at a rate of 5 per cent.....	20,000,00

Look the facts in the face: The citizens have been paying a private corporation a tax of $1,000 yearly for water exclusively, furnished by a plant upon which the town authorities placed a value of $2,500, and which was offered the town in an indirect manner for less than $5,000! The difference between the interest on the bonded indebtedness which is $375 and the sum $1000 paid by the citizens to the old water company is $625 and represents the annual saving to the citizens. There is good foundation for believing that water rents are collected in excess of $1,000, but to be on the safe side that figure is adopted.

So far as cost goes the above covers the ground, with three exceptions to be added:

First—The tax rate was raised every year.

Second—There was no just equalization of the tax.

Third—The water tax for the present year, beginning April 1st, in some instances is a sum equal to and in some cases above all the taxes—borough, interest, school, poor, county and state—levied against the property and individual occupying the same! This is an absolute truth.

Another misrepresentation to be corrected is the statement that the new water plant erected by the borough does not supply the citizens with water. This is false from two distinct standpoints:

First—The borough authorities did not issue any declaration saying that the water plant was ready to supply the town with water. All who discarded the old water company for the new did so at their own risk, and they are happy to-day that they made the change.

Second—The town has practically been supplied with water from the new plant since the first attachments were made. The service from the beginning was better than anticipated, and supplied immediately nine-tenths of the town's population. At present the service is all that could be desired, and the new plant furnishes "an abundant supply of pure water for domestic and mechanical purposes."

Why a persistent effort is made to discredit and belittle the citizens of this town by circulating maliciously false statements is a query, except it be caused by the author being too much imbued with the spirit of the king of whose country we have no map or description save the depth and temperature.

The farm stock and implements of F. M. Burkholder, deceased, of Centre Hill, were sold at public sale Tuesday. The sale amounted to over $1,700. Cattle sold very high, the Jersey cows taking the highest bids. Young cattle went away up.
