The Watchman for \$1.00 to January 1st, 1900

A business proposition requires us to add 1,000 new names to the subscription list of the WATCHMAN by the 1st of Feb. next. It is of such a character as will permit of special inducements being offered. Ordinarily the paper could not be furnished at the price we propose offering it at until that date, but the proposition is such that we can save in another way all that may be lost in sending out the paper at less than its actual cost, and we purpose giving those who that a Queensland trading cutter, the Sca Ghost, help us in this matter the advantage. tives, was boarded by the treacherous natives of

From this issue until the first day of Feburary, 1899, new subscriptions will be taken at \$1.00-which will pay in full to Jan. 1st, 1900, -making the price less than one dollar per year for those who subscribe prior to January next.

These payments must be made invariably in advance. Present subscribers can have the benefit of this great reduction by settling all arrearages, either by cash or note, and paying the \$1.00 in advance.

At the end of the time for which these subscriptions pay, the paper will be discontinued, except to those who order its may not be much to boast that we have continuance.

Spain Has Accepted. Has Agreed to the Offer of \$20,000,000 by Uncle Sam. The Beginning of the End-Will Relinquish Cuba, Cede Porto Rico, Guam and Philippines .---Made Many Propositions—Peace Conditions on

Wednesday PARIS, November 28.-Spain has accept-

ed the United States offer of \$20,000,000, and at a joint session of the peace commissions this afternoon, consented without condition to relinquish Cuba and to cede Porto Rico, Guam and the Philippine islands. The document presenting this acceptance contained only 300 words. It pened with a reference to the final terms of the United States and said that the Spannizance of the terms proposed by the Americans, replied that their government

had tried to give as equitable an answer as to commit their government to the accept-American argument. Spain rejects these principles, the note continues, "as she always has rejected them."

Basing her attitude upon the justice of her cause, the note then says she still adheres to those principles "which she has heretofore invariably formulated." How ever, the note adds, in her desire for peace she has gone so far as to propose certain compromises, which the Americans have al ways rejected. She has also attempted, it is further asserted, to have submitted to arbitration some of the material points upon which the two governments differed. These proposals for arbitration, it is added.

The reading and the translation of the document occupied less than five minutes. At the conclusion of the translations the commissioners empowered Senor Ojeda, secretary of the Spanish commission, and Secretary Moore, of the American commission, to draw up articles which are to embody the relinquishment of Cuba by Spain and the cession of Porto Rico and the Philippines. These articles, which may be EASTON, Pa., November 27.-The storm | considered as constituting the conditions of peace, will be ready for submission on Wednesday.

Senor Montero Rios, the President of the Spanish commission, has usually preceded the presentation of a Spanish communication in writing by verbally summarizing it, but to-day Senor Rios was silent and un-usually grave. His face was deeper lined and he clearly showed the mental strain under which he was laboring as he approached the final relinquishment of Spain's

olonial possessions. Without a word Senor Montero Rios proluced two typewritten sheets and passed them to the interpreter of the United States commission, Mr. Ferguson, who read them substantially as cabled, the outline of the

For a hundred years the American people have been trying to civilize the Indians of this country and the few that have escaped our civilizing process, and still live, bear witness of the dismal failure we have made of our work on them.

With these facts staring us in the face, it will not be wondered that the opponents of the expansion policy ask in all earnestness what new civilizing process the advocates of this doctrice propose to apply, to the half savage tribes of the Philippines, that will fit them for self government and an appreciation of the higher and better condition's that surround us?

The Steamer Portland Goes Down in the Blizzard.

Boston, Nov. 29.-The steamer Portland vas wrecked in the blizzard Sunday off Highland Light. The entire crew and all the passengers perished. Thirty-four bodies have been recovered.

About 120 Persons Lost.

PROVINCETOWN, Mass., Nov. 30.-The exact number of persons who were carried away from Boston by the Portland will probably never be known, as two lists of passengers were retained on shore when the vessel left last Saturday. Many estimates of the number on board have been made. but the estimates have seldom agreed. C. F. Williams, Boston, agent of the Portland steamship company, places the total number of persons on the steamer at 100, or possible 105. This estimate, however, is the Spaniards held by Aguinaldo. generally regarded as rather small. It has been stated that the number was as high as 155, but Mr. Williams denies that so many sailed on the Portland. It is probable that tlements. Daily sessions will 120, including passengers and crew, is near the correct number.

Nearly every captain and mariner on the cape, on being asked an opinion, states that everyone on board was lost. One feature of the disaster is the absence of a lifeboat or life raft among the varied mass of wreckage of the Portland, which has been washed ashore during the last three days along the beech from High Head station to Chatham. Up to a late hour today no one had reported finding any of the Portland's boats.
